TO THE BOARD OF DIRECTORS OF THE INTERNATIONAL FRATERNITY OF DELTA SIGMA PI

We, the undersigned members of Chi Upsilon colony hereby petition for a charter to establish a chapter of the International Fraternity of Delta Sigma Pi on the Campus of Iowa State University at Ames, Iowa.

The colony of Chi Upsilon was formed exclusively for the purpose of affiliation with Delta Sigma Pi Professional Fraternity. The present aims, purposes, and requirements reflected in our Bylaws were patterned after and are commensurate with the same high ideals of Delta Sigma Pi. In pursuit of this affiliation, the members of Chi Upsilon pledge to uphold the rules and regulations as set forth in the Constitution and Bylaws of the International Fraternity of Delta Sigma Pi, and further to carry out its traditions and programs.

INTERNATIONAL FRATERNITY OF DELTA SIGMA PI

October 9, 1950

Chi Upsilon colony of
Delta Sigma Pi
Iowa State University
Ames, IA 50010

Dear Chi Upsilon,

LETTERS OF RECOMMENDATION

I have no doubts that they are worthy to become a chartered chapter of Delta Sigma Pi.

In the past year and a half they have succeeded in developing a strong recruiting program resulting in thirty-three members. Chi Upsilon has made itself known with the students as well as the faculty of Iowa State University. The College of Business is very active and evolved to give such a dedicated group of business students working together.

I highly recommend that the colony of Chi Upsilon become a chapter of the International Fraternity of Delta Sigma Pi. The brotherhood and sisterhood that has brought them this far will become a strong foundation for a chapter of Delta Sigma Pi.

I believe that the pride and enthusiasm of the members of Chi Upsilon is the kind that is expected from the Fraternity of Delta Sigma Pi. The Fraternity should be very honored to accept their petition into the International Fraternity of Delta Sigma Pi.

Fraternally Yours,

Melba Klein
Chi Upsilon District Director

Chi Upsilon Colony of
Delta Sigma Pi
Iowa State University
Ames, IA 50010

Dear Chi Upsilon,

As District Director of the Chi Upsilon Colony of Delta Sigma Pi, I am very proud to write this letter of recommendation. Chi Upsilon has proved beyond a doubt that they are worthy to become a chartered chapter of Delta Sigma Pi.

In the past year and a half they have succeeded in developing a strong recruiting program resulting in thirty-three members. Chi Upsilon has made itself known with the students as well as the faculty of Iowa State University. The College of Business is very eager and excited to have such a dedicated group of business students working together.

I highly recommend that the colony of Chi Upsilon become a chapter of the International Fraternity of Delta Sigma Pi. The brotherhood and teamwork that has brought them this far will become a strong foundation for a chapter of Delta Sigma Pi.

I believe that the pride and enthusiasm of the members of Chi Upsilon is the kind that is expected from the Fraternity of Delta Sigma Pi. The Fraternity should be very honored to accept their petition into the International Fraternity of Delta Sigma Pi.

Fraternally Yours,

NolaKay Kelm

INTERNATIONAL FRATERNITY OF DELTA SIGMA PI

November 1, 1992

Members of the Board of Directors
330 South Campus Avenue
Oxford, OH 45056-0230

Before you comes the petition of Chi Upsilon Colony of Delta Sigma Pi. Since the beginning informational meetings put on by Bill Honan to the current time, it has been the goal of this group to become a chapter of Delta Sigma Pi. Wendy Harden a transfer student from the Alpha Iota Chapter was of great help to the new colony.

As the group began running like an existing chapter with officers, committees, speakers, recruiting and other projects, this allowed the colony to attract additional members. Guidance from Nolakay Kelm added to the polish of this successful colony. Also developing is the faculty and community support.

It is without a doubt that the group will continue to grow and prosper in the future. It is with great adoration I support the addition of the colony to the brotherhood of Delta Sigma Pi.

Fraternally yours,

Mark Dorn
North Central Regional Director

2505 Jensen Ave.
Apt. 435
Ames, IA 50010

Brothers of the Board of Directors
The Central Office of Delta Sigma Pi
330 South Campus Ave.
Oxford, OH 45056-0230

Dear Brothers of the Board of Directors,

I am very proud to be associated with the expansion efforts of the Chi Upsilon at Iowa State University. It gives me great pleasure to be given the opportunity to write this letter of recommendation.

I am sure the future efforts of this colony will continue the great tradition of the fraternity by providing students with the necessary tools for success in the business world. Based on the colony's efforts, I am convinced that they will be a viable organization which meets the needs of the business students and university, as well as, meeting the objectives of the fraternity. I also predict the continuing noble tradition of brotherhood among its members.

Based on the colony's great efforts, it is my pleasure to recommend to the Board of Directors the installation of Chi Upsilon into the International Fraternity of Delta Sigma Pi.

With Fraternal Regards,

Brother William E. Honan
District Director

International Fraternity of Delta Sigma Pi
P.O. Box 230
Oxford, Ohio 45056-0230

Dear Board of Directors:

The Chi Upsilon Colony of Delta Sigma Pi is currently working towards obtaining their charter to become a new chapter of Delta Sigma Pi.

The members of the colony are very excited about the possibility of becoming the newest members of such a great organization as Delta Sigma Pi. The colony has proved to be a worthwhile asset to the campus of Iowa State University and would be a tremendous asset to the International Fraternity of Delta Sigma Pi.

The individuals involved in this colony have shown a great deal of professionalism and brotherhood at various activities throughout the past year. These members have certainly shown their desire to be a chapter and I fully support their decision and encourage you to approve their charter.

Fraternally and Respectfully,

A handwritten signature in black ink that reads "Steven M. Berg". The signature is written in a cursive style with a long, sweeping tail on the letter "g".

Steven M. Berg
District Director

DELTA SIGMA PI

June 26, 1992

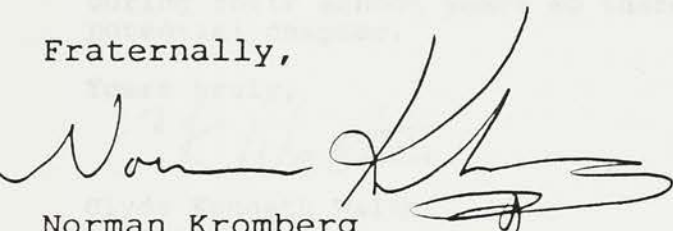

Amanda Griest, President
Chi Upsilon of Delta Sigma Pi
300 Carver Hall
Ames, Iowa 50011

Dear Ms. Griest:

I take great pride in recommending the Chi Upsilon Colony become a chapter of Delta Sigma Pi. We started looking at Iowa State when I was the North Central Regional Director. As we progressed with this effort, I was impressed with the quality and motivation of the students attending Iowa State. Since forming, people from Chi Upsilon have hosted a Regional Kickoff meeting, attended the Regional Basketball Tournament in Iowa City and participated in the Officer Training School in Kansas City. During these events, I have seen the individuals mature into a strong group. This group always demonstrates teamwork, motivation and desire to accomplish their goals, which is needed to be a strong chapter.

Again, I extended my support for the Chi Upsilon Colony by recommending they be chartered as a chapter of Delta Sigma Pi.

Fraternally,

Norman Kromberg
District Director and Golden Council.

June 12, 1992

Board of Directors
International Fraternity of Delta Sigma Pi
330 South Campus Avenue
Oxford, Ohio 45056-0230

Dear Board Members:

I would like to support the request by the Chi Upsilon colony to become a chartered chapter of Delta Sigma Pi. The students of the College of Business at Iowa State University will benefit from the opportunities afforded by an organization that will support professionalism among business students but without the restrictions of the special interest groups or the grade-point requirements of the business honorary.

The students who have started the Chi Upsilon colony have done a credible job in establishing the presence of Delta Sigma Pi on campus. I recently attended an informal reception at which they explained the organization to faculty members. Several of the faculty had been initiated during their school years so there is a ready-made support group for the potential chapter.

Yours truly,

Clyde Kenneth Walter
Associate Professor
(Member, Alpha Delta
Chapter, University of
Nebraska, 1980)

Sincerely,

Kenneth C. Walter

Board of Directors
Delta Sigma Pi

Dear Sir/Madam:

I am very pleased to write this letter of support toward the objective of obtaining a charter for the Chi Epsilon colony of Delta Sigma Pi here at Iowa State University. The students and faculty here are outstanding and there is no doubt an excellent chapter will be developed in a short time.

Previous to my accepting a position here at Iowa State, I was involved with the chapters at both the universities of South Dakota and Nebraska-Lincoln. At my arrival here, Iowa State also had a fine small program in business, with significant potential for greater accomplishments in teaching, research, and service. The primary reasons for the lack of business fraternities was a shortage of Ph.D qualified faculty and that the business program was administratively located within the college of liberal arts. Over the past twenty years this has all been remedied, with a separate College of Business fully accredited by the American Assembly of Collegiate Schools of Business (AACSB), and formally identified majors and an MBA program. In the interim, many more qualified faculty were hired and student interest groups were organized by majors, with active clubs in all majors.

The enthusiasm of young, strong faculty and a student body that compares favorably with many institutions should insure the longterm success of a Delta Sigma Pi chapter here at Iowa State University. I feel strongly that the students here deserve the advantages of national affiliation.

Sincerely,

Kenneth O. Elvik
Professor of Accounting

Board of Directors
Delta Sigma Pi

Dear Sir/Madam:

As faculty advisor to the Chi Upsilon Colony of Delta Sigma Pi, I would like to take this opportunity to recommend our Iowa State Chapter for national affiliation. While I have been the colony's advisor for only a short period of time, I have considerable experience with campus organizations -- serving as advisor to two other groups in the past several years. With this experience, I believe I can identify an organization with significant potential. I am confident that the Iowa State colony of Delta Sigma Pi is one of these organizations.

Since becoming advisor, I have had the opportunity to meet and work with a number of the colony's officers. I have been very impressed with their enthusiasm and dedication. The drive for membership, organization of activities and selection of outside speakers for periodic meetings demonstrates a keen sense of leadership and commitment. Hence, I believe the Iowa State Chapter of Delta Sigma Pi would make a significant contribution to the national organization.

If I can provide anything further, please feel free to contact me.

Sincerely,

Richard B. Carter
Associate Professor of Finance

Board of Directors
Delta Sigma Pi

Dear Sir/Madam,

It has been my pleasure to act as the 1991-1992 faculty advisor for the Chi Upsilon colony of Delta Sigma Pi at this university. The officers have been very active in organizing outside speakers and coordinating interaction between the members and faculty. The colony has recently become a business fraternity on this campus.

The university has a very strong tradition of excellence in teaching and research. The involvement of student groups is an integral part of the development process. I strongly recommend the national affiliation and am confident that an excellent chapter will be developed at our university.

Sincerely,

(Ajai K. Singh)
Assistant Professor of Finance

AKS/skf

Cordially yours,

Delta Sigma Pi
Dept.

August 24, 1992

To the Board of Directors, Delta Sigma Pi

On behalf of the faculty and staff of the Iowa State University College of Business, please accept this letter in support of the establishment of a Delta Sigma Pi chapter on our campus. Professional organizations such as Delta Sigma Pi are an important part of the overall process of business education. They provide valuable opportunities for business students to interact with one another, learn more about their chosen profession, and to provide service to their community. It is a pleasure to have Delta Sigma Pi at ISU.

Cordially yours,

David L. Shrock
Dean

CITY OF AMES, IOWA

HISTORIES

Ames was established in 1861 to serve the western-bound Cedar Rapids and Missouri River Railroad. The railroad promoters named the town after a fellow rail executive, Congressman Oakes Ames. Ames is centrally located in the Midwest and centrally located in Iowa. Ames is easily accessed by Interstate 48, Highway 46 and 25 and Interstate 35. Ames is about 20 miles east of the capital of Iowa, Des Moines.

Ames is a university community with over 1,000 businesses sharing resources with Iowa State University. According to the 1990 census, Ames population is 47,000. IWI employs approximately 11,000 and provides and controls 50% of Ames. Other major employers of Ames are: May Charles Smith, a major law firm; Iowa State of Transportation, McJannet Clark, the Iowa State Fair, Ames Laboratory, the University of Iowa, the Iowa Department of Health, and North Central. The Ames community has a variety of social events including Sports, Dinners, Arts, and other special events.

CITY OF AMES, IOWA

Ames was established in 1864 to serve the westward-bound Cedar Rapids and Missouri River Railroad. The railroad president named the town after a fellow rail promoter, Congressman Oakes Ames. Ames is centrally located in the Midwest and centrally located in Iowa. Ames is easily accessed by transcontinental US Highways 30 and 69 and Interstate 35. Ames is about 30 miles north of the capital of Iowa, Des Moines.

Ames is a university community with over 1,000 businesses sharing resources with Iowa State University. According to the 1990 census, Ames population is 47,198. ISU employs approximately 11,000 area residents and enrolls 25,000 students. Other major employers in Ames are : Mary Greeley Medical Center, the Iowa Department of Transportation, McFarland Clinic PC, the City of Ames, Sauer-Sundstrand, Ames Laboratory, 3M Company, National Animal Disease Center, and Hach Chemical. The Ames community also sponsors some annual events including Special Olympics, Iowa Games, and the VEISHEA celebration.

IOWA STATE UNIVERSITY AT AMES, IOWA

Iowa State College was founded on March 22, 1858 when Governor Ralph P. Lowe signed a bill to establish a State Agriculture College and Model Farm. It was then declared a land grant college due to the Morrill Act signed by Abraham Lincoln.

It was formally opened on March 17, 1869 as the first coeducational land grant college. The first class was comprised of 173 students, 136 men and 37 women. Of this first class, only 26 students, 24 men and 2 women graduated.

The Bomb, the college yearbook was published for the first time in 1894. The nickname, the Cyclones came about in 1895 when a newspaper reporter described the football team as a cyclone from Iowa winning by a score of 36-09 over Northwestern University.

The Campanile, the bell tower on campus, was erected in 1899. The 10 original bells for the tower were purchased from John Taylor & Company of Loughborough, England. They were the first scientifically tuned chime of bells installed anywhere in the world. Tradition holds that ISU students are not "official" until they have been kissed under the campanile with the bells tolling the hour of midnight. Later that year the college colors became cardinal and gold and still remains as our colors.

In 1900, the Knoll was constructed as the house for the President of the college. Mrs. A.B. Storms named it 'the Knole' after a beautiful baronial estate in England. However, President Pearson, Storms' successor thought it was a mistake and changed it to the Knoll.

Homecoming began back in 1912 with a big football game and parade. The Homecoming tradition still continues, however, the major events are the pep rally before the football game and the game itself. Two years later in 1914, the first Christmas tree was lit on campus. In 1991, Tom Sutherland and Terry Anderson, alumni of ISU, were honored at the lighting of the Christmas tree after being held hostage for many years in Beirut.

In 1916, LaVerne Noyes donated money in order to construct a lake on campus. The lake is located on the South edge of campus and bears the name Lake LaVerne after Mr. Noyes. In 1935, two swans, Sir Lancelot and Elaine, were presented to the College by the Veishea Central Committee to be placed in Lake LaVerne where they still reside. It is said that if you and your boyfriend/girlfriend walk around Lake LaVerne three times you are destined to be married.

The annual Veishea celebration was first held May 11-13, 1922. The name Veishea represents the five divisions - Veterinary Medicine, Engineering, Industrial Science, Home Economics, and Agriculture - by using the first letter of each division. During this celebration there are many activities on campus from giant Twister to the Carnival to the elaborate parade.

In the 1930's and 1940's, ISU Professor John V. Atanasoff, a member of math and physics at ISU, helped create the first electronic digital computer. Later the computer building on campus was named after him.

The name of the student newspaper still in circulation today changed from the Iowa State Student to the Iowa State Daily in September, 1947.

The first mascot of the College was nicknamed "Cy", a cardinal. It represents Iowa State in the athletic conference that finally became the Big Eight in 1957.

In 1969, the name of the university changed from Iowa State College to its current name of Iowa State University. Also in that same year, C Y Stephens opened with the production of "Oliver".

In 1971, Hilton Coliseum opened with the Iowa State stadium following in 1975. The stadium was later named Jack Trice after the first black football player killed in a game against Minnesota in 1923.

The Scheman Continuing Education Building was built in 1975. It is used for various lectures and conventions held in Ames.

The two most recent additions to Iowa State were Parks Library in 1982 and the Recreation Center in 1990. This center houses the largest indoor track in the world.

Iowa State University currently covers 1000 acres including 120 major buildings. The student body is approximately 25,500 strong and has a very active Greek system which includes eighteen sororities and thirty-six fraternities.

CAMPUS PICTORALS

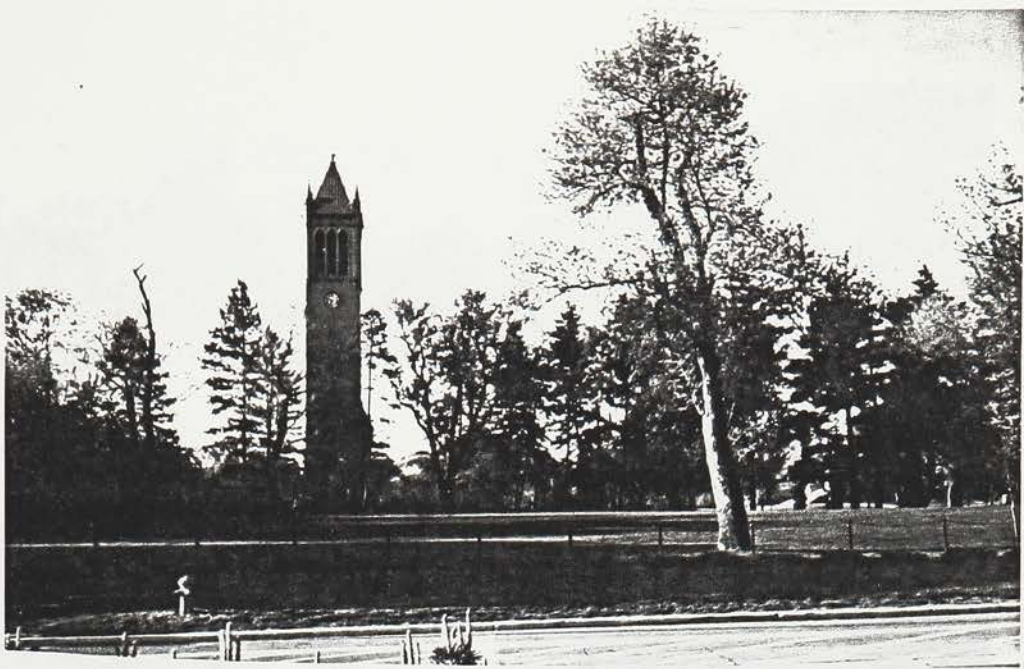

The Memorial Union was built in 1928 and was used primarily as a place for social gatherings. The oval shaped fountain was presented by the Student Committee in 1937. Tradition has it that any student who steps on the "Lucky" sign inside the north entrance of the Union will call the next year. There are only two ways to break the curse: buy a penny and the fountain outside the Union or throw a penny off the ledge of the Union on Union Hill.

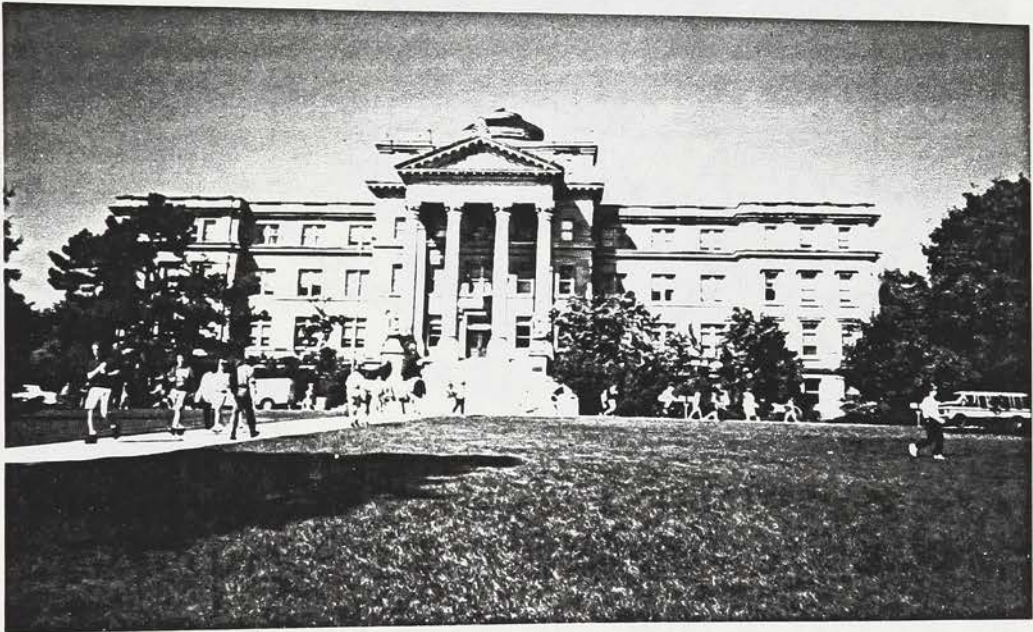

This aerial view of Iowa State University illustrates the dynamic buildings and beautiful campus. Our University is well known for its vast, beautiful central campus.

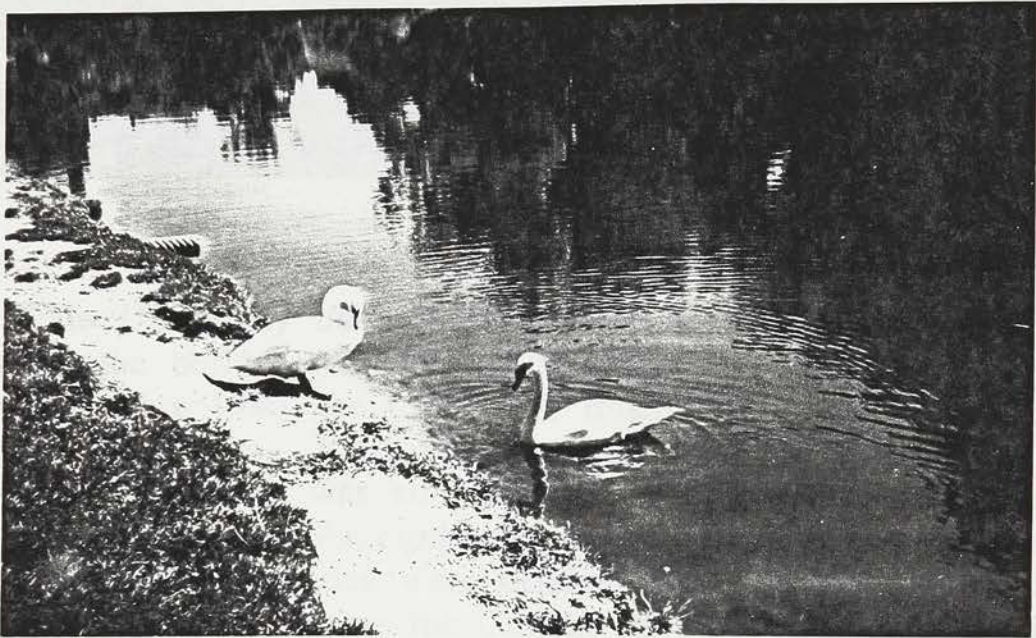

The Memorial Union was built in 1928 and was used primarily as a place for social gatherings. The oval shaped fountain was presented by the Veishea Committee in 1937. Tradition has it that any student who steps on the Zodiac sign inside the north entrance of the Union will fail the next exam. There are only two ways to break the curse: toss a penny into the fountain outside the Union or throw a penny off the bridge at the bottom of Union Hill.

The Campanile is our beautiful chiming clock on central campus. The bells are rung on the hour and every fifteen minutes thereafter according to the time. During the Christmas season, some carilloners play Christmas songs as you battle the cold to class.

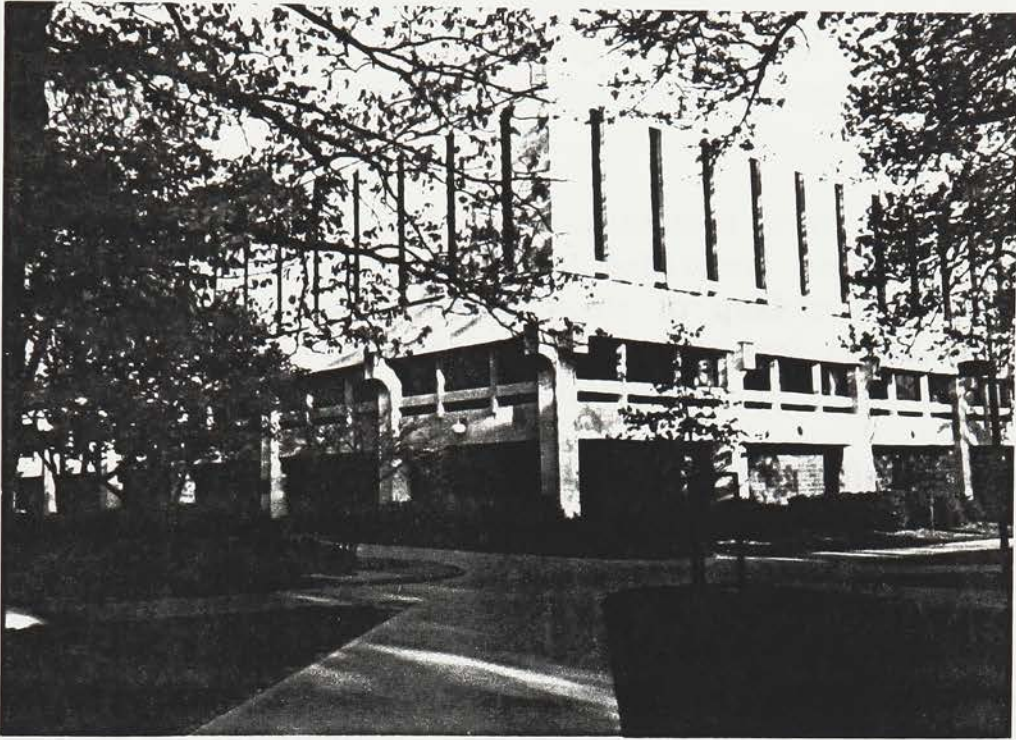

In 1906, Beardshear was completed, being named after one of our Presidents. This building is where all the financial matters take place and where the President of the University's office is located. It is known on campus as the place to pay your University bill since it has a green dome on top to symbolize money!

Lake LaVerne is located directly west of the Memorial Union. The land was donated by LaVerne Noyes in 1916 and the lake area was then enlarged to its present size. Sir Lancelot and Elaine, two swans, call this lake home. The lake has also been used for homemade boat races during Veishea.

THE COLLEGE OF BUSINESS

Iowa State University has offered courses in business since the early 1900s. Carver, the building that currently houses the Business College, was built in 1968. Before 1980, the College of Business was under the College of Science and Humanities. It became the School of Business Administration in 1980, but was still under the College of Sciences and Humanities. Also in 1980, Accounting, Finance, Management, Marketing and Transportation and Logistics were offered as majors for the first time.

On July 1, 1984, it became the College of Business Administration, independent of the College of Science and Humanities. After six years of work, the college became accredited by ACASB in April 1991.

Students may receive a Bachelor of Business Administration degree by completing one of the following majors: Accounting, Finance, Management, Marketing, or Transportation and Logistics. The other alternative is to receive a Bachelor of Science degree with a major in General Business.

ACCOUNTING: The major of accounting is designed to give students a conceptual foundation as well as to provide a wide range of basic skills for both public and private concerns. Completion of this program meets the current educational requirement for taking the CPA examination as established by the Iowa Accountancy Examining Board.

FINANCE: The courses in finance constitute a broad program of study designed to provide a descriptive and behavioral background of financial management to enable students to qualify for opportunities in banking, insurance, brokerage, government, real estate, and financial management of business enterprises.

MANAGEMENT: Management is a broadly defined discipline and activity. Each student has the opportunity to become equipped with the conceptual, analytical, and integrative skills needed to assume an entry-level managerial role in a wide variety of organizations. The management curricula at ISU allow students to concentrate on one of two distinct areas: (1) Management of Operations, or (2) Management of Information Systems (MIS).

MARKETING: Marketing is concerned with management decisions that deal with the satisfaction of consumer needs in the purchase and use of goods and services. A major in marketing prepares the student for careers in such areas as product management, public relations, industrial purchasing, advertising and sales promotion, marketing research, personal selling and sales force management.

TRANSPORTATION AND LOGISTICS: Transportation and Logistics serves as a specialized program for those who plan careers working with shippers, carriers, and government agencies. It is a broad-based educational program which emphasizes the managerial aspects of transportation and logistics systems and concepts.

GENERAL BUSINESS: The courses in general business are a combination of the 5 majors previously mentioned. This major provides students with a general knowledge and background of the business field.

KENNETH G. ELYSE

Professor Kenneth Elyse's primary teaching interest is in financial accounting. His research interests are in the history of accounting theory. He served as the President of the Business Division of the American Accounting Association and is currently an officer in other academic organizations. Professor Elyse received his Bachelor degree from Maryville College in 1958. He received his master and doctorate from the University of Nevada in 1960 and 1970 respectively. He was first inducted into the faculty at the University of South Carolina, Aiken, SC, campus April 7, 1960 as a faculty member.

FACULTY ALUMNI

KENNETH O. ELVIK

Professor Kenneth Elvik's primary teaching interest is in financial accounting. His research interests are in the history of accounting theory. He served as the President of the Midwest Region of the American Accounting Association and is currently an officer in other academic organizations. Professor Elvik received his bachelors degree from Morningside College, in 1957. He received his masters and doctorate from the University of Nebraska in 1960 and 1970 respectively. He was initiated into the fraternity at the University of South Dakota, Alpha Eta chapter on April 7, 1960 as a faculty member.

AUGUST R. RALSTON

August R. Ralston is the Professor and Interim Chair of Finance and Associate Dean for Graduate Studies at Iowa State University. His teaching and research interests include risk management, insurance regulation and international political risk. Dr. Ralston has the following degrees: a bachelor of science in economics from Austin Peah State University; a masters and doctorate degree in business and applied economics from the University of Pennsylvania. August Ralston was initiated into the fraternity as a graduate student in 1964 at East Tennessee State University.

CLYDE KENNETH WALTER

Clyde Kenneth Walters has been an associate professor in the department of transportation and logistics, college of business administration, Iowa State University, since 1984. He previously taught at the University of Nebraska-Lincoln and at Western Illinois University and was a visiting research fellow at Cranfield(England) School of Management. Dr. Walter holds the following degrees: bachelor of science in electrical engineering, Case Institute of Technology; master in business administration and doctorate, Ohio State University; and master in engineering Pennsylvania State University. Dr. Walters was a faculty member at the University of Nebraska and was initiated on April 13, 1980 into the Alpha Delta chapter.

FACULTY INITIATE

RICHARD B. CARTER

Richard B. Carter is an Assistant Professor of Finance in the College of Business Administration. His teaching and research interests include capital acquisition, investment banking, and market efficiency. Dr. Carter received his bachelors degree in 1971 from State University of New York in psychology, and history. He received his masters and doctorate from the University of Utah in finance in 1985 and 1987 respectively.

CHI UPSILON

These are the sequence of events that led to the establishment of the Chi Upsilon chapter at Iowa State University:

April 11, 1991 - A meeting was held for students to meet the fraternity. It was attended by the brothers of Alpha Iota, brothers from Epsilon Iota, District Director NolaKay A. Kelm, District Director Krista K. Aberle, Regional Director (then District Director) Mark E. Dorn, and District Director William E. Honan conducted the presentation.

April 18, 1991 - This was an organizational meeting which included the colony electing its first officers for the Executive Committee, choosing the name of Chi Upsilon, and deciding to send the Letter of Intent to Central Office.

May 6, 1991 - An informational meeting was held. A few new members were also recruited at this meeting. This was the last official meeting for the semester. The Executive Committee continued to meet through the summer months to plan for the Fall 1991 semester.

September 5, 1991 - This was the first meeting of the Fall 1991 semester. This meeting was used to establish when to have the "Meet the Fraternity" night and to discuss recruiting possibilities.

September 17, 1991 - A recruiting activity was held as "Meet the Fraternity" night. Members from the Des Moines Drake chapter of Delta Sigma Pi came to speak to us and presented a slide show on what being a member is all about. This was also a recruiting night.

September 22, 1991 - Bill Reichardt was our first speaker of the semester. Mr. Reichardt gave a presentation on how to "Dress for Success" in the business world today.

September 24, 1991 - C. Dean Ferguson, Director of Chapter Services, visited the ISU Campus. Mr. Ferguson spoke to the Executive Committee and explained to them the requirements of their particular offices. He then spoke to the colony about what we needed to accomplish to become a chapter.

September 28, 1991 - This was the "North Central Kick Off Classic". They came to Ames to show support of the colonization. It was attended by Mid-American Provincial Vice President Randy Hultz, Regional Director Mark E. Dorn, District Director William E. Honan, and different chapters within the Region.

October 9, 1991 - Sally Hinders was the second speaker of the semester. Mrs. Hinders works in the ISU Placement Office. She spoke to us on resume tips and what a proper resume should contain.

October 24, 1991 - This was a general information meeting. We set up a new format to conduct the meetings. At this meeting we also elected Co-Historians to start keeping a scrap book for the colony.

November 5, 1991 - We held another general meeting on this date. Following the meeting a few of the Chi Upsilon's joined the Alpha Iota chapter in Des Moines for their Halloween party.

November 14, 1991 - A tour was taken through Townsend Engineering in Des Moines. We participated in this tour along with the Drake Alpha Iota chapter.

November 20, 1991 - On this date we had our third speaker of the semester. Sharon Buchele of Hach Chemical. She spoke on environmental issues that companies face today and how they deal with them.

December 3, 1991 - Elections were held at this time as well as the general meeting. This was the last meeting of the semester. Plans were made for the beginning of the following semester so everyone could plan ahead.

January 29, 1992 - Tahira K. Hira from the Department of Human Development and Family Sciences spoke on personal finance. She shared tips on budgeting, credit cards and investment possibility.

February 4, 1992 - This meeting was our first "Meet the Colony" night of the semester. District Director William E. Honan was present and spoke about the fraternity. This was also used as a recruiting night and attendance was excellent.

February 6, 1992 - We held a pizza party to get acquainted with the new recruits that were showing interest in the fraternity.

February 7-9, 1992 - Several of our members traveled to Iowa City to participate in the North Central Regional Volleyball/Basketball Tournament sponsored by the Epsilon chapter.

February 11, 1992 - A general meeting was held to establish the meeting dates for the remainder of the semester. Following this we got together for a community service project and made Valentines for one of the retirement homes in Ames. These were delivered on the 13th of February.

February 25, 1992 - This was also a general meeting. A phone list was handed out of all persons interested in the fraternity.

March 17, 1992 - A general meeting took place on this night and we discussed possible activities to do for the remainder of the semester.

March 31, 1992 - Our third speaker of the semester was Sally Hinders from the Student Services building. She spoke to us on interviewing tips and the do's and don'ts and the services provided on campus to help with this.

April 14, 1992 - This was a general meeting at which we discussed the rest of the semester and started looking ahead to next semester at things that may need to be started being planned. During this meeting we also collected canned goods to take to a local food pantry as part of a community service activity.

April 20, 1992 - We took a tour of WOI-TV in Ames.

April 23, 1992 - We held a "Meet the Faculty" day in which we served punch and cookies to the faculty and let them get acquainted with our colony members. We shared with them our goals and what Delta Sigma Pi is all about.

April 28, 1992 - This was our last meeting of the semester. We first had Delta Sigma Pi Alum August Ralston, one of our faculty members, speak on the European economy. District Director NolaKay A. Kelm was present at this meeting. We elected officers for the following semester and established who was going to be around this summer to help with the petition and charter.

4. To promote the study of Business at Iowa State University.

5. To provide learning outside the classroom into new exciting business fields.

6. To develop a highly reputable business fraternity that explores professional aspects of the business society at Iowa State University.
