## Letter of the President

Since the last issue of the DELTASIG, there have been many things accomplished that will undoubtedly interest all the members of the Fraternity. Two chapters have been installed, namely Lambda at the University of Pittsburg, Pittsburg, Pennsylvania, and Mu at Georgetown University, Washington, D. C. Both of these chapters were in existence at these institutions, operating as local fraternities for a year or more prior to their petitioning Delta Sigma Pi. They have been very active since the installation and will prove worthy members of the Fraternity.

Chapters have been granted to Ohio State University and the University of Michigan the first part of December. The local fraternity at the latter institution have a substantial chapter house, located at 803 South State Street, Ann Arbor, Michigan, and they have extended a cordial invitation to all the brothers of Delta Sigma Pi visiting there to stop at the house and make themselves comfortable.

Investigation is now being made at three other institutions and we hope before long to be able to announce the installation of two or three additional chapters at the leading schools of commerce in the Middle West.

A meeting of the Board of Directors was held in New York City in May, fully attended by the entire board. At this meeting a new Constitution and By-Laws were drafted; the red rose was chosen as the official flower; and an audit of the books of the Fraternity was presented which showed the financial status of the Fraternity to be in excellent shape.

Many of the original members of the Fraternity had never received their certificates of membership and during the past year, Brother Edgar has endeavored to see to it that all the early members have been sent their certificates, and if any brother has not received the same, if he will notify Brother Edgar, an investigation will be made and a certificate forwarded without great delay.

The Fraternity has no accounts payable and the accounts of the chapters are in excellent shape; we have a substantial balance in the bank. The income from initiations and annual dues is more than suf-

ficient to defray our expenses, including the extraordinarily heavy expenses that must be incurred in the investigation of petitions and the installation of chapters.

The Ritual Committee has been very active and after several meetings and going into the matter in detail, have standardized the regalia of the Fraternity and now have a complete outfit which each chapter can be assured is standard and uniform in every respect. While our initiations have been very impressive in the past, this regalia will add to the impressiveness and, I hope, that each and every chapter will arrange to purchase a complete outfit with as little delay as possible.

Our official jeweler, J. F. Newman, Inc., has a complete line of fraternity jewelry and our coat of arms can be had on any piece of jewelry that you prefer. We have also designed and approved a jeweled badge.

Gamma Chapter at Boston University and Delta Chapter at Marquette University have both acquired chapter houses this fall, which are situated near to the universities and are admirably adapted for their use. I hope that all brothers visiting either one of these cities will make a special point to visit these houses.

Again I wish to urge all the chapters to send copies of their news letters to all the national officers and to at least the Head Masters or News Editors of each chapter. These letters prove of great interest and encouragement to the various chapters' officers, giving them new ideas and keeping them posted on what the other chapters are doing.

HENRY GILBERT WRIGHT.

---

The work of Brother Roy H. Flamm, Expert, Latin American Division, Bureau of Foreign and Domestic Commerce, has been creating quite a bit of attention. The DELTASIG is in receipt of several noteworthy excerpts from reports compiled by him and published in Commerce Reports.

An interesting fact in connection with the publication of Brother Flamm's article on "Mexican Petroleum" was that Mexican petroleum jumped six points. It is pleasing to recall this, and especially so since Brother Flamm was formerly Head Master of Mu Chapter, Georgetown University.

# Installation of New Chapters

## LAMBDA

University of Pittsburgh

The beginnings of any institution of learning are always full of interest. It may also be said that these humble and heroic beginnings often result in remarkable accomplishments which bespeak the high ideals in the lives of ambitious persons whose spirits are to this day ruling forces in such institutions.

Such may be said to be the history of the University of Pittsburgh, which was conceived by the Honorable Hugh Henry Breckenridge, a graduate of Princeton, of the Class of 1771, whose interests in the promotion of education in Western Pennsylvania resulted in securing a charter of the institution in 1787, then known as the Pittsburgh Academy and rechartered in 1819 as the Western University of Pennsylvania, with the gift from the state of 46 acres of land as a site for the institution. It still operates under the old charter of 1819. However, in 1908 the name changed to the University of Pittsburgh. It is the oldest educational institution west of the Allegheny mountains and north of the Ohio river.

The organization of the institution consists of sixteen different schools. The chief executive is the Chancellor. The College of Arts and Letters is the largest. The School of Mines, the School of Education, the School of Medicine, the School of Law, the School of Dental Surgery, the Mellon Institute, the Allegheny Observatory all enter into the complex life of the institution. The latter has world-wide recognition through its research in Solar Physics and later in Aeronautics. In 1920, the University had on its rolls almost five thousand students and a faculty of four hundred and forty-one. The University is absolutely undenominational and is recognized as an integral part of the educational system of the commonwealth.

Within close proximity of the University are many famous institutions, namely, the Twentieth Century Club, the Armory, the University Club, the Pittsburgh Athletic Association, Hotel Schenley, Forbes Field, the National League Ball Park, and nearby is the great Carnegie Institute with its magnificent Free Library, the Halls of Music, the Museum, the Institute of Technology, the Phipps Conservatory, the Soldiers and Sailors' Memorial Hall, and the beautiful Schenley Park.

Lambda is a part of all this environment and atmosphere and we hope to develop a spirit here which will do honor to Delta Sigma Pi every-

where. This can be done here, because Pittsburgh as a city is rapidly becoming as famous for its education, art, music and beauty, as it is already famous for its manufacturing, its banking, and its industrial enterprises.

The School of Commerce here, known better as the School of Economics, Accounting and Finance of the University of Pittsburgh, is one of the greatest forces for fostering commerce education in the city. It occupies the tenth floor of the Chamber of Commerce Building in the heart of the business section of the city. This is an attempt to take the University to business, as business is slow in coming to the University. It is considered one of the most progressive steps taken by the Chamber of Commerce of the city in bringing about a co-operation between the University and the business interests of the city.

A local fraternity was organized in 1920 for the purpose of petitioning a commerce fraternity for a charter. After due time a petition was sent to Delta Sigma Pi for a chapter here and after investigation by the national officers the petition was accepted. Thus Lambda had its birth on Friday, May 13, 1921. The ceremony of initiation, which was followed by a banquet given in honor of the installation team and the Dean of the School of Commerce, were held in the Fort Pitt Hotel. The installation team consisted of Henry G. Wright and J. Buford Edgar. Since the installation the chapter has been very active and there are great hopes for a bright and prosperous future of Lambda in the University of Pittsburgh.

The following constitute the charter members of the chapter:

Charles Brinkerhoff	John M. Hess	Joseph Schewe
David A. Brose	Albert M. Joseph	Charles W. Scott
John A. Brose	Charles W. Kennedy	George K. Shannon
Robert Dierker	Alfred J. Kohler	Sampel J. Smith
John G. Doran	William D. McVey	Edward E. Wandry
Arthur W. Fiddleman	Leon D. Nichols	Herbert M. Wehe
William H. Geist	William C. Osborne	LeRoy S. Whippo
Adley W. Hemphill	Chester H. Sanford	Stephen F. Wilmoth

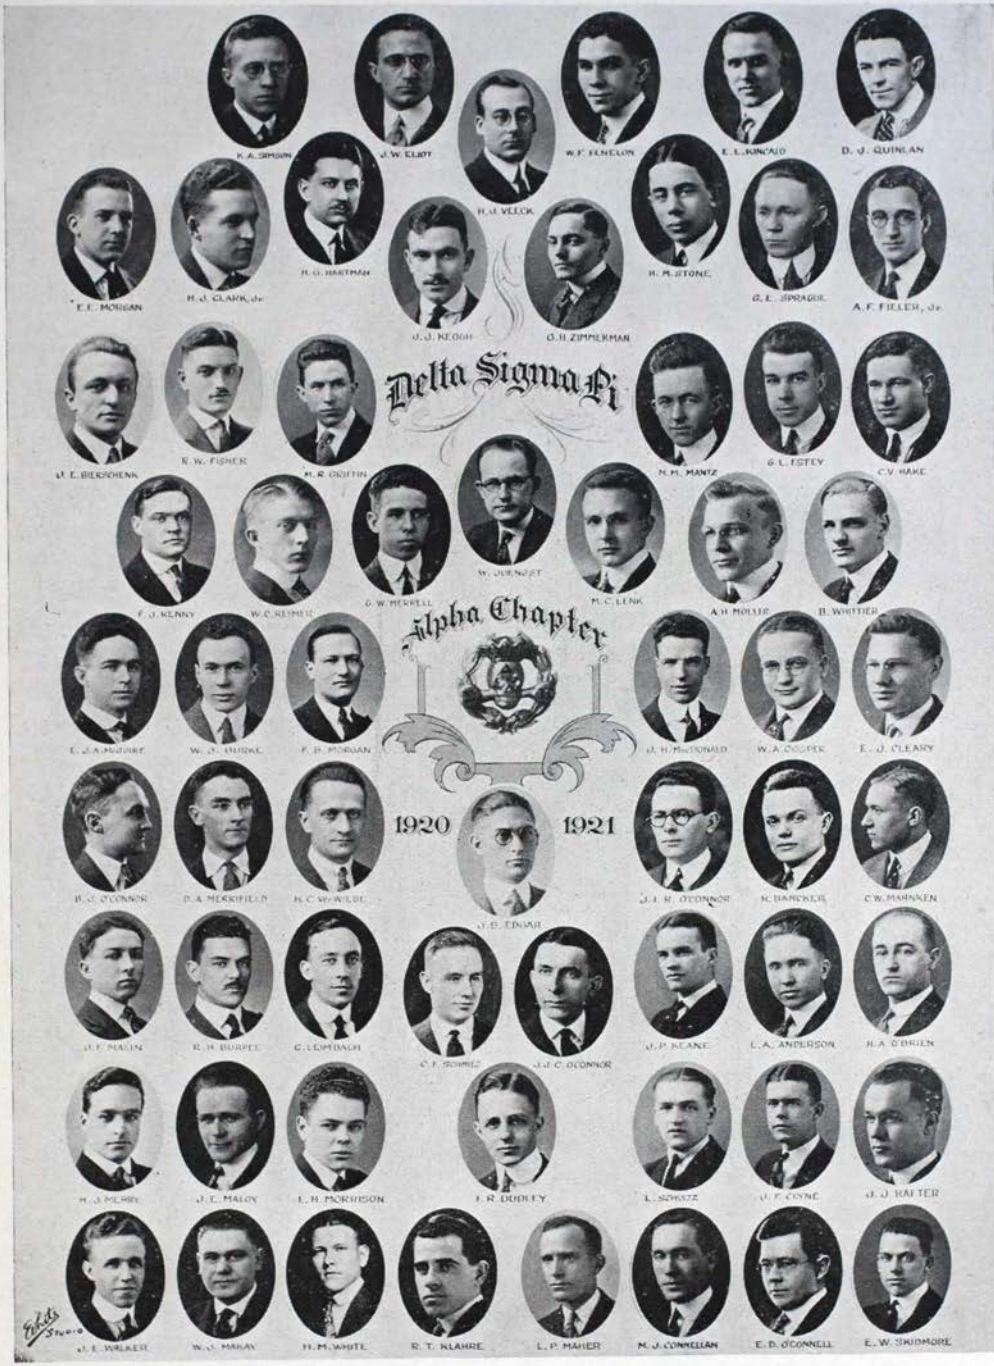

---

#### MU

Georgetown University

The Georgetown University School of Foreign Service was founded in February, 1919, and graduated about one hundred students on June 4th last. These students will have the distinction of being the first graduates of the first school in the United States devoted exclusively to training for foreign service. The grave economic and social problems which confronted our country at the close of the World War accentuated the need of a systematic and sustained training for foreign service. The various

departments of our government charged with the conduct of our foreign affairs, diplomatic, consular and commercial, recognized the desirability of a school located at the nation's capital, for the training of experts in all the various branches of our foreign service, and the Departments of State and Commerce and the United States Shipping Board have extended enthusiastic support and encouragement to the school.

To some extent the impression has gone abroad that the School of Foreign Service was founded primarily to furnish trained diplomatic and consular officers. This is a mistaken impression, for the school trains men for any branch or phase of foreign service. Its constitution is modelled upon that of the famous "Ecole Libre des Sciences Politiques" at Paris, which school grew out of the Franco-Prussian War when France found herself facing industrial and commercial problems not unlike those facing our country at the present time.

Georgetown University School of Foreign Service provides thorough training in four main groups of subjects—Language and Cultural, Political Science, Economics and Commercial, and Shipping. In addition to the encouragement of the various governmental agencies, the school has worked in close co-operation with practical business men, export houses and the National Foreign Trade Council.

For the purpose of gathering first hand information of foreign trade the school plans call for expeditions of students to foreign fields, during the summer months. Last summer eighteen students spent six weeks in Venezuela, investigating trade and industrial conditions in that country, and stimulating American foreign commerce. Dr. Roy S. MacElwee resigned his position of Director, Bureau of Foreign and Domestic Commerce, Department of Commerce, to become head of the School of Foreign Service. Dr. MacElwee brings to the school considerable experience in dealing with foreign trade problems, an unexcelled knowledge as an educator and marked ability as an executive.

Now a word concerning Alpha Tau Delta. Last fall a few of the more serious minded students realized the need of an organization among the student body which would provide a means of contact with men of importance in the field of foreign trade outside the regular school routing. The name Alpha Tau Delta was adopted and a constitution drawn up which stated our objects to be: "The study and promotion of foreign trade. To promote the interests of the Georgetown University School of Foreign Service by maintaining its high standards. To unite the interests of sociability, to strengthen the bands of friendship between the members, and to particularly aid its members in foreign service."

At the beginning a policy was put into effect by which the slogan of the organization became "quality, not quantity." Our growth was steady until an approximate membership of thirty was attained. Included in our

membership were such men as Dr. Leo S. Rowe, Director General of the Pan-American Union; Dr. William A. Reid, Foreign Trade Expert for the Pan-American Union; Dr. William L. Schurz, Commercial Attache of the Department of Commerce, and Mr. William A. Saunders, Secretary of the American Chamber of Commerce of Mexico. Throughout the winter smokers and banquets were held at stated intervals, the meetings being addressed by men who have attained prominence in some particular phase of foreign and domestic commerce.

Brother Thomas H. Taylor, Beta, Chief of the Latin American Division, Department of Commerce, brought to our attention the many advantages and privileges which affiliation with Delta Sigma Pi would bring to us. While our first hope was to found an International Foreign Trade Fraternity, we early recognized that such a field of endeavor would be extremely limited in scope, and we realized that after all, commerce is commerce, whether foreign or domestic. It was unanimously decided to petition Delta Sigma Pi for admission as a chapter. The petition went forward on March 23rd and we were installed as Mu Chapter on June 8, 1921, with a charter membership of twenty-eight. Secretary Edgar and Brothers Thomas R. Taylor and Herbert H. Rapp formed the team which revealed to us the mysteries of Delta Sigma Pi.

Modesty forbids that we should boast of the banquet given by the Mu Chapter after its installation, or of the wonderful spirit of brotherhood revealed by the various members present. Although the baby of the organization, we insist on being a very robust infant and we warn our older brothers that they will have to be up and doing all the time, else they will witness Mu Chapter in the position of pace-maker.

---

## The Deltasig

The DELTASIG is open to criticism. It is open to improvement. That improvement comes with time and through the open criticism and cooperation of the members of Delta Sigma Pi.

The Staff realizes that the DELTASIG is one of the forces binding the Fraternity into one body regardless of college or geographical location. To make that force more complete, the Staff looks to the members and chapters for aid. Therefore, assist it by forwarding the chapter letters immediately upon request, and be sending in all items, news and cuts which may be of interest to the Fraternity in general. In turn, the Staff pledges its utmost for the service of Delta Sigma Pi.

## Chapter Letters

### ALPHA New York University

Alpha Chapter starts the year with exactly fifty men on the roll call. We lost seventeen by graduation last spring and a few of the tardy ones have failed to register as yet. The latter will, no doubt, be around in the near future. From the pep and enthusiasm shown thus far by the men, things look very bright indeed. We plan to make a special effort this year to get in some day men, as at the present time all agree that the balance is far too heavy on the side of the night student. Already we have four men signed on the dotted line, all of whom are day students, and every one of whom is active in class and school activities.

In the line of festivities, we plan to hold a smoker at least once a month, which will be addressed by well known business and professional men from New York and vicinity. The usual line-up of dances will be worked out with the very possible addition of an inter-fraternity dance to be held a short time before the Xmas vacation. Members of other chapters may be interested to know that Mr. A. E. Impey, Alpha Kappa Psi, was awarded the Delta Sigma Pi key at the commencement exercises last June. Nothing slow about us, however, as Brother Ivan Dudley is awarded the Alpha Kappa Psi prize given to that member of the Freshman class who exceeds in general ability and influence among the student body and obtaining the highest average in the regular first year course. Although all the grades have not been gone over thoroughly, it is known that at least three brothers will be eligible for Delta Mu Delta.

The house situation still remains somewhat indefinite, although Brother Ver Wiebe, Chairman of the House Committee, is making strenuous efforts to locate a suitable place in the vicinity of the school at a reasonable rental. He has already lined up four possible places which the committee will consider in the very near future.

The enrollment in the school as a whole to date is about five hundred more than last year at this time. Several new courses have been added by the various departments, especially by the Departments of Advertising and Merchandising, Finance and Business Management.

Brother Edgar, of Beta Chapter, has been appointed Assistant Professor of Business Management in the University. Brother William Rodgers, former Head Master of Eta, and Brother William Bryan, former member of Kappa, are now in New York.

BETA  
Northwestern University

With forty-two brothers registered at the School of Commerce, Beta looks forward to an interesting and successful year. There are quite a few likely projects in the school and we have tried to liven them up with several smokers, the first being held on October 10th and 17th. The latter had an attendance of approximately eighty, the majority of whom were prospects. It is the intention of the officers of this year to hold frequent smokers, at some of which a prominent speaker will be provided. An Armistice Party will be held at the Chapter house on November 12th, and the annual New Year's party is being planned well in advance with the idea of eclipsing all former parties. The first initiation will be held on December 3rd, five pledges at the present time awaiting this event.

Brother E. C. Davies was awarded the Deltasig key for the class of 1921. This is, therefore, the third year running that the key has been kept in the family, Brothers H. G. Wright and Berholzheimer winning the award in the two preceding years.

The Commerce Club of the School of Commerce is being conducted this year by Brother Collingwood as President, with the able assistance of Brother E. C. Davies as Treasurer, and Brother T. H. Wright as Financial Secretary. Brothers H. G. Wright, C. G. Munz, L. M. Gooder, and A. L. Tengwall are representing Beta on the Board of Directors. We are sure that the Commerce Club will have an extremely successful year under the able direction of Brother Collingwood. A live-wire membership campaign, under the supervision of Brother Lindstrom, has just been closed with the return of over eight hundred memberships, the largest number the Commerce Club has ever enrolled.

The Steward of the house reports that all rooms are filled and that everything is moving along smoothly. The following officers of the Deltasig House Corporation were elected at the annual election held on June 18th:

President—J. P. Ryan.  
Vice-President—L. M. Gooder.  
Secretary-Treasurer—R. R. Engels.  
Steward—O. W. Seaman.  
Director—E. R. Hoyt.

The enrollment of the School of Commerce slightly exceeds that of last year and the Dean informs us that he is well pleased, especially from the fact that there is a larger registration of old students. The classes are all well attended.

October 28, 1921.

DELTA  
Marquette University

The academic year of 1921-22 at Marquette opened the 19th of September with all Delta men, except the graduating class of last year and Brothers Carey and Rellehen, reporting back for school. Both of the latter are attending the University of Wisconsin this fall, the latter substituting a course in Law for the course in Business Administration, while the former intends to complete his Commerce work in Madison. Delta regrets losing these two live wires.

This year marks an epoch in the history of the School of Commerce at Marquette in the change from a three-year to a four-year course conferring the degree of Bachelor of Science. At first it was feared that it would lower the number of Freshmen entering, but Brother Dean Atkinson predicts as large or larger first year class than ever before.

With the installation of the four-year day course, an additional feature has been added in that the incoming Freshmen have a choice of three courses; the first being a general business course; the second, an accounting course for those who expect to enter that field of endeavor, and the third, a banking and finance course, which will lay particular stress on Economics, Corporation Finance, Banking, Investments and other very good subjects touching upon that phase of commercial activity. All entering Freshmen required to take a prescribed course the first year and at the beginning of the second year, choose one of the three courses mentioned. It is the boast of Marquette University that the inauguration of the new course places the school on a par with the best in the country.

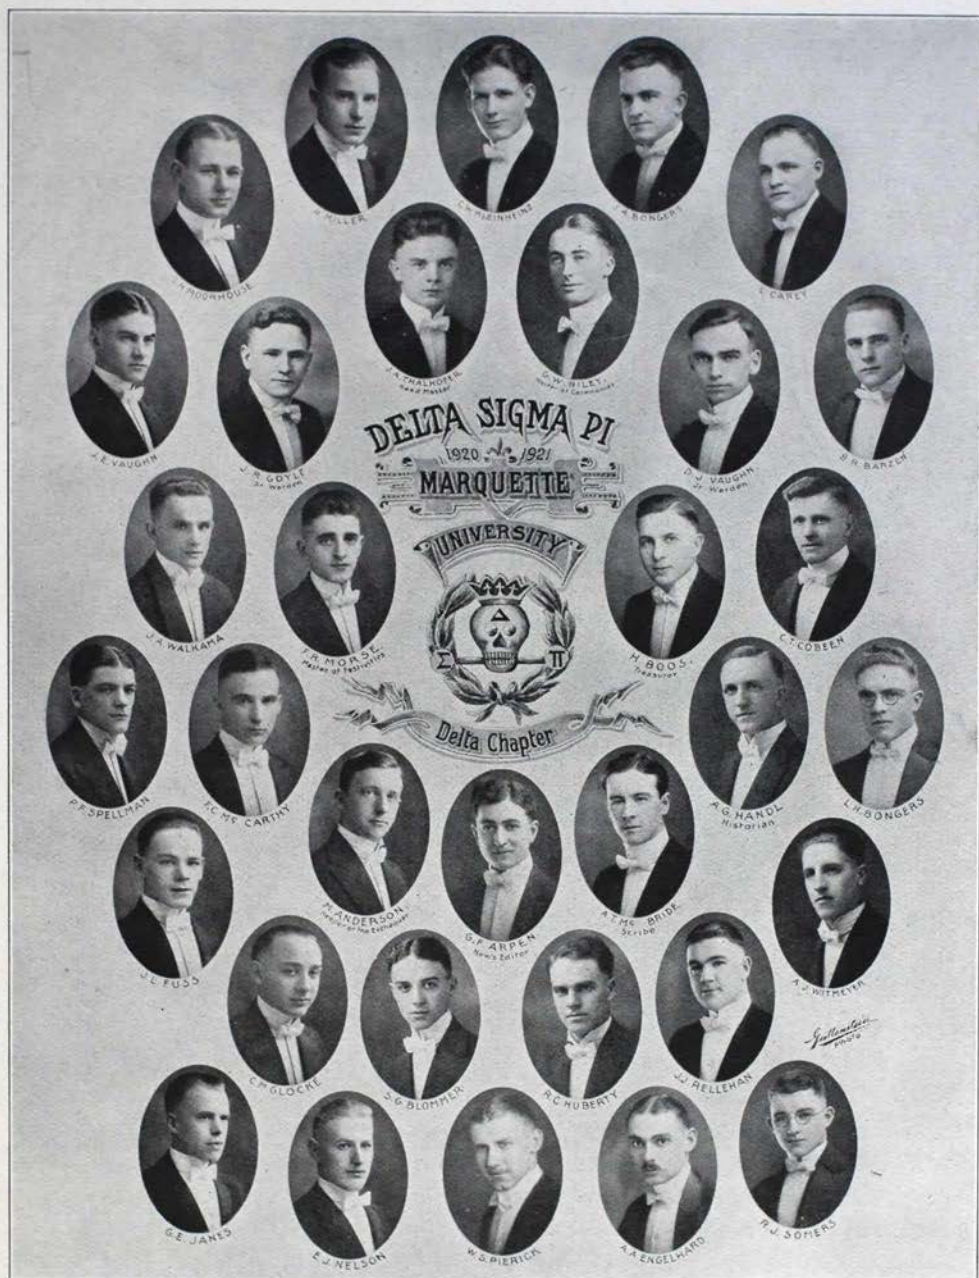

Delta takes great pride in announcing the opening of its new home. It is located at 129 Thirteenth Street, in the heart of the University district. The new Marquette Union is situated next door and the Commerce Building but a stone throw away. Visiting brothers are cordially invited to make their headquarters at the house while in Milwaukee.

The line-up on new members for our fall class is very promising. There are several upper classmen who seem to possess the requisites for admission to membership and it is planned to pledge them as soon as the confusion, incident to the commencing of a new year is over with. Two classes this year are planned, one about Thanksgiving, the other around Easter.

Due to the illness of Brother Vaughan, Delta has been forced to accept his resignation as Head Master during the present scholastic year, Brother Walkama now occupying the chair.

October 5, 1921.

DELTA CHAPTER—MARQUETTE UNIVERSITY

## EPSILON

The University of Iowa

Epsilon Chapter started the year with eleven brothers back in school. These men are: Philip N. Peterson, Frank B. Howes, Selid Overland, Granville B. Jacobs, Roy Sands, Lester Stebbins, Robert Kenworthy, Harold Parks, and Paul W. Peningroth, seniors, and one junior, Angus Cotton. Floyd Walsh and Leland Irish, who received degrees last year, are instructors in the College of Commerce, Brother Walsh having charge of the classes in Advanced Accounting.

Brother Chester A. Phillips is the Dean of the newly-formed College of Commerce. Brother Wassam occupies his regular duties as Professor of Insurance and Commercial Geography.

The Chapter feels that it is very fortunate in view of the great scarcity of houses in Iowa City, in having a large suite of rooms only a half block away from the campus. After much hard work on the part of the brothers, the rooms have been fixed up and are now very comfortable. We have taken this means as a start towards a house.

Last Thursday evening we had our first smoker in honor of some rushees, about fifteen men besides the regular chapter being present. In a short time, we hope to announce a list of fine pledges, very likely following our next smoker, this coming Thursday evening.

Brothers Glasgow, Larson, Case, Griebeling, Hayes and Hertlein, all of the Class of '21, returned for Homecoming on October 15th, when the Iowa team so successfully defeated the team from Illinois.

The outlook for Epsilon Chapter is very good, not only in having an excellent group of men back, but also in having a large group from which to select pledges. We extend our greetings to all the other chapters and wish them the best of luck for the coming year.

October 24, 1921.

---

ETA

University of Kentucky

Eta enters the new year of its history with exceedingly bright prospects. Eight of the members of the active chapter have returned to the University and the other members are well placed. Our graduates already hold several important positions, in several different states. The brothers to return to the University are: Brothers Casner, Cooper, Waites, Anderson, Lovett, Tinsley, Jones and Peal. Besides these Brothers Sun and Augsburg are located in Lexington and keep in close touch with the Fraternity.

The number of students taking Commerce in the University of Kentucky has almost doubled in the last two years, and at the present rate

of growth, promises to form a considerable portion of the student body in the near future. This year the task of selecting the pledges has grown, because we have so much more material to examine. As yet it is deemed inadvisable to take too large a membership, as the possibilities of fellowship are limited by the lack of a Chapter House. We desire to strike the happy medium between the large and the small chapter.

Several social events are on the schedule already. The first smoker of the season will take place Monday evening, September 26th. A banquet will be held when the new pledges are initiated. It is not yet decided whether we will hold a dance this year or not. Some of the best speakers in the business world of Kentucky are expected to address the Chapter at its various business meetings throughout the year. Besides these there will be theater parties and excursions of an informal nature from time to time.

Many honors had been won by the brothers at the close of last year. Brother Cooper was the winner of the Delta Sigma Pi key, as well as a letter in baseball. Brother Cooper pitched every game that was won by the University last year. This year he is the Student Assistant in the Economics Department. Brother Jones was elected to the Student Council as Junior Class Representative. He also made his letter in baseball. Brother Waites is the new Advertising Manager for the Kentucky Kernel, our chief student publication, of which also Brother Tinsley is Circulation Manager. Brother Casner is the President of Phi Kappa Tau Fraternity. Brother Peal was the winner of the Bennett prize awarded for the best essay on the Principles of Constitutional Government. He is also the new President of the Patterson Literary Society. Brother Anderson is the student representative for the Lexington Drug Company. Brother Lovett is the new Sporting Editor of the Lexington Herald.

Owing to the extremely high rents prevailing near the University, Eta has decided not to occupy a Chapter House until it is ready to build its own. It is to be hoped that this will be in the near future. Already plans have been laid whereby the graduates will assist in an endowment for this purpose.

The student body of the University has increased to more than sixteen hundred candidates for degrees, and the special and extension students will probably bring this number to more than three thousand. With this encouraging growth, together with the plans for expansion that are under way, we hope to make the University the best in the South. This proposed expansion will add eight million dollars to the University within the next five years.

September 26, 1921.

THETA CHAPTER—UNIVERSITY OF DETROIT

THETA  
University of Detroit

Since the last issue of the DELTASIG, many events have happened at Theta Chapter. Last May Theta put on her first initiation, at which time fifteen neophytes learned the several mysteries contained in the three degrees of Delta Sigma Pi. Immediately following the initiation the members proceeded to the Fort Shelby where a banquet was held. Mr. Eddie McGrath favored the brothers with a few solos. There were three brothers nominated as candidates for the office of Keeper of the Parchment Roll. Each in turn arose and stated his qualifications for the office, following which a vote was taken, and the ballot showed a two-third majority for Brother Althoff. As a result of the initiation, Theta Chapter has an active membership of thirty-five members. Every one of these is participating in school activities and is doing his share to make Delta Sigma Pi a bigger influence in the school life.

Delta Sigma Pi is well represented in class activities this year, Brother Vincent Smith being elected President of the Senior Class; Brother Dow, Vice-President, and Brother Walsh, Treasurer.

Last summer Theta Chapter was well represented in the marriage license bureau, three of the brothers having joined the Benedicts; our worthy Head Master, Brother Rudolph Schmidt; our Senior Warden, Brother Sterling, and the newly-elected Keeper of the Parchment Roll, Brother Althoff.

During the summer months, members of Theta kept in close contact with each other by means of numerous beach parties, besides the week-end parties and vacations spent at their summer cottage, "Tumble Inn," on Lake St. Clair. The setting for the Fourth of July house party was "Brinkman Cottage" at St. Clair Flats. The morning of the Fourth the party boarded the speed boat, "Clarence the Second," and proceeded up stream to the Indian Reservation of Wolpole, where the Indians were holding a celebration. In the evening the party return for a dinner dance at the "Old Club."

Members of Theta are going to make this a banner year. The spirit is all worked up in the members and was exemplified by 100 per cent attendance at the smoker given at the Statler Hotel, Monday, October 3rd. Even the new benedicts were on hand.

November 1, 1921.

---

IOTA  
University of Kansas

Iota Chapter was very fortunate in returning to school fifteen men from the active chapter of last year, as well as three pledges who will

be initiated in the near future. The chapter greatly misses the efforts of Brother Ringle, our former Head Master, but Brother Dana is proving a very worthy successor. He has the affairs of the chapter well under way and the outlook for a successful year is very good.

The chapter was very much gratified last semester when the faculty of the School of Commerce chose Brother Albert Greef to receive the Delta Sigma Pi key. Brother Greef is a real scholar and will do the Fraternity honor wherever he may go to continue his work.

In the School of Commerce, the enrollment has doubled and this increase should make the rushing season a good one. We are to hold our first smoker for rushees on Tuesday, October 18th. About fifteen of the most likely men in the school are to be present.

October 15, 1921.

---

### KAPPA

Georgia School of Technology

Kappa Chapter opens the year with sixteen active members, including one honorary member, Brother Dennison, who is now associate Dean of the School of Commerce. In the school there are now over eight hundred enrolled.

Brother Bryan is taking graduate work at New York University this year. Brother Mayer is in business in Chattanooga, Tennessee, and from reports he is making great headway in his life work. We had hopes of his being in school with us again this year, as he was a member of the football team, Captain of basketball, and a letter man in track, in addition to his excellent class room work. However, he decided to continue in business after his good start.

Brother Wallace has enrolled in the Medical Department of Emory University, having decided that it was better to doctor people than to doctor books. Brothers Walraven and Newton have positions as student instructors in the Commerce Department in addition to carrying on their senior work. Brother Barron, our Head Master, and one of the greatest football players ever to be on the American gridiron, is with us again and will graduate this year with as many honors as any man who has attended this institution. He is also Captain of the baseball team.

Brother Turner did not return to us this year, as he is traveling out of Macon, Georgia, for a national concern, but expects to be here again.

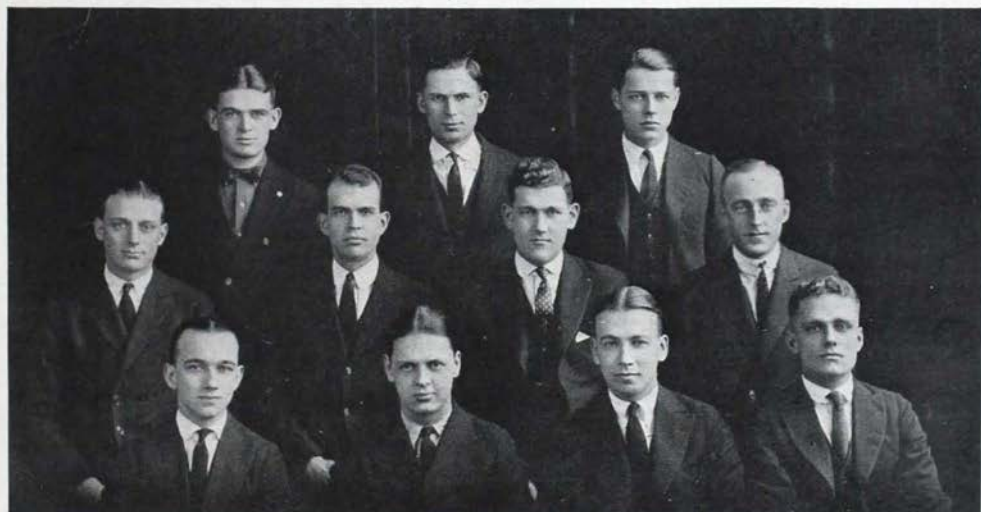

The pledging committee begins work in the next two weeks and we are in hopes of having a membership of about thirty or forty before the school year is over. Our first news letter will be out in the next two weeks, by which time all of our activities for the new year will be announced.

October 20, 1921.

IOTA CHAPTER—UNIVERSITY OF KANSAS

ZETA CHAPTER—NORTHWESTERN UNIVERSITY

## LAMBDA

University of Pittsburgh

The number of Lambda Chapter men in school this year is exceedingly gratifying. With the exception of several of the brothers who have assumed matrimonial duties during the summer, our entire membership is back in the harness. As a chapter, we realize our youth and inexperience, so to speak, having been regularly installed last May 13th. Our being termed a "baby" chapter serves to inspire in each brother the desire to prove his chapter worthy of the trust placed in it and make the chapter history reflect only credit and glory to our Fraternity.

Our prospects for this year are bright indeed. We have as our Head Master, Brother Wilmoth, who is well qualified for that responsible position. The rushing season is now open and we have a wealth of fine material to choose from. We are not desirous of growing too rapidly, but are adhering to the old adage—quality before quantity. Only men of the highest qualifications are being considered and we believe that the stamina of our men individually will be reflected in the work of our chapter as a unit.

No steps have been taken towards the purchase of a chapter house as yet, and such action is deemed inadvisable at this time. Chapter quarters are being arranged for and will serve our purpose temporarily, the purchase of a chapter house and the establishment of a home being our objective.

September 27, 1921.

---

## Fraternity Jewelry

Delta Sigma Pi official badges and pledge pins can be secured only through our official jeweler, J. F. Newman, Inc., 11 John Street, New York. Chapter officers should anticipate their requirements in advance and place their orders direct with Newman's New York office. Checks should accompany all orders; the price of the official badge is \$4.00, plus 5% war tax; of the pledge pin, \$1.00 net. Brothers desiring extra pins should place their order through their chapter.

---

Those chapters having houses are asked to send into the DELTASIG pictures of them for insertion in the quarterly. Also if there are members of any of the chapters who have made their letters or any other honors kindly inform the Staff of that honor. Do not wait for the Chapter Letter for inclusion. Furthermore, it will be an aid for the Staff if the chapters will place the DELTASIG upon the mailing lists of the news letters so that it may be in constant touch with each group.
