## SERVICE AS A FACTOR IN FOREIGN TRADE

ROY H. FLAMM, *Mu*

THE spirit of brotherly love, so we are told by the idealist, has at last made its impress upon international political relations. Whether or not this statement is true in the realm of politics, international trade remains a merciless and exacting institution.

It is profitless to discuss what has happened in the past except for the bearing it may have on the future. An unprejudiced survey of our past record of foreign activities in matters of trade discloses a long record of carelessness and indifference, oftentimes approaching stubbornness,—all of which must be overcome before we can succeed in foreign fields in the face of a stiffening competition. The habit of taking things for granted with others, as we have been doing for some time, is not our least offense. Our poorly equipped representatives in foreign fields have met the trained agents of foreign interests, with the result that we got experience and they got the trade.

Our accomplishments during the war were not of such a nature as to promote a feeling of care and consideration for those requirements and prejudices of others so necessary to the retention of trade connections once established. We then had the excuse of a too hurried necessity to attend closely and diligently to details, and we sent what we could, when we could and trusted to good luck. Those exporters who maintained the practice of bestowing unusual care or even reasonable oversight and watchfulness will be difficult to dislodge, unless prices and conditions of delivery and credit are made so much more attractive by others that American exporters cannot compete.

If there is anything but empty boastfulness behind our claims of ability to successfully cope with any nation in trade, it must soon be emphatically demonstrated before our foreign rivals get back to a normal commercial basis. Our generous wage scale has been justified on the oft-repeated assertion that our workers do more per man than those of any other nation,—which is true in some cases. This condition will serve us well when we compete in high class materials and goods in which quality will govern the price. Since the war labor exactions and political unrest in the countries of our competitors have been equalizing factors in our favor, but it is not conceivable that these conditions are permanent.

In the very nature of things there must be a restoration of economic "normalcy" at a future time. When that time comes the world's markets, other things being equal, will be controlled by the country best equipped to serve. The test will be service, and the nation which cannot or will not meet it fully and completely cannot expect to win. The

inexorable law of service is the arbiter which will determine failure or success. I predict the success of the American trader, for he is now nearing the conclusion of some costly lessons, and experience is yet a very convincing teacher.

### AN APPOINTMENT TO SERVICE

MU Chapter and the Fraternity have been honored by the appointment of Brother Richard P. Butrick as Vice Consul, assigned to the American Consulate-General, Valparaiso, Chile. It is very fitting that the same qualities of character and idealism which made him so successful as the Head Master of Mu should have led him to enter the Consular Service, and we are sure that he is admirably fitted for unselfish work of this kind.

His devotion to the Fraternity, his sound judgment and initiative, and his keen appreciation of the duties cast upon him as Head Master will linger long in the minds of the brothers with whom he was associated at Georgetown.

Although regretting his loss, Mu rejoices in the fact that another brother of Delta Sigma Pi has been added to the foreign service of the United States and that he will be a credit to his country and to his Fraternity.

RICHARD P. BUTRICK

### BOOKSHELF

Degelman, The Rev. George A., S. J., Ph. D. Delta.

Essentials of Psychology. (1921).

Brother Degelman is Head of the Department of Philosophy of Marquette University. The book is published by the Marquette University Press.

Reid, Wm. A., Mu.

Bolivia, the Heart of a Continent. (1918).

Seeing South America. (1920).

Both books are published by the Pan-American Union, Washington, D. C.

Taylor, Thomas Rothwell, Beta.

Stowage of Ship Cargoes, (1920): Miscellaneous Series No. 92, Department of Commerce.

## DEAN OF GEORGIA TECH SCHOOL OF COMMERCE

THE feature of the initiation held by Kappa Chapter on January 21, was the introduction into the mysteries of Delta Sigma Pi of John M. Watters, Dean of the School of Commerce of the Georgia School of Technology, as an honorary member.

JOHN M. WATTERS

Brother Watters is well known in both local and national educational circles. Previous to his going to Georgia Tech, he was head of the Commercial Schools of Hall-Moody Institute and of West Tennessee Normal. In 1917, he went to Georgia Tech as Dean of the School of Commerce which had about sixty-four men enrolled at that time. Now that enrollment is about 552 greater than in 1917. Today the enrollment of the School of Commerce is thirty-two per cent of the entire registration at Georgia Tech. Due to his efforts great developments are promised both in the School and also in another instance—the recognition of Southern business men of this institution.

---

 OBITUARY

IT is with deep regret that the death of Brother William J. Lyons is announced. Brother Lyons was born at Peace Dale, Rhode Island, on August 12, 1865, and died December 28, 1921. He was a graduate of Northwestern College, School of Commerce and Finance, receiving the degree of Bachelor of Commercial Science in 1914, and Master of Commercial Science in 1915. In 1916, he entered the College of Business Administration at Boston University as a postgraduate student and was one of the first men to graduate from the University as a Master of Business Administration. While at college, he served his class for several years as President.

Of Gamma Chapter, Brother Lyons was a charter member and was an indefatigable worker for the success of the Fraternity. He was also one of the chief workers for the establishment of the Boston Alumni Chapter but did not live to see his efforts rewarded. While older in years than his fellow-members, he was as young in spirit as the youngest, and he recognized in Delta Sigma Pi his idea of combining social recreation with scholastic and professional attainments. His loss to the Fraternity is indeed great. The memory of him will live forever in the hearts of them who knew him.

---

## INSTALLATION OF NEW CHAPTERS

### OMICRON, VANDERBILT UNIVERSITY

VANDERBILT University holds its foundation to the munificence of Cornelius Vanderbilt of New York, who, on the 27th of March, 1873, made a donation of \$500,000.00 and subsequently increased this donation to one million dollars. It was in this year that Vanderbilt University took over Central University and changed its name to the former.

Mr. W. H. Vanderbilt, son of the founder, made a special donation of \$150,000.00 in 1879 and later gave \$300,000.00 to the permanent endowment of the University. Since then the University has received further large gifts from members of the Vanderbilt family, from the General Education Board of New York, from Andrew Carnegie and many others.

The University Campus is in the West End, Nashville, Tennessee, two miles from the Public Square. The grounds, comprising seventy-six acres, are tastefully laid out in drives and walks, which are lighted by electricity, and are ornamented with flowers and about one hundred and fifty varieties of shade trees. Dudley Athletic Field is also on the campus, as well as the University buildings, dormitories and faculty residences.

In the Department of Economics, Commerce and Sociology, the degree of Bachelor of Science in Commerce is conferred on the students who complete twelve hours work in Commerce, and twelve hours work in the Department of Economics, Sociology, History and Political Science. The department, while only three years old, is one of the most popular departments in the school, and from its rapid growth, will very shortly be one of the largest departments of the University. It offers complete courses in the same subjects as offered by the large schools in the north.

Vanderbilt University has a very enviable reputation as an educational institution and, being situated in one of the leading cities of the south, with a population of 125,000, a great future can be expected of the new chapter, Omicron.

For almost two years, negotiations had been under way between this group of students at Vanderbilt organized by Mr. Lawrence C. Auten for the purpose of petitioning Delta Sigma Pi, and the general Fraternity. On January 29, 1922, Omicron Chapter was officially installed with the following charter members:

Lawrence C. Auten	Sewell C. Harlin	Norton B. McGaughy
Brownley O. Currey	Richard R. Houston	John M. Shevin
Alonzo M. Dantzler	Milton J. Jackson	John L. Templeton
Walker A. Garrott	Oliver W. Kuhn	Charles W. Waterfield

The installation team was composed of Brother H. G. Wright, Beta; William H. Peal, Eta, and Clarence S. Newton, Kappa. The initiation and installation was held in the afternoon with a banquet at the Hotel Tulane in the evening. After the Charge by the National President, a response was given by Brother Oliver W. Kuhn, Head Master of Omicron, and addresses of welcome by Brothers Peal and Newton.

## PI, UNIVERSITY OF GEORGIA

PI Chapter was installed at the University of Georgia, School of Commerce, Athens, Georgia, on February 18, 1922. The University is one of the oldest educational institutions in the United States and was organized in January, 1785. At that time a large tract of land was set aside to provide funds for the establishment of buildings and the organization. In 1800, the funds had reached over \$8,000 and Professor Meigs of Yale was elected President of the University. Since then the growth has been slow but steady. In 1822, the University had 120 students. The School of Commerce was established in 1912.

The registration of the University of Georgia is now between four and five thousand and that in the School of Commerce is close to four hundred and fifty students. The University is supported chiefly by state taxation.

The installation team consisted of Brother Warren Brooks, Gamma, and Brothers Clarence S. Newton, William B. Carr, Harry N. Levey, Edmund R. Morgan and Archibald D. Sessions, all of Kappa. The ceremonies took place at the Georgian Hotel and the traditional Delta Sigma Pi banquet followed the installation. Talks were made by Brothers Brooks, Chandler and Newton.

The personnel of the charter members is as follows:

P. K. Anderson	O. W. Chandler	Harris Jones
M. R. Bell	J. L. Davis	D. Owens
Sam Boney	B. Davison	J. M. Williamson
J. M. Broadhurst	E. M. Gurr	L. S. Winn

## RHO, UNIVERSITY OF CALIFORNIA

THE University of California was created in 1868 and has been spreading and growing at a tremendous rate since then, until, at the present time, it is considered the largest institution of higher learning in America. The total enrollment for the year in all departments is 20,522 with 1,768 officers and faculty members. The College of Letters and Sciences leads in the individual colleges and the College of Commerce is second in enrollment with over twelve hundred registered.

The organizations now existing in the College of Commerce other than Delta Sigma Pi, are Beta Gamma Sigma, Alpha Kappa Psi, Foreign Trade Club, Accounting Club, Commerce Association, and Gamma Epsilon Pi.

On March 12, at one of the fraternity houses on the Campus, Rho Chapter of Delta Sigma Pi was installed. The installation team was composed of John B. Guernsey, Alpha; Dennis A. O'Connell, Alpha; John A. Waldron, Alpha, and Hume G. Hunter, Mu.

Following the installation and initiation, the brothers proceeded to the Hotel Whitecotton where the installation banquet was held. At that time, congratulatory telegrams were read from the other chapters. Brothers Guernsey, Hunter, Gawne, and Hopkins gave short talks on the ideals and work of Delta Sigma Pi.

Professor Henry F. Grady was initiated as honorary member and the following charter members were also initiated:

Paul A. Bloomheart	Leland G. Harbers	Francis W. Neff
Wesley H. DeSellem	Olin E. Hopkins	Peter W. Owens
Belden S. Gardner	Edward R. Horton	Harry D. Rasmussen
Talcott Gawne	Milton C. Kennedy	Thomas R. Wilson
Francis Z. Grant	Robert E. King	Jay O. Withrow
	Allan A. Morse	

With the installation of Rho Chapter, Delta Sigma Pi reaches from coast to coast. The Chapter appreciates its wonderful reception by the brother chapters and it is determined to hold up its end of the great program of Delta Sigma Pi.

#### BOSTON ALUMNI CHAPTER

**S**TRENUOUS efforts during the past year on the part of Brothers Rosen and Mann to start an alumni chapter in Boston were crowned with success when, permission having been granted by the Board of Directors of the Fraternity, eleven brothers of Gamma Chapter met at the Gamma Chapter house on December 15, 1921, and established the Boston Alumni Chapter.

The by-laws which had been prepared by Brothers Rosen, Leidner and Barrows were adopted. Brother Beck of Beta, through his experience with the Alumni Chapter in Chicago, was of great assistance to the Committee.

The following officers and Executive Committee were elected: President, Harvard L. Mann, First Head Master of Gamma Chapter. Vice-president, William J. Magee, First Scribe of Gamma Chapter. Secretary-treasurer, Herbert Fallon.

Executive Committee, The President, the Secretary-Treasurer, and Brothers James P. Conway, John J. Harrington, and Walter E. Leidner.

The Chapter has at present the following members: James P. Conway, Royal M. Cutler, Thomas B. Donnelly, Herbert Fallon, Fred Giehler, John J. Harrington, William P. Husband, Jr., J. Leroy Jones, Joseph A. Kuebler, Walter E. Leidner, William J. Magee, Harvard L. Mann, Michael A. McManus, Arthur K. Pitman, Walter J. Rooney, Clarence B. E. Rosen, Ellis Smith, Henry G. Stone and William I. Warren.

Several of the brothers are widely scattered. Brother Warren F. Brooks is located at Atlanta, Georgia; Oliver J. Conway at Paris, Texas; Thomas B. Donnelly and William P. Husband, Jr., at Portland, Maine, and J. Leroy Jones at St. Louis, Missouri.

Plans are being made for monthly meetings at which we will endeavor to secure able speakers on timely subjects, thereby combining "exercise" for both the social and mental side of the brothers, and appealing to the character of our membership.

April 15, 1922.

Brother Robert J. Hyland, Alpha '15, has removed his public accounting offices to 126 Liberty Street, New York City.

Brother Clarence W. Wassam, Epsilon '20, talked before the Chicago Sales Congress of American insurance men on March 13.

Brother Roy H. Flamm, Mu '21, has been transferred from El Paso, Texas, to San Francisco, California, at 306 Custom House.

## CHAPTER LETTERS

## ALPHA, NEW YORK UNIVERSITY

**A**LPHA Chapter is coming down the home stretch of another year with full speed ahead. Eight men were initiated on March 4, and the active Chapter now numbers seventy-four men.

Activities have been moving along rapidly during the past month or so. The formal dance was held at the McAlpin in February and all the brothers present had a good time. Several smokers have been held with an average attendance of between eighty-five and ninety men. The Management Society, in which Delta Sigma Pi is largely interested, held a meeting on March 24. At this meeting, Brother E. St. Elmo Lewis spoke on "Selling—The Master Problem."

The Alumni Chapter has held two dinners since January, both being well attended. Mr. Keeley spoke at the first dinner on "The Problem of Russia" and Mr. Wagstaff at the last meeting on "The American Ship Subsidy Bill."

The Alumni Association of the School of Commerce gave a testimonial dinner to Dean Johnson in February to commemorate his successful completion of twenty years of service at the school. The Chapter was well represented there and Brother Comyns, '14, was Chairman of the Committee on Arrangements.

Among the coming events are an initiation on April 8, and the Spring Dance on April 22. Alpha Kappa Psi will give a smoker for Delta Sigma Pi in their remodeled chapter house on April 3. There is also a possibility of a basketball game between Alpha Chapter and the chapter of Alpha Kappa Psi in the near future.

As the school year nears its end, many of the brothers are working hard for they have their eyes on several honors. The Seniors are also determined that the coveted Delta Sigma Pi key shall be worn by one of the brothers this year. About twenty-five members of Alpha graduate this spring but if all the pledges and active men return next year, we should start off with about fifty active men. March 30, 1922.

## BETA, NORTHWESTERN UNIVERSITY

**T**HERE has been plenty of activity at Beta to keep the brothers busy since the last issue of the DELTASIG. The New Year was properly celebrated by a large party at the House. Prior to it, several brothers took in the Northwestern-Yale basketball game at Evanston and the men returned about 9:15. By 10:30, about thirty-five couples were in attendance. Several exciting stunts were had during the evening with a dinner served at mid-night, dancing until 4:00 A. M., and then breakfast.

The brothers have been particularly active in Commerce Club affairs. Charles Freeman put over the biggest dance in the history of the club on January 21, at the Drake. Over three hundred couples attended. The dance of April 1, was in charge of Pledge Evans and was very successful. There was no opposition to the brothers nominated to office for the coming year. Therefore, Elmer Lindstrom will be President of the Club; Thomas Hayward, the Financial Secretary; Joe Kane as

Treasurer, and Les Gooder, Coulter Davies, Charlie Munz, Al Tangwall, H. G. Wright and Gil Collingwood as Directors—a most able representation.

Four class presidencies and several of the minor offices are held by Beta men this year in addition to the President of the Student Council, Vice-president and Treasurer of the honorary society, Editor and Business Manager for the School of Commerce of the year-book, and also Editor, Business Manager and Circulation Manager of the monthly magazine of the Club.

Two initiations have been held, one on February 4, when Daniel J. Kelley, Louis Kerber, Jr., Royal McClaskey, Frank L. McKenna, Walter G. Nelson, John W. McManus, Charles E. Nourse and Edward E. Wilson, Jr., became brothers. On April 8, Laudell B. Coats, Malcolm G. McEachren, Alfred J. Dowe, Julius Westphal and John Shillestad were initiated.

Several smokers have been held at the Chapter House at which prominent speakers talked on timely business topics. The Chapter has launched a bond issue preparatory to erecting a house of its own and this has met the liberal response on the part of both the alumni and undergraduates of Beta. Business meetings are held alternate Monday nights, and luncheons every Thursday noon. A Ladies' Night was celebrated at the House on March 18.

BETA  
CHAPTER  
HOUSE

#### GAMMA, BOSTON UNIVERSITY

**W**E are on the second lap of the school year with every one going strong. For the first year, our house is running in good condition but we are going to make it better every day.

On Saturday, February 11, we initiated seven men into the mysteries of Delta Sigma Pi. These added fourteen men initiated since last November and another group to run through the gauntlet the latter part of April, will serve to make a good nucleus of men for the active Chapter next fall, although twelve will receive their degrees this coming June.

Boston University has its first university show this year. Brother Geake has a song in the musical comedy, "Zero." Among other activi-

ties, one of our pledges has been elected Captain of the baseball team. Brother Leone, a football letter man, was recently elected to the Skull, the Junior secret society, and Brother Pitts was elected to the Owl, the Senior secret society.

On February 21, we held an informal dance at the house and Brothers Fallon and Conway were hosts.

The Alumni Chapter is well under way and we are glad that we have a house for them to use and also the opportunity to meet our older brothers.

Several smokers have been held lately and the number of men at these smokers has been gratifying. We are getting an opportunity to look over a large group of fellows and thus pick out those who are best for Delta Sigma Pi.

March 30, 1922.

Bryce M. Lockwood, Head Master.

#### DELTA, MARQUETTE UNIVERSITY

DELTA Chapter has a handicap brought on by herself and one calling for the use of the wisest discretionary powers. "We hold these truths to be self-evident" however, that entrance into Delta Sigma Pi is met only by a true typification of the cardinal qualifications set forth in the preamble. Here is our dilemma. An honorary society exists in the Department of Economics and an all-University honorary society for the entire school. We have been referred to as the third because our members constitute a majority in the Banderole (Department), and the two eligibles last year and the two this year from the Department for admittance to the Alpha Sigma Tau Society (University) have been Delta Sigs, the two this year being Brothers Fuss and McCarthy. And Brother McCarthy has had the distinction of having been one of the four chosen from the entire University this year for the Harlequin Club, the University dramatic club. We groan under the weight of the handicap.

The Hilltop Four, however, cheers us up in our misery with good songs, having lately sprung into prominence by jumping into second place in the University quartets. Brothers Fuss, J. E. Vaughan, Janes and Miller claim they will be satisfied with nothing but premier honors. They have been busy in bringing good cheer to the Irish on St. Patrick's Day, to the Disabled Veterans, to Commerce Club meetings, to dances, smokers, etc.

And the Thursday noon luncheon has its hold here for one finds the boys gathering alternately at the Medford and Maryland each week for their noon day rations and the strengthening of good fellowship.

The foundations for two large business concerns in the future were formed recently within the fraternity, Brothers Watson and Denessen in their spare time consolidating for sales, and Brothers Handl, Nelson and Walkama in Auditing and Accounting.

On April 2, we injected new blood into the fraternity and feel that the physical and mental abilities of the newcomers represents the pick of the Department. By name they respond to Brothers Anderson, Freshman Class President; Broderick, titled the hardest working man in the Department; Cobeen, of the same sturdy stock as our charter Charlie; Knick, Cost Accountant; Lawless, all-around student; Hart, Economics, Orchestra, and Nellis, of football fame and a student. As part of their

pledge requirements, we insisted on a vaudeville act by the entire group and believe us, Deltasigs, if you want sport, have your pledges put on a play for you! Brother Al Englehard, who had the distinction of being Director of the Prom Play this year claims his efforts were nil in comparison with the efforts of the novitiates.

We believe it of extreme significance to mention that in the formation of the new Central Intercollegiate Conference, at Chicago, Brother Dean C. R. Atkinson was unanimously elected to prepare the constitution and by-laws of the new organization. It is but wisdom on their part, for the Dean is Faculty Representative on the Athletic Board at the University, has entire control over interdepartment athletics, and is the final authority in Milwaukee on parliamentary law. And he is, we are proud to say, as active a Delta Sig as it is possible for him to be.

Brother Geo. A. Degman, S. J., has had his book, the Principles of Psychology, in use as a textbook for some time here and has another book on psychology now ready for the press.

Our fraternity life in brief has been full of the best things such an organization can bring out. Our smokers have been numerous and the speakers most instructive. We usually have a smoker and a talk every other week followed by eats and a general good time. The advantages of fraternalism cannot begin to be appreciated until each chapter gets its own home. It is here that true spirit is molded and where man greets man and the results of this comradeship is the advancement of the University, the Fraternity and the individual.

April 1, 1922.

Carl W. Kleinheinz, Scribe.

---

#### EPSILON, UNIVERSITY OF IOWA

**W**ITH the school year nearly two-thirds over, Epsilon Chapter is putting in its best work to make this a record year. Every brother is putting forth his best efforts to aid also in the rapid development of the College of Commerce.

The Chapter is planning to hold a spring party early in May. Any visiting brothers from other chapters are cordially invited to attend at that time. If any brother knows ahead of time that he will be here then, advise us beforehand and we will fix up a good "date."

Our recent pledges include William F. Burney, an instructor in the College of Commerce, Raymond J. Peterson, Editor-in-chief of the HAWKEYE, George F. Gronewald and Darwin P. Staley. The two latter men are Juniors in the College of Commerce. The latter is also a member of the Order of Artus.

Brothers Jacobs, Benz and Carpenter were recently elected to the Order of Artus. Also Brothers Penningroth and Carpenter, and Pledge Burney were elected to Beta Gamma Sigma.

Professor C. O. Ruggles of Ohio State University, formerly Director of the School of Commerce here, was the principal speaker at a Commerce dinner held on March 21. He also delivered a series of lectures on Transportation and Public Utilities during the week in the University.

"Le Mart", the first annual party of the College of Commerce, was held at the Women's Gymnasium on Saturday, March 25. Decorations for the dance were in the form of a French Cabaret with punch served

from bottles by typical French waiters. The crowd was entertained between numbers by a troupe of clever dancers from Cedar Rapids.  
 March 30, 1922. Christian F. Dondore, Scribe.

ZETA, NORTHWESTERN UNIVERSITY (*Evanston Division*)

ZETA Chapter, having initiated thirteen men on February 12, has made plans for the future which bid fair to be a milestone in the history of the organization. The men initiated on that date were:

Lester M. Branch	Arthur C. Ehlers	Reding Putman
E. David Corbett	Harold M. Mikkelson	Arthur F. Reed
Guy W. Davis	Harold M. McKenzie	David B. Rost
David D. Dillman	Dennison C. Paden	J. Wythe Walker
	James J. Patterson	

With the initiation of these men, new officers were elected and definite, progressive plans were outlined for the future work of the Chapter. Every second and fourth Thursday we are holding luncheons at 12:25 P. M. at the North Shore Hotel. At these luncheons we plan to have a program prepared by the brothers who are especially fitted to discuss a certain branch of commercial activity.

Also we hope to establish lines of contact with business houses in Chicago and the vicinity which we expect will be an aid to us in the future. In addition to the Thursday luncheons at which we expect to entertain rushees and members of the faculty, we will have a monthly business meeting at a time and place to be decided. A committee has been appointed to arrange plans for a dance to be held in the near future. We expect all of these ideas to help pull us together and not only will each of us receive benefit, but each will be giving benefit to all the others—a debit for every credit.

At the recent election of Beta Gamma Sigma, four of our initiates were elected into the organization: Brothers Davis, Dillman, Patterson and Rost. With Brothers Carr, Corbett, Hartz, Lasier and Weeden, Zeta of Delta Sigma Pi is practically the mainspring in this chapter of Beta Gamma Sigma.

Brother Patterson, football captain, has had his men out working hard, but he broke down under the strain of the many load factors and is at present laid up with inflammatory rheumatism. He, therefore, deserves the well wishes of every brother. Brother McKenzie, basketball Captain, finished the season as one of the high point winners of the conference. Other Zeta brothers are prominent in school activities too numerous to mention. We are all going straight ahead and carrying our ideals before us.

March 27, 1922.

David B. Rost, Scribe.

ETA, UNIVERSITY OF KENTUCKY

THE last three months have been stormy and strenuous ones at the University of Kentucky. The fight against Darwinism which is being agitated over the country and especially in the South, broke with full force against the University. The opponents of the doctrine of evolution tried to pass a law prohibiting the teaching of the theory in all state institutions and also tried to defeat the appropriation for the Uni-

versity. They were unsuccessful in both attempts.

That the anti-evolution bill was defeated is a proof of the disinterested work of the faculty, students and alumni. The fight for more money also enlisted the active efforts of the students. Although the Governor vetoed the items gained by the school above those recommended by the Budget Commission, the fact that it passed the Legislature is proof of the growing power of the students and alumni.

In this contest, there was no organization in the School more conspicuous than Eta Chapter of Delta Sigma Pi. When a selected committee of fifty students were sent to Frankfort, one of the brothers was in charge of the party and several others were members. One of our men made the first appeal to the Legislature and it was to one of our men that the task of getting a petition to the Governor was entrusted. Several trips were made to Frankfort by selected committees, and each time Eta Chapter furnished numbers out of proportion to its size in the University.

The brothers have not been losing any time in the many school activities. Brother Waites has been awarded a letter for a successful season on the varsity wrestling team. Brothers Tinsley and Jones are on the baseball squad. The latter received his letter last year. Brother Watson has been awarded a letter as Manager of the football team. He announces that the year-book, of which he is Editor, will be ready in a short time. Brothers Watson and Casner are planning to take up community service work as soon as they graduate in June. Our new assistant coach in baseball is Head Master Cooper who played with Little Rock last season.

Brother Dahringer and Mann are on the Men's Glee Club. Brother Wilhelm is out for track to add another letter to those already gained in football, baseball and track, he having three letters now. Brother McRee is the new Speaker of the Mock General Assembly. Brother Peal is on the varsity debating team and is at present writing editorials for the Kentucky Kernel, the student publication.

Each week we are in receipt of Brother Lovett's new acquisition, the Tribune Democrat, a newspaper published at Benton, Kentucky.

A striking situation on the standing of the members of Eta Chapter is shown by the list of students selected for "The Lanterns," a new fraternity organized in the General Assembly of the students to honor those who have done distinguished work in Political Science and in the General Assembly. Out of fourteen members, Eta contributed six: Brothers Tinsley, Allen, McRee, Anderson, Wilhelm and Peal.

On our activities calendar, as a chapter, we have a banquet, an initiation, a dance at the home of Dr. Edward Wiest, an honorary member, an inspection trip through the Lexington Public Utilities, and perhaps, an inspection trip to Cincinnati. We have entertained several of the Board of Commerce at our banquet. Several other affairs have been suggested but have not been definitely decided upon. We have however, made application to the student government for a date for our formal dance next year.

March 30, 1922.

William H. Peal, Scribe.

## IOTA, UNIVERSITY OF KANSAS

IOTA is planning to finish this year "on high" and start next year off with a jump. In other words, we expect to get a house. An investigating committee is working now on the problem and we expect to hear from it soon. It will be a move which will serve to put us well in the lead of the other commercial fraternity here, Alpha Kappa Psi.

An initiation was held after the Thanksgiving vacation at which thirteen neophytes were admitted into the Fraternity. They were as follows: T. M. Hussey, Andy McDonald, Sam Boyer, Archie Larkin, Harry L. Stover, George L. Bracken, George Esterley, William J. Campbell, Paul Wunsch, David C. Mackie, Anthony Oates, Dwight Norris and Harvey Walker.

At present Iota has thirty brothers and four pledges. On March 28, a smoker was held for the purpose of finding more men of good material for our organization. The men are showing the old time pep and from now on watch Delta Sigma Pi grow at the University of Kansas. Even now we are attaining an enviable position in the department.

At intervals during the year we have had speakers come before the Department to give talks, all of whom have been business men who are authorities on business and kindred subjects.

Brother Paul O'Leary was recently elected to Phi Beta Kappa. Brother Andy McDonald has added another K to his list, this time in basket ball. Brother Edward Dickinson had a prominent part in the all-University play—"1200 A Year."

March 29, 1922.

Edward LaRue, Scribe.

## THETA, UNIVERSITY OF DETROIT

THETA recently held an initiation at which the following members were admitted into the Fraternity:

J. C. Hall	E. H. Oppat	E. Shanley
R. O. Hill	W. E. Perkins	R. P. Sheridan
W. C. Herz	L. T. Rademacher	H. M. Zerbe
E. P. O'Connor	J. C. Seaman	

The Thursday noon luncheons at the Board of Commerce are proving more popular every week. It is surprising how far some of the brothers will go to get back for a pleasant hour with their fellow members.

At a recent meeting Brother William Gregory was elected to go to Chicago for the Delta Sigma Pi convention next September as an official representative of Theta Chapter.

We doubt whether there is any one who has the interest of the Fraternity and the University of Detroit more at heart than Brother Carl H. Seehoffer. It is known that Brother Seehoffer is on the University Faculty and is an honorary member of Delta Sigma Pi. The subjects he teaches here are Industrial Engineering, Cost Accounting and Taxation. He also maintains a Public Accounting and Industrial Engineering practice. Besides having the degrees of L. L. B., B. C. S. and others, he is an active member of the Society of Industrial Engineers. At the twenty-seventh annual meeting of the Michigan Academy of Science, Arts and Letters held in Ann Arbor, Michigan, in March, he gave an address on "Industrial Stabilization", and in our unbiased opinion his

address received more attention than any of the others.

During the latter part of December, he attended on behalf of the University, the sixth annual meeting of the American Association of University Instructors. While in Ann Arbor, he spent several hours at the XI Chapter House where he gave a short talk to the brothers there on the "Duties and Qualifications of a Public Accountant."

Theta Chapter is planning to hold another initiation in the very near future. In order that the graduation of several of our brothers this June may not hamper the activities of the Chapter next year it is our intention to take in some new men from the lower classes in the University who will carry on the work already started by the older men.

Brother Wendel V. Hall has been confined at a hospital the past two weeks with a severe case of scarlet fever. For a time his case was quite serious but he is now convalescing and before long we expect to see him with us again. Brother Hall is one of the charter members and also one of the most active ones of Theta.

April 5, 1922.

Thomas A. Yager, News Editor.

#### KAPPA, GEORGIA SCHOOL OF TECHNOLOGY

**T**HE second year of Kappa Chapter will set a record for the future years of the Chapter to aim at in both the matter of receiving benefit of the organization and rendering it the necessary aid to make it a live wire in the School of Commerce.

Beginning with the year in September, the brothers have achieved many of the honors hoped for by the Tech students. To begin with, Brother Barron was the star of the football team and also was named as halfback on the third team of the selection of Walter Camp. He was also elected Captain to lead the football team through the campaign of 1922. Brother Barron is a recognized leader in athletics at Tech as shown by the fact that he is Captain of both football and baseball.

In basketball, Brothers Barron and McIntyre were prominent on the second varsity with great prospects of both winning their letters this coming fall. The latter won his letter also in football last fall. In track, the former is a letter man but on account of baseball this spring, he is unable to participate in track activities.

In baseball, there are six of the brothers on the varsity squad: Brothers Barron, Morgan, Liddell, Gasson, Edwards and Hill. How is that for an athletic showing?

Now that our stand in athletics has been shown, we will turn to other phases of our year's work. In Phi Beta Kappa, two of the three men chosen from out of the school were brothers, namely Brothers Sessions and Newton. We also hold a fine representation in Anak, the Senior honorary society, and in Koseme, the Junior honorary society.

The Chapter has had three dinners with good speakers at each. Also we have taken an important part in the installation of Omicron and Pi Chapters at Vanderbilt University and the University of Georgia respectively.

April 1, 1922.

Clarence S. Newton, Scribe.

## LAMBDA, UNIVERSITY OF PITTSBURGH

THE last half of the year, 1922, finds Lambda in fine shape in every way. All of the brothers are optimistic in seeing the Chapter making headway with the same "old fight" that prompted its installation less than a year ago.

Since the last issue of the DELTASIG, Lambda has initiated fifteen new members, three of the number being honorary; Professor L. I. MacQueen, Professor of Accounting; A. M. Replogle, United States District Attorney, and H. F. FlaHaven, Attorney at Law. All are on the faculty of the University. The other brothers to be introduced to the Fraternity are:

John F. Brill	Wm. G. Kerr	Howard M. Pierce
Lewis D. Cooner	Paul McCoy	C. H. Sanford
Frank H. Hohman	George E. Nay	Wm. Lewis Schmidt
Wm. D. Jones	Wm. F. Otto	Harold S. Wiegel

These men have brought into the Lambda a sort of new "pep" and good humor which has added materially to the activities. The Chapter is making rapid strides in its progress at the University. The accomplishments have been greater than was anticipated in the first year of its existence here. This is due, we believe, to the fact that Lambda has unanimously adopted a "Double-Quick" as the official step of the Fraternity for the year. There is a fine fraternal spirit manifesting itself among the brothers at all times.

There is every reason to believe that the membership here will be sixty or more at the end of the year. Much care is being exercised in seeing that the new men are absorbed and are properly imbued with the spirit which should mark a brother everywhere before others are initiated. However, "Pitt" is no small university and Lambda must be no small chapter. Hence, the enthusiasm which is marking the work of the Fraternity here.

Located as it is, half-way between New York City and Chicago, Pittsburg is an ideal location for a chapter. For that reason Lambda is in a position to further the interests of Delta Sigma Pi to a very high degree in the years to come. The membership is becoming very keenly interested in strengthening the Fraternity financially through an increased membership so that the dream of a chapter house may be realized in the near future.

We are holding semi-monthly smokers and business meetings which are attractive to the brothers in every instance. In addition to these meetings, we have had two dances which were very delightful affairs. Brother E. Krarup, Mu, was in Pittsburg on the occasion of a recent dance and was invited by one of the Lambda brothers to the dance, thereby making his stay in the "Steel City" a bit pleasanter. Incidentally, Brother Krarup instructed the taxi driver to take him to the Heinz House (meaning the Heinz House of the Campus) but the driver took him to the Heinz Pickle Factory. How pickled Brother Krarup still is we have not heard. We sincerely regret the mistake and hope that his next visit will be more fortunate.

The weekly luncheons, which are held in Kaufman & Baer's dining room on Sixth and Smithfield Streets, are proving welcome to the broth-

ers and we are sometimes honored by visiting brothers who are more welcome than they have yet had time to know. Drop in; the latch string hangs without.

We wish to extend our greetings to the other chapters of the Fraternity and wish them all the pleasures and good fortune attending the last half of a semester in university life.

April 1, 1922.

---

MU, GEORGETOWN UNIVERSITY

**T**HE outstanding event in the life of Mu Chapter since the last issue of the DELTASIG has been the acquisition of a chapter house located at 1412 21st Street, N. W. The house is well adapted to the needs of the Chapter and we are all very proud of it. The "log cabin" was officially dedicated with a dance on March 10, when about twenty-five couples were in attendance. A most cordial invitation is extended to all brothers who happen in town to pay us a visit. "Make our home your home while sojourning in the City Beautiful!"

Our smoker of February 4, at the University Club was voted the best in the annals of the Chapter. Mr. Ferrin, former American Trade Commissioner to Australia, gave an intensely interesting talk on the present economic conditions on that continent.

Thursday luncheons of Mu Chapter were inaugurated on February 23, at the Richmond Hotel. Because of the fact that nearly all of the brothers are employed in the government departments and only have a limited time at their disposal at noon, these luncheons are held on alternate Thursdays. Needless to say, they have proved to be exceedingly popular.

The first smoker of the second semester was held in our new home on March 18, at which about twenty prospective men were present. We hope to initiate about ten or fifteen men before the close of the school year.

March 25, 1922.

G. Stanley Shoup, Scribe.

---

NU, OHIO STATE UNIVERSITY

**R**USHING has been occupying most of the time of Nu Chapter since the opening of the second semester in February and, as a result, we are proud to announce the selection of seventeen men from the best in the College of Commerce. Smokers and weekly luncheons have served not only to get the active members better acquainted with the pledges but also with the rushees.

At the weekly luncheons, prominent members of the faculty of the College have given short talks on topics of special interest to the group. The enthusiasm with which these luncheons held each Thursday have been greeted is evidenced by the average attendance of over thirty men.

On Sunday, March 19, the following men were initiated into Delta Sigma Pi:

Ralph A. Beers  
William J. Bergen  
Hyatt Berry  
Dean A. Couch  
David H. Grossland

Charles A. Johnson  
Raymond Krieger  
Henry A. Krigbaum  
Howard C. Kuhnle  
Horace C. Maddux  
Clyde S. Rossell

Earl E. Sebring  
G. Arthur Snashall  
Earl B. Tilton  
Willis J. Wendler  
Edgar D. Ziegler

Brother Staples was elected to Beta Gamma Sigma, honorary commercial fraternity, and will be one of the charter members of the chapter. Brother Grant is Vice-President of the Junior Advertising Club and Historian of the Senior Class. He also finds time to warble in the Glee Club.

Brother Bangham is Vice-president of the Commerce Club and Brother Bergen is Associate Editor of the SUN-DIAL, the University humorous publication. Brother Wirthwein is Captain of the tennis team, while Brother Johnson will very likely win his letter in baseball this spring.

At the last meeting of the faculty of the College, a petition, that two rooms, in the new Commerce Building to be erected, be set aside for the use of commercial organizations was endorsed. The petition was signed by the representatives of the following organizations: Delta Sigma Pi, Alpha Kappa Psi, Commercial Club and the Junior Advertising Club. If the petition is approved by the Building Committee, one of the rooms will be a permanent meeting place for the various organizations while the other will serve as an office room.

March 21, 1922.

Elmer E. Eller, Scribe.

---

#### Xi, UNIVERSITY OF MICHIGAN

**S**ATURDAY, the eighteenth of March, will always be remembered as a red-letter day by the brothers of XI Chapter, for it marked the first initiation of new brothers since the installation last December. All together, six trembling Neophytes were introduced into the mysteries of Delta Sigma Pi.

The actual ceremonies were preceded by a week of strict probation for the pledges and many were the arduous tasks imposed upon them. XI Chapter is fortunate to possess a large chapter house, and all the pledges not living there already, moved in for their probation week. Many odd jobs around the house were done and the yard received a complete transformation under the hands of the lusty Neophytes.

The initiation commenced shortly after noon on Saturday. The first two Neophytes to be conducted through the mysteries of the Fraternity were R. A. Campbell, Treasurer of the University of Michigan, and Professor C. C. Edmonds, of the Economics Department. The four remaining pledges, Henry DeLa Cossitt, Jr., Gifford Spencer Adams, Leland John Kalmbach and Everett K. Welch then passed through the ceremonies.

At the conclusion, the hand of good fellowship was extended to each new brother. During the course of the afternoon, several brothers from Theta arrived on the scene and helped materially with the initiation. At six o'clock, the forty brothers sat down to a splendid banquet prepared by Brother Batchelor. The letters Delta Sigma Pi were cleverly outlined in roses and carnations on the tables and presented an artistic touch.

After appropriate remarks by Head Master Hart, the new members represented by Brothers Campbell and Edmonds were heard from. In reply, Brother Cochran gave a toast to the new men and emphasized the fact that a great opportunity for work in Delta Sigma Pi lay open to all

the brothers and especially to those who had just been admitted into the Fraternity. Brother Simpson of Theta then gave a short talk and told about the activities of his chapter in Detroit.

The Chapter plans to hold another initiation probably in June as several additional pledges have been selected.

April 1, 1922.

Harold John Potter, Historian.

#### OMICRON, VANDERBILT UNIVERSITY

**S**INCE the installation of Omicron Chapter, great has been its growth. Starting with a charter membership of twelve men, we now have on our roll twenty-eight active men and two honorary members. Great enthusiasm has been shown by all the brothers of the Chapter and all are pulling together as a single unit.

On March 2, the Chapter entertained at the Phi Kappa Psi House with a smoker for our pledges. On this occasion the eighteen men who are now brothers became acquainted with the fraternal atmosphere of Delta Sigma Pi. Brothers Kuhn and Auten, our Headmaster and Scribe respectively, made interesting and instructive talks on the ideals and purposes of the Fraternity and of the great benefit it would prove to the Commercial Department of Vanderbilt.

On March 9, at the Sigma Alpha Epsilon House, the Chapter held its first initiation, and eighteen men made the trip across the hot sands and are now wearers of the Purple and Gold. The initiation was very impressive, and lasted for nearly five hours. No Neopyte was rushed through but each was given due attention. The following are the names of the new brothers:

A. E. Bell	B. L. Finch	W. E. Powell
T. B. Butler	L. H. Hunt	J. B. Richardson
E. P. Carrier	H. A. Jackson	T. Sensing
G. W. Chahmlee	J. P. Lawrence	A. D. Sharp
A. B. Crow	H. C. Mixon	C. P. Street
	W. C. Morton	

Professors H. S. Coil and M. C. Gordon were initiated as honorary members.

Meetings of the Chapter are held every Thursday night and a schedule has been arranged whereby the Chapter has some prominent business man of Nashville to make a talk along the lines of the business in which he is engaged. These talks are very helpful and also of great interest.

Plans are now under way for a big dance to be given probably at the Hermitage Hotel in about six weeks. On this occasion the Chapter will be formally introduced into the social life of Vanderbilt.

The announcement of the Scholarship Key has caused a great deal of favorable comment in the University and we hope that it will be a big factor in increasing the standards of the Department of Commerce.

The Chapter is well represented in athletics. Two of the brothers are playing on the varsity baseball team and three on the varsity track team. In fact, each of the brothers has some roll in the different university activities and we feel sure that the Fraternity will be quite proud of the showing that Omicron is making at Vanderbilt University.

March 25, 1922.

L. C. Auten, Scribe.

*The International Fraternity of***DELTA SIGMA PI**

Founded at New York University

November 7, 1907

"A fraternity organized to foster the study of business in universities; to encourage scholarship and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce, and to further a high standard of commercial ethics and culture and the civic and commercial welfare of the community."
