Chapter at Georgetown University

FOUNDED 1907 * * * * AT NEW YORK UNIVERSITY

THE INTERNATIONAL FRATERNITY OF DELTA SIGMA PI

Professional Commerce and Business Administration Fraternity

Delta Sigma Pi was founded at New York University, School of Commerce, Accounts and Finance, on November 7, 1907, by Alexander F. Makay, Alfred Moysello, Harold V. Jacobs and H. Albert Tienken. The fraternity was organized to foster the study of business in universities; to encourage scholarship and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce; and to further a high standard of commercial ethics and culture, and the civic and commercial welfare of the community.

The DELTASIG of Delta Sigma Pi is published four times annually in the months of November, January, March, and May. Material intended for publication should reach the editorial office not later than the first of the month previous to publication.

Subscription price: \$5 per year.

Entered as second class matter, December 24, 1931, at the post office at Menasha, Wisconsin, under the act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in the Act of February 28, 1925, embodied in paragraph 4, Section 538, P. L. & R., 1932 edition

DELTA SIGMA PI is a charter senior member of the Professional Interfraternity Conference, organized in 1928 to encourage high scholarship, professional research, advancement of professional ethics, and the promotion of a spirit of comity among the professional fraternities in the advancement of fraternal ideals.

The members of the Conference comprise: ARCHITECTURE, Alpha Rho Chi. CHEMISTRY, Alpha Chi Sigma. COMMERCE, Alpha Kappa Psi, Delta Sigma Pi. DENTISTRY, Delta Sigma Delta. Psi Omega. Xi Psi Phi. EDUCATION, Kappa Phi Kappa. Phi Delta Kappa. Phi Epsilon Kappa. Phi Sigma Pi. ENGINEERING, Theta Tau, Sigma Phi Delta. JOURNALISM, Sigma Delta Chi. LAW, Gamma Eta Gamma, Delta Theta Phi. Phi Alpha Delta. Phi Beta Gamma, Sigma Delta Kappa. MEDICINE, Alpha Kappa Kappa. Nu Sigma Nu. Phi Beta Pi. Phi Chi, Phi Delta Epsilon, Phi Lambda Kappa, Phi Rho Sigma, Theta Kappa Psi. PHARMACY, Kappa Psi.

ALLEN L. FOWLER, Pennsylvania,
Grand President of Delta Sigma Pi

The Grand President's Page

WE ALL MAY WELL be proud of our collective achievement during the past college year. As pointed out in the summer edition of the *Alumni News*, many records were broken. Our five new chapters are indeed landmarks of progress. Fifty-two active undergraduate chapters represent a monument to productive effort. Our 1,823 new members and 323 new life members represent another high-water mark. The Eastern Regional Conference was a progressive step in the right direction, and is something that I hope can be repeated in other areas. Three-quarters of our chapters made the Honor Roll and one-third tied for first place in the Chapter Efficiency Contest with perfect scores of 100,000 points. I believe that these results are all-time highs, and certainly they reflect the splendid effort contributed by our active membership and coordinated by the Central Office.

This makes all of us happy and proud beyond words but, where do we go from here? There are several things that we must guard against and the most important is overconfidence. The fact that we were good last year should only serve to raise our sights and make us seek greater heights for the future. With the impetus of our added chapters our collective results should be better than ever this year. Confidentially, I set a goal a year ago of 60 active chapters by the end of my administration in September 1949. This means a total of eight

new chapters and reactivations for the current year. I set this goal rather quietly and with some trepidation, first because it seemed a little ambitious, and second because I was afraid I might be misunderstood and someone might think we were after size alone. The answer to the second point is clear in the light of the illustrious names added to our chapter roll during the past year. With respect to the first consideration, I am now stating the goal publicly and asking your help in its achievement. At this writing there are at least five, and probably seven, fine prospects for new chapters. There are at least three prospective reactivations. This does not leave much margin but, since all the prospects are of a highly eligible nature, and have evinced a real interest in Delta Sigma Pi, I feel encouraged. If and when any of you are called upon to aid in this expansion program we are counting on you to lend your active support.

It would be idle to say we have no weakness, and worse to do nothing about it. One of the things that I have observed in my contacts with the various chapters is that many of our members are not well informed as to all the things for which we stand, all the tradition that is behind us, and all the things that are available to our membership, both undergraduate and alumni. I am bringing this to your attention at the beginning of a new year because I believe the answer is in a more thorough indoctrination of pledges. The period of pledgship should be the most formative one of our fraternity life and things we are required to learn at that time will not be soon forgotten. I counsel each and every chapter to give serious thought to adequate planning of the pledge program and requirements with the firm conviction that it is one of the most constructive steps you can take. See that habits are formed that will result in a better understanding and appreciation of Delta Sigma Pi. Among other things, start sowing the seed at that time that will assist in the perpetuation of our fraternity by adding another Life Member.

In this troubled and uncertain period of world upset through which we are passing, it becomes more evident day by day that we, in this country of ours, are being called upon to justify and support our democratic way of life. I have expressed my views on this subject before, but I cannot help but say again that I believe our greatest contribution can be made by ever keeping before us those ideals to which we, as a fraternity, are dedicated and putting forth a militant effort in the direction of those goals. I commend to your particular attention the talk given by Brother Earl Bunting at the time of his initiation into Mu Chapter and which is reproduced in this issue of *The DELTASIG*. It is intelligent thought such as this that is essential to the preservation not only of our economy, but of our way of life, including the right to express in public our thoughts with respect to such matters.

Fraternal greetings and best wishes to everyone of you for a top year in every way.

Chapters Established at Tulsa University and Louisiana Polytechnic Institute

TWO SPLENDID ADDITIONS to the Delta Sigma Pi chapter roll were added last spring with the installation of chapters at the University of Tulsa, Tulsa, Oklahoma, and Louisiana Polytechnic Institute, Ruston, Louisiana, bringing the total number of chapters now in the great Southwest to eight, including Louisiana State University, the University of Oklahoma, Baylor University, the University of Texas, Texas

Technological College and Southern Methodist University. A development of schools of business administration in the leading universities in this area has had a greater impetus in recent years and, from the professional interest displayed by the students in these professional schools, the chapters in this area promise to be among the most successful in the entire fraternity.

Beta Chi Chapter at Tulsa

Our Beta Chi Chapter was installed on Sunday, May 9, 1948, in the School of Business Administration of the University of Tulsa, Tulsa, Oklahoma. Our petitioners, Alpha Beta Mu, have a fine record of achievement at this growing institution and our initiation group comprised 43 members, including the dean of the School of Business Administration and an honorary member, Eugene Lorton, editor of the *Tulsa World* and donor of the splendid new building recently completed in which the School of Business Administration is housed. All the installation ceremonies were held at the Tulsa Hotel with Grand President Allen L. Fowler, of Philadelphia, acting as the installing officer, and assisted by Past Grand President Kenneth B. White, of Dallas, Texas.

Representatives were in attendance from many chapters including undergraduate delegations from Oklahoma, Missouri, Texas, Baylor and S.M.U., plus the alumni who now reside in the Tulsa area. A delightful luncheon was served at noon. An informal program was also presented thus giving the members of our petitioning group and their visitors a chance to become acquainted. The ritualistic ceremonies followed throughout the afternoon under the able leadership of William R. Merrick, of the Dallas Alumni Club, followed by the installation banquet in the evening.

Grand Secretary-Treasurer H. G. Wright, of Chicago, served as toastmaster at the banquet. The speakers included Dean M. M. Hargrove, who reviewed the history and development of the School of Business Administration; Philip E. Stevenson, who spoke on the founding of Alpha Beta Mu Fraternity; and R. K. Lane, president of the Public Service Company of Oklahoma, Tulsa, who delivered a special and inspiring address on "Whither Our Freedom." As chief installing officer, Grand President Fowler presented the charter to Beta Chi Chapter and delivered a very impressive charge to the new group. Head Master Kenneth W. Popejoy received the charter for Beta Chi Chapter and responded with appropriate remarks.

Special recognition was made of Theodore W. Coover, an alumnus of our Chicago Chapter, now on the faculty at the University of Tulsa, who had contributed so much to the successful organization and development of our petitioning group. The ritual team comprised Grand President Allen L. Fowler, Beta Nu Chapter; Grand Secretary-Treasurer H. G. Wright, Beta Chapter; Past Grand President Kenneth B. White, Gamma Chapter; Theodore W. Coover, Alpha Psi Chapter; DeWitt W. Anderson, Zeta Chapter; James A. Kerr, Beta Chapter; William R. Merrick, Beta Iota Chapter; LeRoy R. Hayden, Alpha Beta Chapter and Rayford L. Moody, Beta Upsilon Chapter.

History of the University of Tulsa

On the day James Madison, President of the United States signed the document ordering the establishment of mission schools in Indian Territory, the University of Tulsa's history began. The advancement of education into the southwestern area was largely due to the work of the Home and Foreign Mission Board of the Presbyterian Church. At first many mission schools were established; however, many of them failed, and in 1894 three of the surviving schools were combined to found the Henry Kendall College at Muskogee, Indian Territory. This was the tangible result of the work of the missionary-teachers who envisioned the need for an institution to carry on the education of graduates of the high schools and academies of the area.

The college experienced a substantial growth during the first twelve years. Within this period, it had become a synodical college. Because of the rapid expansion, several members of the synod desired to locate the college elsewhere so that it might receive more adequate financial support and have a more central location. Several towns within the Creek Nation submitted bids for the college. Tulsa, then a town in the territory of the Creek Nation, made such an attractive offer of

land and financial support that the college was moved in 1907. One year later it occupied the present campus. In 1920 the Executive Committee of the Board of Trustees recommended that the name of the institution be the University of Tulsa. The synod approved the change of name, and the state of Oklahoma granted the university a charter on February 8, 1921. February 8 is, therefore, known as Charter Day and celebrated accordingly.

Great strides forward in the physical facilities during the next fifteen years saw the building of Phillips Engineering Building, Tyrell Hall, and McFarlin Library, all classically designed stone structures along the circle drive, and the erection of Skelly Stadium. Since 1936, the university has been under the capable leadership of Dr. C. I. Pontius, President, and a board of trustees composed of outstanding citizens who are interested in quality education for young men and women of the great Southwest.

The University of Tulsa is a fully accredited institution. It is included in the approved list of the Association of American Universities and is a member of the North Central Association of Colleges and Secondary Schools. Its pre-legal and pre-medical courses are approved by the American Bar and American Medical Associations respectively. It is on the approved list of the American Association of University Women. The university's petroleum engineering curricula are approved by the Engineers' Council for Professional Development. The university is a member of the Association of American Colleges and also of the American Council on Education. The university is now composed of: the College of Business Administration, the School of Law, the College of Arts and Sciences, the College of Fine Arts, the College of Petroleum Sciences and Engineering, the Division of Graduate Study, the Downtown Division, and the Summer School.

The Board of Trustees established the College of Business Administration in 1935. At the present time, it is efficiently directed by Dean M. M. Hargrove. The curricula of the College of Business Administration have the two-fold purpose of providing a technical training in business, and an educational background which will assist graduates to become business leaders and useful citizens. Upon completion of the new business administration building, Lorton Hall, the College of Business Administration will have the most modern and practical tool

possible for academic study. The forward look into the future expansion of the university's physical facilities seems bright with the new building program. Lorton Hall, donated by Mr. Eugene Lorton, president and owner of the *Tulsa Daily World*, is the new home of the College of Business Administration which will be occupied in June, 1948. The construction of the five-story building for the Downtown College Division and Law School is starting this spring. The Student Activities Building, a modern air conditioned social center containing lounges for faculty and students, and the largest ballroom in the city, has just been made available by the recent gifts from Mr. and Mrs. John Mabee for the construction of the John E. Mabee Hall for men and the Lottie Jane Mabee Hall for women. Plans for the Aeronautical Engineering Laboratory and a Petroleum Science Building are in the foundation stages.

College of Business Administration

When the Board of Trustees of Henry Kendall College decided in 1920 that the work of the institution should have a more definite relationship to Tulsa, it began expansion of the curriculum and changed the name of the institution to The University of Tulsa. The first step was the broadening of the work in economics and business administration. The studies of business increased until a Department of Business Administration was set up in the College of Arts and Sciences. Development of business training continued and in the fall of 1935, by action of the Board of Trustees, the College of Business Administration was established as a separate unit with Dr. A. M. Paxon as its first dean. The degree conferred was that of Bachelor of Science in Business Administration with options in accounting, marketing, secretarial administration, and general business. Soon thereafter a sixth major, business law, was added.

In January, 1944, Dean M. M. Hargrove replaced Dean Paxon as head of the college. Soon afterward the major of general business was discontinued, and in its stead the major of management was added. Graduate divisions of business administration have since been added, so that now students may earn a Master of Business Administration degree in the field of accounting and a Master of Arts in education. Since establishment in 1935, the College of Business Administration has

THE McFARLIN LIBRARY is the study center on the Tulsa University Campus.

Beta Psi Chapter at Louisiana Tech

Saturday, May 15, 1948, was the installation date of Beta Psi Chapter at Louisiana Tech, when Grand President Fowler, of Philadelphia, assisted by other Grand Officers and delegations from nearby chapters at Texas, Baylor and Louisiana State, and from the Dallas Alumni Club, came to Ruston to participate in the impressive ritualistic ceremonies instituting this chapter. The visitors were guests of the local chapter at a luncheon held on the campus at noon that day. The ritualistic ceremonies took place that afternoon in rooms set aside for that purpose in one of the buildings on the campus. A large enthusiastic crowd was present for the banquet in the evening, which was held in a large private dining room, in one of the university buildings. Grand Secretary-Treasurer, H. G. Wright acted as toastmaster. Dr. Claybrook Cottingham, president of the university, was a special guest of honor at the banquet and he officially welcomed Delta Sigma Pi to the Louisiana Polytechnic campus, promised it every cooperation possible, and wished the chapter success in the future.

Grand President Allen L. Fowler, of Philadelphia, was likewise the chief installing officer at this installation. He formally presented the Beta Psi Charter to the Head Master Lee E. Brown, who appropriately accepted it for the local group. Dean Burton R. Risinger, an alumnus of our Beta Zeta Chapter, outlined the history of the School of Business Administration and Economics, and its plans for the future, which include a special building of its own soon. Wade C. Smith, chapter historian, told of the founding and development of Beta Alpha Epsilon, our local petitioners. Talks were also made by Past Grand President Kenneth B. White, of Dallas, by Dr. Leo Herbert, chapter advisor to the new chapter, and by Karl D. Reyer, of Baton Rouge, Louisiana, a former member of the Grand Council of Delta Sigma Pi. The ritual team conducting this installation included Grand President Allen L. Fowler, Beta Nu Chapter; Grand Secretary-Treasurer H. G. Wright, Beta Chapter; Past Grand President Kenneth B. White, Gamma Chapter; Burton R. Risinger, Beta Zeta Chapter; Richard W. Bryan, Kappa Chapter; Karl D. Reyer, Nu Chapter; William R. Merrick, Beta Iota Chapter; LeRoy R. Hayden, Alpha Beta Chapter; Ray Q. Pierce, Beta Zeta Chapter and John F. D'Gerolamo, Beta Zeta Chapter.

History of Louisiana Polytechnic Institute

The Louisiana Polytechnic Institute was created by the General Assembly of 1894, and the institution was called the Industrial Institute and College of Louisiana. During the early years preparatory training was taught and the college work was restricted to the first two years. During these years the college affairs were under the control of a Board of Trustees with the State Superintendent of Public Education an ex officio member of the board. Later the Louisiana State Board of Education was established and the college was placed under the control of this board, which is the present arrangement.

With the great development of secondary education throughout Louisiana immediately following the first World War, the preparatory curriculum offered by the school was no longer a need of the state and was discontinued. The constitution adopted for the State of Louisiana in 1921 changed the name of the institution to Louisiana Polytechnic Institute and changed the college to a four-year college. The first Bachelor of Science degree was awarded under the new name in 1922.

The facilities of the institution continued to be built up and the curriculum and courses were being expanded throughout the 20's and early 40's, the college divided into six schools as follows: the School of Arts and Sciences, the School of

Business Administration and Economics, the School of Education, the School of Engineering, and the School of Home Economics and the School of Agriculture and Forestry. The present campus of Louisiana Polytechnic Institute comprises fifty acres within the city of Ruston, an adjacent tract of twenty-five acres just outside the city limits and an additional acreage located about one-half mile from the main campus tract and consisting of 352 acres. The college buildings number thirty-three and about half of these have been built in recent years. The athletic facilities consist in a football field and stadium, a practice football field, a baseball park, a hockey field, concrete tennis courts,

KEENY HALL, ADMINISTRATION BUILDING, at Louisiana Polytechnic Institute houses the School of Business Administration and Economics classes and the offices of its faculty.

and ample space for various other college sports and games.

Louisiana Polytechnic Institute is an approved four-year college, and a member of the regional association which in the South is called the Association of Colleges and Secondary Schools of the Southern States. It is also a member of the Association of American Colleges and the American Association of College Registrars. During the war, Louisiana Tech contributed all of its facilities to the war program. Special courses, including Engineering Science, and Management War Training, together with Laboratory Technician Training were given. The navy V-12 program was established here and a great many students were trained in Business and Engineering subjects in preparation for work in the armed forces. The college participates in all forms of athletics common to that area. It is a member of the Southern Intercollegiate Conference in football, in baseball, and in basketball.

Academically one of the principles of the Louisiana Polytechnic Institute which has meant the most to the faculty and students is the policy of maintaining a high faculty-student ratio. Each semester a special committee consisting of the six deans and the Director of Public Relations makes a study of the faculty needs of each department of the college and makes recommendations to the president concerning the provision of additional faculty members in the departments where needed. The number of students which may be satisfactorily handled in each course in the institution has been determined after careful study by this committee. Thirty students is the highest number set for any class. In some classes, the number is reduced down to as low as twelve. Using the figures adopted for the various classes, the committee determines whether or not additional faculty members are needed in each department.

MEMBERS OF BETA PSI CHAPTER, Louisiana Tech, installed May 15, 1948. FIRST ROW: (left to right) Wade Smith, Thurston Goodwin, Jr., Norman G. Preston (Beta Zeta), Burton R. Risinger (Beta Zeta), Lee Brown, Leo Herbert, Harry Bell, Roy Hurley, Claude Merlo, John Robertson, Jr. SECOND ROW: John Prudhomme, Richard Bryan (Kappa), James French, Claud Robinson, Jr., Henry Williams, Jr., Calvin Carpenter, Harvey Farley, Jr., Harold Robinson, John Riddle. THIRD ROW: Carl Kendrick, Jr., Hugh Mix, William Grobe, Jr., Robert Johnson, Clarence Gandy, Jr., Wilburn Chrisman, Herbert Davis, Jr., Fred Lord, John Norton, Mode Choate, Jr.

On this basis, the School of Business Administration, for example, was allotted seven additional faculty members last spring and employed these for the beginning of the fall semester. The committee's report for the current semester shows that this same school should be allotted six additional faculty members, for next year over what it has this spring. This plan of operation is unusual at the present time and it is felt that the maintenance of a high faculty-student ratio is resulting very much to the advantage of the students attending the college.

Louisiana Tech is located in a small town of about 10,000 people, which is experiencing a very severe housing shortage, and for this reason cannot absorb many students. The dormitory facilities of the college were being used to maximum capacity prior to the war and for that reason additional students could not be placed in them. The additional students coming to Tech have been those who have been placed in temporary structures which have been placed on the campus for Veterans. Because of these limited housing facilities, the college has had to turn away approximately 1,000 applicants each year since the end of the war. The total number of applicants for space in dormitories for next year has already exhausted all available space and a waiting list has been built up to approximately 800. In order to prepare for the demands of students to come to Tech, at least to some extent the state has appropriated money for an additional dormitory, and money is being requested for two additional dormitories together with some millions of dollars for additional structures.

School of Business Administration and Economics

The original act creating Louisiana Polytechnic Institute specifically mentioned the instruction of commerce as one of the purposes for which the institution was being erected. The first person to graduate from Louisiana Tech in 1897 was Harry Howard, who completed his work with a major in Business Administration. Later, after pursuing graduate studies at another institution, Mr. Howard succeeded Miss Mary Coleman as the head of the Department of Commerce at Louisiana Polytechnic Institute.

The Department of Commerce progressed steadily throughout the years that followed and by 1941, 336 students had received degrees in this field of study. It was in 1941 when the State Board of Education created the School of Business Administration and Economics and appointed Amos W. Ford as its first dean. The outbreak of World War II greatly reduced the enrollment in the School of Business Administration and Economics and the many plans for its expansion were temporarily tabled. The conclusion of the war brought about the resumption of these plans, and the appointment of Burton R. Risinger as its new dean. Since the war the budgetary appropriations by the state to the school, and the number of faculty members, have increased about 300%. The curriculum offered has been enlarged in each department until now the school has a very wide range of courses in accounting, economics, marketing, management and general business administration. At the present time the School of Business Administration and Economics ranks second in size in the entire university. The greatly expanded curricula and enrollment of the School of Business Administration and Economics, recently necessitated its division into four separate departments: accounting, marketing and management, general business administration and secretarial science.

The History of Beta Alpha Epsilon

One of the first important objectives in the mind of Dean Burton R. Risinger, when he came to Louisiana Polytechnic Institute in 1945, was the organization of a professional commerce fraternity. During his graduate, teaching and administrative life at Louisiana State University, he had become affiliated with Delta Sigma Pi, and on many occasions he had discussed with other members the possibility of establishing a chapter of Delta Sigma Pi at Louisiana Tech. While at the meeting of the American Association of Collegiate Schools of Business in 1947, he met Grand Secretary-Treasurer H. G. Wright, and also discussed with him the feasibility of a chapter at Louisiana Tech. He was encouraged and, in October of that same year, J. D. Thomson, Assistant Grand Secretary-Treasurer of the fraternity, visited Louisiana Tech and met with a group of students and faculty, advising them in the operation of a local business administration fraternity.

In early November, 1947, the local organization was well under way, had selected Beta Alpha Epsilon as their name, chosen Dr. Leo Herbert as their faculty advisor and completed their constitution. At this first official meeting the following officers were elected: Head Master, Lee Brown; Senior Warden, Roy S. Hurley; Junior Warden, T. S. Goodwin;

THE HOWARD AUDITORIUM is the center of many activities during the college year at Louisiana Tech.

Scribe, Harry M. Bell; Master of Festivities, C. W. Merle; Master of Ceremonies, John W. Riddle; and Historian, Wade Smith. The next item of business was a formal motion to petition Delta Sigma Pi for a chapter. This was passed unanimously in short order and a committee was appointed to prepare the formal Petition. Plans were also made to hold regular meetings on the first Tuesday of every month.

The first banquet of Beta Alpha Epsilon was held on January 8, 1948, at Montgomery's Steak House in Ruston, Louisiana. The principal speaker of the evening was the college president, Claybrook Cottingham, who welcomed the organization to the Louisiana Tech campus. Other meetings which followed featured Dr. E. G. Cornelius of the School of Business Administration and Economics at Tech, and Mr. Henry O'Neal of Shreveport, formerly president of the Shreveport Chamber of Commerce and a well-known businessman of that area at the present time. Beta Alpha Epsilon also made a business tour

of the Lion Oil Company, at El Dorado, Arkansas. Commerce Day was held at Louisiana Polytechnic in April and Beta Alpha Epsilon took a very active part in this activity. The development of their professional program and the rapidity with which they perfected their local fraternity gained them acceptance to Delta Sigma Pi in a minimum period of time.

The officers of Beta Psi Chapter are: Head Master, Lee E. Brown; Senior Warden, Roy S. Hurley; Junior Warden, Thurston S. Goodwin, Jr.; Scribe, Harry M. Bell; Treasurer, Lou J. Robertson, Jr.; and Historian, Wade C. Smith.

The undergraduate members of Beta Psi Chapter that were initiated on May 15 are: Calvin M. Carpenter, Mode Choate, Jr., Wilburn Chrisman, Herbert L. Davis, Jr., Harvey L. Farley, Jr., James L. French, Clarence P. Gandy, Jr., William C. Grobe, Jr., Robert W. Johnson, Carl B. Kendrick, Jr., Fred A. Lord, Claude W. Merlo, Hugh C. Mix, John M. Norton, John E. Prudhomme, John W. Riddle, Claud G. Robinson, Jr., Harold T. Robinson, and Henry J. Williams, Jr. Leo Herbert, Glenn L. Hodge, and Harold J. Smolinski were initiated as faculty members at this time.

VISITING GRAND OFFICERS and alumni present for the installation of Beta Psi Chapter at Louisiana Polytechnic Institute in Ruston, Louisiana. Delega-

tions represented the Dallas Alumni Club, and Beta Zeta Chapter at Louisiana State University.

Earl Bunting Becomes Honorary Member of Mu Chapter at Georgetown University

ON APRIL 24, 1948, Earl Bunting, managing director of the National Association of Manufacturers, became an honorary member of Mu Chapter. Mr. Bunting's initiation climaxed months of planning on the part of the executive committee of Mu Chapter, and this day was a memorable occasion; for, in addition to the initiation of Mr. Bunting, ten pledges became members and Grand President Allen L. Fowler honored the chapter with his presence.

Mu Chapter first became acquainted with Mr. Bunting when they sponsored him as a speaker at a student forum of the School of Foreign Service, Georgetown University, in the fall of 1947. At that time Mr. Bunting delivered an address upon national housing and related subjects. Following the address at the university, Mr. and Mrs. Bunting were guests of honor at a reception held at the chapter house. It was here that a mutual friendship began between Mu Chapter and Mr. Bunting which culminated in his initiation into Delta Sigma Pi.

The initiation ceremonies were held in the main ballroom of the Hotel Twenty-Four Hundred in Washington, D.C. Approximately 40 brothers were on hand to witness the ceremonies which were ably performed by the following ritual team: Will Hippen, Charles Quill, James Cunningham, George Cone, William Thoman, and Howard Salisman.

Earl Nash, an alumnus of Mu Chapter, was master of ceremonies at the initiation banquet. Brother Nash introduced other active alumni members who were present, including Dr. Joaquim de Coutinho, a member of the Georgetown University faculty. Grand President, Allen L. Fowler, vice regent of the School of Foreign Service, Thomas J. Murray, S. J. and George Taylor, head master of Mu Chapter, spoke briefly. Mr. Bunting, principal speaker of the evening, then delivered a timely address entitled "Let's Understand Free Enterprise." This excellent address, stemming from long and diversified experience with business conditions, appears in this issue.

Upon completion of this address, Mr. Bunting asked the

members of Mu Chapter to analyse this speech and offered prizes for the four best analyses. A total of 34 essays were submitted and those of Henry W. Eiring, John T. Doran, Will Hippen, Jr., and Henry C. Eisenbeiss were selected as the winners.

Earl Bunting

When a man in the public eye these days faces a battery of reporters at a press conference, his equanimity and sense of humor can be among his most valuable assets. Often as not, "loaded" questions are among those fired at him, and his very frankness could be his undoing.

Earl Bunting, Managing Director of the National Association of Manufacturers is well equipped with equanimity and good humor. And a good thing, too, for in the year (1947) he was NAM's president he was the man-on-the-spot in 77 separate press conferences in 46 industrial centers of the nation, held during an 80,000-mile coast-to-coast itinerary.

Many of these conferences included alert young reporters from high school and college publications. Mr. Bunting's inherent frankness and sincerity stood him in good stead when facing them—for, in his words, "those youngsters wanted the truth, and nothing else but!"

"Our youth today wants the truth about our economic system, its fundamentals, and the reasons why it is and will remain supreme over the economies of the slave states," Mr. Bunting maintains. "It is up to businessmen, who know the answers, to give them."

For a good many of his 55 years, Mr. Bunting has been giving the answers and, in a long and active business career, maintaining his interest in youth. Born in the farmland near Berryville, Ill., he supplemented his formal education with courses in engineering and business administration, and subsequently was to lecture at the University of Oregon.

After an apprenticeship as a surveyor's assistant, he moved into the field of construction engineering. His study of milling

MU CHAPTER AND GUESTS at initiation of Earl Bunting as an Honorary Member at Georgetown University on April 24, 1948. FIRST ROW: (left to right) Alvin Schopfer, Vincent Greenfield, Gerald Ryan, Leonard Pouliot, John Mitchell, Grand President Allen Fowler, Earl Bunting, Thomas Fahey, Ray White, John Rimback, Paul McBrearty, Henry Bischoff. SECOND ROW: Claude Desautels, Robert Reinhart, Joaquim de Coutinho, Thomas J. Murray, S. J., Donald Hanson, William Thoman, Robert Raisch, Joseph

Zapolski, Harry Eisenbeiss, Henry Eiring, George Taylor. THIRD ROW: Louis Zicker, Timothy Preece, Michael Burke, James Cunningham, Vaughn Mac Donald, David Poe, Earl Nash, Robert Grove, Paul Nelson, Elwood Barbee, John Wilson, James Thompson, Harry Emery. FOURTH ROW: Robert Davis, Joseph McNabb, Joseph McNamara, John McGrane, James Irving, Thomas Curran, Charles Quill, Andrew Gerolomi, Richard Haven, Howard Salsman, Alexander Nader, Will Hippen, John Doran.

operations in Oregon and the Northwest led to an interest in industrial engineering and he specialized in that field, forming the Portland firm of Earl Bunting & Associates, industrial architects and engineers. From 1913 to 1915, he was a partner in the firm of Bunting & Block, architects and engineers, LeGrande, Ore. For the next fifteen years, he was vice-president and director of Schwab Brothers Printing and Lithographing Company, Portland.

When in the early 1930's the irrigation districts of Oregon encountered financial difficulties, Mr. Bunting went on a mission to Washington for their benefit. After obtaining needed aid through the Reconstruction Finance Corporation which made the irrigation districts again financially operative, Mr. Bunting remained in the nation's capital to establish there his firm of

consulting and industrial engineering.

One of his early clients, the O'Sullivan Rubber Corporation, had suffered under the disadvantage of absentee management. He supplied the answers to its difficulties and thereupon was employed by the corporation first as director, then as general manager and in 1941 as its president. It was that position he left last May to become the Managing Director of the NAM, in which he had long been active. He remains a director of the O'Sullivan Rubber Corporation.

To the question most frequently asked by High School and College reporters—"How can we best combat Communism in America?"—Mr. Bunting answers: "By making our free enterprise system work even better than ever." And in his present assignment, he is dedicating himself to that accomplishment.

Let's Understand Free Enterprise

By Earl Bunting, Managing Director of the National Association of Manufacturers,
and Honorary Member of Mu Chapter at Georgetown University

This is the text of an address made by Earl Bunting at the occasion of his initiation as an Honorary Member of Mu Chapter of Delta Sigma Pi.

I THINK WE SOMETIMES let ourselves be drawn into a mistaken position—a trap—in discussing what the managed economy, or renewed price controls, or another wage rise would do to this country. We discuss them as if they were entirely matters of speculation because they are in the future. They also have a past—which their supporters would like us to ignore. They are so discredited as the Great Russian Experiment which was so sympathetically hailed thirty years ago by generous spirits who believed its promise.

As the first completely socialistic state in the history of the modern world, it was to rescue the working man from the oppression of capitalism and to establish him in personal dignity and security, surrounded by the good things of life. The demonstration is now complete that the socialist doctrine launched a century ago by Karl Marx is the greatest vehicle of power ever discovered to take possession of the common man. It entices him into a trap from which he cannot withdraw. When Socialism takes over an economy, it is astride all the ways whereby a man can earn a living. He must go along or die. The police see to that.

The pace and style of the repression depend on the native brutality of those who undertake it. The Russians are now very much in presence. But do you remember the Nazis? Their full name was the National Socialist Party of Germany. And even our British friends in more civilized terms are superimposing austerity on austerity, and proceeding at a more civilized pace away from economic freedom, but still intending to keep their political independence. Our undertaking to help them and the other friendly nations of Western Europe to hold off Russia, makes it vital for us to hold fast at home to our own economic freedom. It is what has made that help possible.

When the Second World War started, our economy was put

under complete government command. Imposing enough controls was no problem. It is customary to point to the wartime performance of patriotic businessmen as the proof that complete national control of the economy is the way to get production. Yet no one knows better than the industrialists who had to make sense out of the wartime commands of the economic controllers, how many of them were unconsidered, how many of them defeated their own purpose. Wartime controls had this effect—most producers of civilian goods, clothing, shoes, food and such, did a business divided between civilian supply and war supply. As costs increased and producers applied to the Office of Price Administration for permission to raise civilian prices to cover the costs, they were told no relief would be given so long as the combined costs of civilian goods and war goods enabled the producers to recover a fair aggregate. That meant the rising cost of civilian goods was carried on to the cost of war goods, where the government regarded price as no matter and where the excess war profits tax would keep the situation under control.

This civilian subsidy remains hidden in the war debt. Citizens who thought they were eating cheap beef, if they could get it anywhere under controlled prices, will be paying a supplement for that beef for a generation. The savings they thought they accumulated under this sort of price control will be taxed back from them as time goes on to pay the costs the debt concealed. This maneuver not only gave the civilian control of prices a false appearance of success, but it trapped industry in a postwar squeeze of profits under continued controls. War goods which had carried part of the civilian costs ceased, but civilian producers were expected to hold the line anyway.

It is illuminating that the Government, which had spent a year of postwar squeezing private profits toward extinction, gave the enterprise system a parting kick by freeing wages before prices. Then it suggested semi-officially from the Office of Secretary Henry Wallace in the Department of Commerce, that business had enough profits to afford a 25 per cent wage rise without raising prices. I call the suggestion "semi-official" because it was repudiated some months later after it had procured the first round of wage rises through industry-wide collective bargaining. In any company, when the pay is raised for the same output, the cost of the raise must be added to the price of the output unless it is taken out of the profit paid to the owners of the business or out of the taxation collected by the Government. The government, however, would not reduce its spending. The management, for reasons which I will discuss shortly, could not reduce its profit. Consequently the cost of

EARL BUNTING, Georgetown

the wage rise was added in full to the current asking price of the goods or services. So far, the market has paid the increased price and business has gone on. But the increased price of one company's product leads the purchasers in all other employment to clamor for increases in their own pay. They make up the price increase, meanwhile, out of their savings or borrowings.

As the rest of the working population, in private business or in government, catches up with the wage raise, the increase in prices becomes general. The price index of all commodities rises parallel to the general increase in hourly wage rates. Everybody is paid more money but the dollar becomes correspondingly less. The take home of real goods is the same as before the wage raise. The effect of the second wage raise on the wage-earner was the same. Both raises reduced the purchasing value of his savings and life insurance. They also left millions of public servants and white-collar workers further behind the pay raises, with diminishing savings. The operation, wage-raise-without-goods-raise, was futile.

The worker's contribution is sixty minutes of labor in an hour. The stockholder's contribution is the capital for machines, materials and management. The stockholder multiplies the worker's hands with machines and unloads his back. In his sixty minutes the worker makes more goods nowadays than he ever could with his unaided handicraft. When the stockholder takes home a share of the products proportionate to his stockholdings, he pays his own living expenses, and he can re-invest the remainder of the share in more machines, more materials, more management. It is not generally recognized that government spending is the real cause of labor's futile attempts to increase its purchasing power by a succession of wage raises without goods raises.

Let us recognize that whatever the government spends, its citizens must give up through taxation. Now let us examine what private capital gets out of the American economy and why. Corporate profits are defined by the tax law of the United States as the difference between the selling price and all the costs of the goods sold. The deductible costs are: materials, labor, rent, interest, and wear of all the business equipment—the wear being figured as a standardized yearly per cent of the original cost of the equipment. When these costs are deducted from the selling price they give the profits. Out of these profits the government first takes the corporate profit tax of 38 per cent. Then the corporation takes away the increasing cost of extending credit to customers and of maintaining inventory, together with reserves to cushion the operations of the enterprise. The amount of reserves is a matter of managerial judgment. If they could be paid out safely as dividends, they would be.

The 14,000,000 stockholders of all corporations in the United States are just as anxious to get more dividends out of the corporations as the labor force (of about the same number) is anxious to get more pay. Dividends are the end-point and residue of this accounting of capital operations and profits. It is important to have it understood on the one hand that retained capital costs are vital to the current operations of business. They arise from the current operations and they are given their proportions by those operations. They cannot be diminished without diminishing the business. On the other hand, dividends paid out are to insure the growth of business in the future as in the past. Dividends are compensation of those who ventured their capital in an enterprise. They are the incentive, if any, to venture further.

How rewarding the dividends are for venture capital is registered by the stock market. Stock prices have been sliding slowly downward since the middle of 1946. In the first quarter of 1947 and again this year, as annual reports and dividend declarations appeared, stock prices registered a pronounced sag. This, in spite of the fact that all corporate profits were

\$28 billions in 1947; but the government took \$12 billions in taxes, the corporations had to retain \$10 billions, and the dividends actually paid out were \$6 billions, and the dividends were again subject to high personal income taxes.

The President stated that the securities markets furnished less equity capital in 1947 than in 1946, and accounted for about only one-sixth of the new capital required during 1947. Business made large use of previously accumulated funds for expansion of output during 1947. These funds are approaching exhaustion. There is no means by which capital can be provided for the future industrial growth of this country unless it comes from individuals and institutions willing to risk their funds in equity investments.

The truth is that business failed to maintain its historic rate of capital formation from 1930 to 1945 and is still falling short at the rate of \$8,000,000,000 a year. Capital was not providing labor with the tools it needed, which they had been providing during the sixty years ending in 1929—during the average of those years capital formation having taken out of gross national product approximately 20% per year. This money was used for capital formation during that period of industrial growth, and until the incentive to risk has been restored to America it will be impossible for capital to be provided for the new tools, the new industries, the new processes which are awaiting investment.

During a century and a half, until 1929, the prices and profits and the flow of goods and services in this country were regulated by the free competitive market. In such a market, private capital alone does not decide the selling prices. They are finally decided only when the sales are finally concluded, by the buyer and the seller getting together. The ability of purchasers to purchase is fully provided in advance by the cost payments to labor, to government and to capital—including capital's expectation of a profit. As any profit is made final, it becomes purchasing power that catches up with the goods in the market. Capital as a purchaser behaves like any other purchaser.

The willingness to purchase, which must go with the ability to purchase if goods and services are to be sold, depends on the assortment offered for sale. The play of markets keeps the economy balanced between labor and capital, while both support government. All together, labor and government and capital constitute all the customers. A fair price is what is found by trial and error to keep the customers coming in. Fair pay is what will keep men coming to work. Fair profit is what will keep venture capital coming in. Taxes are whatever it costs to keep the government.

When OPA was taken off, we got prices that truly represented the cost of the goods and services purchased. Our dollar is at present the only money in the world which does that. For that reason, not only in the United States but everywhere else in the world, everybody wants dollars. At the moment the dollar is the visiting card of the one nation that has demonstrated we can get more out of a free economy than out of a controlled economy, and can get it more plentifully and in more honest relation to costs.

Under a politically managed, or controlled or collectivist economy, we never know what is going on for a variety of reasons. During the war we tried it and in varying degrees during the first attempts at a controlled exist from the war. The control figures for the entire economy are necessarily two or three months late. When they do turn up, they are of historic interest rather than a guide to action. The situation has changed meanwhile under its own momentum and under the adjustments made by individual businessmen who may be free to take immediate action.

The free individual acts on his own experienced judgment and on nearby data which he is used to handling. If the controller of the collectivist section of the economy acts at all—and usually he must act—he must also proceed on judgment.

INITIATION BANQUET OF MU CHAPTER, Georgetown, held in honor of the initiation of Earl Bunting, Managing Director of the National Association of Manufacturers. TOP: Speakers Table (left to right) Joaquim de Coutinho, Faculty Advisor; Thomas J. Murray, S. J.; Earl Bunting; Earl Nash; Grand President Fowler; Head Master George Taylor. BOTTOM: Mu Chapter members in attendance at banquet with speakers table in background.

But his judgment is not experienced, for the career of running a nation's economy is new. And for him there is no such thing as nearby data. If he hasn't the nationwide data, he has nothing of use. Experience during the wartime period of command economy proves there is only one thing certain about his judgments and his orders: It is certain they won't fit most businesses or most businessmen.

His predictions are guesswork unless he is in absolute command of the entire economy. Then the predictions are a consolidated report of the orders he has issued. Their correctness is only as good as his discipline. Their results may not be good at all. Our wartime experience—the current experience of Britain—shows that control is an all-or-none proposition.

In a highly developed economy, like a busy city, you can't regulate traffic on the avenues without also regulating it on the side streets. Every business in America is different from every other business not only with the impersonal differences that arise from occupation, location and size, but with the personal differences that arise from the fact that each business started with some individual and its growth has been individualistic in character—no matter how big it is now. Unless we reorganize each business to fit as standard parts into a patterned economy, and unless we breed a new generation of American businessmen who will behave as statistical units instead of individuals, any attempt to manage the American economy will be as wasteful as any mechanism put together with parts that were never designed to go together.

This discussion of the free market is far from ideologic. It is a recognition that collectivism has come from under cover, not only elsewhere in the world, but here also. It is emerging on a scale that represents a century of propagandism since Karl Marx decided after twenty years of further thought that capitalism could better be overthrown by infiltration. His advice was to plant key men in labor unions, government offices, information sources, educational institutions and vital public services. Now they are mobilizing their forces and their disciples; and they all seem to share a deep conviction that in this crisis we

should again have a managed economy in America.

Our American collectivists believe it will solve the problem of high prices and stop Russia if the president is made commander-in-chief of the national economy. If they really think that would help instead of hindering us in this crisis, they ought to notice that Russia has had a command economy since it was established thirty years ago, yet it has high prices and so little goods that it is desperate.

By now it is plain, if Stalin steals Europe, he must also knock out the United States. Otherwise he cannot be safe in the enjoyment of his loot, without maintaining a huge armed force that would drain his industrial power as he conquered it. We would be drained similarly. Let us recognize that in Russia we are resisting the consequences of piling one socialistic falsity on another and attempting to make them work by force. The system has not only corrupted the Russian economy but also the Russian nation, and now threatens the world.

While preparing to defend America and strengthen the world against further Russian aggression, we must not let ourselves be infiltrated by our domestic collectivists. They have done a comprehensive job of propaganda which is apparently as determined to make our economy an organ of Washington as Stalin is to make the economy of Europe an organ of Moscow. That is why a search for the common sense of wages and the cost of living is the primary task of self-control for agriculture, labor, business, government and the principal factors of our economy.

There is no other control device except self-control that will get a low cost of living out of an economy that is paying as we are for a past war and a prospective war of unprecedented cost. In our present situation, to promise a low cost of living under a managed economy is either mistaken or deliberately misleading. A managed economy can only bury our high costs in deficit financing or dam them up in regulations which eventually must let go under pressure. It is a faulty organization which we cannot risk at our center in this crisis.

I believe the free economy is the only device that will keep us strong enough to carry out our commitments, because it is based on a free market which will give us a balanced awareness of where we are at any moment.

It is the strong way because it is the honest way.

In that way let us use the weapon of common sense more than it has ever been used before. It is the chief mental armament of freedom.

Welcome to Baltimore in 1949

THE GRAND COUNCIL of Delta Sigma Pi has accepted the invitation from the Baltimore Alumni Club and Chi Chapter at Johns Hopkins University to come to Baltimore for the Seventeenth Grand Chapter Congress, to be held on September 7, 8, and 9, 1949.

Baltimore is a city which counts its riches not only in smokestacks, factory wheels and ships that sail the seven seas, but also in hallowed memories and tradition. Among her possessions are some abiding landmarks of our country's history, and the State of Maryland is a delightful geographic miniature of America. Baltimore's appeal to visitors is varied and distinctive. If one is looking for history and education, for the quaint and the unusual, for science and industry, for the things of commerce and the sea, or for sport and recreation, Baltimore can provide them in ample measure.

Only he who visits the city will find the charming intangibles of hospitality and gracious living. In Baltimore, "southern hospitality" is more than just a glib phrase; more than a mere subject of conversation. Here you will find that every Baltimorean takes great pride in extending a hearty welcome. Everyone considers it his own personal duty, and none shirks this duty, to make a stranger's visit a pleasant one to be remembered for a long time.

A program has been prepared which will make the seventeenth one of the most constructive Grand Chapter Congresses in Delta Sigma Pi history. Joint panels, with alumni and undergraduates participating, are planned to discuss those problems in which both have a vital interest. Separate panels, running concurrently, will be held in order to consider those problems which are of interest to the undergraduates only, or the alumni only. Many interesting innovations are planned which will make this convention educational and beneficial to all Deltasigs who attend.

Plans are also being made to provide a bit of fun. Entertainment and relaxation in the traditional Baltimore style will await those who attend the Seventeenth Grand Chapter Congress. The ladies won't be forgotten, so bring your wife along. A full schedule of entertainment and amusement will also be awaiting her. Those who attend will have an opportunity to visit many pleasant, interesting and historic points, some of which are in the city, others within a few hours travel from Baltimore, either by automobile or train. For example:

Fort McHenry, where the first and only invasion of this country by a foreign power was smashed, and where our national anthem "The Star Spangled Banner," was written by Francis Scott Key.

Federal Hill which provides an excellent view of Baltimore Harbor, the second largest port in export tonnage in the world.

Washington Monument, the first monument in memory of the Father of our country.

Annapolis, a beautiful, old, historic city, 28 miles from Baltimore and the home of the United States Naval Academy.

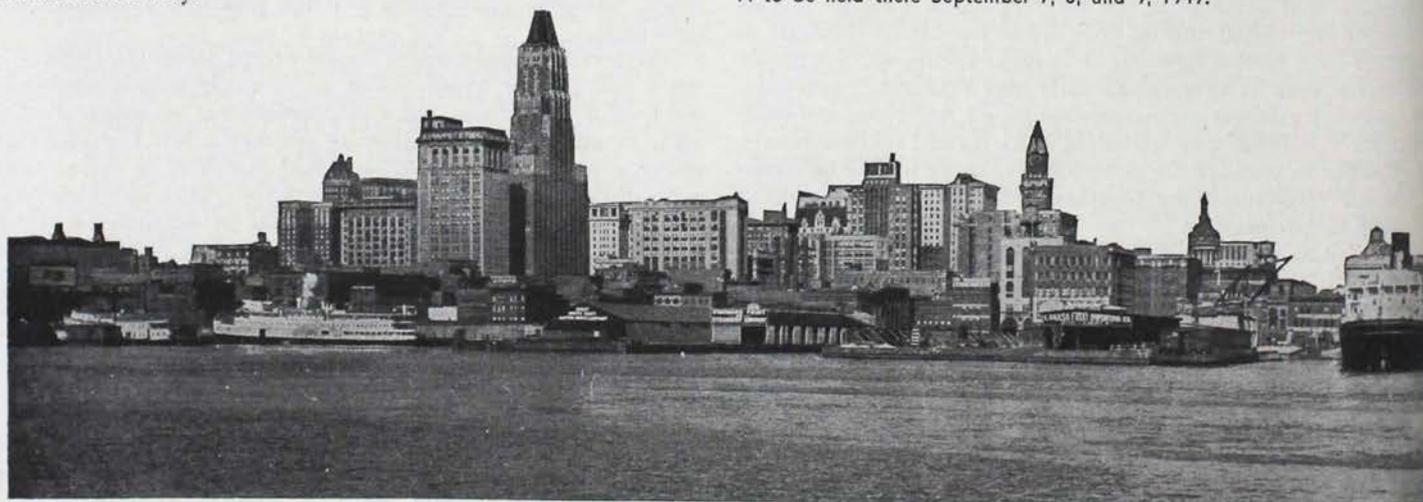

OF GREAT HISTORIC IMPORTANCE is Fort McHenry at the entrance to Baltimore Harbor. It was there that the first and only invasion of this country by a foreign power was smashed, and there that our national anthem, The Star Spangled Banner, was written by Francis Scott Key.

Washington, the nation's capital, 40 miles from Baltimore and a must for every American.

Historic Williamsburg, the colonial capital of Virginia, restored with infinite care to bring us an understanding of the mode of living of our forefathers.

It is not too early now to start planning your vacation for next summer. Make arrangements to attend the greatest Grand Chapter Congress that Delta Sigma Pi has ever had and, at the same time, plan to enjoy many of the pleasant and interesting places that are in the East within easy reach of Baltimore.

THE BALTIMORE HARBOR AND SKYLINE is one of the sites that will greet visitors to the Seventeenth Grand Chapter Congress of Delta Sigma Pi to be held there September 7, 8, and 9, 1949.

WITH THE

ALUMNI

THE WORLD OVER

Henry C. Lucas, Nebraska, Elected to the Grand Council

THE GRAND COUNCIL of Delta Sigma Pi, at its annual meeting in Baltimore in July, accepted with regret the resignation of Daniel C. Kilian, New York, and elected Henry C. Lucas, Nebraska, to fill his unexpired term of office. Brother Lucas was born in Omaha,

HENRY C. LUCAS, Nebraska.

Nebraska, the day after Christmas in 1904. He attended schools there and later received his B.S. degree in Business Administration at the University of Nebraska. It was while he was at the University of Nebraska, that he became a member of Delta Sigma Pi.

Henry's activities in Delta Sigma Pi have never ceased since the day of his initiation. He was on hand to play an important part in the installation of Beta Theta Chapter at Creighton in 1930, and shortly thereafter he was appointed a Province Officer, in which capacity he has served for many years. An outstanding chapter reactivation feat during the depression is accredited to him, and several other chapters were reactivated after the war as a result of ground work that he laid during his travels as an auditor and contracting officer for the army. Wherever Henry traveled, he made it a point to look up Deltasigs, and he became a regular visitor to the Chicago and the Twin Cities Alumni Club meetings.

At the present time Brother Lucas is in the advertising field, and is serving as auditor and office manager of Mathur, Inc., of Omaha, Nebraska. He makes his home in Omaha, and is the proud father of a girl eight and a boy four years old.

Father and Two Sons Members of Delta Sigma Pi

RUSSELL A. STEVENSON, the present dean of the School of Business Administration at Michigan, and his two sons, Robert and Harold are members of Delta Sigma Pi. Adding to this interesting bit of information is the fact that each is a member of a different chapter. Russell was almost a charter member of Epsilon Chapter at Iowa, being initiated one month after the chapter was installed in 1920. Robert was initiated in 1937 by the Alpha Epsilon Chapter at Minnesota and Harold was initiated last May by Xi Chapter at Michigan.

Elected Vice-President of General Mills

THE BOARD OF DIRECTORS recently elected Gordon C. Ballhorn a vice-president of General Mills. He had served as comptroller of the company since 1934. Brother Ballhorn graduated from the University of Wisconsin where he majored in accounting, and also became a charter member of Delta Sigma Pi at the installation of Psi Chapter on February 10, 1923. He joined the Washburn Crosby Company in 1921. Prior to that time, he was employed with the Four Wheel Drive Auto Company and the Topp-Stewart Tractor Company.

Alumnus Becomes Knight of St. Gregory

A KNIGHTHOOD of St. Gregory was conferred upon M. R. Kneifl, *Marquette*, at Cleveland, Ohio, on June 7, 1948. This honor was bestowed in recognition of Brother Kneifl's 25 years of service to the Catholic Church through his administrative work with the Catholic Hospital Association. He has been executive secretary of this association since 1929 and also is managing editor of the organization's magazine, *Hospital Progress*. He is assistant to the educational director for the Nursing School Evaluation Program and an assistant and lecturer in hospital administration for the summer school programs sponsored by St. Louis University.

In addition, Kneifl is secretary of the Catholic Physician's Guild, while taking an active part as member of the American Hospital Association, National Conference of Catholic Charities, National Catholic Educational Association, American Association of Hospital Accountants and the budget committee of the United Charities. He is also secretary of the joint committee of the American Protestant and the Catholic Hospital Associations.

Deltasig Alumnus Turns Fashion Editor

FASHION FEATURES SYNDICATE, a press service in the U. S. fashion world, was organized only two years ago by Ray A. Lajoie. At the present time, it handles fashion photographs, news reports, articles and features which are used by newspaper and magazine editors in the United States, Canada, eight European countries and South Africa.

Brother Lajoie attended Rider College and is an alumnus of Beta Xi Chapter. While still in service during the war, he began formulating plans for a picture-news service that would work exclusively in U. S. fashions. Because of his past work just prior to the war, as an artist and writer for several Connecticut publications, this field offered much to interest him. With a natural talent for art work, Lajoie finds pleasure and relaxation in sketching, pen and ink drawings and charcoal portrait studies.

Root Named Assistant to SMU President

TRENT C. ROOT, *Texas Tech*, assumed his new duties as assistant to the president in finance and administration of Southern Methodist University in Dallas, Texas, on July 1 of this year. Brother Root previously served as assistant to the president of Texas Technological College in Lubbock, Texas, and as dean of the School of Business Administration there.

TRENT C. ROOT, Texas Tech.

Brother Root is a graduate of Baylor University, holds a MBA degree from Harvard, and has done some research work at the University of Colorado. He is married and is the father of two children.

Writes New Accounting Text

HARRY A. FINNEY, *Northwestern*, a partner in the Chicago firm of Baumann, Finney & Company, certified public accountants, is the author of "Principles of Accounting, Introductory," the third edition of which Prentice-Hall will publish on June 23.

Sales of all of Brother Finney's books total well over one million copies. "Principles of Accounting, Introductory" and two others in this series by Finney, "Principles of Accounting, Intermediate" and "Principles of Accounting, Advanced," have been adopted, singly or in combination, in over 500 colleges, universities and business schools in the United States, Alaska, Canada, Hawaii, Puerto Rico, the Philippine Islands, and South America. Both the intermediate and advanced volumes are also now in the third edition.

Mr. Finney is also author of "General Accounting: Accounting for the Business Executive," "Corporation and Manufacturing Accounting," "Accounting Principles and Bookkeeping Methods," "Introduction to Actuarial Science," "Modern Business Arithmetic," with J. C. Brown, and "Mathematics of Accounting and Finance," with Seymour Walton.

He was professor of accounting at Northwestern University from 1920 to 1942. He obtained his Ph.B. at the University of Chicago in 1913 and did graduate work in accounting at Northwestern University from 1915 to 1916. He now serves part time on the Northwestern accounting staff.

Brother Finney is editor of the Prentice-Hall accounting series. He is a member of the American Institute of Accountants, the American Accounting Association, past-president of the Illinois Society of Certified Public Accountants, and Beta Gamma Sigma.

Elected to Federal Reserve Advisory Council

HERBERT V. PROCHNOW, *Wisconsin*, vice-president of the First National Bank in Chicago, was recently elected secretary of the federal advisory council of the Federal Reserve System. Brother Prochnow, who had been associate secretary for a number of years, has annually headed the school of bankers at the University of Wisconsin. This school is conducted for a period of two weeks and bank executives and officers turn students with visiting lecturers from government and industry.

Brother Prochnow is also an accomplished public speaker and author of a new book for public speakers entitled *The Public Speaker's Treasure Chest*. It is published by Harper & Brothers, and contains over 4,000 items to make a speech sparkle.

Deltasig Receives Second Doctor's Degree

MAURICE A. STRICKLAND, *Georgia*, Atlanta, received his second doctor's degree, that of Doctor of Medicine, this year from Emory University in Atlanta. This is interesting and significant because he already held a doctor's degree in economics received in 1938 from New York University. Brother Strickland's B.A. degree was obtained from Georgia in 1935, and his master's degree from New York University.

NEW BUSINESS BOOKS

Compiled by **KENNETH S. TISDEL**, *Alpha Chi*

Head, Circulation Dept., University of Missouri Library, Columbia, Mo.

The author's name in italics indicates that he is a member of Delta Sigma Pi.

Accounting

COMPROLLER: HIS FUNCTIONS AND ORGANIZATION, by Jacob H. Jackson, published by Harvard University Press, 107 pp., \$2.00.

A discussion of the development of controllership, desired qualifications for the office and organization policies. The author bases his theories on actual experience and cites examples from current practice.

ADVANCED ACCOUNTING, by Arnold W. Johnson, published by Rinehart, 509 pp., \$5.00.

Deals principally with those specialized and complex accounting problems of an advanced nature which are likely to be encountered by the active or prospective professional accountant.

ADJUSTMENT OF INSURANCE LOSS CLAIMS ON MERCHANDISE, by Leo Rosenblum, published by King's Crown Press, 205 pp., \$3.00.

A legal and accounting review of loss claims attributable to fire, burglary and other casualties, excluding marine losses. Includes accounting problems and procedures.

Advertising

INTRODUCTION TO ADVERTISING PRINCIPLES AND PRACTICE, by Thomas E. Maytham, published by Harper, 412 p., \$6.00.

A comprehensive survey of the advertising field illustrated with many examples of the various phases.

CUTTING ADVERTISING AND PRINTING COSTS, edited by Printer's Ink, published by Funk and Wagnalls, 407 pp., \$5.00.

More than 500 ways of saving money and increasing the effectiveness of printing and advertising operations.

SMALL SPACE ADVERTISING, compiled by the editors of Printer's Ink, published by Funk and Wagnalls, 260 pp., \$4.00.

Practical ideas and techniques for the use of small advertisements with sound and effective results. Covers the various aspects of copy, art, uses, layout, media, coupons and testing.

Business Writing

ACCOUNTANTS' WRITING, by John M. Clapp, published by Ronald, 223 pp., \$3.50.

This book provides guidance in effective writing of reports so that they will be understandable to the layman. The author shows how to develop skill in stating thoughts and facts simply through an examination of current reports, letters, and memorandums submitted by representative accounting firms.

HANDBOOK OF BUSINESS LETTERS, by Lester E. Frailey, published by Prentice-Hall, 1311 pp., \$12.50.

A comprehensive manual on all types of business letters designed for their improved writing.

EFFECTIVE LETTERS IN BUSINESS, by Robert L. Shurter, published by McGraw-Hill, 233 pp., \$2.00.

Clear-cut instructions for writing the more common types of business letters. Style, forms and samples of good and bad letters will enable anyone to use the suggestions effectively.

Industrial Management

ORGANIZATION AND MANAGEMENT, by Chester I. Barnard, published by Harvard University Press, 255 pp., \$4.00.

Selected papers on personnel relations, the democratic process, the nature of leadership, concepts of organization, planning, education of executives, and status systems in formal organizations. They are characterized by clear thinking on subjects fundamental to management relations in general.

WHY MEN WORK: TOWARD UNDERSTANDING IN INDUSTRY, by Alexander R. Heron, published by Stanford University Press, 206 pp., \$2.75.

A study of the different reasons why men work and the incentives to labor, both economic and psychological, that can lead to fuller employment. The argument is for better management-employee relations and more employee participation in industrial planning. A challenging book, worth the study of every man who wants to get along better with the people who work with him.

MANAGEMENT OF MEN, by Ronald B. Shuman, published by University of Oklahoma Press, 221 pp., \$3.00.

Effective administrative techniques and the ways in which business men can apply them to industrial organizations with benefit.

Marketing

MARKETING OF SURPLUS WAR PROPERTY, by James A. Cook, published by Public Affairs Press, 220 pp., \$3.25.

A summary of the complexities involved, the obstacles to be overcome, progress to date, broad Government policies, and the operating policies and procedures of the War Assets Administration and its predecessors. Contains suggestions for more productive disposal methods.

HOW TO REDUCE DISTRIBUTION COSTS, by Richard D. Crisp, published by Funk and Wagnalls, 473 pp., \$6.00.

Practical application of sales-control and related techniques for solving sales management problems. The author tells how to increase sales effectiveness by reducing distribution costs.

L I F E M E M B E R S

THIS IS A PARTIAL LIST of the members of Delta Sigma Pi who have recently become Life Members of the fraternity. The balance of the names of the new Life Members will appear in the next issue.

- 1299 F. KENNETH HEMKER, *Alpha Chi*, Washington
 1300 RALPH E. KRUEGER, *Delta*, Marquette
 1301 DONALD L. WARREN, *Beta*, Northwestern-Chicago
 1302 GERALD J. PAULSON, *Alpha Eta*, South Dakota
 1303 FRANK O. WATT, *Beta Iota*, Baylor
 1304 EDWARD M. SZEDZIEWSKI, *Delta*, Marquette
 1305 GEORGE E. FORST, *Alpha Omega*, De Paul
 1306 EDWIN L. CHING, *Omega*, Temple
 1307 W. ARTHUR ALEE, *Epsilon*, Iowa
 1308 WILLIAM T. MARR, *Kappa*, Georgia-Atlanta
 1309 ROBERT M. ALLGOOD, *Alpha Delta*, Nebraska
 1310 FRANK A. GERACI, *Zeta*, Northwestern-Evanston
 1311 WILLIAM C. CHAFFEE, *Zeta*, Northwestern-Evanston
 1312 RALPH KING, *Beta Tau*, Western Reserve
 1313 NEIL W. HOVLAND, *Beta Rho*, Rutgers
 1314 FRED E. DRODGE, *Beta Nu*, Pennsylvania
 1315 CHARLES F. GIBBINS, *Beta Zeta*, Louisiana State
 1316 MARION W. SPRAGUE, *Beta Upsilon*, Texas Tech.
 1317 RALPH E. MOSLANDER, *Rho*, California
 1318 CLARENCE H. BLOEDORN, *Psi*, Wisconsin
 1319 HENRY B. GIBBS, *Alpha Sigma*, Alabama
 1320 A. J. HILL, *Beta Lambda*, Alabama Poly.
 1321 WILLIAM J. KIEFER, *Alpha*, New York
 1322 HAROLD W. GRENELL, *Delta*, Marquette
 1323 ANDREW D. JACKSON, *Beta Rho*, Rutgers
 1324 THOMAS W. EPPERSON, *Alpha Beta*, Missouri

 1362 S. RICHARD JOHNSON, *Beta*, Northwestern-Chicago

THE CENTRAL OFFICE REGISTER

THE FOLLOWING MEMBERS of Delta Sigma Pi have visited the Central Office since the last issue of THE DELTASIG. If there is no city shown after the name it indicates they reside in Chicago.

ALLEN L. FOWLER, *Pennsylvania*, Philadelphia, Pennsylvania; ROBERT L. SHANLEY, *Northwestern-Beta*, Des Plaines, Illinois; PAUL W. SIEGERT, *New York*, New York, New York; VERNON R. GRADY, *Michigan*, Ann Arbor, Michigan; JOHN SAKASH, *Penn State*, Plumville, Pennsylvania; FRANK VALENTE, *De Paul*; ROBERT R. BURRIDGE, *Missouri*, Cincinnati, Ohio; RICHARD E. HEBERT, *De Paul*, Oak Park, Illinois; LEONARD B. VRANICAR, *Iowa*, Milwaukee, Wisconsin; C. H. BLOEDORN, *Wisconsin*, LaCrosse, Wisconsin; CHARLES G. DOMEK, *De Paul*; EUGENE D. MILENER, *Johns Hopkins*, New York, New York; PHILIP J. EQUI, *De Paul*; LELAND M. COUCH, *Drake*; DONALD D. BOSWOLD, *Minnesota*; JOSEPH C. HEIDKAMP, *De Paul*; HAROLD F. ENGLER, *Northwestern-Beta*, Oak Park, Illinois.

JOSEPH S. A. GONZALEZ, *St. Louis*, St. Louis, Missouri; RUDOLPH H. WEBER, *Northwestern-Beta*; JAMES O. ROGERS, *North Carolina*, New York, New York; GERALD F. SCHILD, *Marquette*, Milwaukee, Wisconsin; LEE L. DAVIS, *New York*, New York; ANTHONY P. CARAVELLO, *De Paul*; ALCUIN W. LEHMAN, *New York*, New York; RAYMOND J. IEKEL, *Northwestern-Beta*, Evanston, Illinois; HAROLD F. ENGLER, *Northwestern-Beta*, Oak Park, Illinois; ROBERT J. BITTERLI, *Northwestern-Evanston*; RICHARD L. ALLEN, *Wisconsin*; ROYAL D. M. BAUER, *Missouri*, Columbia, Missouri; DAVID R. JONES, *Wisconsin*, Wilmette, Illinois; ROBERT O. LEWIS, *Northwestern-Beta*; JOSEPH J. REITER, *De Paul*; GEORGE ALEXANDER, *De Paul*; RAYMOND H. TIMMER, *De Paul*; WAYNE R. MICHELSEN, *Northwestern-Zeta*; WARREN E. DONEWALD, *Northwestern-Beta*; A. J. HILL, *Alabama Poly*, Auburn, Alabama; WALDO E. HARDELL, *Minnesota*, Minneapolis, Minnesota; BURDETTE G. MEYER, *Northwestern-Zeta*; JOHN M. OLIVER, *Northwestern-Zeta*; KENNETH F. KORN, *Marquette*, Milwaukee, Wisconsin; BRUCE FUTHEY, *Alabama*, East Lansing, Michigan; JOSEPH C. HEIDKAMP, *De Paul*; JAMES H. CONNER, JR., *De Paul*; JOHN R. GAVIGAN, *Detroit*, Detroit, Michigan; ERNST H. SCHULTZ,

Washington, St. Louis, Missouri; RUDOLPH JANZEN, *Minnesota*, Minneapolis, Minnesota; EDMUND J. NEUDICK, *De Paul*, Oak Park, Illinois; WALLACE G. HOLDSWORTH, *Northwestern-Beta*; THOBEN F. ELROD, *Georgia-Kappa*, Atlanta, Georgia; ROBERT C. CLASS, *De Paul*; JOSEPH J. VAN LIESHOUT, *Marquette*, Milwaukee, Wisconsin; PETER J. SKARBOVICK, *De Paul*, Arlington Heights, Illinois; BRUNO LAWSON, *New York*, Baltimore, Maryland; DONALD W. FALK, *Miami*, Hamilton, Ohio; CHARLES E. PLUMMER, *Northwestern-Beta*; MICHAEL J. JUDGE, *Pennsylvania*, Philadelphia, Pennsylvania; ERNEST W. PEGRAM, JR., *Georgia-Kappa*, Memphis, Tennessee; JASPER R. BROWN, JR., *Mississippi*, Oxford, Mississippi; ANDREW M. MCARTHUR, *Wisconsin*, Baraboo, Wisconsin; EDWARD BLAKE, *Denver*, Denver, Colorado; HENRY B. GIBBS, *Alabama*, University, Alabama; JOHN H. MCCARTHY, *St. Louis*, St. Louis, Missouri; FRANK R. MCCLUSKY, *New York*, Buffalo, New York.

M E R G E R S

CHARLES W. PUTNAM, *St. Louis*, on April 3, 1948, to Patricia Daly, at St. Louis, Missouri.

RICHARD H. OTTOLIN, *Northwestern (Chicago)*, on June 5, 1948, to Nancy Holden, at Oak Park, Illinois.

GEORGE T. DINSDALE, *Nebraska*, on June 12, 1948, to Elizabeth B. Dull, at Lincoln, Nebraska.

WILLIAM S. HUFF, *Missouri*, on July 17, 1948, to Alice Greer Van Horne, at Sikeston, Missouri.

ROBERT P. BISHOP, *Penn State*, on August 7, 1948, to Jeanette W. Knoepfel, at Cleveland Heights, Ohio.

EDWARD F. BRODIE, *Missouri*, on August 7, 1948, to Peggy Lou Malloy, at Honolulu, Hawaii.

THOMAS A. YANCEY, *Missouri*, on August 8, 1948, to Anna Catherine Wiles, at Bloomington, Indiana.

D I V I D E N D S

To Brother and Mrs. Howard B. Munger, *South Dakota*, on February 22, 1948, a son, David Howard.

To Brother and Mrs. Fletcher R. Armstrong, *Detroit*, on March 1, 1948, a son, Irwin.

To Brother and Mrs. Alonzo M. Buckler, Jr., *Georgia (Athens)*, on March 16, 1948, a son, Robert Harmon.

To Brother and Mrs. William D. Rhodes, *Missouri*, on April 18, 1948, a son, William Douglas, Jr.

To Brother and Mrs. Franklin V. Portell, *Missouri*, on April 19, 1948, a son, Kent.

To Brother and Mrs. David F. Wheeland, *Western Reserve*, on April 29, 1948, a daughter, Nancee Joy.

To Brother and Mrs. William J. Shortt, *Georgia (Athens)*, on May 8, 1948, a son, William Sidney.

To Brother and Mrs. Warren A. Sedberry, *Alabama*, on May 10, 1948, a son, Charles Stephen.

To Brother and Mrs. Gordon J. Chapman, *Missouri*, on July 18, 1948, a daughter, Elizabeth Nunn.

To Brother and Mrs. Marion W. Sprague, *Texas Tech*, on July 27, 1948, a son, Marion Wesley, II.

To Brother and Mrs. Max O. Shemwell, *Missouri*, on August 12, 1948, a daughter, Susan Mary.

To Brother and Mrs. Robert E. Bray, *Missouri*, on August 19, 1948, a son, David Barton.

Sixteen Chapters Score Maximum Points In 1948 Chapter Efficiency Contest

A NEW RECORD was established when sixteen chapters tied for first place in the 1948 Chapter Efficiency Contest. The chapters finishing with a final score of 100,000 points, the maximum, were: Beta, *Northwestern (Chicago)*; Kappa, *Georgia (Atlanta)*; Mu, *Georgetown*; Nu, *Ohio State*; Xi, *Michigan*; Pi, *Georgia (Athens)*; Chi, *Johns Hopkins*; Alpha Beta, *Missouri*; Alpha Delta, *Nebraska*; Alpha Nu, *Denver*; Beta Gamma, *South Carolina*; Beta Theta, *Creighton*; Beta Xi, *Rider*; Beta Omicron, *Rutgers*; Beta Pi, *Kent State*; and Beta Tau, *Western Reserve*.

This was the twelfth year that Kappa Chapter at *Georgia, Atlanta*, attained this goal and since 1932, the inauguration year of the Chapter Efficiency Contest, they failed only once to be one of the winners. Beta Chapter, at *Northwestern*, holds the next record with nine wins, while Alpha Beta at *Missouri* is close on its heels with eight. Eight chapters scored 100,000 points for the first time this year. They were: Mu at *Georgetown*, Nu at *Ohio State*, Alpha Nu at *Denver*, Beta Gamma at *South Carolina*, Beta Theta at *Creighton*, Beta Xi at *Rider*, Beta Pi at *Kent State* and Beta Tau at *Western Reserve*. Worthy of commendation is the fact that Beta Tau at *Western Reserve* was installed on October 18, after almost two months of the college year had elapsed, yet they emerged successfully. The other five chapters: Xi at *Michigan*, Pi at *Georgia (Athens)*, Chi at *Johns Hopkins*, Alpha Delta at *Nebraska* and Beta Omicron at *Rutgers*, having a perfect score, tied for first place in at least one other Chapter Efficiency Contest. The outstanding accomplishment of the 1948 Chapter Efficiency Contest is that 21 additional chapters made the Honor Roll by scoring 85,000 points or more.

Only eight chapters failed to make the Honor Roll and they came very close to it.

The Chapter Efficiency Contest was established during the college year 1931-32 and has definitely proven itself to be of real value in increasing chapter interest. It has also provided an adequate yardstick of measurement of chapter achievement. The Chapter Efficiency Contest is divided into five major divisions: Professional Activities, Scholarship, Membership, Finances, and Chapter Initiative and Administration. A maximum of 20,000 points is permitted in each division, thus a final standing of 100,000 points indicates a perfect record

for the year's work. Points are awarded for many phases of chapter activity such as professional meetings, individual and chapter scholarship, pledge training course, chapter publicity, contributions to The DELTASIG, the proper handling of finances, collection of dues, payment of bills, the initiation of an adequate number of members, attendance at business meetings, chapter publications, and the filing of important reports.

For the last two years, there has been a steady increase on the part of most chapters in their efforts to score a maximum of 100,000 points and we fully anticipate an even greater number of winners in the 1949 contest. Several chapters were installed or reactivated too late in the college year to participate in the 1948 Chapter Efficiency Contest, but they are now familiar with its requirements and are preparing to make a good showing in 1949.

1948 Delta Sigma Pi Chapter Efficiency Contest

1948 WINNERS

Life Memberships were awarded to the Head Masters of the 16 chapters who tied for first place in the 1948 Chapter Efficiency Contest:

- HENRY V. JANOWIEC, Beta, *Northwestern (Chicago)*
- BEN W. BINFORD, Kappa, *Georgia (Atlanta)*
- GEORGE K. TAYLOR, Mu, *Georgetown*

The Chapter Efficiency Contest was not conducted during the war years of 1943, 1944, 1945, and 1946.

Epsilon Chapter Sponsors Placing Service

(Continued from Page 18)

plan, told that if they would sign a promissory note that they could take a firm list and a data sheet to fill out. The reception to the idea was one of indescribable gratification to us who had been working so hard. Two hundred and fifty people, the exact number we considered would make the plan function most efficiently, signed pledges. The plan was going through!

You might wonder just why we were so interested in student placement at a time when there are supposed to be at least three jobs for

every graduate. An important reason ready been given, to knit our club closer together. Obviously, there are reasons. True, enough jobs were available to us to get; but the right job for the student was not so easy. Another reason felt that our University needed more placement service than it had. In the word got around the campus, the success of our plan, the administration up the ball and started to do next year the University developed an effective program for the entire University, and to a great extent because of the demonstration of student opinion through our Delta Sigma Service. Another important factor, which might sound to the casual reader, is the greatness of our University that placing men in the world were particularly good a little better chance of making our University.

Although the success of our idea going to secure photograph problems were just to secure photographs plan, a collection of firm lists had to had to be secured so type all the data sheets printers, and finally other things had to were not met by one sons because that we with all of us carrying working or taking. These problems were tion of every member.

The personal proof the printers by April given to each subscriber distribution while it kept to be bound in Saturday 25 members the pages for the 350 as to number of persuasive pressboard covers in leatherette, leather.

It is extremely regrettable that the tabulation system could not secure the results accurately. We do not know that these elementary letters from these companies were of our interest in them. Likewise pleased with Many companies sent the first time. Other our subscribers of

There were, however, Epsilon Chapter are The spirit of the cantly. This next year house once again. laboratory for our skills in advertising management, and in budgetary stay within our Iowa has taken on of the campus.

Eastern Regional Conference Very Well Conducted and Attended

ONE OF THE HIGHLIGHTS of chapter activity during the last college year was the Eastern Regional Conference, held in Philadelphia, Pennsylvania on April 9, 10 and 11, with Omega Chapter at Temple and Beta Nu Chapter at Pennsylvania serving as hosts. Over 100 delegates and members were in attendance, representing eight eastern chapters of Delta Sigma Pi. The Penn Sheraton Hotel, in Philadelphia, was the headquarters for the conference and registration was conducted on Friday evening, the first night of the meeting, at Beta Nu Chapter house. That same evening a get-acquainted party and reception was held in the attractive recreation rooms of the Beta Nu Chapter house. Before the evening was completed the Ancient, Independent, Effervescent Order of the Yellow Dog held a reunion and admitted to membership certain qualified brothers.

On Saturday morning the delegates again met at the Beta Nu chapter house for the opening business session of the conference. Grand President Allen L. Fowler welcomed the delegates and officially opened the program with appropriate remarks. The "Chapter Efficiency Contest," "financial problems" and "chapter administration" were discussed by the delegates during the entire morning session.

A luncheon was held in Houston Hall at the University of Pennsylvania where John M. Fogg, Jr., Vice Provost of the University of Pennsylvania, was the principal speaker. J. Palmer Lippincott acted as toastmaster. James D. Thomson, Assistant Grand Secretary-Treasurer of the fraternity from Chicago, spoke to the delegates on the national program of Delta Sigma Pi. The chapter panel of discussion was continued that afternoon in Houston Hall and the subjects of "pledging" and "membership" were covered. Colored movies of the Central Office, Deltasig Lodge and the Sixteenth Grand Chapter Congress were shown and this concluded the afternoon program.

The Burgundy Suite of the Penn Sheraton Hotel was the site of the dance held on Saturday night. Dates were provided for visiting delegates by the local committee, and the feature of the evening was the awarding of a battered bugle to the delegation of Beta Rho Chapter from Rutgers for their vocal rendition at the get-acquainted party the previous evening. Grand Council member, Robert G. Busse,

made the presentation on behalf of the Eastern Regional Conference Committee.

The final business session moved to Mitten Hall, at Temple University, and Robert L. Johnson, president of the university, made the opening address at that session. Topics for discussion were the "professional meeting," "chapter morale" and "chapter meeting attendance." One of the main actions of the conference was the adoption of a resolution to hold a similar regional meeting every other year, alternating with the year of the Grand Chapter Congress. This motion was made by the delegation from Alpha Chapter, at New York University, and was unanimously adopted. Plans for future regional conferences of our eastern chapters will be formulated at the Grand Chapter Congress by the various eastern delegates.

At the conclusion of this final business session, a luncheon was served in Mitten Hall, and the wives of many delegates were also invited to attend. Grand President Fowler closed the meeting with appropriate remarks and everyone was asked to visit the Omega Chapter house before returning to their respective homes.

The success of this affair was due primarily to the efforts of Robert Hughes, general chairman; Charles Watters and James Owens, co-chairmen; together with the following members who served on the committee: Earl Culp, Raymond Dion, Robert Gladden, James Love, Frank Komar, Robert March, Edward McLean, Matthew Parry, David Powell, Frederick Robinson and Willard Touchton.

The following members were in attendance at the Eastern Regional Meeting: *Alpha Chapter:* Martin Hannon, Thomas Keene, Bruno

Lawson, Richard Routh, Jr., Rodney Stahl and Ross O'Sullivan.

Mu Chapter: James Cunningham, Thomas Curran, Harry Eisenbeiss, William Hippen, Joseph McNamara, James Michaux, David Poe and George Taylor.

Chi Chapter: Whitney Bates, Albert Carey, Henry Feltham, James Fry, Edgar Jacob and William McGuire.

Omega Chapter: Stanley Chamberlin, George Dudlow, Heary Hochstrasser, Frank Komar, George Lloyd, James Love, Robert March, Robert Marsh, William McCullough, Joseph Messa, Erwin Meissner, James Morris, James Owens, Matthew Parry, James Peace, Charles Pegg, William Pollock, Eugene Preso, Edward Roberts, Frederick Robinson, Richard Sauder, Donald Scanlan, Anthony Smoluk, Carl Weed, Jr., William Williams, and Albert Zanger.

Alpha Gamma Chapter: Edw.n Manbeck.

Beta Nu Chapter: Charles Anderson, Howard Ayers, William Bater, Frank Beatty, William Bordihn, Addis Bowles, Arthur Brooks, Earl Culp, Albert DiGregorio, Raymond Dion, Edwin Ellis, Robert Evans, William Evans, Michael Falco, Allen Fowler, Grand President, Robert Gladden, John Gultinan, Alexander Grace, Robert Hughes, Edward Jones, John Jones, Ralph Jones, Michael Judge, Samuel Kindick, George Knatz, Palmer Lippincott, James Perdakis, David Powell, Stanley Richmond, William Sarka, Mardiros Serposs, Henry Straub, Frank Strong, James Taylor, Willard Touchton, Jr., James Waldron, Charles Walters and Monroe Williams.

Beta Xi Chapter: Francis Dowd, Herbert Klepper, Roger Lauback, Robert Newell, John Ritz and Francis Wylong.

Beta Omicron Chapter: Robert Brown, Robert Busse and Peter Meyer.

Beta Rho Chapter: William Graham, Menyhart Marko, Joseph McGinnis, Charles Spencer and George Whitmore.

James Thomson, Assistant Grand Secretary-Treasurer, was also in attendance.

Eastern Regional Conference

1. Registration at Beta Nu Chapter House.
2. Lunch is served at Beta Nu "Open House" to start conference.
3. Ross O'Sullivan, Alpha, presents a paper.
4. Beta Nu's cellar furnishes atmosphere for the "Open House."
5. "Are you a Yellow Dog?" asks Tom Curran of Mu.
6. Luncheon at Mitten Hall of Temple University.
7. Tom Curran answers questions asked about his paper.
8. Grand President Fowler welcomes delegates at Luncheon held at University of Pennsylvania's Houston Hall.
9. Speakers table at Houston Hall Luncheon.
10. Discussing the Conference at the Mitten Hall Luncheon.
11. Business Meeting held at University of Pennsylvania.
12. Bob Busse, Member of the Grand Council, presents trophy (battered bugle) to George Whitmore for that chapter's harmonizing at "Open House."
13. Formal Dance at Penn Sheraton Hotel.
14. George Whitmore, Beta Rho, discusses finances.
- 15 and 16. Luncheon at Houston Hall.
17. Panel leader Charles Walters makes a point.
18. Closing the Conference was the business session at Mitten Hall of Temple University.

CHAPTERS

The name of the University is followed by chapter designation and year of installation. Permanent chapter addresses and telephone numbers are shown wherever possible. Abbreviations used for the principal officers are: H.M. means Head Master; S.W. means Senior Warden; and Treas. means Treasurer.

ALABAMA (Alpha Sigma, 1926), UNIVERSITY OF ALABAMA, SCHOOL OF COMMERCE AND BUSINESS ADMINISTRATION, TUSCALOOSA, ALA.
 Province Officer: Wendell M. Adamson, University of Alabama, Room 175, Commerce Bldg., University, Ala.
 H.M. James W. Battles, 524 13th Ave., Tuscaloosa, Ala.
 S.W. John E. Taylor, Box 2378, University, Ala.
 Treas. Maurice F. Cox, General Delivery, University, Ala.
 Scribe Harold H. Hayes, Box 3084, University, Ala.

ALABAMA POLY (Beta Lambda, 1931), ALABAMA POLYTECHNIC INSTITUTE, DEPARTMENT OF BUSINESS ADMINISTRATION, AUBURN, ALA.
 Province Officer: Charles P. Anson, Chewacla Drive, Auburn, Ala.
 H.M. John B. Duncan, P.O. Box 1469, Auburn, Ala.
 S.W. Reuben H. Godfrey, 121 S. Gay, Auburn, Ala.
 Treas. James R. Johnson, Jr., 148 Burton, Auburn, Ala.
 Scribe David F. Guess, 232 W. Magnolia, Auburn, Ala.

BAYLOR (Beta Iota, 1930), BAYLOR UNIVERSITY, SCHOOL OF BUSINESS, WACO, TEX.
 H.M. Charles E. Everett, 609 Dutton, Waco, Tex.
 S.W. John P. Howard, 1015½ Speight, Waco, Tex.
 Treas. William L. Marshall, 1410 S. 5th, Waco, Tex.
 Scribe Joe R. Osborne, 1410 S. 5th, Waco, Tex.

BUFFALO (Alpha Kappa, 1925), UNIVERSITY OF BUFFALO, SCHOOL OF BUSINESS ADMINISTRATION AND MILLARD FILLMORE COLLEGE, BUFFALO, N.Y.
 H.M. Franklin A. Tober, 123 Highgate, Buffalo, N.Y.
 S.W. John M. A. Sorrentino, 112 Mariner, Buffalo, N.Y.
 Treas. George D. Kennedy, 759 W. Delavan Ave., Buffalo, N.Y.
 Scribe Primo A. Casagrande, 33 Cantwell Dr., Buffalo, N.Y.

COLORADO (Alpha Rho, 1926), UNIVERSITY OF COLORADO, SCHOOL OF BUSINESS, BOULDER, COLO.
 Province Officer: Robert S. Wasley, University of Colorado, Boulder, Colo.
 H.M. Graydon F. Dowis, Jr., 933 University Ave., Boulder, Colo.
 S.W. Pieter Hondius, 1505 University Ave., Boulder, Colo.
 Treas. Albert N. Porter, 1043 Pleasant St., Boulder, Colo.
 Scribe Wardner B. Crockett, 1111 College Ave., Boulder, Colo.

CREIGHTON (Beta Theta, 1930), CREIGHTON UNIVERSITY, COLLEGE OF COMMERCE AND FINANCE, OMAHA, NEB.
 Province Officer: Henry C. Lucas, 1823 Spencer St., Omaha, Neb.
 Chapter Club Room: 3019 California Street, Omaha, Neb.
 H.M. Frederick R. Jensen, 3621 Hamilton St., Omaha, Neb.
 S.W. Robert L. Stolz, 2859 California St., Omaha, Neb.
 Treas. Paul A. Rauth, 316 N. 26th St., Omaha, Neb.
 Scribe Richard F. Johns, Dowling Hall, Creighton University, Omaha, Neb.

DENVER (Alpha Nu, 1925), UNIVERSITY OF DENVER, COLLEGE OF BUSINESS ADMINISTRATION, DENVER, COLO.
 Province Officer: Kenneth L. Motz, 2284 Fairfax St., Denver, Colo.
 H.M. Roger H. Rosengren, 1133 York St., Denver, Colo.
 S.W. Clifford W. McCain, 1431 Glenarm, Apt. 404, Denver, Colo.
 Treas. Willard G. Bowen, 1272 Washington St., Denver, Colo.
 Scribe Jay N. Groom, 301 Bannock St., Denver, Colo.

DE PAUL (Alpha Omega, 1928), DE PAUL UNIVERSITY, COLLEGE OF COMMERCE, 64 E. LAKE ST., CHICAGO, ILL.
 Province Officer: Donald L. Ketcham, 6072 N. Neva Ave., Chicago, Ill.
 H.M. Anthony Caravello, 3141 N. Lotus St., Chicago, Ill.
 S.W. William T. Hart, 4046 N. Parkside, Chicago, Ill.
 Treas. Edward Harrigan, Jr., 2019 N. Harlem Ave., Chicago, Ill.
 Scribe Justin N. Liss, 1837 W. Evergreen Ave., Chicago, Ill.

DETROIT (Theta, 1921), UNIVERSITY OF DETROIT, COLLEGE OF COMMERCE AND FINANCE, DETROIT, MICH.
 H.M. John P. O'Reilly, 16883 Griggs, Detroit, Mich.
 S.W. Thomas E. Goodyear, 16874 Normandy, Detroit, Mich.
 Treas. Robert M. Mundock, 18010 San Juan, Detroit, Mich.
 Scribe Robert J. Elder, 5171 Fairview, Detroit, Mich.

DRAKE (Alpha Iota, 1924), DRAKE UNIVERSITY, COLLEGE OF COMMERCE AND FINANCE, DES MOINES, IOWA
 Province Officer: Merrill B. Dilley, Drake University, Des Moines, Iowa
 H.M. Larry R. Chamberlin, Bldg. 561A, Fort Des Moines, Iowa
 S.W. George A. Olsen, 1901½ Cottage, Fort Des Moines, Iowa
 Treas. Howard M. Scott, 312 E. 14th St., Des Moines, Iowa
 Scribe Robert Sutherland, 3814 Center St., Des Moines, Iowa

FLORIDA (Beta Eta, 1929), UNIVERSITY OF FLORIDA, COLLEGE OF BUSINESS ADMINISTRATION, GAINESVILLE, FLA.
 Province Officer: Grover C. Harvard, 562 King St., Jacksonville, Fla.
 H.M. Lawrence R. Scott, Box 2269, University Station, Gainesville, Fla.
 S.W. Grady O. Tucker, Jr., 1158 Tressalia St., Gainesville, Fla.
 Treas. Harold E. Morlan, 506 E. Mechanic St., Gainesville, Fla.
 Scribe Josephus P. Hunter, Box 2268, University Station, Gainesville, Fla.

GEORGETOWN (Mu, 1921), GEORGETOWN UNIVERSITY, SCHOOL OF FOREIGN SERVICE, 37TH AND O STS. N.W., WASHINGTON, D.C.
 Province Officer: Thomas McKinley, 3042 Cambridge Pl., Washington, D.C.
 Chapter House: 2210 20th St., N.W., Washington, D.C.
 H.M. Harry C. Eisenbeiss, 2210 20th St., N.W., Washington, D.C.
 S.W. Timothy F. Preece, 2210 20th St., N.W., Washington, D.C.
 Treas. John T. Doran, 2210 20th St., N.W., Washington, D.C.
 Scribe Robert G. Reinhart, 2210 20th St., N.W., Washington, D.C.

GEORGIA (Kappa, 1921), UNIVERSITY OF GEORGIA, ATLANTA DIVISION, 24 IVY ST., ATLANTA, GA.
 Province Officer: Thoben F. Elrod, 1058 Piedmont Ave., N.E., Atlanta, Ga.
 H.M. Phillip W. Maffett, 361 10th St., N.W., Atlanta, Ga.
 S.W. James H. Hardy, 1410 N. Morningside Dr., N.E., Atlanta, Ga.
 Treas. James L. Slaughter, 683 Queen St., S.W., Atlanta, Ga.
 Scribe William S. Robins, 730 Lexington Ave., S.W., Atlanta, Ga.

GEORGIA (Pi, 1922), UNIVERSITY OF GEORGIA, COLLEGE OF BUSINESS ADMINISTRATION, ATHENS, GA.
 H.M. Earwin L. Joyner, Joe Brown Dormitory, Athens, Ga.
 S.W. Nixon T. Crosby, University of Georgia, Athens, Ga.
 Treas. F. Dickson Durden, Fulton Hall, Athens, Ga.
 Scribe Charles H. McMillan, Jr., 290 S. Lumpkin St., Athens, Ga.

INDIANA (Alpha Pi, 1925), INDIANA UNIVERSITY, SCHOOL OF BUSINESS, BLOOMINGTON, IND.
 H.M. James I. Toy, Indiana University, Bloomington, Ind.
 S.W. Thomas E. Shaffer, Indiana University, Bloomington, Ind.
 Treas. Robert L. Starks, 502 E. Fourth St., Bloomington, Ind.
 Scribe Robert J. Rectanus, West Hall, Indiana University, Bloomington, Ind.

IOWA (Epsilon, 1920), STATE UNIVERSITY OF IOWA, COLLEGE OF COMMERCE, IOWA CITY, IOWA
 Province Officer: W. Arthur Allee, 319 N. Linn St., Iowa City, Iowa
 H.M. Guy L. Ames, Jr., 226 Magowan Ave., Iowa City, Iowa
 S.W. Frank C. Barrett, 409 Finkbine, Iowa City, Iowa
 Treas. Arlo J. Kladrup, 615 N. Dubuque, Iowa City, Iowa
 Scribe Paul C. Scheinost, 530 N. Clinton, Iowa City, Iowa

JOHNS HOPKINS (Chi, 1922), JOHNS HOPKINS UNIVERSITY, SCHOOL OF BUSINESS ECONOMICS, BALTIMORE, MD.
 Province Officer: Bruno Lawson, 4408 Marble Hall Rd., Baltimore, Md.
 H.M. James H. Fry, 1625 E. North Ave., Baltimore, Md.
 S.W. Charles F. Sparenberg, 1015 Light St., Baltimore, Md.
 Treas. Joseph W. White, 3903 Brooklyn Ave., Baltimore, Md.
 Scribe U. S. Grant Peoples, 4104 Belview Ave., Baltimore, Md.

KANSAS (Iota, 1921), UNIVERSITY OF KANSAS, SCHOOL OF BUSINESS, LAWRENCE, KAN.
 Province Officer: Neil A. Bartley, 5403 Fairway Rd., Kansas City, Kan.
 H.M. Walter C. Emery, 909 Missouri St., Lawrence, Kan.
 S.W. Stewart F. Lambers, 909 Missouri St., Lawrence, Kan.
 Treas. Charles M. Wardin, 1711 Kentucky, Lawrence, Kan.
 Scribe Thomas R. Dunn, 108 Aqueduct, Sunflower, Kan.

KENT (Beta Pi, 1942) KENT STATE UNIVERSITY, COLLEGE OF BUSINESS ADMINISTRATION, KENT, OHIO
 Province Officer: Victor P. Gravereau, 220 S. Lincoln St., Kent, Ohio
 H.M. Vincent J. Hudec, 2023 State Rd., Cuyahoga Falls, Ohio
 S.W. Lawrence P. Avril, 2 Green Terrace W. Main, Kent, Ohio
 Treas. Jay B. Larsen, Mt. R.R. 1, Ravenna, Ohio
 Scribe Leonard C. Jarvis, Terrace Lodge, Kent State University, Kent, Ohio

LOUISIANA STATE (Beta Zeta, 1929), LOUISIANA STATE UNIVERSITY, COLLEGE OF COMMERCE, BATON ROUGE, LA.
 Province Officer: Sidney A. Champagne, 511 N. Tenth St., Baton Rouge, La.
 H.M. John F. D'Gerolamo, Route 3, Box 142, Baton Rouge, La.
 S.W. James D. Edwards, 3084 Hundred Oaks Ave., Baton Rouge, La.
 Treas. Nathan R. Pruett, 163 Burgin Ave., Baton Rouge, La.
 Scribe John T. Roe, Box 8862, University Station, Baton Rouge, La.

LOUISIANA TECH (Beta Psi, 1948), LOUISIANA POLYTECHNIC INSTITUTE, SCHOOL OF BUSINESS ADMINISTRATION AND ECONOMICS, RUSTON, LA.
 H.M. Lee E. Brown, Apt. 132, Verville, Box 359 T/S, Ruston, La.

Delta Sigma Pi, 222 W. Adams St., Chicago 6

Pass Them On!

■ Your membership in Delta Sigma Pi means a lot to you, doesn't it? The benefits you have derived through the associations you have made in the fraternity, and the education Delta Sigma Pi has provided through its professional program has already repaid you many times for the original cost of membership. To think that such an opportunity may not be available to future

generations, maybe your own son, is certainly an unpleasant thought, isn't it? This is a possibility; however, it can be prevented by YOU personally. Yes YOU!

■ The National Endowment Fund will ultimately provide for the perpetuation of Delta Sigma Pi. All of the money received from the enrollment of Life Members is building this Fund and safeguard at the present time, and your Life Membership will help it grow. Yes, you can "Pass them on" ("them" being the benefits of Delta Sigma Pi, of course) by merely becoming a Life Member, and as a loyal

Deltasig you surely welcome this opportunity to assure future generations of its benefits.

■ Life Membership means that your National Alumni Dues are paid for life, that you have a life subscription to The DELTASIG, that you will receive all of the national services, a beautiful Life Membership certificate and card, and immeasurable satisfaction in knowing that you have done your part in the perpetuation of your fraternity.

■ Don't wait until you have graduated to become a Life Member. Start today so that you will have your Life Membership by that time. You may send your check for \$50, which is the total cost; or you may elect to send \$5 a month for ten months; or you may send \$10 a month for five months. Applications and remittances should be mailed to The Central Office of Delta Sigma Pi in Chicago.
