# The International Fraternity of Delta Sigma Pi

Professional Commerce and Business Administration Fraternity

Delta Sigma Pi was founded at New York University, School of Commerce, Accounts and Finance, on November 7, 1907, by Alexander F. Makay, Alfred Moysello, Harold V. Jacobs and H. Albert Tienken. Delta Sigma Pi is a professional fraternity organized to foster the study of business in universities; to encourage scholarship, social activity and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce; and to further a high standard of commercial ethics and culture, and the civic and commercial welfare of the community.

## Grand President's Column

WHEN A MAN is 45 years old, he has usually reached the peak of his intellectual vigor, and has a background of experience and wisdom gained only by maturity. Our fraternity in its 45 years has likewise accumulated experience and wisdom, and, through the processes of self-perpetuation, has maintained a vigor which translates itself into service, education, and fraternalism.

HOWARD B. JOHNSON  
Georgia-Kappa  
Grand President

AMERICAN BUSINESS has made great strides since 1907. Commerce has become so universally recognized as a profession requiring specialized training that our business administration schools have multiplied tremendously. Delta Sigma Pi has grown to be an outstanding leader in the entire professional fraternity field.

### THIS STATISTICAL AND MATERIALISTIC progress is familiar

to all of us. But we need be more concerned with the intangible results of this progress: with the "by-products" of our growth. Since 1907 American business has made possible a much higher standard of living for our people. We have better schools, more church members in relation to population; our charities are better supported. We have set up huge foundations devoted strictly to human welfare.

OUR COMMERCIAL EDUCATIONAL SYSTEM has done much to develop leaders by expansion and improvement of our business administration faculties, facilities, and curricula. The old "bread-and-butter" studies have been supplemented by courses such as philosophy, psychology, human relations, logic, and ethics, in recognition of the need for business leaders to also be leaders in civic and cultural activities. Colleges are teaching that access to economic opportunity in a free society demands social obligations as well as a growing skill in the management of our business enterprise system.

THE PURPOSES AND PRINCIPLES of Delta Sigma Pi have played a definite part in the growth of American business and commercial training. 28,000 members, taught as they've been to "further a higher standard of commercial ethics and culture," could not help but exercise an influence upon the thousands of enterprises and scores of universities with which they have been associated.

OTHER "BY-PRODUCTS" of our 45 years of growth have been the close friendships and the social and professional contacts that have resulted from intimate fraternal relationships. These alone would more than justify Delta Sigma Pi's existence. For, as we mature, we learn to better evaluate our rights; "life, liberty, and the pursuit of happiness." God gives us life. We must fight continually for our liberty. And real happiness is not pursued: it comes only through love, friendship, and service.

## Our Cover

The University of Wyoming, which is the ninth campus to be featured on the cover of The DELTASIG, is located in Laramie, Wyoming. Laramie, which is Wyoming's fourth largest city, is both on the main line of the Union Pacific Railroad, and also on U. S. Highway 30, better known as the Lincoln Highway. The Snowy Range recreational area and Medicine Bow National Forest are but a few miles away providing excellent facilities for both summer and winter sports. The altitude of the campus, which is 7,200 feet, gives the University of Wyoming a delightful mountain climate all year around.

The 160 acres of the campus are surrounded by mountains on all sides, which rise to nearly 12,000 feet. The beautiful gardens and trees, along with the mountains, form a perfect setting for the many fine campus buildings which are constructed of native stone. The university was established by law in 1886 and classes began in 1887, the same year that its first structure, University Hall or Old Main, was completed. Today the University of Wyoming has eight colleges: Agriculture, Commerce and Industry, Education, Engineering, Law, Liberal Arts, Pharmacy and a Graduate School. In addition to these eight colleges, they also have a Natural Resources Research Institute and a Division of Adult Education and Community Service.

The colorprint of the University of Wyoming was furnished by the Union Pacific Railroad to whom we are greatly indebted.

# Delta Sigma Pi Marks 45 Years

**WE DO NOT BELIEVE** that even the fondest dreams and hopes of the four founders of Delta Sigma Pi, Alexander F. Makay, Alfred Moysello, H. Albert Tienken, and Harold V. Jacobs, visualized the fraternity as it is today, when they organized Alpha Chapter at New York University on November 7, 1907. The 45 years that followed the date of the founding of Delta Sigma Pi have been years of outstanding and continuous progress. Today Delta Sigma Pi leads the field of professional fraternities and has 82 active undergraduate chapters and 29,000 members. Among all fraternities, totaling 100, both general or social and professional, it ranks 14th in size.

The progress of Delta Sigma Pi during its first 13 years of existence could hardly be called overwhelming. Two new chapters were installed, however, and Delta Sigma Pi was started on its national program. The first real growth in Delta Sigma Pi came in the early 20's and continued steadily, even through the depression years, with the exception of the World War II period when all fraternities were forced to curtail their activities. Since World War II, the fraternity has experienced some of its greatest expansion, with the installation of 28 new chapters and the reactivation of practically all of the other chapters, many of which were forced into temporary inactivity because of the war.

A big step in the development of the national program of Delta Sigma Pi was the establishment of a national headquarters in Chicago in 1924, The Central Office. This, too, has grown, until today it has a full-time staff of six persons administering the national affairs of the fraternity. The Central Office is still located in Chicago and in its modern quarters are stored all the historical records, documents, membership records, manuals, forms, and supplies pertinent to the operation of both the active chapters and the alumni clubs. At the conclusion of World War II, a process of refurbishing and replacing worn equipment was begun, until today The Central Office boasts one of the best equipped and most modern offices. Practically every type of office machine available is on hand to turn out in record

time the volumes of work demanded by an organization as large as Delta Sigma Pi. Several national fraternities have even seen fit, through the years, to copy the procedures and routines used by The Central Office of Delta Sigma Pi.

Delta Sigma Pi has been blessed from the very beginning with a democratic form of government which has played an important part in its development. Each chapter and alumni club in the fraternity has a vote, both in the election of its national officers and in the making of its laws, and it has always been this way. Absolutely no regard is given to the age of the chapter or alumni club, or to its size. For convenience in administration, the fraternity was recently divided into six Regions, with an officer in charge of each Region. Each Region elects its own officer and representative on the Grand Council, the administrative body of the fraternity. This system is one of which we are proud and one which has insured all segments of Delta Sigma Pi equal voice in its operation.

During its 45 years, the fraternity governing body, The Grand Chapter, composed of delegates of all active chapters and alumni clubs, met 18 times to make laws and elect its national officers. From only a few participants at the early Grand Chapter Congresses of 1915 and 1916, the attendance has grown to a point where it exceeded 300 at the Eighteenth Grand Chapter Congress held in Dallas, Texas, in September, 1951. The Grand Chapter Congresses are now held biennially, which affords almost every member of the fraternity the opportunity of attending a national convention while he is an undergraduate even though he may not become a member of Delta Sigma Pi until his junior year in college. The Grand Chapter Congress of Delta Sigma Pi has also gained a reputation for its banquets, unusual stag functions, efficient business sessions, chapter officers' training program, and its special program for the ladies. The over-all program of the Grand Chapter Congress now requires almost four full days to transact all of the business of the fraternity. Although only one person from each chapter receives

expenses paid by The Central Office, most chapters generally send many more members to the convention. The Grand Chapter Congress is looked upon as an event of great importance. Alumni Clubs and chapters throughout the country now compete for the privilege of serving as host to this meeting.

In addition to the biennial meetings of the Grand Chapter Congress the fraternity gathers in alternate years at Regional Meetings. The latest series of Regional Meetings brought together over 700 Deltasigs for conferences on chapter and alumni club operation. Included in the Regional Meeting programs are several social events which help to cement the friendships and fraternal relations established between members and chapters within a Region. The success of these Regional Meetings, which were incorporated as a permanent part of Delta Sigma Pi only recently, has added much to the internal strength of the chapters and alumni clubs.

Of the 29,000 members in Delta Sigma Pi, almost 26,000 are now alumni. This means that most cities and parts of the country now have a goodly number of Deltasig alumni, and, as a result, the alumni program of Delta Sigma Pi is also expanding. The development of alumni clubs began early in the life of Delta Sigma Pi, but their activities were limited to only a few larger cities in the United States. Recently, new clubs have been springing up in many of the smaller towns which means that further expansion is inevitable and unlimited. The alumni clubs have developed a placing service over the years and have proven to be of invaluable service to the undergraduate chapters in their areas. Their programs take up where the undergraduate

chapter leaves off and provide true membership for life to any Deltasig who wishes to participate.

The active undergraduate chapters of Delta Sigma Pi have also kept pace with the progress of the fraternity as a whole. A standardization of the activities of the chapters came about with the establishment of the Chapter Efficiency Contest in 1932. This emphasized professional activities in keeping with the aims and ideals of Delta Sigma Pi and encouraged chapters to conduct their finances, membership policies and other activities according to a predetermined plan. Through the years this contest has been modernized and modified until today it contributes more than any other single thing to the efficiency and stability of our chapters. Each year all of the chapters compete for the maximum and coveted 100,000 points. More than one-third reach this goal and many more come near to it.

The program of our active chapters, which includes professional speakers, business tours, forums, industrial movies, and panel discussions on business topics, as well as the usual social and athletic activities of a college fraternity, has established an enviable reputation for Delta Sigma Pi. Slowly, but surely, Delta Sigma Pi is acquiring more chapter houses, which add further stability to our chapters and the fraternity.

The influence of Delta Sigma Pi and Deltasigs is being felt more each day in the business world, in the field of education, and in our communities. Deltasigs everywhere have assumed prominent positions in all types of business as evidenced elsewhere in this publication. Several college and university presidents and over 40 deans of schools of commerce and business administration are also members of the fraternity. Delta Sigma Pi is now well known, too, for its "Biennial Survey of Universities Offering an Organized Curriculum in Commerce and Business Administration." The new "Directory of Graduating Seniors" has called the attention of the business world to Delta Sigma Pi during the last few years as well as serving as a valuable aid to the placement of our members.

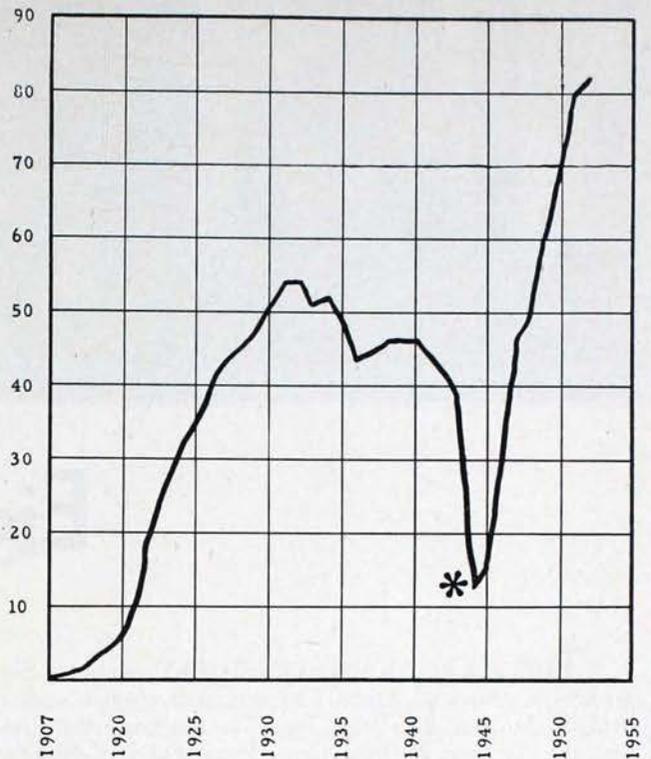

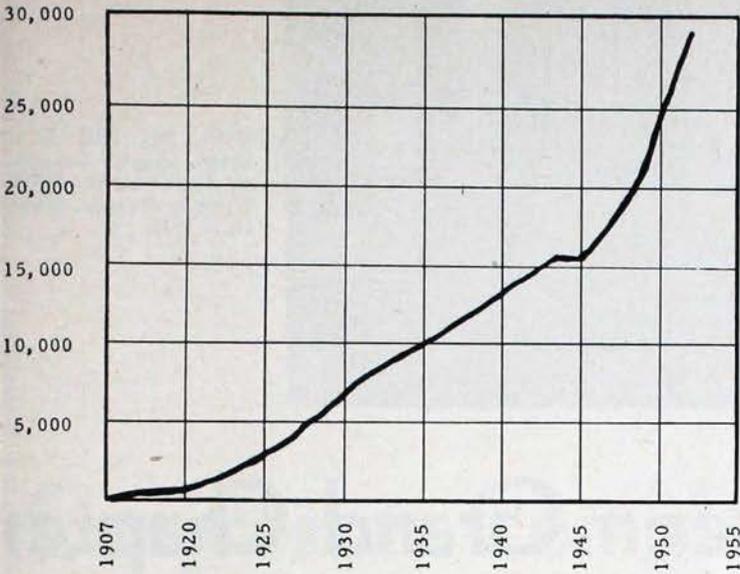

The establishment of the Delta Sigma Pi Scholarship Key Award in 1912 was another means of fulfilling the aims and purposes of the fraternity. Over the years, more than 1,500 keys have been awarded to outstanding male students in the field of commerce and business administration. The Delta Sigma Pi Scholarship Key is recognized as one of the highest honors obtainable in colleges of commerce and business administration. This award plus the efforts of our undergraduate chapters to maintain high scholarship among their own members has given Delta Sigma Pi wide recognition as an organization interested in the promotion of better scholarship.

Complete organizational plans have just been approved by the Grand Council for a Delta Sigma Pi Educational Foundation. These plans were prepared by a special national committee composed of a number of outstanding Boston alumni of Delta Sigma Pi. Although this Foundation will be separate and distinctly apart from the general operations of the fraternity, its purposes will be closely allied with those of the fraternity. Among its aims will be the fostering of the study of business in universities; to make available to students of business, scholarships, fellowships and loans; to encourage and assist worthy educational and scientific projects and scientific business research; and to encourage, aid and assist students of business, both undergraduate and graduate. Once this Foundation is adopted, Delta Sigma Pi will be in a position to greatly expand its service to the educational field of business.

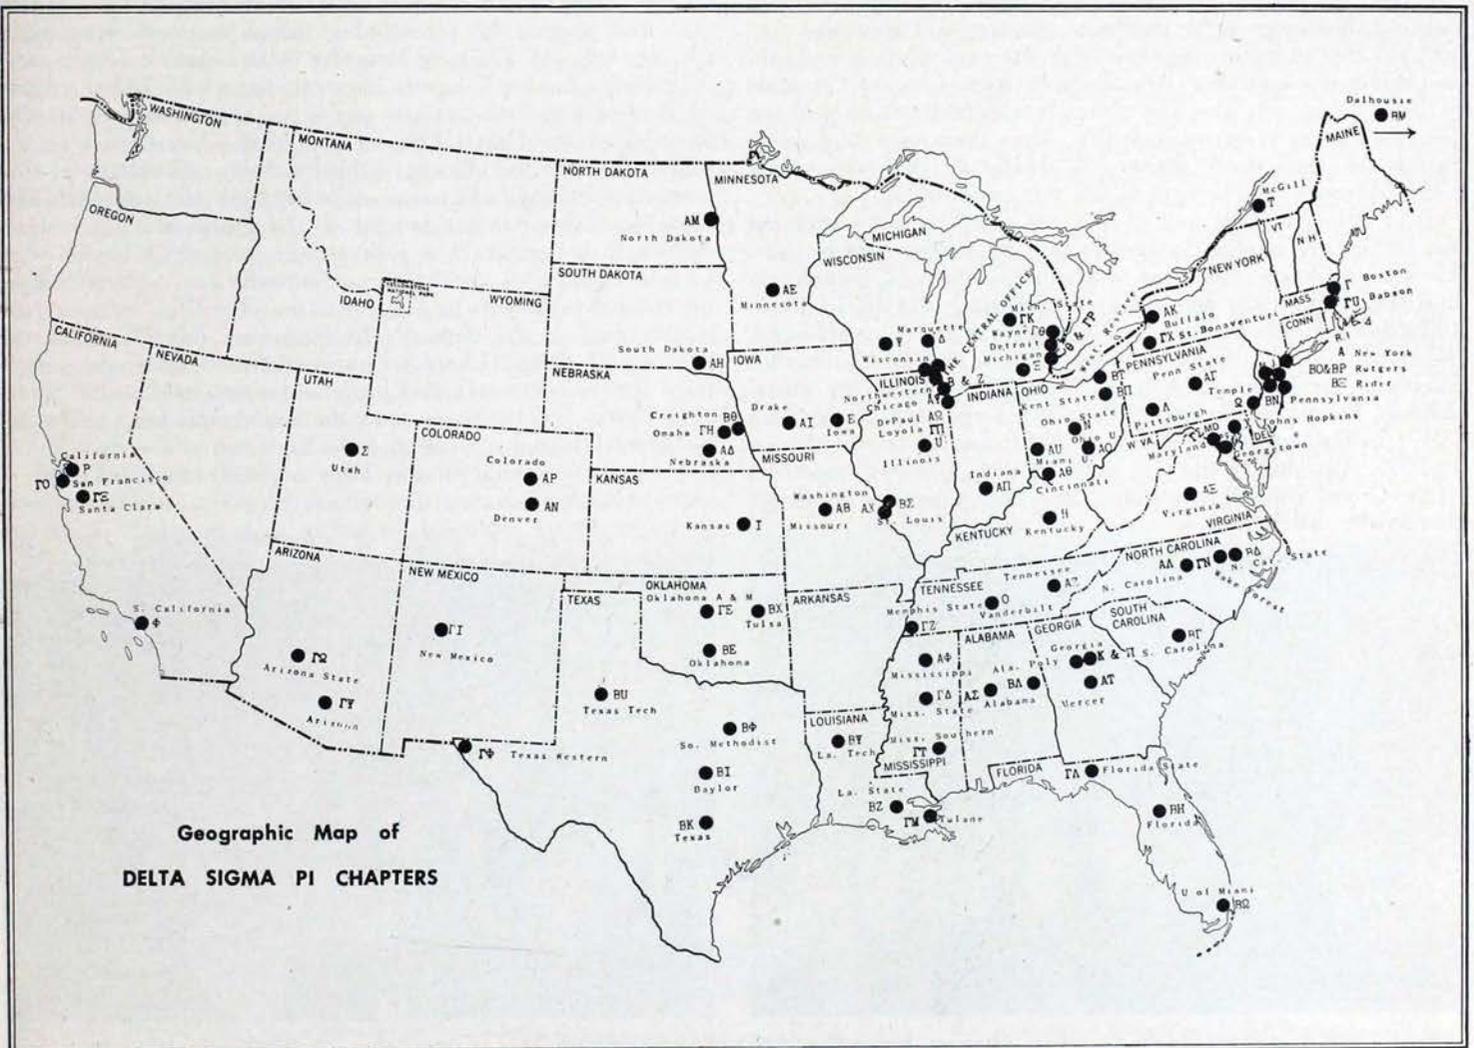

The cooperation of our chapters with local service organizations, civic groups, and their own college administrations, has brought a flood of prestige to the fraternity over the years, and much favorable comment on our chapter programs and the aims and purposes of the fraternity. Forty-five years have molded Delta Sigma Pi into one of the top fraternities in the country, a leader from any standard, with a future to be envied.

### 45 YEAR'S GROWTH OF MEMBERSHIP

### ACTIVE CHAPTERS IN 45 YEARS

\* This large drop in active chapters was during the period of World War II when the campuses were drained of potential members and chapters were forced into inactivity due to the lack of personnel.

ONE OF THE EARLY Grand Chapter Congresses of Delta Sigma Pi, The Eighth in Madison, Wisconsin in 1926.

## Eighteen Grand Chapter

**T**HE FIRST GRAND PRESIDENT of Delta Sigma Pi, Walter N. Dean of Alpha Chapter, was elected at a meeting held on January 22, 1914. This was not truly the first Grand Chapter Congress of Delta Sigma Pi as at the time the fraternity consisted of only one chapter. It did serve as the organizational meeting, however, as at that time the national structure was set up. Later on during the same year a second meeting was held and this is known today to be the first Grand Chapter Congress of Delta Sigma Pi. The first policy established was to hold the Grand Chapter Congress annually. Then they were held every two years, then every three, and finally in 1945 the policy reverted back to the two-year basis that exists today.

It is estimated that well over 3,000 members have attended the 18 Grand Chapter Congresses that have been held to date. The Grand Chapter Congress was held in New York, New York, in 1914, 1916, 1920 and 1924; in Chicago, Illinois, in 1915, 1922 and 1933; in Boston, Massachusetts, in 1917; in Madison, Wisconsin, in 1926; in Champaign, Illinois, in 1928; in Detroit, Michigan, in 1930; in Atlanta, Georgia, in 1936; in Philadelphia, Pennsylvania, in 1939; in Minneapolis, Minnesota, in 1947; in Baltimore, Maryland, in 1949; and in Dallas, Texas, in 1951. Also during the war years of 1942 and 1945 meetings of the Grand Council substituted for Grand Chapter Congresses due to the restrictions on travel, and these two meetings were

held in Chicago. The Nineteenth Grand Chapter Congress is to be held in September, 1953, in Denver, Colorado.

The typical program of a Grand Chapter Congress is three and one-half days long. Registration begins in the afternoon of the first day with a rousing reception for all of the visitors that first night. The second day brings business sessions, a Chapter Officers' Training Program, a Delegates luncheon, and the Grand Chapter Congress Banquet that night. The third day consists of panel discussions and a stag party that night. The business of the Grand Chapter Congress is concluded on the fourth day and the officers of the fraternity are elected at that time. As a fitting climax to the entire program, the Grand Chapter Congress Dinner Dance is held on the fourth and final night. Although this program is followed in general by each Grand Chapter Congress, the local committees have added certain interesting variations to bring out the character of their particular part of the country. In Baltimore, Maryland, at the Seventeenth Grand Chapter Congress a crab feast was substituted for the customary stag party and it was held on the Maryland shore. Dallas, Texas, and the Eighteenth Grand Chapter Congress featured a western style barbecue and rodeo.

Several traditional events have become associated with a Grand Chapter Congress throughout the years. In some respects these events are regarded as highly as some of the most im-

portant business of the convention. First, there is the Diamond Badge Drawing at which a beautiful all-diamond badge of Delta Sigma Pi is given to some lucky person that is registered for the Congress. A unique organization for men called the Ancient, Independent Effervescent Order of the Yellow Dogs meets during the convention and holds an initiation for all qualified men in attendance. Each Grand Chapter Congress has its own daily newspaper which announces the events for the day, as well as interesting sidelights of the previous day's happenings. During the convention, a period of time is set aside in conjunction with the Delegates' luncheon at which time the representatives of the various Regions of the fraternity get together to discuss regional problems and to decide upon the date and location of the next Regional Meetings. Of special interest to the chapter officers is the panel discussions and the Chapter Officers' Training Program. During this period many of the administration problems of the chapters are solved and new ideas for the betterment of the fraternity are presented. All of these things, although not exactly pertinent to the business of the Grand Chapter Congress, have become an integral part of it and are looked forward to with anticipation by all of the participants.

The Ladies Program of the Grand Chapter Congress became a must following World War II, when in Minneapolis in 1947

it was found that a large number of wives accompanied their husbands to the convention. From that time on the Ladies Program has grown in importance. In Baltimore in 1949 the Pink Poodles, a counterpart to the Yellow Dogs, was organized, and today there are almost 200 members in this distinguished organization for the wives of Deltasigs. The Eighteenth Grand Chapter Congress in Dallas had a full fledged program of events for the ladies as well as for the men. On the first night of the convention the ladies were on hand with their own special badges to participate in the Dallas Reception. A coffee hour was held on the second morning with a tour of Dallas in the afternoon. A tea at the home of one of the members was also a feature of the afternoon program and the evening was climaxed by an impromptu dinner at another member's home. Coffee and doughnuts started the third day which held in store for the women a style show at the Adolphus Hotel, a tour of a downtown department store, and a dude ranch party at which the Pink Poodles held their initiation. Their program, too, ended with the Grand Chapter Congress dinner dance on the fourth evening.

Therefore, what was originally merely a meeting of the officers and representatives of the fraternity has now evolved into three and one-half days of business, fun and fellowship.

# Hundreds of Deltasigs Attend Biennial Regional Meetings

REGIONAL MEETINGS came about through the desire of chapters within an area to become better acquainted and to assist one another in solving their chapter problems. Back as early as 1929 the value of Regional Meetings was realized by the Grand Council of Delta Sigma Pi and they have consistently encouraged the holding of these in various parts of the country since that time. World War II deferred the action to formalize Regional Meetings and also to increase the regularity of them. When the fraternity was divided into six definite geographic regions at the Seventeenth Grand Chapter Congress held in

Baltimore, Maryland, in 1949, however, the way was then clear to incorporate a regular program of Regional Meetings into the fraternity.

The program, which was adopted at the Seventeenth Grand Chapter Congress and which is in operation today, provides for Regional Meetings to be held in each of the six regions in those years in which a Grand Chapter Congress is not held. This in effect creates a national meeting of chapters and alumni clubs each year and enables the fraternity to coordinate its activities and the various chapters and alumni clubs to work more closely as a single unit for the benefit of the fraternity as a whole.

To further encourage Regional Meetings the Grand Council sets aside annually a sum of money to be used to cover the basic expenses of a delegate from each undergraduate chapter to attend these meetings. Also the Regional Members of the Grand Council have been made responsible for the meeting in their region, thus assuring the holding of Regional Meetings biennially according to plan. Like the Grand Chapter Congress, the Regional Meeting has become a major event in Delta Sigma Pi with a certain amount of prestige and honor being attached to the host chapter or alumni club. This has created competition and friendly rivalry among the chapters and alumni clubs seeking to have the Regional Meeting held in their city.

The city in which the Regional Meeting is held is determined by the host chapter or alumni club. It has been found desirable to rotate the location within a Region thereby giving a greater number of chapters the opportunity of serving as host. The selection of the cities in which the Regional Meetings are to be held is made by vote of the delegates at a Grand Chapter Congress. If there is more than one chapter in a particular city or area that has been selected, such chapters or alumni clubs will serve jointly as hosts and share the responsibilities. Since the Seventeenth Grand Chapter Congress in Baltimore, Maryland, in 1949, when the formal program was adopted, Regional Meetings have been held in Atlanta, Georgia; Buffalo, New York; Chicago, Illinois; Cleveland, Ohio; Dallas, Texas; Houston, Texas; Lincoln, Nebraska; Omaha, Nebraska; San Francisco, California; and Washington, D.C.

Both the series of five meetings held in 1950 and also the series of six meetings held in 1951 attracted attendance in excess of 600. Practically every chapter was represented with a number of chapters sending delegations of 25 to 30 members. All Regional Meetings in the past were held on week ends, some beginning on Friday morning, others on Friday evening. Past policy has also been to hold these meetings in the spring of the year so as to avoid as many campus conflicts as possible. It is now felt, however, that much more constructive and beneficial work can be done if the Regional Meetings were to be held in the fall just after the opening of college. This program will no doubt be tried for the next few years at least.

Although each Regional Meeting has a character all its own, in general all meetings conform to a basic pattern of events. In order to accomplish the two aims of the Regional Meeting, to assist the chapters in solving their operational problems and to promote closer relationship between the chapters within a region, there is both a social program and a business session at each Regional Meeting.

## Eastern Regional Meeting in Buffalo

The Eastern Regional Meeting was held in Buffalo, New York, at the Touraine Hotel on April 4-6, with the Alpha Kappa Chapter at the University of Buffalo and the Buffalo Alumni Club serving as hosts. Delegates were present from Alpha Chapter at New York, Mu Chapter at Georgetown, Chi Chapter at Johns Hopkins, Omega Chapter at Temple, Alpha Gamma Chapter at Penn State, Alpha Xi Chapter at Virginia, Beta Nu Chapter at Pennsylvania, Beta Xi Chapter at Rider, Beta Omicron Chapter at Rutgers, Beta Rho Chapter at Rutgers, Gamma Sigma Chapter at Maryland, Gamma Upsilon Chapter at Babson, and Gamma Chi Chapter at St. Bonaventure.

Registration of the delegates began early on Friday, April 4, the first day of the Eastern Regional Meeting. That evening there was an informal reception and dance at the Touraine Hotel. On Saturday morning, panel discussions were held and the subjects of "Membership," "Professional Activities," and "Social Activities," were reviewed by the delegates and panel leaders. Over 100 were in attendance at the luncheon which took place in the Oak Room of the Touraine Hotel. Grand President Johnson was a guest speaker along with Regional Grand Council Member J. Harry Feltham and Assistant Grand Secretary-Treasurer J. D. Thomson. A humorous talk by Major Puffer concluded the program. The panel discussions were resumed in the afternoon, following the taking of a group picture.

On Saturday evening a stag party and buffet supper were held. The Yellow Dogs also convened and initiated all those in attendance that qualified for membership. A special program had been arranged for the ladies present. This consisted of a luncheon and a dinner party at one of Buffalo's famous night spots. On Sunday, the ladies were also included in a guided tour of Niagara Falls, which concluded the Regional Meeting.

## Southeastern Regional Meeting in Atlanta

Both the Biltmore Hotel and the Deltasig Lodge were the scene of the Southeastern Regional Meeting held in Atlanta, Georgia, on April 18-20. Kappa Chapter at the Atlanta Division of the University of Georgia and the Atlanta Alumni Club were the able hosts. Chapters of the Southeastern Region that were represented at the meeting were: Eta Chapter at Kentucky, Pi Chapter at Georgia, Alpha Zeta at Tennessee, Alpha Lambda at North Carolina, Alpha Sigma at Alabama, Alpha Phi at Mississippi, Beta Gamma at South Carolina, Beta Omega at Miami, Gamma Delta at Mississippi State, Gamma Zeta at Memphis State, Gamma Lambda at Florida State, and Gamma Tau at Mississippi Southern.

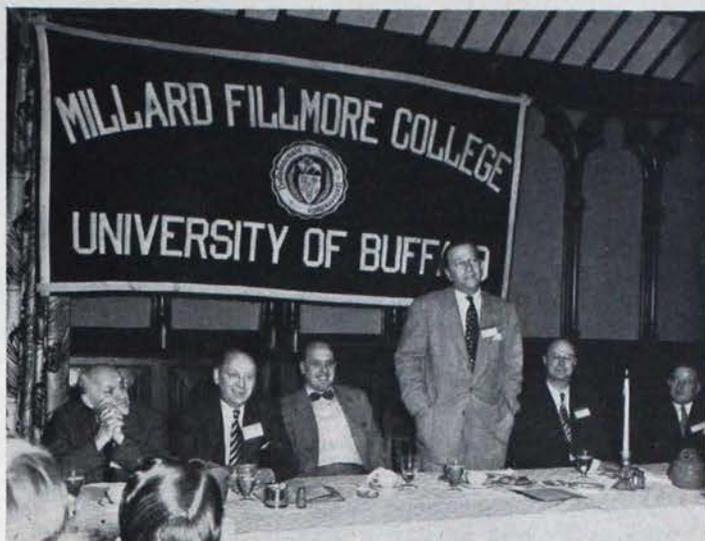

Most of the delegates arrived in Atlanta on Friday and were on hand for the informal reception at the Biltmore Hotel that evening. On Saturday morning a panel discussion was led by Regional Grand Council Member Thoben Elrod, with Grand President Howard Johnson and Assistant Grand Secretary-Treasurer J. D. Thomson assisting. All phases of the Chapter Efficiency Contest were covered and many questions were asked by the delegates. A luncheon was held in the Biltmore Hotel at which Edward W. Withorn served as toastmaster.

Following the luncheon, the delegates went to the Deltasig Lodge where an afternoon of athletics and recreation awaited them. A picnic supper was served in the early evening. A barn dance, an initiation by the Yellow Dogs, the presentation of the attendance trophy to Gamma Tau Chapter at Mississippi Southern College, and the drawing of numbers for the several dozen door prizes completed the program.

the Central Regional Meeting being held there. The Beta Tau Chapter at Western Reserve University, the Beta Pi Chapter at Kent State University and the Northeastern Ohio Alumni Club served as hosts. Those chapters in the Central Region that sent delegations are: Beta at Northwestern, Delta at Marquette, Zeta at Northwestern, Theta at Detroit, Nu at Ohio State; Xi at Michigan, Upsilon at Illinois, Psi at Wisconsin, Alpha Theta at Cincinnati, Alpha Omicron at Ohio U., Alpha Upsilon at Miami, Alpha Omega at DePaul, Gamma Theta at Wayne, Gamma Kappa at Michigan State, Gamma Pi at Loyola, and Gamma Rho at Detroit.

The activities of the Central Regional Meeting began on Friday evening with a reception and stag party at the Allerton Hotel. The Yellow Dogs also convened that night and almost 150 new members were admitted to this order. On Saturday morning, the various phases of chapter operation were discussed with the members of Beta Tau Chapter at Western Reserve and Beta Pi Chapter at Kent State serving as panel leaders. Grand Council Member Robert G. Busse was the toastmaster at the luncheon. Dean Herbert Hunsaker of Western Reserve University and Robert Pollock, an alumnus of Beta Tau Chapter, were the principal speakers at the luncheon. Grand President Howard B. Johnson and Assistant Grand Secretary-Treasurer J. D. Thomson were also called upon for a few words. On Saturday afternoon the chapter panels were completed. The ballroom of the Allerton Hotel was filled to capacity that evening when the delegates reassembled for the informal dance.

The Central Regional Meeting was concluded with an open house and buffet luncheon at the Beta Pi Chapter House.

## Midwestern Regional Meeting in Omaha

The raging flood waters of the Missouri River did not stop the Beta Theta Chapter at Creighton University, the Gamma Eta Chapter at Omaha, and the Omaha Alumni Club from carrying out their plans for the Midwestern Regional Meeting which was held in Omaha, Nebraska, on April 25 and 26. Headquarters for the meeting was the Paxton Hotel in Omaha. The chapters of the Midwestern Region that sent delegations are: Epsilon at Iowa, Iota at Kansas, Alpha Delta at Nebraska, Alpha Epsilon at Minnesota, Alpha Eta at South Dakota, Alpha Iota at Drake, Alpha Nu at Denver, Alpha Rho at Colorado, and Beta Sigma at St. Louis.

The reception and stag party of the Midwestern Regional Meeting was the first event on the program and this was held on Friday evening at the Musik Verein in Omaha. Rowland Haynes, president emeritus of the University of Omaha, welcomed the delegates to Omaha on Saturday morning. This opened the series of panels on chapter operation which lasted all day. Regional Grand Council Member Henry C. Lucas moderated the panels with the help of Province Officers Phil McCarthy and Joseph Dellere, who also served as chairman and vice chairman, respectively.

A special luncheon was held at noon and a dinner in the evening in the ballroom of the Paxton Hotel in Omaha. Grand Secretary-Treasurer H. G. Wright was the principal speaker at the banquet. Following the banquet came one of the highlights of the entire meeting and that was the informal dance, also held in the Paxton Hotel.

## Southwestern Region in Houston

### Southwestern Regional Meeting in Houston

The Southwestern Regional Meeting held on May 2-4 in Houston, Texas, is the only one held recently that was not sponsored by an undergraduate chapter of Delta Sigma Pi. The Houston Alumni Club, which was the host of this meeting, had been planning to invite the chapters to Houston long before the Eighteenth Grand Chapter Congress convened. Their delegation to the convention came well prepared to sell the Southwestern Region on the merits of coming to Houston for the Regional Meeting and had no trouble doing so.

The well known Shamrock Hotel in Houston was the scene of the meeting which began on Friday night with a barbecue supper, a stag party and a Yellow Dog initiation. In attendance were delegations from Beta Epsilon at Oklahoma, Beta Zeta at Louisiana State, Beta Iota at Baylor, Beta Kappa at Texas, Beta Upsilon at Texas Tech., Beta Phi at Southern Methodist, Gamma Epsilon at Oklahoma A & M, and Gamma Mu at Tulane. On Saturday morning the panels were opened with keynote addresses by Regional Grand Council Member William R. Merrick, Past Grand President Kenneth B. White and Grand Secretary-Treasurer H. G. Wright. Panels on both undergraduate and alumni activities were conducted throughout the day. Grand Council Member William R. Merrick led the undergraduate panels and Marion W. Sprague of the Houston Alumni Club led the alumni sessions. A luncheon was held at noon in the Shamrock Room of the hotel.

An informal dance in the Grecian Room of the Shamrock Hotel concluded the Southwestern Regional Meeting.

### Western Regional Meeting in San Francisco

For the first time this year a Regional Meeting was held in the Western Region of Delta Sigma Pi. Gamma Omicron Chapter at the University of San Francisco served as host at this meeting which was held in San Francisco, California at the Whitcomb Hotel on February 15-17. Although some of the delegations in the Western Region had to travel more than one thousand miles to attend, every chapter sent representatives. Those chapters participating were: Rho at California, Sigma at Utah, Phi at Southern California, Gamma Iota at New Mexico, Gamma Xi at Santa Clara, Gamma Psi at Arizona and Gamma Omega at Arizona State.

Practically all delegations were on hand on Friday evening for the reception which took place in the Georgian Room of the Hotel Whitcomb on San Francisco's famous Market Street. Later in the evening the delegations broke up into small groups and proceeded to tour San Francisco under the guidance of the local members. On Saturday morning the business session began in the California Room of the Whitcomb Hotel with Burell Johnson, Province Officer of Phi Chapter, as panel leader. The panels were recessed at noon for a special luncheon at which Western Regional Grand Council Member Frank C. Brandes served as toastmaster. The afternoon panels were led by William Bird of Gamma Omicron Chapter at San Francisco.

The Western Regional Meeting was climaxed on Saturday evening by an informal dance in the beautiful Corinthian Room of the Hotel Whitcomb.

THE MIDWESTERN Regional Meeting was held in Omaha, Nebraska at the Hotel Paxton. Left: Province Officer Dellere addresses the business session. Right: Grand Council Member Lucas conducts the panels.

## DELTASIGS OF ACHIEVEMENT

### B. JOHN HEISER, Ohio State President, Central Ohio Steel Products Company

FOR THE LAST THREE YEARS, B. John Heiser, *Ohio State*, has been president of the Central Ohio Steel Products Company, Galion, Ohio. This firm, which is a subsidiary of the Galion Allsteel Body Company, manufactures hydraulic hoist and dump bodies for motor trucks and numbers among its many customers: General Motors, Ford Motor Company, International Harvester Company, Fruehauf Trailer Company, and about 90 independent distributors throughout the United States. In addition, the company has an export office in New York which does business in all parts of the world.

B. JOHN HEISER,  
Ohio State

The appointment of Brother Heiser as president of the Ohio Steel Products Company was the culmination of a long and successful list of achievements that dates back as far as the time he spent at Ohio State University where, in 1924, he was initiated into Delta Sigma Pi. During the college year 1925-1926, he served simultaneously as scribe of the fraternity, president of Beta Gamma Sigma and president of the Commerce Council. In addition, he was publisher of the commerce paper, the *Ohio Commerce*.

Upon graduation John became affiliated with what was then the National Grave Vault Company and the Galion Allsteel Body Company at Galion, Ohio. After serving in the capacity of sales promotion manager, he became sales manager and vice president in 1938. Later, in 1945, he was made a director of the company. During the time Brother Heiser was with the company its annual volume of business grew from approximately \$300,000 to in excess of \$4,000,000.

### ROBERT W. FRENCH, Texas Dean, Tulane University

A LITTLE over a year ago Robert W. French, *Texas*, was selected to organize and staff the Public Affairs Research Council of Louisiana, a nonpolitical and nonpartisan organization supported by private citizens to do research and disseminate information on state and local government problems in Louisiana. In a state that is first in taxes, second in governmental debt, and third in state government expenditures his job was cut out for him. And Louisiana is a state noted for its politics.

ROBERT W. FRENCH,  
Texas

During the past year Dean French has made well over one hundred speeches to over 6,000 Louisiana businessmen and citizens preaching that good government is good business and that better government can only be achieved by citizen understanding. To those ends the Council has published ten monthly news letters, seven monthly news analyses, five research reports, and a voter's guide that sold 50,000 copies in the four weeks before the first primary. The results of the recent election in Louisiana have received national recognition.

All of these activities have been piled on top of Brother French's duties as dean of the College of Business Administration and chairman of the economics department of Tulane University in New Orleans.

But Brother French has had several jobs almost as far back as he can remember. Born in South Bend, Indiana, May 8, 1911, he worked his way through high school and the University of Michigan, receiving his B.A. degree with high distinction in 1932 and his doctor's degree in economics from the same institution in 1937. In the year 1934-35 he held the Michigan fellowship at Brookings Institution in Washington, D.C. From 1935-37 he was a teaching fellow at the University of Michigan.

His "super-graduate" work in business was done in the family department store in Sparta, Michigan, where he gained some down-to-earth experience in buying, selling, advertising, and personnel management.

He returned to academic life in 1941 when he went to Louisiana State University as an assistant professor in the College of Commerce and head of the Bureau of Business Research. Five years later he was a full professor at the University of Texas and director of the business research bureau there. During the next four years he worked to make the Texas bureau one of the largest and best known organizations of its kind in the entire country. He also found time at Texas to join the Beta Kappa chapter of Delta Sigma Pi. Brother French came to Tulane University in 1949 and assisted in setting up the Gamma Mu Chapter.

At present he is chairman of the Committee on the Southwest Economy, appointed by the President's Council of Economic Advisers to draft a blueprint for an eight state region including Louisiana.

Associate Librarian, University of Missouri Library, Columbia, Mo.

### Business

**CHANGING CONCEPTS OF BUSINESS INCOME**, by the American Institute of Accountants, published by Macmillan, 169 pp., \$2.00.

Report of a three-year study by a Study Group on Business Income whose aim was to arrive at some agreement on the interpretation, understanding and treatment of business income in the light of changed conditions and the changing value of the dollar. Some agreed, but the report includes many dissents and comments of variance.

**THINKING AHEAD FOR BUSINESS**, edited by Edward C. Bursk, published by Harvard University, 223 pp., \$3.25.

A presentation of addresses and panel discussions at the 21st National Business Conference sponsored by the Harvard Business School Assn., to consider the major political, economic and sociological forces which promise to affect the future course of American business.

**MEN IN BUSINESS**, edited by William Miller, published by Harvard University, 359 pp., \$5.00.

Essays in the history of entrepreneurship dealing with the progress of certain business organizations, businessmen, or the development of a particular business field, and the impact of this activity on society in general.

**BUSINESS FORECASTING**, by Frank D. Newbury, published by McGraw-Hill, 280 pp., \$4.75.

Establishes the essentiality of organized forecasting as a tool of management, necessary to budgeting and planning. Explains the economic principles that govern the fluctuations of aggregate national income, production, and prices and shows how these principles are applied to business forecasting.

**IS ANYBODY LISTENING?** by William H. Whyte, Jr., & others, published by Simon & Schuster, 251 pp., \$3.00.

A layman's report on certain communication troubles of the business world, the result of more than two years of probing into the real nature of the efforts of American business to sell itself and its "Free Enterprise campaign."

### Business Forms and Letters

**MAKE YOUR BUSINESS LETTERS MAKE FRIENDS**, by James F. Bender, published by McGraw-Hill, 263 pp., \$3.50.

A discussion of the principles that make for effective business letter writing designed to help the businessman improve relations with his customers through the letters he writes.

**DESIGN AND CONTROL OF BUSINESS FORMS**, by Frank M. Knox, published by McGraw-Hill, 231 pp., \$6.50.

A comprehensive and well-integrated treatment of business forms as an essential tool of management with a program that will cut

down on clerical expense in business. For accountants who are interested in systems work.

### Economics

**WAR AND DEFENSE ECONOMICS**, by Jules Backman & others, published by Rinehart, 479 pp., \$4.50.

A study of the manner in which the different parts of the civilian economy have to be accommodated to meet the stresses of an armament economy; the problems of production and the problems of inflation.

**ECONOMY IN THE NATIONAL GOVERNMENT**, by Paul H. Douglas, published by the University of Chicago, 284 pp., \$3.75.

Senator Douglas discusses the need for balancing the government's budget in order to safeguard the nation's economy. He describes the size, growth and major areas of federal expenditures, the budget procedure, waste and possible savings in both military and civilian areas, and the closing of tax loopholes.

**MAN, MONEY AND GOODS**, by John S. Gams, published by Columbia University, 351 pp., \$3.75.

An informal treatment of the essentials of economic theories from Ricardo to Keynes, for interested adults without formal training in economics.

**SHIRT-SLEEVE ECONOMICS**, by William A. Paton, published by Appleton-Century-Crofts, 479 pp., \$4.00.

A commonsense survey that discusses economic problems in this country and attacks many present day trends including governmental controls, forms of taxation and manifestations of the "welfare state" that the author regards as infringing upon free enterprise.

### Insurance

**BIOGRAPHY OF AN IDEA**, by John Bainbridge, published by Doubleday, 381 pp., \$4.00.

The story of mutual fire and casualty insurance, begun in England at the time of the Great Fire of London and first introduced in this country by Benjamin Franklin. Considers the progress and growing importance of these two types of insurance.

**PRINCIPLES OF INSURANCE**, by Robert I. Mehr & Emerson Cammack, published by Irwin, 800 pp., \$7.65.

Covers the entire field of insurance from an introductory point of view giving basic information for the prospective insurance buyer. Brother Cammack, co-author, is province officer and faculty adviser of Upsilon chapter, University of Illinois.

### Salesmanship

**SELLING HOME PROPERTY**, by Mary W. Geer, published by Prentice-Hall, 278 pp., \$4.35.

A home-selling specialist of 20 years' experience presents the fundamentals of salesman-

ship, the conduct of business, and other attributes or knowledge that make a successful real estate broker.

**TOP SECRETS OF SUCCESSFUL SELLING**, by Jack Wardlaw, published by Wilfred Funk, 255 pp., \$3.50.

An insurance salesman gives examples of the application of intelligence to action in business with a dynamic, rapid-fire collection of anecdotes.

### Supervision and Foremanship

**BETTER FOREMANSHIP**, by Rexford B. Hersey, published by Conover-Mast, 255 pp., \$3.75.

A statement of supervisory techniques with illustrative observations and a practical review of the duties of the industrial foreman as a part of management.

**SIZING UP PEOPLE**, by Donald A. Laird & Eleanor C. L. Laird, published by McGraw-Hill, 270 pp., \$3.75.

An aid for executives and personnel workers in matching workers and jobs through recognition of personality traits, intelligence, and ability in employees.

**HUMAN RELATIONS IN SUPERVISION**, by Willard E. Parker & Robert W. Kleemeier, published by McGraw-Hill, 479 pp., \$4.50.

Presents modern management principles and the best practices in hiring, inducting, evaluating and counseling the worker, as aids to better human relations in industry or business.

**SUPERVISION OF PERSONNEL**, by John M. Pfiffner, published by Prentice-Hall, 462 pp., \$6.00.

A sound discussion which sums up currently approved principles of personnel practice dwelling especially on improved leadership in line supervision. Presents the reasons underlying human relations in the management of men; methods and techniques are not described.

**FOREMAN TRAINING IN A GROWING ENTERPRISE**, by A. Zaleznik, published by Harvard University Graduate School of Business Administration, 247 pp., \$3.50.

Critical observation of a training effort in an expanding manufacturing company shows the difficulties of a foreman administering an assembly line, and the help which a company training program gave him.

### Taxation

**TOIL, TAXES AND TROUBLE**, by Vivien Kellems, published by Dutton, 159 pp., \$2.50.

The Connecticut factory owner traces her contest over the withholding tax law and its legality with the Bureau of Internal Revenue, quoting from the court records of her several trials.

**TAXATION OF THE TRUCKING INDUSTRY**, by Richard W. Lindholm, published by the Ohio State University Bureau of Business Research, 156 pp., \$3.00.

A study of the taxation problems peculiar to the motor transport business and an economic analysis of impacts of various forms of taxation on the industry. Based mainly on the published and unpublished records of the Interstate Commerce Commission.

**TAXES AND ECONOMIC INCENTIVES**, by Lewis H. Kimmel, published by Brookings Institution, 227 pp., \$2.50.

Each of the principal taxes (individual and corporate income, excises, property, and payroll) employed to raise government income is analyzed here. The analysis is made to determine the effect on the taxpayer and his economic incentives to work and invest, to see if these taxes are too restrictive or permit enough capital expansion.

## Thirty Chapters Score Maximum in the 1952 Chapter Efficiency Contest

THIRTY CHAPTERS of the eighty-two that participated completed the 1952 Chapter Efficiency Contest with 100,000 points. This is the maximum number of points obtainable and the number of chapters reaching this goal was one more than in 1951. The Honor Roll of the 1952 Chapter Efficiency Contest which includes all of the chapters scoring more than 85,000 points totals 45.

Those chapters scoring the maximum of 100,000 points were: Beta Chapter at Northwestern, Delta Chapter at Marquette, Epsilon Chapter at Iowa, Theta Chapter at Detroit, Kappa Chapter at Georgia, Mu Chapter at Georgetown, Xi Chapter at Michigan, Pi Chapter at Georgia, Chi Chapter at Johns Hopkins, Omega Chapter at Temple, Alpha Beta

Chapter at Missouri, Alpha Theta Chapter at Cincinnati, Alpha Iota Chapter at Drake, Alpha Kappa Chapter at Buffalo, Alpha Xi Chapter at Virginia, Alpha Rho Chapter at Colorado, Alpha Upsilon Chapter at Miami, Alpha Phi Chapter at Mississippi, Alpha Omega Chapter at DePaul, Beta Theta Chapter at Creighton, Beta Iota Chapter at Baylor, Beta Xi Chapter at Rider, Beta Pi Chapter at Kent State, Beta Upsilon Chapter at Texas Tech., Gamma Theta Chapter at Wayne, Gamma Kappa Chapter at Michigan State, Gamma Mu Chapter at Tulane, Gamma Omicron Chapter at San Francisco, Gamma Pi Chapter at Loyola, and Gamma Upsilon Chapter at Babson.

Kappa Chapter at Georgia, Beta Chapter at Northwestern, and Alpha Beta Chapter at Missouri continued their record by again being among the winners. For Kappa Chapter it was number 16, for Beta Chapter number 13, and for Alpha Beta Chapter it was number 12. Omega Chapter at Temple, Alpha Theta Chapter at Cincinnati, Alpha Iota Chapter at Drake, Alpha Kappa Chapter at Buffalo, Alpha Xi Chapter at Virginia, Gamma Omicron Chapter at San Francisco, Gamma Pi Chapter at Loyola, and Gamma Upsilon Chapter at Babson scored 100,000 points for the first time this year.

The Chapter Efficiency Contest was established during the college year 1931-1932 and has definitely proven itself to be of real value in increasing chapter interest. It has also provided an adequate yardstick of measurement of chapter achievement. The Chapter Efficiency Contest is divided into five major divisions: Professional Activities, Scholarship, Membership, Finances and Chapter Initiative and Administration. A maximum of 20,000 points is permitted in each division, thus a final standing of 100,000 points indicates a perfect record for the year's work. Points are awarded for many phases of chapter activity such as professional meetings, individual and chapter scholarship, pledge training course, chapter publicity, contributions to The DELTASIG, the proper handling of finances, collection of dues, payment of bills, the initiation of an adequate number of members, attendance at business meetings, chapter publications, and the filing of important reports.

The Head Masters of chapters scoring 100,000 points are awarded Life Memberships. Members of chapters winning the contest with 100,000 points, and of chapters making the Honor Roll with 85,000 points, are awarded a 10% discount on Life Memberships, provided that this option is exercised before December 31 following the conclusion of the Contest and also provided that payments are concluded within the following calendar year.

### PREVIOUS WINNERS

Date following the name of the chapter and university denotes the year in which the chapter won. The Chapter Efficiency Contest was not conducted during the war years of 1943, 1944, 1945 and 1946.

# Delta Sigma Pi Publications

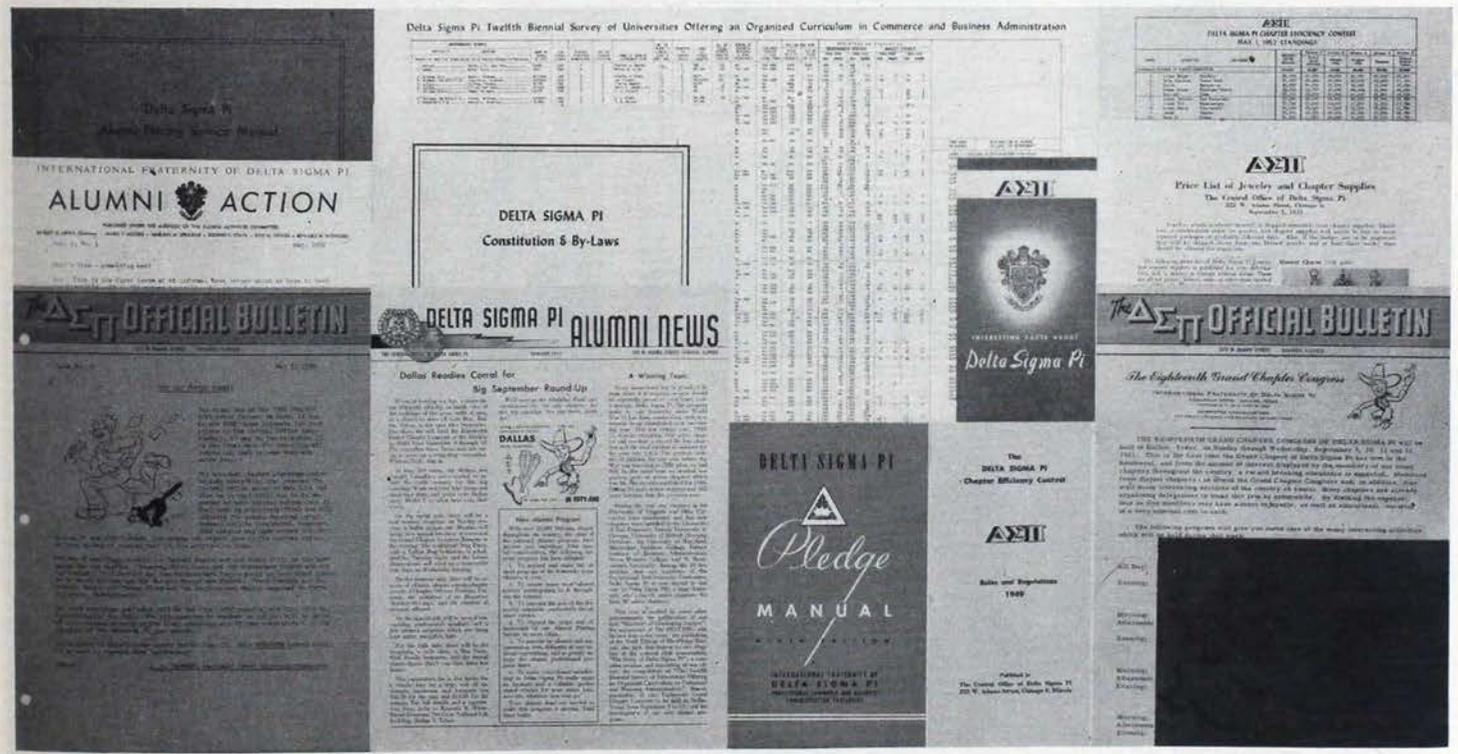

THE FIRST PUBLICATION of Delta Sigma Pi was called "Deltysig" and it made its appearance in 1911. Under its bold one word heading, the editor, Jack Guernsey of Alpha Chapter, announced that this was "Published Every Little While by the Delta Sigma Pi Fraternity." This four-page publication, which was printed on occasion, but more frequently mimeographed, did appear with some regularity, and it was not long before it became recognized as the official publication of Delta Sigma Pi. In 1912 its name was changed to "Deltasig" and in 1921 it became a quarterly publication. Today, "The Deltasig" is in its forty-second volume, is still published quarterly, and has a mailing list of over 10,000 copies per issue. For the last three years it has featured campus scenes on its cover in full color, and was one of the first college fraternity or sorority publications to feature a beautiful lithographed cover.

there is a "Pledge Manual," a "Manual for Chapter Officers," the "Official Bulletin," "Chapter Efficiency Contest Rules and Regulations," the "Ritual of Delta Sigma Pi," and over 20 different forms for the efficient operation of the chapter. For the alumni club there is the "Alumni Club Manual of Operation," "Alumni Placing Service Manual," "Alumni Action," and the "Alumni News." All of the various manuals are revised frequently to keep them up to date with current trends and techniques. The news letters, the "Official Bulletin" of the undergraduate chapters and the "Alumni Action" of the alumni clubs, are published throughout the year and are distributed to the officers of the active chapters and the alumni clubs, respectively.

The publications of Delta Sigma Pi are not limited to its national magazine. For the use of the undergraduate chapters

Pride is taken in the quality of each and every form and manual published by Delta Sigma Pi, as it is thought that their excellence and frequency of publication contribute to the efficiency of the fraternity.

## Alumni Placement—

SINCE 1930 Delta Sigma Pi has assisted its alumni in their efforts to find positions in the business world. Practically every active alumni club has a placing service for its members which acts as a clearing house, providing the contact between employers and job seekers. During the years the Delta Sigma Pi Alumni Placing Service has met with a great deal of success. In 1949 a new phase of this service came about with the establishment of the Delta Sigma Pi Directory of Graduates. The purpose of this project is to help our graduating members find employment to their liking in the business world.

The idea to publish such a directory stemmed from a similar book published by Epsilon Chapter of Delta Sigma Pi at the State University of Iowa in 1948. The first Directory of Delta Sigma Pi Graduates appeared in January, 1951, and contained the profile sheets and photographs of over 100 Deltasig graduating seniors. This first Directory was mailed to about 1,000 personnel men throughout the country who were interested in hiring college graduates. Each participant also received 100 copies of his individual profile sheet for his own use. The Directory was an instant success and bundles of letters were received from all over the country asking for additional copies, requesting further information about certain participants, and complimenting the fraternity on its publication.

In 1952 the second edition of the Directory was distributed with even greater results. The list of personnel executives to whom the Directory is sent each year is continually being expanded as is the number of participants and the effectiveness

of the Directory. It is anticipated that the directory will become increasingly important as the years progress, and as the personnel men come to look upon it as the valuable source of college trained men that it is.

The data for the Directory is collected early each fall after college begins and the printing of the Directory is completed late in December. Forms to be filled out by the participants are sent to the chapter officers, who in turn distribute them to those members in their organizations who are graduating either in February or in June of the following year. The data sheets, the photographs and the participation fees are sent to The Central Office of the fraternity and then to the Delta Sigma Pi National Committee on Alumni Placing Service. The Committee processes and edits all of the material, and distributes the Directory shortly after the first of the year. The mailing of the Directory is set for this time so that it will reach the personnel men before they leave for their annual spring visitation to the campuses, and so that the February graduates may also participate and benefit from it.

## Scholarship—

DELTA SIGMA PI began its promotion of scholarship in commerce and business administration back in 1912 when the first Delta Sigma Pi Scholarship Key was awarded. Each year since then those colleges at which chapters of Delta Sigma Pi are located have awarded Keys to the graduating male senior in commerce and business administration who ranks highest in his class. The Delta Sigma Pi Scholarship Key is looked upon as the highest award obtainable in most of the colleges and schools of commerce and business administration in the country.

Each undergraduate chapter of Delta Sigma Pi also promotes better scholarship among its members. This is further encouraged by the Delta Sigma Pi Chapter Efficiency Contest which recognizes chapter scholarship that exceeds the all-men average of the college of commerce and business administration and that of the individual member of the chapter.

## Business Education—

IN THE EARLY '20s the First Survey of Universities Offering an Organized Curriculum in Commerce and Business Administration was compiled and published. This Survey, which is now in its Thirteenth Edition, contains data on practically every college and school of commerce and business administration in the United States and Canada, including the name and location of the college, the year it was established, the name of the dean, number of years to the course, the tuition, the number of students enrolled, the number of degrees granted in an academic year, etc.

This Survey has appeared biennially since the early '20s with the exception of the World War II period. In the interim years there has been a supplementary survey made on occasion. Over 3,000 copies of the Survey are distributed each time it is published to universities, countless business firms, research organizations, and to all active chapters and alumni clubs of the fraternity. The Survey is also published in The DELTASIG, which also has a mailing list of over 10,000. This Survey has done much to promote interest in the colleges of commerce and business administration throughout the country and is recognized as the only authoritative report of its kind.
