commentary....

OUR CHALLENGE IS HERE!

Being one of the most active leaders of professional Greek letter organizations, we were the first to feel the brunt of Title IX from many university administrators where our chapters are located. The ultimatum was given to many of our chapters that they could not recruit, meet, or remain on campus if Delta Sigma Pi remained an all male organization. The membership question was brought to the floor of our 1973 Grand Chapter Congress and it was voted to remain an all male organization.

Your Board of Directors was given direction at that time to fight the order to become coed. During the administration of Past Grand President Hal Cannon we approached our competition as well as sister organizations and were simply left to fight the cause alone. We sent out requests for donations to our entire membership to aid us in fighting our case in court. We received \$12,000.00 or about 13 cents per member. We brought suit against the administration of the University of Illinois at Urbana because Upsilon Chapter had been given the cease and desist order by the school administration. We again approached the competing fraternities and not one agreed to help!!

We fought the battle alone. Needless to say, the \$12,000.00 was soon depleted and our case dismissed in the Fall of 1974 due to its premature nature.

In December of 1974, during the academic holidays, Congress passed the Title IX amendment that exempted social fraternities from the law that would halt Federal funds to campuses that substantially supported single sex organizations. Upon initial contact with HEW, we were told that each chapter would be treated as a separate case and would be handled in the courts accordingly.

The competing fraternity finally felt the punch of

campus administrators toward them and several professional fraternities and sororities organized a meeting in Indianapolis in March of 1975. We all agreed at this meeting to put \$1,000.00 each into an expense fund, formed a committee called FAIR (Fraternal Alliance for Inalienable Rights), and hired a professional lobbyist to assist us with our cause in Washington.

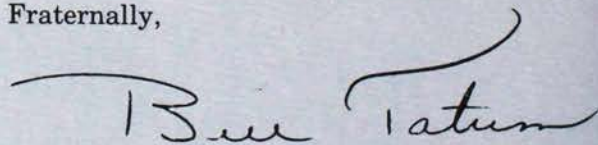

With all of those funds nearly exhausted, and with little or no success, we again asked ourselves "Are we going to continue to be the leaders?" Since the National Constitution and Bylaws prohibited voting on membership requirements during the Grand Chapter Congress, our delegates directed your Board of Directors to take immediate action on problems to the Fraternity created by HEW Regulation 86.31 (b) (7), and to use the Emergency Powers of Article XIX of the National Constitution. The Board agreed to have a mail vote in the Fall of 1975.

Your Executive Committee unanimously voted to delete the words "male" and vows to work with you harder to make our great organization even greater.

He who serves receives the rewards. Few are willing to brave the disapproval of their Brothers. Moral courage is a rarer commodity than bravery in battle, yet it is the one essential, vital, quality for those who seek change in the fraternal system that yields most painfully to change.

I trust each of you will work a little harder and give the fraternity a little more of your time and effort. And certainly during the 200th Anniversary of our Country, and the 68th Anniversary of our Fraternity, we will be remembered as the generation that had cast upon it the greatest burden of responsibility to date and dealt with it effectively.

Fraternally,

William W. Tatum, Jr.
Grand President

Alpha Nu Chapter Founders are left to right, John Tyrone #12, Bob Loury #18, Harry Hickey #4, and Milburn Dungan #1.

Alpha Nu Reaches Golden Age

THE FIFTIETH ANNIVERSARY of Alpha Nu Chapter was celebrated on October 10, 1975, at the Pinehurst Country Club in Denver, Colorado. The active chapter, along with the Denver Alumni Club and Special Guests which included Grand President Bill Tatum, Executive Director Ben H. Wolfenberger, and Regional Director Bill Wilson combined to add a good mood for such a festive activity.

Milburg Dungan, Alpha Nu 1, and Karl Witt, Alpha Nu 833, the last initiated Brother for 1975, got together and discussed some of the old and new concepts of Delta Sigma Pi.

Grand President Bill Tatum spoke on the need for a closer relationship between the chapters and The Central Office. He proceeded to say how Life Membership was an important way to involve alumni in the affairs of the fraternity. With this in mind the whole undergraduate chapter ended up becoming Life Members.

Ben Wolfenberger conveyed congratulations from The Central Office and was very inspired by the turnout for this festive occasion.

Regional Director Bill Wilson also conveyed congratulations from the Intermountain Region of which Alpha Nu Chapter is a part. Bill stated the Intermountain Region was the best region in the fraternity and that it would stay that way for a long time. Chapters and Alumni Clubs like the ones at Denver are a true credit to the Intermountain Region as Bill stated.

Also John Mundell, a recent graduate, was named District Director. When John was in the undergraduate chapter some of his offices included Professional Vice President and Historian.

The night ended on an informal basis with cocktails, a lot of reminiscing about the past, and a lot of planning for the future.

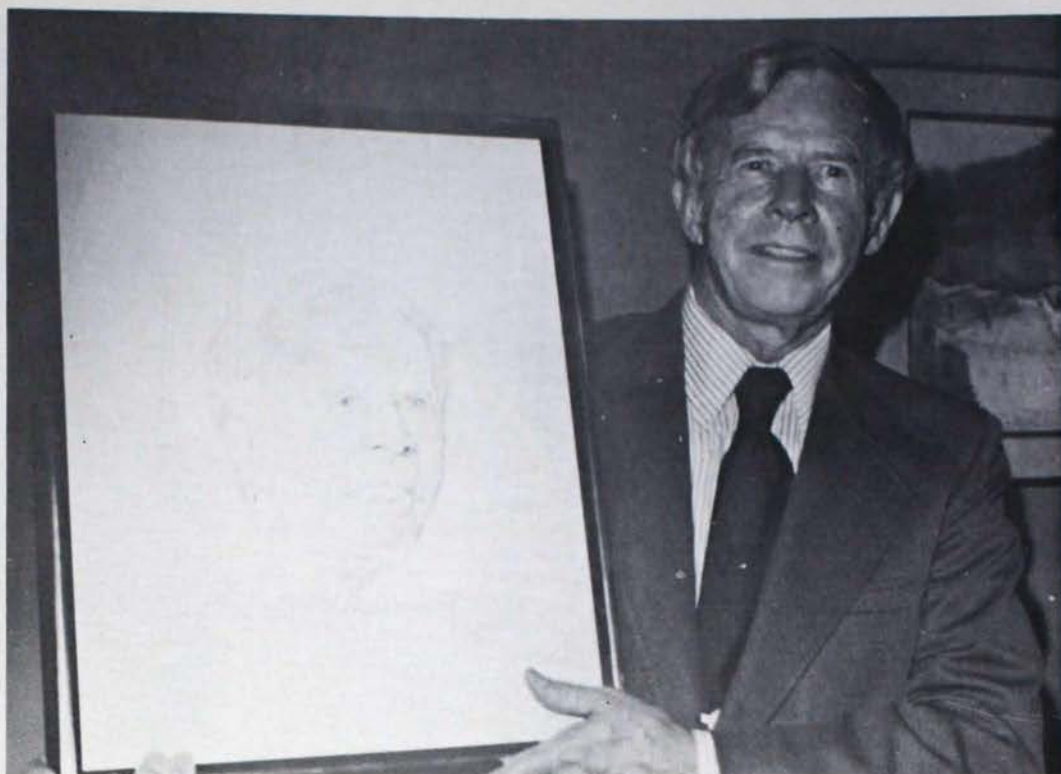

A toast to the chapter Founders; A toast to the future. At the head table are the Founders, the alumni club officers, and national officers.

The current undergraduate chapter members at the 50th Anniversary celebration.

AN #1 Milburn Dungan greets AN #833, and most recent initiate, Karl Witt.

VICTOR VEYSEY BECOMES DELTASIG

THE ETA CHI CHAPTER of Delta Sigma Pi, Professional Business Fraternity, proudly initiated into its ranks the Honorable Victor Veysey on June 6, 1975. Victor Veysey is presently serving as the Assistant Secretary of the Army for Civil Works. Mr. Veysey, a former State Legislator and Congressman, quite earnestly participated in a special two-hour initiation ceremony, during which time Mr. Veysey was given a new insight into the professional ideals and ethics of the Brotherhood.

The initiation ceremony was succeeded by an elaborate feast in

honor of the new Brother. The banquet took place at the unequaled Kellogg West Convention Center on the Cal Poly Campus. Among the elegant banquet facilities was a breathtaking view of the entire Pomona Valley. While the special culinary delights were being prepared a combination slide show, visual display, and cocktail hour transpired.

Included among the special invited guests were Mr. Ed Nelson, the distinguished star of stage, screen, and television; however, an unforeseen emergency prevented his presence. The main party included Brother William Tatum, Jr., then Director of Delta Sigma Pi Alumni Activities and Brother Thomas R.

Harnett, Delta Sigma Pi Director for the Western Region. California State Polytechnic University President Kramer and Dr. Reed M. Powell, Dean of the School of Business Administration, were among the honorable guests. Also, many prominent businessmen of the surrounding communities attended.

The entertainment was provided by The Bicentennial Color Guard, 63rd ARCOM, U.S. Army Reserve, Los Angeles, California. The men were arrayed in early American Colonial uniforms and proceeded through a series of intricate military maneuvers. The Bicentennial Color Guard is commanded by Brigadier General William H. Ecker, USAR; Commanding Officer in charge of

the Guard is Captain William Te-welt, USAR. The banquet was the Guard's first California appearance.

The highlight of the evening was a speech by the Honorable Victor Veysey. During the address Mr. Veysey expressed his gratitude and pleasure for being granted honorary membership in Delta Sigma Pi. He also elaborated upon the responsibilities of his new position as Assistant Secretary of the Army for Civil Works. It provides the opportunity to continue serving the people of California by bringing civilian leadership to the prestigious and already well-managed Corps of Engineers. He pledged a shaping of policies in concert with the directions of Congress and the needs of the people of the Nation.

Speaking of the new direction for the Corps, the Assistant Secretary said: "I have the challenge of preserving the technical and management excellence of the Corps while turning its abilities to solving the problems of conservation of our water resources and improvement of our environment. The Corps is going to wear the White Hats."

Mr. Veysey referred to the Santa Ana River Basin Studies as the most serious problem in the West. The Corps is seeking to develop solutions which can be supported by local government in an effort to protect against devastating floods similar to the one which occurred in 1969.

Mr. Veysey and the Corps of Engineers are also responsible for policy and guidance of the Canal Zone Government, Panama Canal Company and sea level affairs; the Army National Cemetery; and other civil functions.

The Eta Chi Chapter presented the Honorable Victor Veysey with a hand-polished wooden "V." The letter stands for Victory in his future endeavors, Virility, and of course, Veysey. Eta Chi Chapter presented him with a charcoal sketch of himself and a plaque commemorating the special event.

The day's ceremonial activities closed with the men of Delta Sigma Pi singing, "Rose of Delta Sigma Pi."

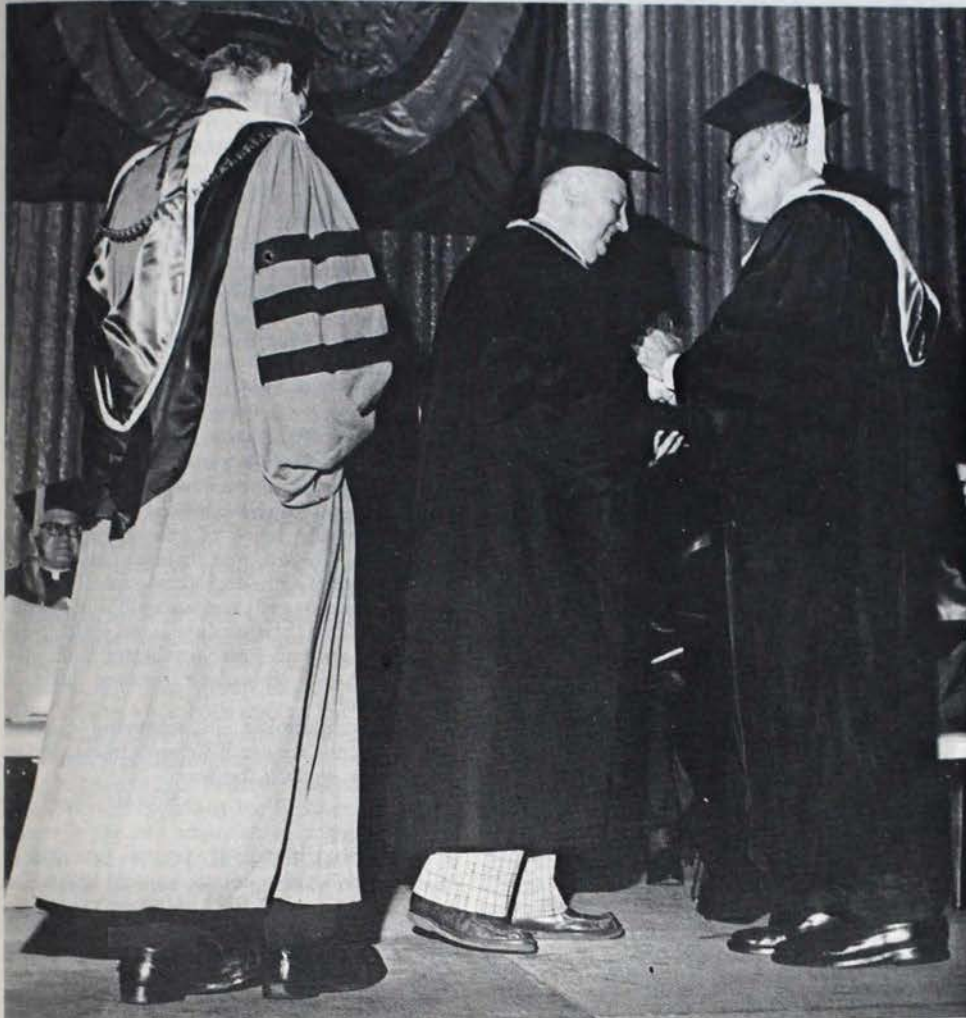

Brother Veysey being congratulated by Eta Chi Chapter President Steve Del Rossi. Left to Right are Advisor Paul Weisend, Grand President Bill Tatum, University President Kramer, and Business School Dean Powell.

The 63rd ARCOM Colonial Army Color Guard provided a display of precision drill and the presentation of the colors.

DISTINGUISHED TEACHER A MAN WHO CARES

Delta Sigma Pi faculty member Joseph Peter Simini received the 1975 Distinguished Teaching Award of the University of San Francisco, with warm congratulations from a Deltasig Brother, Dean Harold R. Walt of the College of Business Administration. USF President William C. McInnes, S.J., observing the presentation, also is a member of the Fraternity.

Students and former students of the accounting professor nominated him for the Distinguished Teaching Award at the university.

Joe Simini likes to return a favor.

He considers himself a good teacher. But the classroom, he says, is a two-way street. "One of the essentials is to have good students — not necessarily 'A' students, but students who want to learn something new and want to relate it to the totality of their experience up to that time. If a student 'stretches' in my class, that's what teaching is all about. Any student who shows he wants to 'stretch' I will meet more than halfway."

In his 21 years with the USF College of Business, Simini has earned a reputation as a popular prof. His

courses consistently draw well in a field he wishes were less limited in appeal. "Demand for accountants outruns the supply," he says, "and part of it is the persistence of an old image of a lifetime buried in numbers."

With the award went a check for \$1,500.00. The citation called him a "master of his subject" and it told more: of a man who cares, about students, about graduates who return for guidance, about his profession, and about his colleagues.

Initiated by Gamma Omicron Chapter at USF 20 years ago, Joe and his wife live in San Francisco.

... among the chapters

NEW YORK

ALPHA CHAPTER AT New York University has had several professional forums since the beginning of the school term. Mr. Seth Bartner, of the New York Stock Exchange, discussed stock options, and Mr. Mort Goldfarb, IBM Systems Engineer, spoke on "IBM, The Computer Industry, and Job Opportunities." Both speakers enjoyed a large turnout, and everyone participated in lively question and answer periods following both talks.

As another aspect of professional activities, the chapter is looking forward to a trip to the headquarters of The New York Times in November.

At the Area Meeting in Albany, NY, on October 4, Alpha Chapter was pleased to accept an award for highest attendance. Nine Brothers as well as two associate members attended the meeting.

Brothers, alumni, associate members and faculty members had a chance to meet each other at the Student-Faculty party, held during the first week of October. Among those attending was Brother Guilfoil, Dean of the School of Business and Public Administration.

Our chapter recently gave eight bids to students during our Fall recruiting program, all of which were accepted. We know that the new associate members will help Alpha Chapter continue the goals towards which we are pledged.

—STEVEN G. ORVIS

S.U.N.Y.-BUFFALO

NOW THAT THE research papers have been completed, examinations and the Holidays are over the Brothers of Alpha Kappa Chapter have been able to relax and recount the professional and social activities which were carefully planned during the concluded Fall semester.

We can especially look back at our 50th Anniversary celebration in May with a feeling of accomplishment, remembering "Doc" Cannon's keynote address and the endless hours of preparation that seemed to make each Brother a bit more apprehensive as the final day approached. The photographs, programs, artifacts and other memorabilia interested everyone who wanted a glimpse into the many avenues of our chapter's history. Founding Brother Edward H. Holt captivated the gathering as he relived many of his experiences, which were as funny as they were interesting.

The semester's professional calendar provided us with a tour and an insight into the financial workings of our educational television station, WNED-TV, in Buffalo. Late in November we also toured the Courier Express, one of our two daily newspapers. Although the plant and officers were impressive, most of the Brothers were interested in the business side of the facility, which was discussed at length.

An official of the M & T Bank in Buffalo spoke at our October business meeting on the

topic of municipal bonds and, specifically, on the problems in New York City.

The social calendar provided the necessary relaxation to offset the endless hours of study at home and at the "Library." This year's Founders' Day Social was transformed into a hayride with cider and donuts afterwards at Chapter Advisor Ed McKee's home. The Initiation Dinner Dance, which was held at the plush Three Coins Restaurant early in December, saw a record number of new members welcomed into Alpha Kappa Chapter. Our latest gathering was the December Stag Party and Beer Mug Initiation held at Brother Bruce Wahl's home. The Brothers played cards and indulged in the "art" of breaking in their newly acquired beer mugs. The custom reportedly enhances the flavor and flow characteristics of any liquid subsequently consumed from the mug.

—REYNOLD F. JENNETTI, SR.

BABSON

GAMMA UPSILON CHAPTER is proud to proclaim, to all our Brothers, the arrival of our chapter's 25th Anniversary. April 21, 1951, was the historic date when the then Babson Institute was honored with a chapter of Delta Sigma Pi. Today, 25 years later, Babson College is still graced with the presence of our sacred Brotherhood. The Brothers of Gamma Upsilon Chapter are anticipating a very festive semester, in honor of this momentous event, and are especially looking forward to a gala celebration on April 21, 1976. All of our Brothers are, of course, invited to help us celebrate this joyous occasion.

The significance of the number 21 is not singular, however, to the Brothers of Gamma Upsilon Chapter. Not only is 21 the date of our charter, it is also relevant to the athletic prowess of our chapter. For 20 straight years, Gamma Upsilon Chapter has remained undefeated in interfraternity football, on the campus of Babson College. At the writing of this letter, we are confidently preparing for our 21st undefeated season. I am quite sure that in the next issue of "The DELTASIG", I will report to you that we are looking forward to our 22nd undefeated season.

Other newsworthy items from Gamma Upsilon Chapter include: the assumption of office by our new chapter president, Stacy Rodbell; the induction of nine exceptional pledges, during the Fall semester; the attendance of Brothers Jeff Dente and Brian Welch at the Eastern Regional Conference on October 3; and the upcoming chapter fozze-ball tournament, in which Brothers Bruce McPherson and Tom Putze are favored to win their third straight title.

In conclusion, we would like to wish all our Brothers a very Happy and Successful New Year. In this year of our country's Bicentennial, let all of us of Delta Sigma Pi strive to make it a great year, not only for our country, but for our Brotherhood as well.

—VIN NOLAN, JR.

ROCHESTER TECH

AS IN THE past, Epsilon Lambda Chapter at Rochester Institute of Technology has had an extremely productive Fall recruiting program. Through excellent publicity, as well as combined smokers with our sister sorority, Phi Gamma Nu, we inducted 10 associate members.

Our professional program has been moving full steam ahead as we recently attended a meeting of the American Marketing Society. Our tours have included Canandaigua Wines, Rochester Products, and the Marketing Education Center of Eastman Kodak. Seminars, though, have been the high point of our professional activities. An accounting seminar was held where the Brotherhood was entertained by accountants from several local firms here in Rochester. It was followed by a question and answer period which was quite interesting and informative.

Our chapter celebrated Founders' Day with a party at the home of one of our alumni Brothers. We are also holding an alumni night where the undergraduate members will get a chance to get together with our alumni Brothers. This is being done in an effort to get to know alumni Brothers better and give them a chance to become involved again in the chapter.

We are planning on achieving 100,000 points in the Chapter Efficiency Index, and as of now are well on the way.

—RONALD W. MIELE

C. W. POST

ZETA OMICRON CHAPTER at C. W. Post has started working on our annual horseshow to be held in April. We hope that it is as successful as our show was last year. This is one of our largest fund raisers and we also make a large contribution to the scholarship fund because of it.

Since September, the name of Delta Sigma Pi has been posted around campus announcing the various activities we were involved with. In September, we had signs announcing our smokers. The day those signs came down we replaced them with signs advertising our scholarship. We then had signs announcing the blood drive we were co-sponsoring with the Red Cross. After that, we advertised our Flea Market in December.

We also had a Disco Night in November which was something different for us. Because of our business know-how, this was very successful.

Last semester our professional program was very good. We had a couple of professors speak to us in addition to the regular variety of outside guests. This semester we have a couple of trips planned. We are all waiting impatiently to go.

Athletically we are also active. In intramurals we have our own bowling team. Last year our team came in first place. This year's team looks just as good . . . the best of luck to them. We are also active in alumni-undergraduate competitions. Football, bas-

ketball, and baseball are the three major sports in which we compete. The alumni prove to be good competition and the scores are always close.

We are very close to our alumni which is an asset to our chapter. They built the chapter to what it is today and we thank them for it. They seem to be very interested in undergraduate affairs and give us all the help they can (whether we ask them to or not). In November, we held our 10th Anniversary dinner dance which was very successful. All the Brothers and alumni who attended enjoyed themselves.

Zeta Omicron Chapter is very active in the student government since the president, vice president, treasurer, and one-fourth of the Senate are Brothers. This taught us the ins and outs about running an election campaign from the beginning to the end. Now that we were elected, we are learning how a student government is run, which is an invaluable lesson in management.

We wish the other chapters the best of luck in the coming semester and hope that everyone's year looks as good as ours, both professionally and socially.

—VINCENT G. CACCIOLA

S.U.N.Y.-ALBANY

THE ZETA PSI CHAPTER started off the 1975-76 school year with a very successful membership drive program. Our professional rush events, a business career seminar on accounting, labor relations, and marketing, and a separate accounting seminar, attracted many interested business students, as well as giving us a fine group of prospective new Brothers to work with during the Fall.

The Zeta Psi Chapter professional program this Fall was highlighted by two events. One was a tour to the Federal Reserve Bank in New York City, where the Brothers found one place in the city where there is no shortage of cash. And in early November, the Zeta Psi Chapter, in conjunction with the School of Business and the Placement Service, sponsored a "Careers Day." A wide range of business-related fields was represented at this event. The many students, Brothers, faculty, and businessmen who attended were highly impressed.

In fund raising, the Zeta Psi Chapter was once again successful in selling advertising blotters to the local Albany merchants. This has been highly beneficial to us as we have been able to develop stronger ties with the Albany community. And our chapter got back in the movie business by showing "Paper Chase", which drew many an over-worked Student.

Founders' Day this year was celebrated in conjunction with our second annual Faculty-Brother Sunday brunch, an event held by the Zeta Psi Chapter to bring our Faculty Brothers closer to the chapter.

The Zeta Psi Chapter concluded our associate member program by initiating a dozen new Brothers on November 15, 1975. Heading into the Spring semester, we now have over 40 Brothers eager to prove once again that Zeta Psi Chapter is an honor chapter in the International Fraternity of Delta Sigma Pi.

PITTSBURGH

LAMBDA CHAPTER AT the University of Pittsburgh extends a wish for a happy and fraternally prosperous New Year to all the other chapters. We are heading toward another 100,000 point year and we hope all the other chapters will join us.

We began our social year by celebrating Founders' Day with a party that included a buffet lunch and a cake. Lambda Chapter used the occasion to honor all our past chapter presidents. We also invited our 15 new associate members; this gave them a chance to meet some of the men who helped build our chapter into the great chapter it is today. It was a glimpse into the Lambda Chapter tradition which these now new Brothers are asked to uphold and continue. The affair turned out to be a huge success, as we expect this year to be for all of us.

—JOE PUSATERI

JOHNS HOPKINS

CHI CHAPTER AT Johns Hopkins University would like to wish all the Brothers of Delta Sigma Pi a most successful year in achieving high points in the Chapter Efficiency Index.

In keeping its professional concepts viable this year, Brother Henry Sohl, vice president for professional activities, arranged a most interesting bicentennial tour of some of the most historic places in Baltimore and the nation. The tour included trips to Fort McHenry, Birthplace of the Star Spangled Banner; Baltimore and Ohio Museum, Home of the country's first steam engine; Flag House, Birthplace of the first U. S. flag; and the U.S.S. Constellation, the oldest ship of the U.S. Navy. The tour was well attended with 40 Brothers and guests, and was inspirational to all.

Chi Chapter birthday celebration was combined with the associate member initiation dinner and held at the Johns Hopkins Alumni Club on campus. Our chapter president, Dave Baker, has instilled a greater determination this year for closer professional and social integration of undergraduate and alumni activities.

—MELVIN J. SMITH

RIDER

BETA XI CHAPTER at Rider College had quite a successful Fall semester. On the professional side we had several interesting speakers, along with our semi-annual tour. One speaker represented Merrill Lynch and another speaker was the personnel director of Squibb Company, who gave a presentation on how to take an interview. Our tour this semester was to Airwick Industries, which included a tour of the television studios.

We started our recruiting season off with a buffet followed by our traditional beer blast. To end our recruiting activities, we held a Wine and Cheese party for all interested prospective members and their dates. Later in the semester we held our annual Halloween Dance in which a lot of alumni Brothers returned. We ended the semester by holding our annual Fall Inish to welcome all our new Brothers into the fraternity.

—WILLIAM B. WEISS

SHEPHERD

EPSILON KAPPA CHAPTER has had a very profitable summer. One of our money making projects was to put up tents for the Harper's Ferry Arts and Crafts Festival. We

also sold flowers for Homecoming and for Parents Day. Currently, we are selling subs in the dorms on a monthly basis.

We have had one professional speaker this semester and we are planning to tour the new Western Electric Plant in Martinsburg, WV. Our annual long distance tour will be in the Spring semester to New York City, NY. In New York we will tour the IBM facilities and the World Trade Center.

We have four associate members whom we planned to initiate into the Brotherhood in November.

—THOMAS C. MILLER

LA SALLE

EPSILON SIGMA CHAPTER at La Salle would like to congratulate and welcome its new Brothers: Joe Connors, Angelo Nerri, Art Stevenson and Frank Aurillie.

Brother Tom McGinn, vice president of professional activities, arranged a number of speakers from our area, including Brian Smith of Arthur Andersen and Company who spoke on "A Career in the Tax Department." Another highlight of the semester was a tour of the Schaefer Brewing Company in Allentown.

The parties this semester under the direction of Brother Tom DeLello were very successful, the highlight being the Father and Son Dinner held on November 23.

The athletic endeavors of Epsilon Sigma Chapter were very successful this Fall. Under the leadership of Brother Domenic Sanginiti, the football and volleyball teams placed very high in the standings. The Brothers also had a football game against the faculty on whom we were merciful.

—PETER L. SANDUSKY

ST. PETER'S

ZETA ETA CHAPTER at St. Peter's College held its Fall recruiting program, initiating six new Brothers. This year's associate member class was instructed by Brothers Joseph Tizio and Craig Carney. A successful program was completed with formal initiation in late November.

The chapter initiated its professional program on campus by co-hosting a speaker from Peat, Marwick and Mitchell, a public accounting firm. The speaker was a St. Peter's alumnus, Mr. Robert Wells.

Social activity was also a part of the semester, and there was a trip to Budweiser Brewery in Newark. A tour was taken by all the Brothers and then a sampling of the finished product.

A baseball game is in the upcoming Spring plans with our nearby Brothers at Rider College. This has always proved successful and entertaining for all in the past.

—RALPH W. A. QUAGLIA

DUQUESNE

THE THETA RHO CHAPTER at Duquesne University has completed a very successful Fall semester and is well on its way to earning 100,000 points, for the third consecutive year, in the Chapter Efficiency Index.

The Brothers worked diligently together with the associate members in raising money to sponsor a couple in the Duquesne University Muscular Dystrophy Dance Marathon. This special project was a tremendous success, as it truly brought a great sense of pride and unity to the chapter.

Our professional program included a spectacular tour of KDKA TV-2 television studios

Members of Alpha Zeta Chapter, Tennessee-Knoxville, and "friends" at Cherokee Park in Knoxville.

Salesmen at the Hoagie Sale sponsored by Theta Rho Chapter, Duquesne, for Muscular Dystrophy are, left to right, Leo Beck, Kirt Morris, Dan Duffy, and Kevin Braun.

in Pittsburgh. We also hosted entertaining and informative speakers from such firms as Westinghouse Corporation, Marketing Counselors, Inc., and Merrill Lynch, Pierce, Fenner, and Smith, Inc.

Academically, the overall chapter grade average was again well above the business school's average. Furthermore, over one-half of the Brothers of the Theta Rho Chapter are currently members of the honorary business fraternity at Duquesne.

In athletics, we carried our pride, unity, talent, and business-like attitude to the football field. The team was very successful in the tough independent league at Duquesne. The offense was as potent as the defense was devastating, as this became apparent to any adversary we faced. This Spring we will carry this winning way to the street hockey field, the basketball court, and the softball field.

Therefore, the Fall of 1975 was a fantastic success for the Theta Rho Chapter and we wish all chapters of Delta Sigma Pi an enjoyable and successful Spring.

TENNESSEE

ALPHA ZETA CHAPTER at Tennessee undertook another excursion to a local beer distributor before Christmas. Also planned for Fall quarter were such activities as watching films of Tennessee football highlights. In store for the winter are trips to the Bull Run Steam Plant and the Oak Ridge National Laboratories.

Tom Hyde, our new chapter president, has announced that Alpha Zeta Chapter has been given use of an office in the Glocker Business Administration Building. This should add to the degree and efficiency of chapter cooperation and communication. Such an event is evidence of the chapter's continuing growth.

The current school year should be one of the best Alpha Zeta Chapter has enjoyed in several years. With a successful winter recruiting program, there is every possibility that it will be.

—ARTHUR J. FISHER

VIRGINIA TECH

ZETA UPSILON CHAPTER at Virginia Tech during its ninth year has initiated healthy professional and social activities. The professional program included a talk by Faculty Brother Dr. Robert Wilkes, Professor of Business Administration at Virginia Tech, on the proper methods and procedures to follow when applying for a job. We were also fortunate in having Brother Bill Nash's father speak to us on company hiring policies. Mr. Nash is head of personnel for Reynolds Aluminum in Richmond, VA. Also planned is an upcoming tour to a local radio station.

The highlights of the social program was the Homecoming Combo. Alumni and Brothers alike danced to the music of "Reaper." Among the alumni attending was our Number One man—Brother Allan Auvil, the first initiated member of our Chapter. We were also happy to have Mr. H. C. Bunz, who has been an invaluable asset to the activities of the Fraternity.

Officers for the coming year are; Richard M. Hodge, president; Jeffrey "Hoops" Baron, senior vice president; Paul Rowan, executive vice president; Chris Sheaffer, professional vice president; William Holt, treasurer; Bill Garbee, secretary; and Rick Hall, chancellor.

We wish all the chapters a 100,000 point year.

—JEFFREY BARON

MADISON

IOTA KAPPA CHAPTER at Madison College has recently been busy organizing a Resumé Book for graduating business majors. Headed by Kenny Lane, vice president for professional activities, we have compiled a book that will be sent to 200 prospective employers, containing over 60 individual resumés. It is hoped that many job opportunities will result from this project.

Our Fall associate member class, under the direction of Bill Millon, vice president for membership development, consisted of 13 undergraduates and four faculty members. Last year Iota Kappa Chapter almost reached the maximum of 100,000 points in the Chapter Efficiency Index, and this year with the help of our new members, we are certain to reach this goal.

Iota Kappa Chapter has already had several professional speakers this year and is planning for others this coming semester. Also, in November, we participated in the Harrisonburg-Rockingham County Business Symposium and had a banquet in honor of our new Brothers.

GEORGIA STATE

KAPPA CHAPTER AT Georgia State University has attained growth and has accomplished modest goals with guided direction in the past months. In the winter quarter of 1975, six new Brothers were brought into the chapter and Outstanding Pledge of the Quarter was Bill Taylor. The Brothers also attended a tour of a division of Southern Bell in business activities.

In Spring, 1975, nine new members were inducted. The associate members organized work parties as a fund-raising project to purchase a color television for the fraternity room. Efforts were appreciated by all Brothers and Dennis Marchman was announced as Outstanding Pledge. After initiation ceremonies, a film on communication was shown. There were also social events, such as the Rose Dance, when Sharon Cool was chosen as Chapter Rose. In business trips, Kappa Chapter visited the Manufacturing Company of Diebold, Oxford Industries computer center, and R. L. Mathis Certified Dairy.

Summer quarter proved to be exciting and interesting. Even though the chapter is basically inactive this quarter, our fraternity had an eventful summer. Kappa Chapter was proud to hear that Don Cool was elected as the "Undergraduate of the Year" of Delta Sigma Pi and Michael Mazur has been selected Life Membership Chairman for the Southeastern Region. Congratulations are extended to both Brothers. At the Grand Chapter Contress four of our members were present: Robert Cooper, Bill Taylor, Michael Mazur, and Yarl Hellemalm-Ashfield. Among social lines, Kappa Chapter had an alumni barbeque, drawing together the Brothers for a successful function.

—MICHAEL W. WIENER

FLORIDA

BETA ETA CHAPTER at the University of Florida is alive and kicking again! The chapter, almost dormant for the last few years, is very active once more. We made a strong comeback from Spring through Fall to see the membership triple to 30. Beta Eta Chapter is preparing to reassert itself statewide and to come in tune with the Fraternity nationally.

The first step in this process began with the return of Brother Jorge Diaz from the 30th Grand Chapter Congress in Missouri. The new "Yellow Dog" filled us with stories of the enthusiasm and innovative ideas that can always be found when Deltasigs gather. The Grand Chapter Congress added a new dimension of "Brotherhood" for him and served to rededicate us all to the principles of Delta Sigma Pi.

Fall saw the chapter continue to improve its locker rental program, the only one of its kind on the University of Florida campus. The program is designed to make lockers available, for a nominal fee, to all members of the University with a particular accent on students of the College of Business Administration. We are happy to report it has been an unqualified success and are planning to expand the service to more members of the student community.

Our professional schedule was highlighted by the visit of Mr. Kenneth Tinsley of Florida National Banks in Gainesville. He cogently brought to our attention the potential of electronic banking nationwide and the dynamics

of the rapidly changing bank scene in Florida. Also on the agenda was a visit to the Ford Motor Company in Atlanta, made jointly with our betterhalf, the ladies of Phi Chi Theta business sorority.

We did not neglect our social side; parties, volleyball, basketball, and football games as well as various outings made for a hectic Fall.

The chapter would like to salute our outgoing president, Brother Loren Poucher, for guiding us through some trying times and wish success for our new president, Brother Robert Miles, in the coming months. To all Deltasigs, we extend our best wishes and hopes for a Happy New Year during this, our nation's Bicentennial.

—R. S. GRANGER

AUBURN

THE BETA LAMBDA CHAPTER at Auburn University has been enjoying a very successful year. The prestige of our chapter and our success in recent years at pledging quality Brothers was most evident at the Seventh Annual School of Business Honors Day Banquet on May 13, 1975. Brother Bill Justice was honored with a cash award from Haskins and Sells, the Auburn Student Accounting Association Outstanding Leader Award, and the Delta Sigma Pi Scholarship Key. Brother David Smalley received third place in the Alabama CPA Merit Award. Brother William Koons was one of 10 finalists for the Alabama CPA Scholarship. Brother Phil Harding received the Alabama Management Association Outstanding Student Award. Brothers Bill Justice and Mike Byrne were designated as Honor Students, a distinction reserved for the top twelve students graduating from the School of Business. Brothers who were inducted into Phi Kappa Phi scholarship honorary included Mike Byrne, Bill Justice, David Smalley and Bill Vincent. Along with taking many of the honors, Delta Sigma Pi also had the largest delegation of any student organization attending the banquet.

Another highlight of the year was the Spring Quarter election of Brother Glenn Estess to the presidency of the School of Business. His leadership in that position should be an asset to both the school and our chapter.

Fall Quarter has gotten underway with the initiation of 15 new Brothers. In anticipation of another active year we are now in the process of re-evaluating our programs and planning interesting projects and activities. Leadership this year is being provided by Jim Gallagher as president, Jerry Moore as senior vice president, Don Daniell as vice president for pledge education, Dave Madlener as vice president for professional activities, Tom Hurst as secretary, and Bill Maher as treasurer. We are looking forward to our best year ever under the leadership of these Brothers and we hope that all chapters will have a successful year.

—RHETT DONALDSON

MIAMI

BETA OMEGA CHAPTER at the University of Miami enjoyed a successful Fall semester. Among our many activities, we conducted the teacher evaluation for the School of Business Administration. Our professional tours included a trip to National Airlines, Bacardi Rum, and a visit to the Miami office of Bache and Company (second largest stock broker in the U.S.).

The Brothers of Beta Omega Chapter participated in a number of intramural sports including baseball, football, and volleyball.

Once again we are planning to achieve 100,000 points in the Chapter Efficiency Index. A large number of these points has already been submitted to The Central Office. We are looking forward to an even more enjoyable Spring semester with the help of our nine new Brothers.

—RUDY SCHOLZ

FLORIDA STATE

GAMMA LAMBDA CHAPTER concluded the academic year, last Spring, with the following activities: (1) a professional tour to Orlando, Florida, where the Brothers observed the Sun Bank's operations, Daniels' Printing, and Correctcraft Boat Builders; (2) a community service project, where Brother Pat Daniels arranged for the Boy's Club of Columbia County (Lake City, Florida) to come to Florida State as the guests of Gamma Lambda Chapter. During their stay in Tallahassee, they were treated to a FSU baseball game and then, later that night, a FSU Garnet-Gold scrimmage football game. Needless to say, none of the boys wanted to return to their homes; and (3) an annual extravaganza was held at Brother Bobby Bacon's beach cottage after initiation, from Saturday afternoon until Sunday noon. There was a cookout on both days, along with an awards presentation, sailing, etc.

Our largest undertaking of the Fall quarter was a fish fry held on October 25, to raise money for Funder's, Inc., which is a group of local businessmen who are dedicated to help send kids to camp each summer. Since 1970, they have sent almost 3,000 kids to various camps. We hope to net enough to send at least seven kids to camp. Many of the Brothers worked especially hard for this project and special word of thanks goes to Brothers Bob Avery and Dennis Filloon for keeping all the pieces and loose ends together.

It was very satisfying to learn over the summer that Gamma Lambda Chapter reached its goal and is a 100,000 point chapter. As Chapter Efficiency Index Chairman, Brother Pete Peschau is confident of another successful year.

As we look throughout the year, we find a full professional schedule of events. Beginning this Fall, Gamma Lambda Chapter was fortunate to have Warren Dawson, securities analyst for A. G. Edwards, Members of the New York Stock Exchange, speak to the chapter on the new Chicago Board of Options and the stock brokerage profession.

Brother Jim Beck is guiding our associate member class of 12 through their program to a successful completion. Gamma Lambda Chapter will have 25 Brothers graduating before June, 1976, so these neophytes will have to carry on the tradition of this chapter, along with the goals and objectives of Delta Sigma Pi.

—JAN PIETRZYK

FLORIDA SOUTHERN

DELTA IOTA CHAPTER at Florida Southern College returned after a very successful 1974-75 year with even higher expectations for 1976. After a strong Fall recruiting function we installed 12 quality associate members who we know will be great assets to the fraternity. Recruiting for the upcoming semester is great, with another top associate member class expected.

The Brotherhood this year will be under the dynamic leadership of President Jim Allmendinger. He will be assisted by Senior Vice President Cary Liphart, Vice President for Membership Development Richard Wolff, Treasurer Mike Digman, Secretary Ron Beaton, Vice President for Professional Activities Tim Flannagan, and CEI Chairman Paul La Placa. Our "Rose of Deltasig" is the most beautiful and charming Jan Watkins. The Brothers of Delta Iota Chapter would like to express sincere appreciation to Mr. Charles Franklin who recently retired after five faithful years as Chapter Advisor. We welcome Mr. George Cusson as the new advisor, and know he will serve us most earnestly in his new position.

Our professional activities this year to date include various speakers and tours. Mr. David Molthrop, District Manager for the National Federation of Independent Businesses, spoke on "career opportunities unlimited" and Mr. Rodger Doyle, president of the First National Bank in Lakeland, gave an interesting speech on "Banking in the Future." Of particular interest was the discussion by Mr. Brooke Roberts of the Federal Bureau of Investigation on "F.B.I. Jurisdiction." We have toured the Piper Aircraft Corporation and the McDonald's Corporation, both of which proved to be very beneficial to us. On November 13 the Brothers enjoyed a barbeque at the home of Honorary Brother Ed McMullen. Our program continues to feature top speakers, films, and field trips throughout the year. Delta Iota Chapter anticipates this year to be the best ever.

—HOWARD BACON

TAMPA

EPSILON RHO CHAPTER at the University of Tampa continued to foster the study of business this past summer by holding a swim party in June. Its purpose was to entertain prospective associate members and help them meet the Brothers. The summer recruiting program was a complete success as two new Brothers were initiated on August 9, 1975.

The Fall semester started with a recruiting program to encourage and inform new members. In an attempt to introduce these new members to the Brotherhood we organized the Fall "Recruiting Smoker", which was held on September 26 at the Causeway Inn North. Food and drinks were provided for the 22 people that were in attendance. An impressive guest speaker, Mr. Ron Stewart from Unijax Paper Company, gave a fine description of the paper industry. The membership development program is in progress at the present time and eight new associate members are working vigorously toward their initiation.

On September 22, Epsilon Rho Chapter was visited by Mr. George Ragland, the Southeast Regional Director. He gave a very interesting and informative talk and encouraged many of our activities.

Future plans for the chapter consist of both fund raising activities and social functions. A golf tournament and an associate member luncheon were planned for the Fall semester. Also a fund raising campaign to sell programs on "Gasparilla Day" is developing for the Spring semester.

—A. JAY GROSS

GEORGIA SOUTHERN

EPSILON CHI CHAPTER at Georgia

Southern College engineered one of the most successful recruiting programs in the chapter's history. Delta Sigma Pi increased its membership by 55 per cent during the Fall quarter. Much optimism fills the air as the winter quarter recruiting begins.

The Founders' Day celebration began on Friday, November 7, with a banquet at the Holiday Inn of Statesboro. Mr. Robert Morris, president of T. J. Morris Company, an independent grocery distributor, gave the address. The associate members were then initiated Saturday morning with a fraternity-faculty volleyball game and a picnic that afternoon.

Delta Sigma Pi was well represented in the intramural volleyball competition. Along with playing intramurals, the team participated in a fund raising game for the Baptist Student Union, and made an excellent showing in the match. Currently, we are participating in the basketball intramurals.

The fund raising projects included a very successful slave day, in which the Deltasigs were rented out to the business faculty at \$1.50 per hour. This provided the faculty with inexpensive labor for their odd jobs. Other projects undertaken were a raffle and a car wash, with the associate members being especially instrumental in the success of the car wash.

Professional activities included a tour of the local bank and a tour of other local businesses.

A bikeathon was sponsored by all the fraternities, sororities, and organizations of GSC to help retarded children in this community. Delta Sigma Pi sponsored two riders and generated financial support from businesses in Statesboro.

—JOSEPH D. OLSON

TROY STATE

TROY STATE UNIVERSITY, Alabama's Most Exciting Campus! Eta Kappa Chapter of Delta Sigma Pi is continuing to prove this slogan to be very true here at Troy.

The Fall quarter got off to a good start with a beautiful new "Rose", Miss Carol Barnwell. She was presented in Troy's Homecoming parade. Congratulations, Carol! To assist Carol, eight more little sisters are hostesses during our social affairs.

Cliff Meadows, president of Eta Kappa Chapter, attended the Grand Chapter Congress which proved to be very informative. He returned with many new ideas for future chapter undertakings.

Our first professional speaker for the quarter was the President of First Farmer's and Merchants Bank of Troy. He spoke on economic problems and explained the banking system.

Some of the social activities held this quarter were several smokers, a Homecoming steak cook-out, and other get-togethers.

To acquire the needed funds on which to operate, we are having two major money making projects. Our second annual turkey shoot, which last year proved to be very successful, and the raffling off of an automatic shotgun.

The Brothers of our fraternity would like to extend to each chapter the wish for a most successful year and hope that we will all strive to promote the goals and ideals of our professional organization.

—ROY WEST SINGLETON

COLUMBUS

MANY BROTHERS MAY have erroneously concluded that Theta Mu Chapter had gone inactive, due to our long silence. To paraphrase Mark Twain, "Reports of our death have been grossly exaggerated." Last year was one of rebuilding for the Brothers of Theta Mu Chapter which necessitated work rather than publicity.

In addition to merely building our membership, we have sought to improve the scope and quality of our activities. For example, Theta Mu Chapter was primarily responsible for the development and institution of a faculty evaluation program in the Division of Business of Columbus College. We were encouraged in this effort — as we are in all of our activities — by Brother Olive H. Embry, Chairman of the Division of Business. Additionally, our Brothers collected funds from other students to help establish a memorial fund in memory of Dr. William E. Boyd, a late Professor of Economics. Although Dr. Boyd was not a Brother, his dedication to his profession exemplified the ideals of Delta Sigma Pi.

Scholastically, our Brothers ended the Spring quarter with a mean grade point average of 3.19 (out of 4.0) and 53 per cent of our Brothers were on the Dean's List. Individually, our Brothers are involved in activities outside of the chapter. Brother Jed Harris is currently serving as an intern in the Washington office of U. S. Senator Herman E. Talmadge (D-GA). Brother Gerald Gold recently won second prize in the Tom Mann Open Bass Tournament at Lake Eufaula, Alabama, missing first prize by two ounces with a catch of 14 pounds one ounce. Brother Leonard Jagoda lately represented the Business Division of the College in a series of Bicentennial telecasts depicting the business conditions of 200 years ago.

Theta Mu Chapter has just recruited eight new Associate Members, and we plan to exceed our quota of 14 new members this year. Additionally, we have established a goal of making the CEI Honor Roll and have already submitted a large number of points to The Central Office.

This year has begun as an exciting one for the Brothers of Theta Mu Chapter, and we look forward to the rest of the year being as profitable as it has begun. We wish our fellow Deltasigs the same success in the coming year.

—LEONARD JAGODA

SOUTH FLORIDA

THETA PHI CHAPTER at University of South Florida provided help during the Bill Gibson Golf Tournament during the summer quarter. Over 20 Brothers caddied and served food to help benefit the USF basketball program. Projects during the Fall quarter consisted of a joint car rally held with Phi Chi Theta, and working at local high school football games concessions.

The Fall quarter also brought many professional activities that included "Investments for College Graduates" presented by Merrill Lynch, and "Careers in Advertising and Marketing" presented by Enslinn Advertising Agency.

Theta Phi Chapter had a very successful recruiting program this Fall with 15 associate members being brought in. The Brothers have high hopes for this class as they are ex-

cellent men with a wide range in age and are very enthusiastic. The Brothers are also making more effort to improve alumni and faculty relations and closer contact with the University of Tampa chapter.

—CHUCK MANN

NOT REPORTING

CINCINNATI

ALPHA THETA CHAPTER at the University of Cincinnati is steadfastly pursuing a policy of more activities and more university involvement. A tour of Meier's Wine Cellar, which featured wine and cheese sampling, began the year's schedule. The tour was attended by over 40 undergraduate members and alumni. Other outings on the Fall calendar include tours of an IBM Marketing Office and Procter and Gamble's Ivorydale Plant, along with a speaker from Burke Market Research. In addition, President Ryan added intramural football to the curriculum. The team seemed headed for the playoffs as it was unbeaten and unscored upon in three games.

The Brothers of the chapter are extremely proud of our new faculty advisor, Dr. David Anderson. Dr. Anderson is noted for his involvement with students. Such things as extended office hours, open door policy to student problems, and leadership on Academic Advisory Committees have earned him this reputation.

The entire chapter is actively engaged in preparing some projects for winter quarter. Plans called for a visit to an orphanage at Christmas time, the soliciting of advertising space for a desk blotter, and a Rose Dance with a selection of a Rose Queen in January. It is our hope that these projects will increase our civic and university involvement.

—MIKE MANNINO

OHIO

ALPHA OMICRON CHAPTER is coming on strong this year, as usual. We never have any problems regrouping after a long summer. Membership stood at 15 Brothers when the summer began, and today we are still at 15.

Our recruiting program was beautifully executed this Fall, bringing in 14 associate members. At the end of the quarter our membership will stand at 29, making us one of the largest fraternities on campus.

We are presently involved in activities that will give us recognition on campus. Plans are in the making for sponsoring a concert, operating a booth at the university festival, and renovating a study room in the College of Business Administration.

Educational activities are a major concern to us. We have always offered speakers each week and at least two or three tours a quarter. This year we will continue this tradition of quality.

Our 50th Anniversary was December 5. We plan to bring all Brothers of Alpha Omicron Chapter together, some time in the school year to celebrate. The weekend will include formal dinners, a wine and cheese taste, a basketball game, and, of course, a meeting. All Alpha Omicron Chapter alumni, please

contact us if you haven't heard from us yet.

We are strong and confident this year. We have the right ingredients for being the number one chapter. Under the guidance of a competent Executive Council we plan to go a long way, as usual.

—LARRY SUSSBERG

INDIANA

ALPHA PI CHAPTER recognized its 50th Anniversary by a celebration at the "Rose" dance held on December 6, at the Indianapolis Hilton. Indianapolis was chosen as the site to allow easier access for alumni.

The semester started with a most successful recruiting program headed by Brother Rich Wheeler. The associate member education program was handled by Brother Alan Boggs, who tried to encourage full participation of the 18 associate members in all of the chapter's functions. A greater effort was made to assist the associate member throughout his education to make him a more totally aware Brother.

Dr. P. Ronald Stephenson was selected by the chapter to be initiated along with the associate member class. Dr. Stephenson is a Professor of Marketing here at Indiana University.

Professional events continue to be a most important phase of the chapter's functions. Professional Vice President Larry Brewer has brought us many interesting speakers, including former Indiana Governor Edgar D. Whitcomb, now Director of the World Trade Center in Indianapolis. Other speakers included representatives from Coopers & Lybrand and Block's department store.

Alpha Pi Chapter has had a most successful 50 years and anticipates continued success in the future. We wish to extend holiday greetings to all Brothers.

—WILLIAM T. HAVENS

MIAMI-OHIO

ALPHA UPSILON CHAPTER is again preparing a very successful winter quarter after beginning the year off on the right foot with a very enthusiastic new associate member class. Our new "associate member" program came off quite well, and the round table discussions between the new initiates and the Brothers were much more effective in introducing the neophytes to the principles of Delta Sigma Pi. The new program, by promoting a closer relationship between old and new members, was also more effective in strengthening the bonds within the chapter so that we can operate more cohesively in the future, and thus get more out of the chapter.

Our first professional function of the quarter consisted of a talk by a member of the Bursar's office here at Miami University. The Brothers who attended agreed that we all gained some insight on the workings of such a complex organization. Our other professional activities included a talk by our "professor of the quarter" and a tour of National Distilleries in Cincinnati. For some strange reason, the Brothers agreed unanimously that the latter was our most valuable activity of the quarter.

Of course, the Brothers of Alpha Upsilon Chapter have never been all work, so our activities included a Founders' Day party which was great fun for all involved. In addition to this, our social committee is planning a party for winter quarter with Com-Bus, the women's business fraternity here on campus.

Although details are few at this point, the party sounds promising since we are attempting to establish a closer affiliation between the two organizations as a result of the current discrimination charges made against men's fraternities in general, and Delta Sigma Pi in particular.

Our new corps of fine officers are working on plans now for winter quarter, and the rest of our membership certainly hopes that they plan another exciting quarter of activities which we enjoyed at the beginning of the current year.

—FREDERIC C. BRUSSEE

KENT STATE

BETA PI CHAPTER hopes to match last year's success which saw the chapter earn 100,000 points in the Chapter Efficiency Index. Many activities have been planned in advance which should make for an exciting year. Of those activities planned, we are looking forward to participating in the middle management program which local industries, which gives each Brother a chance to strengthen his leadership abilities.

Other professional activities include a tour of the Kroger Super Market Distribution Center in Solon, Ohio, a presentation of the professor of the quarter award, and a raffle from which all the earnings will go to charity. Again this quarter we are operating our coffee and donut sale—the revenue of these sales goes towards Beta Pi Chapter activities.

We recently held our annual Fall golf outing with alumni attending. Following the game the players met at a picnic planned by Randy Fiest. Chapter Advisor Dr. Buddy Meyers had low score. Other social activities will include a semi-formal dance, couples bowling night, and happy hour meetings on Fridays.

The chapter had one of its most successful smokers in recent years, recruiting 15 new associate members. Thanks go out to Brother Pat Vandervort who conducted the recruiting program. He assures us that the associate members will join in and help us become a stronger chapter. Congratulations to Marc Herman, Pat Michel, and Gary Burgund, all of whom received a 4.0 average last quarter.

—MARK D. JONUS

INDIANA STATE

DELTA TAU CHAPTER at Indiana State University has been busy with membership recruiting, professional, and social activities. Our recruitment program included, among informal gatherings and information sessions, a formal function with District Director Wayne McHargue as speaker. He discussed the business world and how to survive in it. He also emphasized the need for participation in the fraternity and stressed the fact that participation is vital in the success of the fraternity.

Homecoming resulted in great success with many alumni returning to visit their alma mater and their Delta Tau Chapter. Alumni and undergraduates joined together to attend the parade and football game and afterwards met at the house for a successful and enjoyable social gathering.

The little sisters of Delta Sigma Pi, Delta Tau Chapter, have been busy working with the Brothers to make their programs a success. They are currently selling stationery in order to purchase furnishings for the fraternity house.

Successful plans were made for the annual Christmas Ball, a formal dinner and dance to honor the December graduates and the Fall Associate Members.

We have enjoyed a successful semester and are already planning for an equally successful Spring semester.

—STEPHEN A. GROVES

BALL STATE

EPSILON XI CHAPTER at Ball State University has started off the new school year with a very successful financial project. Our annual beer sign sale, which took place the first three days of classes, had record profits this year. This was due to good chapter participation and the hard work and prior planning of Brad Hulse, the chapter secretary.

Our professional activities this quarter have included such things as a tour of Mutual Home Savings and Loan Association and Meeks Mortuary in Muncie, Indiana. Future activities also include speakers from local area businesses. We feel that through interaction with local businesses and businessmen we can broaden our knowledge of the business world and better represent and project the high standards of professionalism that typifies a member of Delta Sigma Pi.

We have directed a special effort this year to involve our chapter in many more campus activities than in the past. Epsilon Xi Chapter was well represented in this year's Homecoming parade. We decorated a white 1974 Corvette which our Chapter Rose, Janice Harrold, rode in during the parade. We have participated in other activities such as the annual Sigma-Switch bike-a-thon and the Circus Feed. It is in such activities as these that Brothers of Epsilon Xi Chapter feel they can further promote Brotherhood within our chapter.

Aside from 10 new Brothers from the Spring Quarter pledge class and four prospective members for this quarter, we have initiated Dr. Arnold Cirtin of the Accounting Department as a new chapter advisor. With such new assets to our chapter, we feel that we have both the tools and inspiration to obtain 100,000 points in the Chapter Efficiency Index.

—MARK R. HARROLD

AKRON

THE BROTHERS AT Theta Kappa Chapter at the University of Akron continued this quarter in our ongoing campaign of expansion, efficiency improvement, and greater practical learning in the various business fields. While much work remains to be done, we are very pleased with the accomplishments of our new officers to date.

Finding ourselves depleted once again by the ravages of graduation, our immediate goal for the Fall quarter was the recruiting of new Associate Members. To this end, we continued our bi-weekly Coffee Socials in the Dean's Complex of the College. When we began this practice last year there was much debate about their usefulness, but the results, as indicated by vastly improved campus wide recognition of who we are and what our purpose is, have been highly gratifying. Adding a new twist, we made our mid-October coffee a multi-organizational affair (all of the organizations in the Business College participated) and received applications from 15 students. In view of the commuter tradition of this University, we consider this an astounding suc-

Brothers of Gamma Lambda Chapter, Florida State, prepare to launch The Deltasig Navy.

cess.

While we had many excellent speakers from the various business fields, we consider our Tour of Metzger's Photo Supply, the largest business of its kind in the area, the highlight of the quarter. Edward Metzger, the firm's President, personally led the tour and showed us all the facets of the business from retail and commercial sales to accounting practices and the benefits to the Company of a computer.

In view of all the work that needed to be done, our new officers have performed admirably. Most of these men are relatively new to the chapter, which makes their accomplishments doubly impressive. Special congratulations are in order for new President Jeff Truax, whose experience combined with great patience and cooperation to make the jobs of the new Brothers much easier.

—BILL SCHMIDT

XAVIER

IMMEDIATELY AFTER THREE of our Brothers returned from the Grand Chapter Congress, we at Theta Lambda Chapter began planning for the 1975-76 academic year. In fact, our entire schedule of professional, social, and civic events was established before October 1. Even before this, we painted and furnished our new office which is located in a freshman dorm, resulting in an excellent recruiting tool.

Our target market for recruiting, this Fall, was the freshmen. We followed a personal approach, first talking with them in the lines at

registration, and followed up the best prospects by visiting them in their dorm rooms. We were pleased with the results, a doubling of our membership.

This year we also increased our number of professional events. Guest speakers ranged from a Cincinnati Councilman who discussed consumerism, to Dean Hailstones who examined the high quality of a Xavier education. Our major civic function thus far was a food drive conducted for Christmas baskets. The social events have been many and varied, from simple Friday night get-togethers to highly organized events such as the Founders' Day Celebration. This year one of our goals was to increase our previous point total in the Chapter Efficiency Index, which we already have nearly accomplished. In closing, we would like to thank Andrew Fogarty, our Regional Director who retired from that post this Fall, for all his many efforts and excellent suggestions, which have assisted us to improve as a chapter.

—JOHN L. FISCHBACH

BOWLING GREEN

THETA PI CHAPTER got off to a slow start in Fall, but this winter we will be really busy. One enterprise we decided to undertake is a coupon sale. This is a fund-raising project in which we sell coupons to anyone who buys them (mostly students) to promote business in downtown Bowling Green.

This chapter is also proud of its new associate member program. Frater Rabung has done a fine job introducing the new members

to Deltasig.

Tom Rabung, along with Hamilton Huey III, graduated in December. Tom is an O. D. major and "Buck" is an insurance specialist. We wish both of them the best of luck.

—STEVE JAVORNIK

INDIANA NORTHWEST

THETA PSI CHAPTER at Indiana University Northwest again achieved 100,000 points in the Chapter Efficiency Index for the school year of 1974-75. Our new Chapter Efficiency Index Chairman Jim Cook is coordinating activities so that we may attain this honor once more.

We at Theta Psi Chapter are experiencing continual growth not only in membership, but in community and business responsibility as well. For this reason two new committees were formed which add to the effectiveness of existing committees and allow for use of business skills learned in the classroom. These divisions are the Advertising and Fund Raising Committees. It is the belief of the Brothers that successful businessmen love their neighbors as themselves. With this thought in mind a community outreach project was developed to meet the needs of the lonely and lamed. The project, performed in December, brought tidings of the Christmas spirit to solitary senior citizens and crippled children.

Theta Psi Chapter expresses pride in every one of its functions and through all its members, whose union form a link of Brotherhood. This pride is felt after graduation and is strengthened by remembrance. The Brothers take pride in honoring again this year the outstanding senior business student of Indiana University Northwest, for scholastic achievement is a worthwhile accomplishment. We express a special pride in naming the award after Brother Jack Bennett, whose sudden death leaves us only a memory by which our pride of Brotherhood lives on.

Membership is the body of any organization, and this year's recruiting program seeks to replace vital limbs lost by graduation. Senior Vice President Gary Crum and Vice President of Membership Development Rick Haburjack are hard at work seeking for qualified prospective members to take the place of the graduation of 60 per cent of the chapter by May. The program operated from August 20 through September 5 to ensure that every possible candidate was informed of Delta Sigma Pi.

Theta Psi Chapter felt that the advice of faculty was vitally important to proper decisions, so we elected Dr. Gopal Pati and Professor Platon Speros as our chapter advisors. Others deem their advice valuable, too, as Professor Speros was also elected Faculty of the Year by the student body.

Past members of Theta Psi Chapter Donn Yover, Paul Price, and Ray Giacomini are in the process of forming an alumni club for Northwest Indiana. In conjunction with present members, a charter is being drawn up for approval by The Central Office. All alumni in the area are welcome to seek membership and to make it as successful as the undergraduate chapter.

The Brothers were especially honored this year by the nomination of President Bob Taylor as Senior Warden on the National Ritual Team at the Grand Chapter Congress. He was one of the delegates sent by Theta Psi Chapter to discuss fraternity issues of national concern. There was also some time

made available for them to enjoy themselves.

This year, Theta Psi Chapter is concerned that upcoming initiatives be thoroughly welcomed throughout the membership development program. For this reason, a flag football game was held on October 19, to test the physical stamina of those who wish to become members of Delta Sigma Pi. Teamwork exemplifies Brotherhood as the Brothers handed the initiates a 20 to 12 loss. Leading the Brothers in scoring were Chapter Efficiency Index Chairman Jim Cook and DELTASIG Correspondent Dan Rollo. Great times were shared as the next few days were spent recuperating.

ILLINOIS

CONTINUED GROWTH AND prosperity for Upsilon Chapter at the University of Illinois is evidenced by our successful programs. This semester saw the induction of 21 men into the chapter. This is *double* the number of associate members last semester.

Upsilon Chapter's professional program continues to be interesting and educational. We have had a field trip to the offices of Illinois Bell Telephone Company. The professional meeting on October 1 featured Ben Nelson, Vice President of Harris Trust Bank. Future professional activities include a field trip to Hyster Corporation, a speech by the Vice President of American Airlines in charge of marketing development, and a speech by a financial analyst from Shell Oil.

On November 8, after the Illinois vs. Ohio State game, we had a party to reunite undergraduate members and alumni in order to celebrate our Founders' Day. We expected a lot of Brothers to come and we had a great time. Among those attending were Grand President Bill Tatum and Executive Director Ben Wolfenberger. District Director Al Pacer and Lee Bell were also expected. Both are frequent visitors to the University of Illinois campus.

The Faculty Committee is working hard to improve relations between the faculty and Upsilon Chapter. The committee is planning a debate to be held in the near future. All faculty members had been invited to the November 8 party.

The chapter football team had a successful season. The members guaranteed a victory over Alpha Kappa Psi.

—MARK L. HALBAUER

WISCONSIN-MADISON

PSI CHAPTER BEGAN the semester with two successful projects. Desk pads with the name of Deltasig on them were distributed throughout campus, and a subscription drive for Business Week magazine was also held. The profits from these projects help supplement our charity fund. We would also like to thank Mr. and Mrs. Harold Fischer, parents of Brother Doug Fischer, for donating a piano to our house.

The professional program was excellent for the first semester. University of Wisconsin Vice President Donald Percy, State Representative Midge Miller, and the vice president of the National Guardian Life Insurance Company, Mr. Robert M. McElrath, were three of the interesting speakers. For our field

trip, we went to Milwaukee to tour the manufacturing plant of Allis-Chalmers and the Schlitz brewery. It was a very productive day for us. This fine program has provided us with valuable insights into the business world. Our social and athletic calendars continue to be filled with events. A week of Homecoming activities are currently in the making.

At our Fall initiation eight men were initiated into Psi Chapter. These Deltasigs will aid us toward a repeat performance of 100,000 points in the Chapter Efficiency Index. There are 20 potential members currently enrolled in our associate member class.

—JAMES STARK

EASTERN ILLINOIS

EPSILON OMEGA CHAPTER at Charleston, Illinois, has had a very active semester. We conducted an aggressive Fall recruiting program and have had several stimulating professional tours and problems.

Upon arriving back to school from summer vacation, the fraternity found that there had been many changes made in the School of Business that it did not agree with. Departments had been merged, new unqualified instructors had been hired, tenured instructors were being pressured to resign, and rumors were flying everywhere.

Epsilon Omega Chapter met with the Dean of the School of Business and the President of the University. Both meetings only produced more anger. Most questions are still unresolved, but the Epsilon Omega chapter is taking a definite vocal stance against the administrative policy changes in the School of Business.

Our Fall associate member class was 12 strong. The chapter used a computer mailing list to locate business students. The associate member class was soundly defeated in a member-associate member softball game. A banquet was held to honor them at the end of their initiation.

Professionally, we toured J. I. Case, a heavy construction manufacturer, in Terre Haute. We have two overnight tours. One was to Hiram Walker in Peoria and the other was to 7-Up Bottling in Joliet. Our chapter had speakers from Aetna Insurance and a local radio station.

Socially, we had a party with the Upsilon Chapter. A function was held with Sigma Kappa. And, of course, on Friday there was always 4 o'clock club.

To conclude, we would like to wish every chapter good luck in the future and if you are ever in Charleston, stop by and see us.

—RODNEY D. PLACKETT

LEWIS

ZETA XI CHAPTER at Lewis University began the Fall semester with the issue of sex discrimination again being raised. The chapter organized its forces and sought a dialogue with the administration over the matter. The actions of the Grand Chapter Congress and the resulting changes hopefully will alleviate our problem and enable us to present our program on a sound financial basis.

The above "crisis" is not keeping Zeta Xi Chapter inactive. Our annual Las Vegas Night was held in the Student Union on October 6. Everyone who attended had a great time due to the hard work of all the Brothers, especially Brother Bart Ahern, our new social chairman. He also was busy readying plans for our semi-formal "Touch of Fall" dance on

Ferris State 1975 Homecoming Candidate Crystal Sutton, sponsored by Delta Rho Chapter.

November 8 at the Lakeside Club in Downers Grove, and our associate member banquet on November 22.

Our formal recruiting function was held on September 16 in the Lewis dining halls. A large number of alumni were present as Alumnus Bob Johnson gave the keynote speech. The chapter was gratified by the support of the alumni and hopes it will continue in the future. Our informal recruiting function was again held at Brother Bob Kilmer's house. Five men expressed interest in becoming Deltasigs, which may make it the best Fall semester for our chapter in a long time as far as membership is concerned.

The professional program is the central and most important aspect of our chapter. On October 1, we attended the Point-of-Purchase Advertising Institute at McCormick Place in Chicago. A number of Deltasigs won door prizes, as a very interesting and informative time was had by all. The Texaco Refinery at Lockport was the site of a visit by the fraternity on October 15. Future speakers will include an oil industry financial analyst, a Small Business Administration director, a marketing executive, and a representative from the Better Business Bureau. A tour of the Armour-Dial plant in Aurora is scheduled to round out the semester.

Much work remains to be done in all areas of operation by the men of Zeta Xi Chapter. Only with hard work, dedication, and a re-

newed sense of Brotherhood and fraternalism can the chapter and fraternity as a whole hope to operate more efficiently. The Fall semester has proved very challenging in this regard.

The Zeta Xi Chapter extends best wishes and good luck to all chapters for a highly successful year.

—A. MICHAEL WOJTAK

NORTHERN ILLINOIS

ETA MU CHAPTER at Northern Illinois University is presently conducting its first fund raising project this year. The Norther, which is the school's yearbook, will be sold by active members of the chapter this Fall. The money raised will be credited to the chapter's finances.

Our athletic program appears to be in excellent condition with our softball team leading the season's activities off.

The recruitment program for Fall 1975 turned out very well with many successful functions already achieved. Our pledge class consisted of six very prominent men, who are looking forward to a very rewarding career from Delta Sigma Pi. We also expect to reach the CEI Honor Roll this year.

One of the upcoming events which the entire chapter is looking forward to is our annual hayride at White Pines Ranch in Oregon, Illinois. Each year, more and more actives and alumni participate in this event.

We have set very high goals for this present year and with everyone pushing in the same direction it appears that the attainment of these goals will be accomplished.

—SCOTT E. SINGER

DE PAUL

ALPHA OMEGA CHAPTER completed a very successful Spring Quarter of 1975 and began the 1975 Fall Quarter with high expectations.

During the Spring, we competed in a softball tournament with other local chapters at Eastern Illinois University and won first place.

Our annual Mother and Son Breakfast was held during this quarter with the Brothers and many alumni treating their mothers to a morning meal.

Mayhem II, our Spring dance, which was completely organized and run by the Brothers was another smashing success, both socially and financially.

Chapter elections were also held. The new officers are Ed Halick, president; Frank Pawlowski, senior vice president; Bill Kloska, vice president of pledge education; Bill Conlin, vice president of professional activities; John Staib, treasurer; Greg Haluczak, secretary; Ron Rendino, CEI chairman; Howard Brownlow, chancellor; and Al Salas, historian.

To close out this quarter, we initiated three new Brothers, bringing the number of new Brothers initiated this year to 18.

The highlight of the summer was when many of the Brothers traveled to Tan-Tar-A to attend the 30th Grand Chapter Congress Convention, where we received our certificate for achieving 100,000 CEI points.

In St. Louis, driving back to Chicago, the Brothers saw a car hit an exit ramp on the highway, overturn and catch on fire. They pulled off to the side of the road, ran to the accident and pulled the driver from the car. About 30 seconds later, the car burst completely into flames. Firemen said that had these six men, Howard Brownlow, Ed Halick, Ed McMahon, Larry Nowakowski, Frank Pawlowski, and Al Salas, not rescued the driver, he would have burned to death before they arrived. The fraternity should be proud to have Brothers like this among its members.

With the beginning of the Fall quarter came our annual tour of the Pabst and Schlitz breweries in Milwaukee. This trip was a combination of our professional and recruiting programs. A good time was had by all who attended. We are also anticipating another big associate member class as we had in the Fall quarter.

Our Fall dance, the 27th annual Jarabe, was organized and run by the Brothers, and also was another extremely successful event.

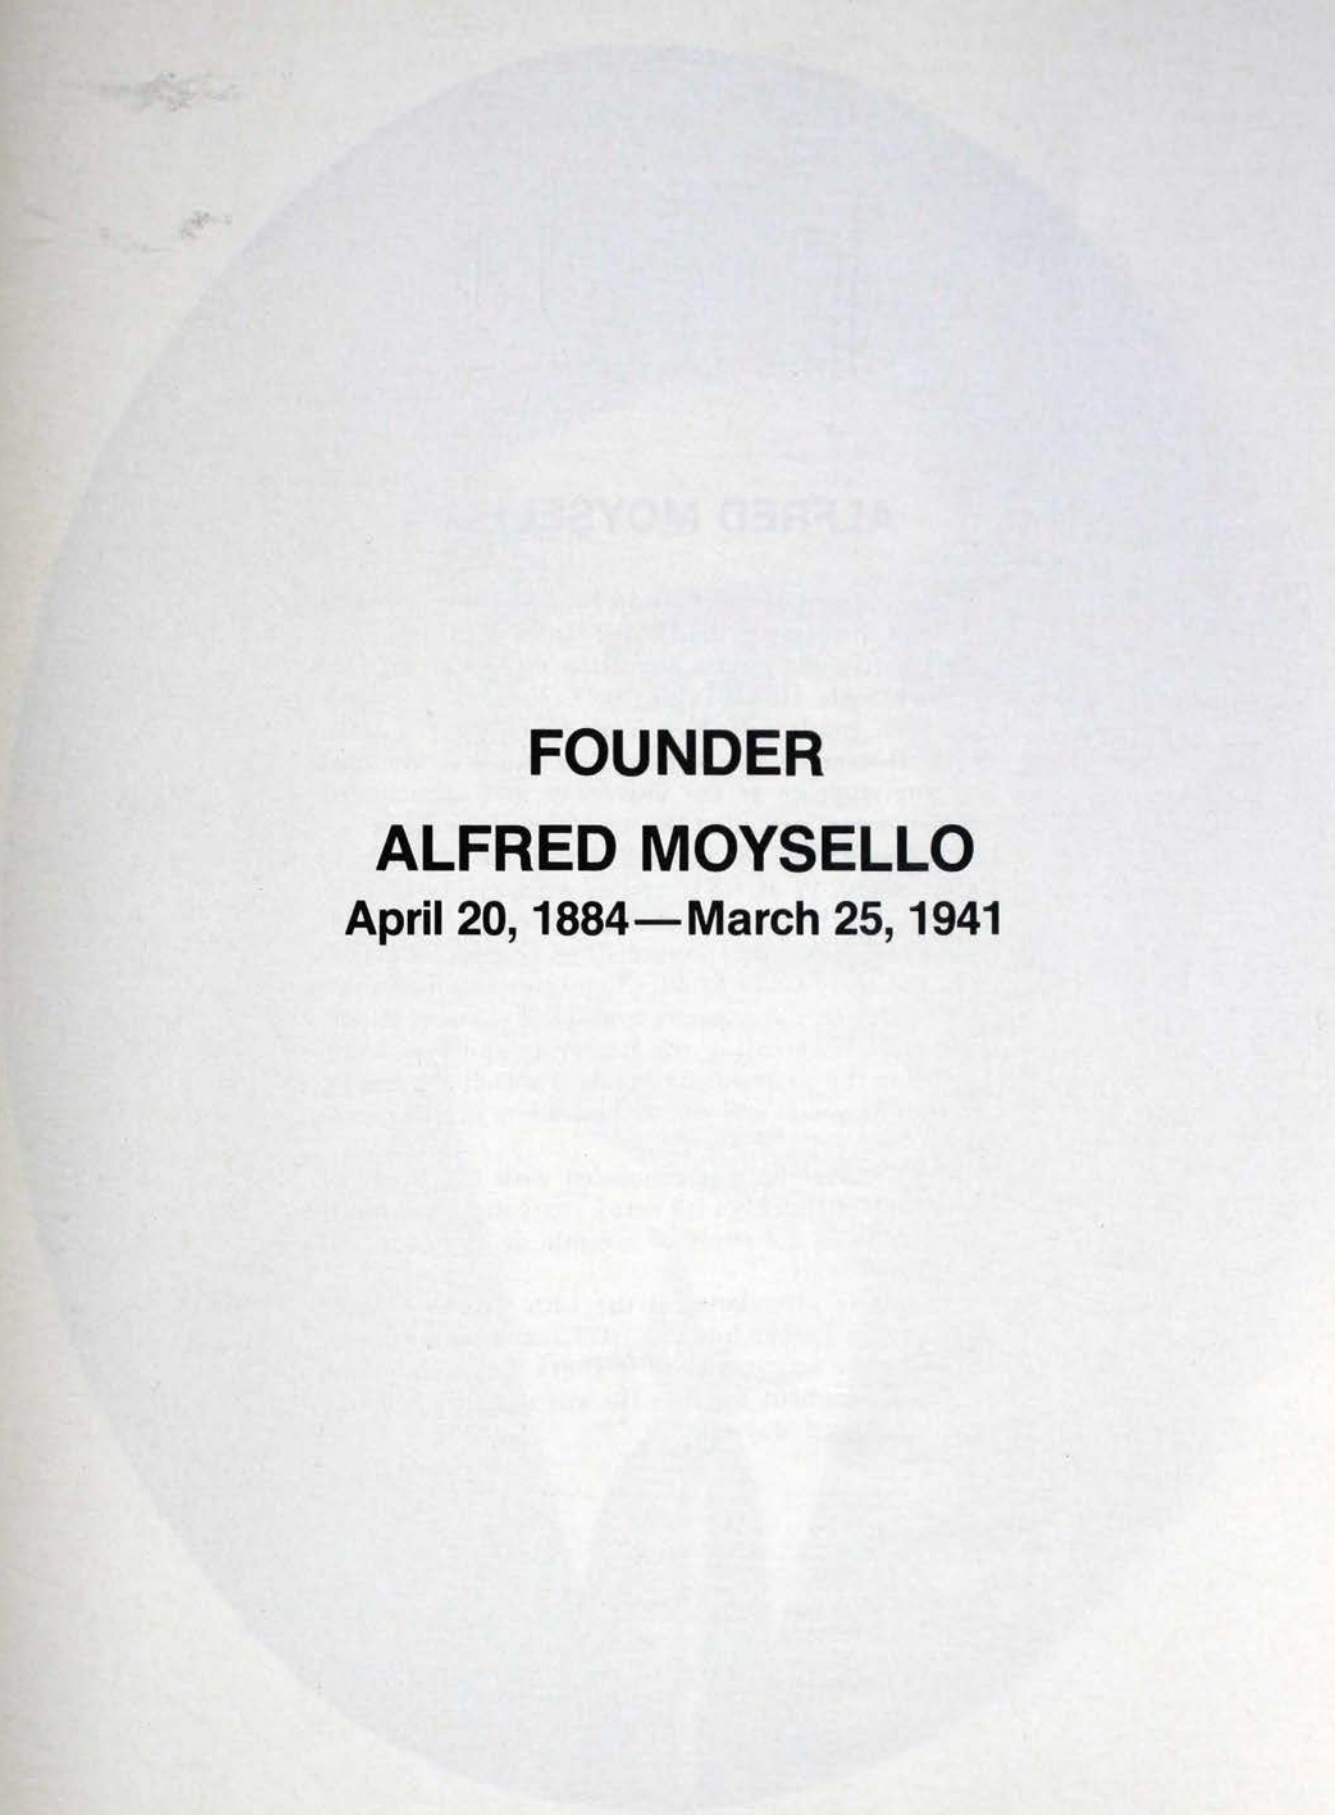

The annual Alumni-Brother football game was held in the Fall quarter. On tap for the Winter is our first annual alumni basketball game. We participated in the Interfraternity Conference Football League, and in the winter will play IFC basketball.

Finally, the Brothers of Alpha Omega Chapter wish all the chapters and Brothers of Delta Sigma Pi a successful and prosperous year.

—ALAN R. SALAS

DETROIT

THE PAST FALL semester has been highlighted by many successful events and en-

FOUNDER
ALFRED MOYSELLO
April 20, 1884—March 25, 1941

ALFRED MOYSELLO

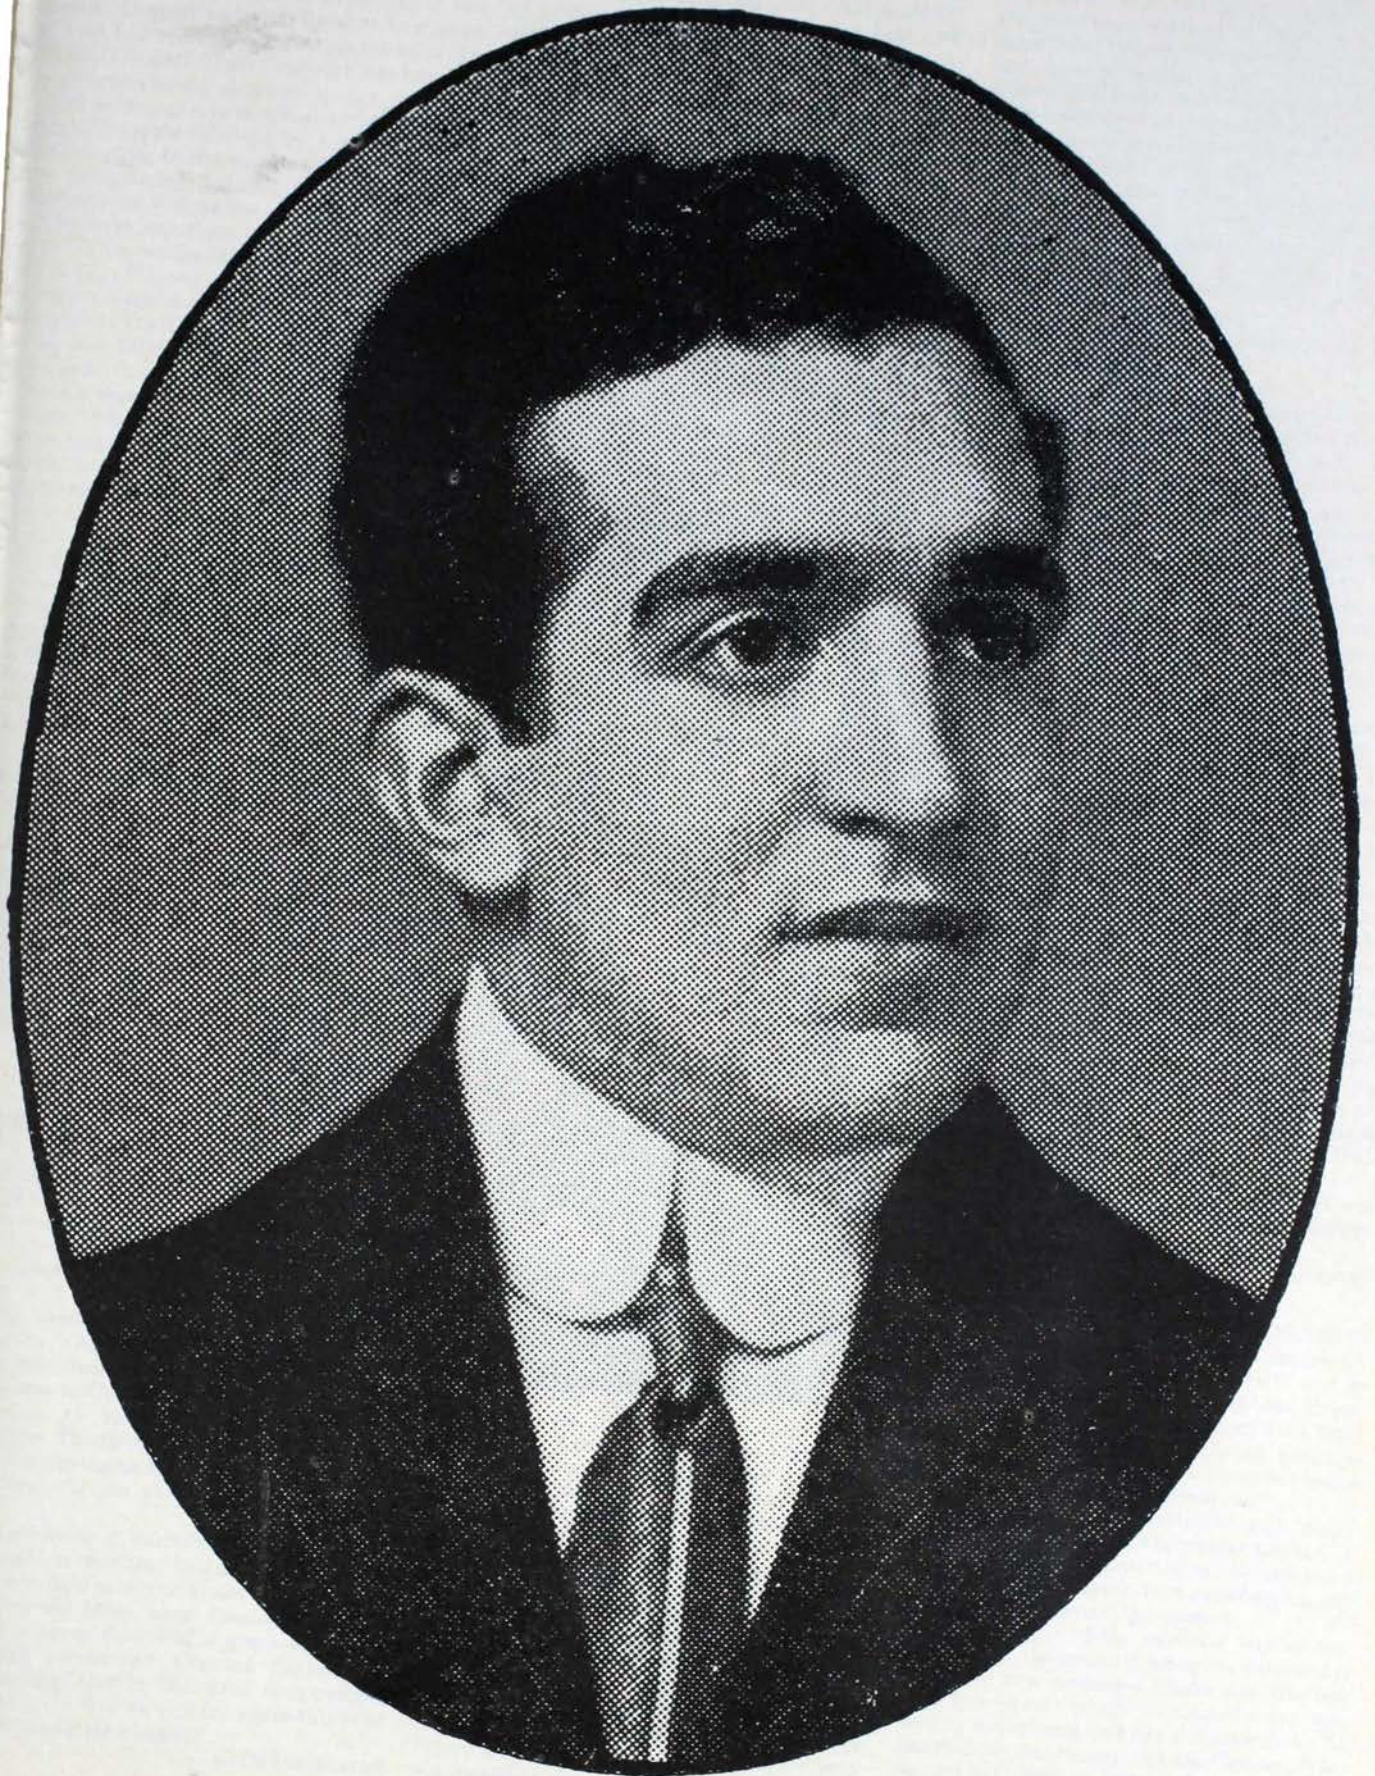

Alfred Moysello was born in Naples, Italy, on April 20, 1884. He came to the United States at an early age and received his formal education in New York City public schools. He attended City College of New York and then enrolled in New York University in 1906. With tremendous personality, he was one of the most popular students at the university and participated wholeheartedly in all of the activities of the class.

He joined with the other Founders in establishing Delta Sigma Pi at NYU and as a fraternity brother exemplified the purposes of the Fraternity. His friendliness and personality were distinct chapter assets.

In the early years Alpha Chapter maintained summer homes on the seashore and these were an important factor in creating the fraternity spirit so badly needed in the critical fledgling days of Delta Sigma Pi. Brother Moysello was one of the leaders in this movement.

In his career he was connected with the Board of Education of Brooklyn for many years and gave much of his time to the study of juvenile delinquency and child psychology.

He was in attendance at the 13th Grand Chapter Congress in Philadelphia in 1939 and is well remembered for the active interest in Delta Sigma Pi he displayed throughout his life. He was married and had one son, Alfred Moysello, Jr.

deavors for Gamma Rho Chapter at the University of Detroit. The semester began with the announcement that Brother Louis E. Fratarcangeli had been elected president of the Student Council and that Brother Lawrence M. Yost had been elected vice president of the Student Council. Their fine work has brought much credit to our chapter.

The semester's first social event was the annual hayride followed by a square dance. Contributing to the success of the event was the outstanding turnout from our alumni Brothers, as well as the undergraduates.

The most important and the most enjoyable event of the entire school year took place October 11, 1975, as the Brothers of Gamma Rho Chapter celebrated the 25th Birthday of our chapter at the Detroit Yacht Club. The evening was filled with fine dining and entertainment. Brothers from all over America and Canada were in attendance. Brother Robert Trapp (#3) and Brother Tim Saka (#511) were formally introduced as the oldest and most recent member in attendance. Congratulations were given to the committee headed by Brother James Marshall and assisted by Brothers Stanley Dobby, Robert Merchant, Thomas Piet, and Daniel Jaster for a job well done.

Our associate member Fall program was a great and inspiring success. Special thanks go to Brother Arthur Brees and Brother Louis Fratarcangeli for their time and effort.

Another memorable tradition was kept this Holiday Season as Santa Claus took time out from his busy schedule to visit with the children of the Brothers of Gamma Rho Chapter. The party was sponsored by the wives' club.

Our social calendar for the Fall term of the school year closed with a New Year's Eve Party, at which the Brothers of Gamma Rho Chapter properly brought in the New Year.

In closing, the Brothers of Gamma Rho Chapter extend best wishes to all the Brothers of Delta Sigma Pi, with the hope that the remainder of the school year is as successful as the beginning.

—DANIEL C. JASTER

FERRIS STATE

DELTA RHO CHAPTER at Big Rapids, Michigan, is planning another year of professional and social functions. We are assured of a successful year because of the guidance of our president, Ron Erickson, and Advisors Lyle Lunsted and Tom Turcotte.

We had an open smoker in September, which produced 16 prospective associate members. Our professional chairman, Fred King, has done an excellent job. We took two tours, one to Gerbers in Fremont, Michigan, and one to Kelloggs in Battle Creek, Michigan. The Brothers of Delta Rho Chapter would like to thank Pat McNicholas, publicity chairman, for his excellent work this past year.

Homecoming at Ferris State College was a big occasion for the Brothers. An alumni party was held after the football game. Many new and old ideas were discussed, and all Brothers agree they had a great time. The Brothers sponsored Crystal Sutton for Homecoming Queen. We were disappointed she didn't win, but we will try again this year to get a candidate elected.

—DAVID BEALER

WISCONSIN-LA CROSSE

ETA RHO CHAPTER at the University of Wisconsin-LaCrosse conducted a full schedule of professional activities this past Fall and still took time out to socialize. Among the activities held was our annual Career Day, which attracted over 40 companies and 500-plus students. We also scheduled several tours including Amana, Inc., of Amana, Iowa, and the NCR Corporation in Viroqua, Wisconsin.

Included on the social agenda were the traditional skip-out and skit nites and the annual half-barrel bowl with Theta Xi Chapter.

The successful reign of President Robert "Fighting Bob" Lawler ended on November 15 when 12 new Brothers were initiated into the fraternity. An initiation banquet was held in their honor at the Cerise Club in LaCrosse. Dancing and dating kept spirits high.

In closing, we would like to thank the Brothers of Psi Chapter for the hospitality extended to us at their Spring basketball tournament and for allowing a few Brothers to join in their fun after several Badger games. We would also like to extend the best of luck to all the graduates and chapters of Delta Sigma Pi.

—JOHN H. Q. BUSH

SOUTHERN ILLINOIS-EDWARDSVILLE

ETA SIGMA CHAPTER began its Fall quarter professionally with a very intriguing speaker, Mr. Bob Lancaster, the Audit Manager for Price Waterhouse for the St. Louis office. His topic was career interviewing and the progression from college to the job. Mixing pleasure with business, our second professional event for the quarter was held on the river boat, Lt. Robert E. Lee, in St. Louis. Our distinguished guest speaker was Dr. Sam Lloyd, a Consultant and Assistant Dean of the University of Missouri. His presentation on Transactional Analysis made for a very enlightening evening.

Our financial program got off to a good start with our annual pumpkin sale being a huge success. We were able to purchase a large quantity of pumpkins very reasonably and we passed our savings on. We also moved our financial activities off campus by participating in the St. Louis Strassenfest.

As we all know, a fraternity can't be all work and no play. Besides successful professional and financial programs, we also have a well rounded social program that is always well supported by our esteemed alumni. Last Spring we held an intramural volleyball game and picnic at Pere Marquette State Park; during the summer we floated the Current River after enjoying a leisurely campout, and to end the camping season there was a stag campout at Lake Carlyle. Our traditional Fall quarter roller hockey game between the undergraduate chapter and the alumni was held. I'm embarrassed to say that the undergraduates were out maneuvered by the tricky, old gentlemen who opposed us. Next time, we'll put them in our trick bag. The same competitive spirit was carried over two weeks later at the Fourth Annual Chapter Halloween Party/Hayride resulting in hay spread over the countryside.

As we know, the purpose of Delta Sigma Pi is to develop constructive businessmen of the future and the training begins in the arly stages of becoming a Deltasig. Since our last

correspondence we have developed and graduated three associate member classes, who have presented everything from a Roman Toga/Wine Tasting party honoring Founders' Day, to a Hawaiian Luau, and a Soul Food dinner with guest speakers. Our present associate member class has vowed to continue the entertaining and enlightening programs that we have enjoyed in the past.

In closing, Eta Sigma Chapter congratulates all the newly elected and re-elected national officers and pledges them our full fraternal support in the days ahead. We also wish all our Brothers the best of good fortune in their future endeavors.

—ROBERT G. FEAGER

EASTERN MICHIGAN

ETA PHI CHAPTER at Eastern Michigan University has slated its activities for another busy academic school year. This year's outlook is promising; the Brothers continue to show strong signs of Unity and Leadership. The semester's activities include the adoption of Delta Sigma Pi's new "Associate Membership Development Program." We have also scheduled corporate visits, professional meetings, guest speakers, and other business-related activities. Also, one of our primary goals is to achieve 100,000 points in the Chapter Efficiency Index.

In fund raising activities, we generated considerable profits by participating in Kappa Alpha Psi's business event, "The Kappa Karnival." Our treasury has also benefited by the Brothers sponsoring donut sales, raffles, dances, etc., in serving E.M.U.'s student body.

Congratulations to Isaac Washington, chapter president, for displaying outstanding leadership qualities. Also, special congratulations to Walter Jones for continued outstanding academic performance. We also show special appreciation to our Fall term executive committee: Isaac Washington, president; Malcom Barnies, senior vice president; Mark Kemeter, vice president for pledge education; Al Kolod, vice president for professional activities; Rick Jones, secretary; Terone Hough, treasurer; Darryl Higgs, chancellor; and Walter Jones, historian.

In conclusion, Eta Phi Chapter extends best wishes and success to all Brothers and chapters of Delta Sigma Pi.

—ERIC J. STANBERRY

WISCONSIN-WHITWATER

THETA XI CHAPTER of Delta Sigma Pi has recently completed a very successful semester. We started off with a field trip to Allis Chalmers and Pabst Blue Ribbon Brewing Company, talking with executives from both companies. Our professional program also included four speakers visiting our house and sharing company information.

Homecoming was celebrated with many alumni and friends as Whitewater treated us with a victory over Eau Claire. We entered a float and an old army tank, stirring up enthusiasm throughout the campus.

The highlight of the semester was on the weekend of December 6 when we initiated a record 12 new members. There was also our Rose Tea formal, where we elected a new fraternity sweetheart and had a dinner dance at the Holiday Inn located in Lake Geneva, Wisconsin. All the Brothers and alumni there had a great time.

NOT REPORTING

Northwestern
Loyola-Chicago

MISSISSIPPI

ALPHA PHI CHAPTER at the University of Mississippi, now having 58 members, is currently in a rebuilding stage. Several recruiting parties, spotlighting Mississippi speakers, were held to recruit new prospective members. U.S. Treasury Agent William M. Pace of Aberdeen spoke at the first gathering on federal laws concerning the use of firearms, tobacco and alcohol. At our second recruiting party, Dr. David Pankratz, former Dean of the Ole Miss School of Medicine, entertained us with his collection of harmonicas, which is the largest collection in North Mississippi. At the conclusion of the membership development activities, 16 associate members were initiated into the Brotherhood of Delta Sigma Pi on December 4.

Representatives from retail outlets all over the state spoke, conducted discussions and held interviews with students throughout the day.

The chapter also co-sponsored two speakers during the month of November. These talks were open to the public and featured Dr. Randy Boxx and Mr. Tom Bailey. Dr. Boxx, the director of the University of Mississippi Cooperative Education Program, discussed the advantages and uniqueness of the cooperative education program. Mr. Bailey, Tupelo District Manager of South Central Bell, presented a program on modern business applications of telecommunications. On November 6, the Deltasigs, with Phi Gamma Nu, toured the Schlitz brewery in Memphis and visited with Schlitz executives.

Serving capably as officers in 1975 were: Stan Smith, president; Jay Jernigan, senior vice president; Charles McGruder, vice president for membership development; Tim Schuler, vice president for professional activities; Jack McMull, secretary; Gene Henson, treasurer; Terry Williams, historian; Dave Nelson, chancellor; Dan Myers, CEI chairman; Jim Hicks, publicity chairman; and Dr. Charles E. Treas, faculty advisor.

The Brothers of the Alpha Phi Chapter are looking forward to an enjoyable and profitable New Year and extend best wishes for the New Year to all our Brothers.

—JIM HICKS

LOUISIANA STATE

BETA ZETA CHAPTER at Louisiana State University is now looking inward to strengthen the chapter, rather than outward merely to increase membership. With approximately 40 members, we feel that we have reached an optimum. Although comparatively small considering the vast size of many other chapters, it is felt that under our present circumstances any further growth would lead to disunity. Too often in the past, quality was sacrificed for quantity. Now, we are trying to regain our unity through further development of the "associate member" program and a more structured social schedule including Friday afternoon "TGIF" and football parties.

The chapter is also reaching a crossroads in deciding what our ultimate goal and emphasis should be. In our efforts to regain a large active membership, we too often left our

goals undefined. . . are we going to be strictly professional. . . are we going to be strictly social. . . or are we going to be a combination of the two with an emphasis on one or the other? With a lack of set goals, both our professional and social programs suffered.

In essence, Beta Zeta Chapter is in a period of transition. Those Brothers who attended the Grand Chapter Congress in Missouri brought back many new and constructive ideas—and had a fine time in the process! By implementing some of these ideas, and pulling ourselves together, we feel that we can bring our chapter back to the 100,000 point organization it once was.

And in the spirit of brotherhood fostered by the Grand Chapter Congress, we invite any Brothers who might find themselves in Louisiana for business or pleasure, to stop in and visit us at Baton Rouge. We look forward to seeing you here!

—ANDY PETRILLA

LOUISIANA TECH

BETA PSI CHAPTER at Louisiana Tech University would like to extend best wishes to all our Brothers worldwide.

Under the leadership of President Dick Brantley, actions have been taken to ensure that we reach our usual 100,000 Chapter Efficiency Index points, which we missed by a mere 1,400 points last year. Each officer and each Brother are tediously working together to fulfill plans that are set for the year in order to once again attain this coveted goal of every chapter. Beta Psi Chapter has already submitted a large number of these points to The Central Office.

During this election year, our professional activities revolved around the political arena. Several candidates, who were vying for positions in the State Legislature, attended our Speaker Meetings to express their views on key issues. The Brothers of Beta Psi Chapter were well informed citizens when election day arrived.

After one of the finest Fall recruiting programs in recent years, Beta Psi Chapter inducted 12 new associate members. To replace the traditional Pledge Education Program, Brother Clint Capshaw initiated a revised version of the concepts of the Membership Development Program, which was presented at the 30th Grand Chapter Congress. The alumni were invited to participate in the morning ceremonies and the initiation luncheon that was held to honor the new Brothers of Delta Sigma Pi.

A special note of congratulations is extended to Dr. Frank M. Busch, Southern Regional Director, for his election to the Executive Committee of the National Board of Directors of Delta Sigma Pi.

—VICTOR A. TABOR

MISSISSIPPI STATE

GAMMA DELTA CHAPTER on the campus of Mississippi State University recently held a banquet at Bonanza Steak Pit in Starkville at which 14 associate members were inducted. Gaines Rodgers, Dean of the School of Business and Industry; R. S. Wofford, chapter advisor; and William Simmons, an accounting professor; all alumni of Delta Sigma Pi, were present at the banquet and each said a few words about the fraternity to our future Brothers.

Earlier this Fall Delta Sigma Pi promoted its name on campus by entering two girls in

the yearbook-sponsored beauty pageant. One of these girls, Deborah Ferrell of Jackson, MS, was recognized as one of five campus beauties. Her picture, along with our fraternity name, will appear in the Features Section of the REVEILLE.

A casual party was held for the associate members at a cabin at Oktibbeha County Lake owned by Mr. Wofford, our chapter advisor. The Gamma Delta Chapter of Delta Sigma Pi, now composed of 45 members and associate members, is well on its way to fulfillment of its duties as an active participant in campus activities. We hold business meetings every other Tuesday night, with the remaining Tuesday nights reserved for professional meetings, such as speakers, films, and other projects.

—ROBERT A. EVERITT

SOUTHERN MISSISSIPPI

GAMMA TAU CHAPTER at the University of Southern Mississippi has started a new year with the new officers working hard to make this a 100,000 point year. Fall recruiting activities resulted in the installation of 10 associate members.

The new officers are as follows: David Baker, president; Steve Strickland, senior vice president; Russell Raulston, vice president for membership development; David Jones, secretary; Chris Cornell, chancellor; Paul Theobald, treasurer; Ernie Schuls, historian; Terry Roberts, CEI Chairman; Mike Pierce, social chairman; and Mike Pharr, athletic chairman.

We ended the 1974-75 year last Spring on a successful note. Our annual Rose Formal was held in April with many alumni present from both within the state and several surrounding states. Although the Spring quarter saw several Brothers graduating, we initiated 10 new members at the quarter initiation ceremony.

As you all know, at the recent Grand Chapter Congress Brother Bill Tatum of Gamma Tau Chapter was elected Grand President. We would like to take this opportunity to send Brother Tatum our congratulations and best wishes upon entering this important office. We would also like to thank Brother Harold Cannon for the fine job he has done during his tenure as Grand President.

Gamma Tau Chapter celebrated its 25th Anniversary on December 9, 1975. The feeling here is that upon entering our 26th year, this year will be one of the most successful ever.

—PAUL GARRETT

CHRISTIAN BROTHERS

EPSILON PSI CHAPTER had a busy time preparing for its annual Hayride Dance on November 8. The yearly chore of gathering decorations, wood, manpower, and fun was in the able care of Mark Zahn and his committee. This year's dance was a mixture of the new and the old as our alumni returned for another evening of fun and our present associates joined forces to make this the most pleasurable event of the young year.

Founders' Day is fresh in our minds and this year's celebration included both a dance and a private gathering of the Brothers. As always, the close feeling of Brotherhood in Epsilon Psi Chapter prevailed.

New ideas for this year at CBC include a monthly party sponsored by Deltasig, a free pre-Riverboat dance, and a Fall break. Congratulations are in store for Mr. William W. Tatum, Jr., new Grand President of Delta

Sigma Pi, and Epsilon Psi Chapter offers you our support and congratulations.

—STEPHEN J. SCHAEFGEN

NICHOLLS STATE

ETA IOTA CHAPTER at Nicholls State University began the Fall semester with an increased awareness of our motto: "Betterment of Delta Sigma Pi through Eta Iota Chapter." This increased awareness was brought about by the valuable information given to us by our two delegates to the Grand Chapter Congress, Danny LaFont, president, and John Duet, vice president for professional activities. They conveyed the problems discussed and the present situation of the fraternity as a whole. These ideas were strengthened by a visit from Brother Terry Garrett, Chapter Consultant, who met with us early in the semester, and by a regional meeting which the chapter attended in Baton Rouge, LA. With the information gained at these meetings, we felt we were able to vote wisely on the matters concerning the future of the fraternity. And, motivated by Brother Garrett's visit and the regional meeting, we have firmly resolved that Eta Iota Chapter will be the best chapter in the Southern Region, and one of the best in the country.

In the area of Professional Activities we have sponsored two speakers. Mr. Jerry Kurtz of Fidelity Union Life Insurance Company explained to us just what life insurance is all about and how it can help you. State Representative W. J. Tauzin of Louisiana gave us a brief run-down on general legislative procedures in state government and what effects they have on businesses.

We have also sponsored three tours: the first was to the Louisiana Superdome where we observed the food services, the entertainment facilities, and the sports facilities; the second was to Freeport Minerals, Inc., in Grande Isle, LA, where we got an insight into sulphur mining techniques in the Gulf of Mexico; this is also the largest offshore sulphur production platform in the world. The third tour was to the Delta-Chromolloy Corporation in Houma, LA, where we toured the plant facilities and observed the managerial and executive procedures of this \$60 million company. Other activities planned for later in the year include a panel discussion, or Executive Health Program, involving three physicians and two top executives. The discussion will center around the effects of the pressures felt at top management positions. Also, Mr. Leon Toups of Chromolloy Natural Resources Corporation will speak on the financial and managerial operation of large oilfield construction businesses.

Eta Iota Chapter has also been very active in school functions this semester. One of our money-making projects was sponsored early in the semester and was named "Dunk-a-Prof." The project is exactly what the name implies. With the help of 12 faculty members from the College of Business Administration and a "dunking" machine from a nearby high school, we were able to gross \$104.00 while, at the same time, giving students three tries at dunking their favorite, or un-favorite, professor for only twenty-five cents.

Eta Iota Chapter was also very active in homecoming festivities, participating in the homecoming parade, bonfire and football game. We were also instrumental in co-sponsoring the semi-annual Executive-in-

Residence Program which features prominent businessmen from one of the firms around the Thibodaux area. The purpose of this program is to get the students of business better acquainted with the operations of the businesses in the area. This semester, Mr. Leon Toups of Chromolloy Natural Resources Corporation in Houma was the featured speaker.

With a busy semester behind us and an even busier one ahead, the Brothers of Eta Iota Chapter would like to wish all of our other chapters a very prosperous New Year.

—BOBBY RAY TURNER

NORTHEAST LOUISIANA

ETA OMICRON CHAPTER would like to greet all Brothers, and hopes that everyone had a successful and prosperous year of 1975.

The Northeast Louisiana University chapter saw a very successful Fall semester with the recruiting of several fine men into the chapter. They are all outstanding people with the best interest of the chapter at heart, and we heartily welcome them into our Brotherhood.

During Fall, 1975, we also enjoyed an interesting and informative professional program with speakers from varied areas of the business community, as well as a tour of the new General Motors Guidelamp facility in Monroe.

Our chapter is enjoying excellent relations with the faculty of the College of Business Administration. We are grateful for their hearty support of our chapter and its welfare and look forward to even better relations with them in the future.

For the Spring semester, we at Eta Omicron Chapter are looking forward to a fruitful session and wish a most successful year for all Brothers of Delta Sigma Pi.

JERRY WILLIAMS

McNEESE

THE 1975-76 ACADEMIC YEAR started off with a great boom. The boom was in the form of the Grand Chapter Congress at Tan-Tar-A Resort in Missouri. The attendance was good, the program interesting, and participation excellent. An effort of this magnitude should make all Brothers appreciate the job our executive body is doing. Well done!

The five Brothers of Eta Tau Chapter who attended the Grand Chapter Congress immediately carried the enthusiasm home. We managed to transfer some of the feeling of Brotherhood and urgency conveyed to us. The result of a good effort is 18 undergraduate and five faculty associate members. This is a 90 per cent increase in undergraduates and, including the five faculty, an 80 per cent representation of faculty in the School of Business which has a total of 12.

It was suggested at the Grand Chapter Congress that Delta Sigma Pi help support the Business Sororities on our campuses. This would possibly help postpone any conflict with women wishing to join a business organization. Eta Tau Chapter in the Spring of 1975 entered into a contest with Phi Chi Theta, the women's business sorority, to recognize the organization with the best G.P.A. each semester. A beautiful plaque has been placed in the office of the Dean in the School of Business and each semester the winner will have the organization's name engraved on the plaque for recognition. We are also planning to have a joint Christmas party. We often refer interested females to Phi Chi Theta. The

sorority is on the move and Eta Tau Chapter at McNeese will continue to support them.

The yearly outlook is great. Our calendar of events is full and there are already undergraduates who wish to join us in the Spring semester.

We believe that Delta Sigma Pi can and will make the best of a bad situation. The "business" world today is dynamic and Delta Sigma Pi "Means Business."

NEBRASKA-LINCOLN

ALPHA DELTA CHAPTER at the University of Nebraska-Lincoln is headed this year by new officers: Rand Havens, president; Jim Gonser, senior vice president; Bruce Evans, vice president for associate member education; Tom Kettler, vice president for professional activities; Gary Peters, treasurer; Mark Kinzie, secretary; Mark Buss, historian; and Jerry Pigley, chancellor.

This year Brother Kettler has done a fine job as vice president for professional activities. So far this year we've had a professional tour to the Kawasaki Plant and a professional dinner with a speaker talking on insurance. Brother Kettler has many activities planned for this semester.

The recruiting program this year has brought up a good associate member class which has been directed by Brother Evans. We feel that this group of neophytes will strengthen our chapter for the future.

Our social calendar for first semester has included a couple of keggers and involvement in the intramural football program. The Brothers are now looking forward to the basketball season.

With excellent leadership from President Rand Havens, we feel that Alpha Delta Chapter is beginning to realize some of its goals. The Brothers, along with the associate members, are looking forward to a very productive year. We wish all Deltasigs the same.

—MARK D. BUSS

SOUTH DAKOTA

ALPHA ETA CHAPTER at the University of South Dakota ended the 1974-75 school year by initiating six new members which brought the undergraduate chapter to 33. These new members are what Alpha Eta Chapter is depending upon to start the 100,000 points accomplishment this year after last year's near attainment.

Last Spring saw a lot of Deltasigs graduating and a lot of activities being highlighted. Our Rose Formal was held on April 26, 1975, at the Holiday Inn in Sioux City, Iowa. A good time was enjoyed by all Deltasigs and faculty members who were in attendance. The annual Spring softball game between the Alpha Eta Chapter and the Business School faculty again proved to be an exciting event. The softball game was followed by our rib feed to which all faculty members and their families were invited. This, we believe, gives a chance for all Deltasigs to converse with the faculty on a more informal basis.

Fund-raising projects concluded last year with the energy packs. These consisted of var-

ious food commodities which were distributed to students during finals week. This Fall has started with coupon book sales. These coupons give the students discounts on different items in various local stores. Both fundraising projects proved to be very successful.

This year promises to be an outstanding year for Alpha Eta Chapter, exemplified by our current associate member class. These associate members are very qualified and determined to become a part of Alpha Eta Chapter. So in keeping with our year's goals of promoting growth and 100,000 points in the Chapter Efficiency Index, we wish all Alpha Eta Chapter alumni and Deltasigs an active and prosperous year.

DRAKE

ALPHA IOTA CHAPTER at Drake University, Des Moines, Iowa, is continuing its professionally oriented tradition. The Fall field trip was to St. Louis, where the Brothers visited Ralston-Purina, Gardner Advertising, and Anheuser-Busch, Inc. The chapter also hosted several speakers, including Herb Schulte, Vice President of Corporate Planning for Meredith Corporation.

According to Vice President of Professional Activities Brother Steve Ludwig, the Spring field trip may be to Denver or Dallas. Brother Ludwig is to be commended for his contributions to the chapter's professional activities.

Career Day 1975, under the direction of Brother Art Fleming, was one of the highlights of first semester. Over 400 students from all colleges of the University attended the all day event, where they discussed career opportunities with representatives from 40 diverse firms. Brother Fleming was also responsible for the rewarding field trip to Atlanta last Spring.

Other Fall semester accomplishments included two parties and a playoff berth for the intramural football team.

Brothers Tim Beck, Art Fleming, Jim Henning, and Steve Ludwig represented Alpha Iota Chapter at the 30th Grand Chapter Congress.

The Brothers of Alpha Iota Chapter express their appreciation to Brother LaVerne Cox, who recently resigned as North Central Regional Director. The guidance and dedication of Brother Cox has always been highly regarded by Alpha Iota Chapter and it will certainly be difficult to replace him.

Under the direction of Brother Beck, senior vice president, Brother Jim Mochel, junior vice president, and Brother Roger Blake, assistant vice president for membership development, Alpha Iota Chapter is replenishing its ranks, and should continue to be one of Drake University's outstanding organizations in the semesters to come.

—BRIAN P. KANE

NEBRASKA-OMAHA

GAMMA ETA CHAPTER has installed 11 prospective members that we feel confident will help strengthen our chapter in the future. Under the guidance of Vice President for Membership Development Larry Huggins and his assistant, Lang Anderson, we're sure they will become well versed in the meaning of Brotherhood in Delta Sigma Pi.

Our chapter has once again developed a book of coupons for discounts from local merchants which we sell on and off campus to help finance our activities throughout the year. With the aggressive leadership of Dave

Advisor Charles Treas, Business School Dean Ben McNew, Phi Gamma Nu President Diana Gong, and Deltasig Alpha Phi Chapter President Stan Smith review plans for State Retailing Day at Ole Miss.

The responsibilities of brewmeister are explained to the members of Gamma Lambda Chapter, Florida State, during their tour of Anheuser-Busch.

Mayor Don Henderson of El Paso speaks to members of Gamma Phi Chapter and prospective members at Texas-El Paso.

Howard and hard work from all our members we are assured of success.

Our professional program this Fall was highlighted by a visit on October 8 by the Honorable Mayor Edward Zorinsky of Omaha, who talked to a gathering of about 50 people on "Running Government as a Business." In his speech, he showed the similarities and differences between the finances involved in Government, and those in a profit making business. He closed with a question and answer period.

In closing, thanks go out to President Rich Andrews and the other officers of the chapter for their hard work and leadership during the past year. Through their efforts our chapter has become one of direction.

—JOHN HILLER

WAYNE STATE-NEBRASKA

ETA PI CHAPTER at Wayne State College elected new officers last Spring who ran the operations of the Fraternity last Fall. They are: Ken Liesche, president; Dennis Rohren, senior vice president; Vernon Pond, vice president for membership development; Sidney Gaeth, vice president of professional activities; Charles Fuhrer, secretary; Randy Spale, treasurer; Bob Gilsdorf, Chapter Efficiency Index Chairman; Craig Bicknell, historian; Dave Rhylander, social chairman; and Vaughn Benson, chapter advisor.

This summer, on July 26, our First Annual Eta Pi Retreat was held at Schuyler, Nebraska. It was a get-together of the undergraduates and the alumni. Saturday night started things off with a party at the Boy Scout Camp. A barbecue was held on Sunday at noon, with a meeting of the undergraduates following. It was the undergraduates against the alumni in a softball game in the afternoon—of course, the alumni won, but only by one point, 22-21.

Our big money-making project again this year is the Coupon Book. This is a book of coupons purchased by the student for \$1.00, giving him discounted values on items in the stores of participating merchants. This book serves two purposes. It saves the student money on his purchases and it produces business for the merchant. We will also have small money making projects through the year, such as Hot Dog sales.

Brother Doug Livermore, an alumnus of Eta Pi Chapter, is now teaching at Wayne State College. Brother Roy Cook, also on the faculty of Wayne State College, agreed to be Eta Pi Chapter's second advisor for 1975-76. Both Mr. Livermore and Mr. Cook will be added assets to Eta Pi Chapter.

Our big professional tour was taken last Fall on October 22-25. We went to Kansas City, Missouri, and visited five businesses in the area. We talked to the management of each company who gave us some idea of the implications the economy today is placing on their business policies. They also gave us some indications of what their company is looking for in recent college graduates.

During the Wayne State College Wildcat Days, Eta Pi Chapter entered a float in the annual parade. The Brothers had a great time putting it together, but were disappointed when the float failed to place in the competition. However, building the float did give us a chance to become closer Brothers and did offer a fun time for all.

The Brothers celebrated Founders' Day on November 1 with a party at Brother Bill

Carlson's place. Several alumni were present to help us celebrate this event. The party was held after the last Wayne State football game.

This term, Eta Pi Chapter has acquired seven new associate members. We feel this is quite an accomplishment—it is 50 per cent better than both semesters last year.

We wish everyone a very successful 1976.

—CHARLES FUHRER

ST. CLOUD

THETA TAU CHAPTER at St. Cloud State University has a promising year to look forward to.

Already, plans are being made for the fourth annual Spring break "Florida Trip." Due to the trip's past popularity, we have set our goal at filling six buses, as compared to the four buses we filled last Spring. All Brothers are enthusiastic about making the 1976 "Florida Trip" the largest and most successful trip yet.

Full membership recruiting was highly successful, as eight associate members are now in the process of becoming full members. The associate members are already at work to help the fraternity in that, as a pledge project, they are working on updating the chapter bylaws. Along with this, the pledges are also creating and/or revising the S.O.P. (standard operating procedure) files for the officers.

In recognition of Founders' Day, the Brothers decided on a professional visit to the Campbell-Mithun Corporation. The visit promised to be an interesting one which all the Brothers looked forward to.

This year's Homecoming Banquet had an excellent turn out and was enjoyed by all. The annual affair proved to be an excellent opportunity for the associate members to get acquainted with our alumni Brothers and also to get better acquainted with our undergraduate Brothers.

MISSOURI-COLUMBIA

ALPHA BETA CHAPTER at the University of Missouri-Columbia is proud to announce the initiation of 26 men on October 18. The Brotherly love, service, and enthusiasm make this union mutually satisfying.

One Brother, Douglas Hart, was stricken with a heart infection in late September. Doug was Alpha Beta Chapter's Finance Chairman. We wish him a speedy recovery!

The Brothers of the chapter participated in the Missouri Students' Association Campus Blood Drive held September 22-26. The assistance given was warmly appreciated with thanks to the medical staff and the Association.

The professional trip was to Kansas City, Missouri, on November 20-22 to see the executives of Macy's, T.W.A., and other national and regional firms. We topped off the trip by cheering our University football team in the traditional rivalry at the University of Kansas in Lawrence.

Alpha Beta Chapter is looking forward to our 35th consecutive year of attaining 100,000 points. The enthusiasm of the Brothers of the chapter will spark another successful year.

CRIG A. SCHERZER

OKLAHOMA

BETA EPSILON CHAPTER at the University of Oklahoma engaged in a variety of interesting professional and social activities during these past months.

Professional activities included meetings with Forrest Wilkey from the Better Business Bureau of Central Oklahoma, and with John Thomas, who is the Plant Manager for Xerox Corporation's new facility in Oklahoma City. Thanks are due to our vice president for professional activities, Dan Meyer, for his adept ability at providing these excellent speakers.

October 5 was the date of our recruiting smoker. Sixteen potential associate members were treated to a number of fine Brazilian cigars as well as being introduced to Mike Mallonee, Director of Alumni Activities, and to Dr. Jack Fuller, Chapter Advisor.

Beta Epsilon Chapter pinned 15 men as associate members. The Brothers believe these new associate members will be of great benefit to the chapter and to Delta Sigma Pi.

Brother Dustin Landagora shot a blazing 91 to win the first annual Beta Epsilon Amateur Golf Tourney this year, held at the beautiful and extremely difficult University of Oklahoma Golf Course.

October 17 was the night that many Brothers "dropped a bundle" as the chapter held a card party topped off with "home movies" from Copenhagen and other of the world's capitals. The evening was quite interesting and informative.

—G. ALAN GINGRICH

OKLAHOMA STATE

GAMMA EPSILON CHAPTER at Oklahoma State University has been busy with our fund raising project in selling mums for Parents Day and Homecoming. The chapter has used this project for the past two years and it has proven itself to be very successful. A large part of the funds will be used in providing the Brothers with Professional Activities.

On September 26, the Brothers got together with the associate members for a party and each member told what Delta Sigma Pi meant to him. To turned out to be a very memorable occasion.

At our recent formal induction of new Associate Members, the Brothers of the chapter were able to bring in 15 Associate Members. We are looking forward to seeing our new members help us in achieving 100,000 points in the Chapter Efficiency Index.

Gamma Epsilon Chapter hopes that all chapters are having much success in obtaining new members and best wishes to all Brothers in the coming semester.

—JAMES H. KNOX

WASHBURN

THE DELTA CHI CHAPTER at Washburn University in Topeka, Kansas, welcomes the following new initiates from last Spring's pledge program: Myron Ackerman, Mike Flach, Mike Ingenthron, Scott Seufert, Don Tripp, and Dave Zerngest. The Brothers are very proud of these individuals and feel they will be a great help in achieving chapter and fraternity goals.

The Brothers of Delta Chi Chapter are also very proud to announce that we have had a fantastic rush this semester, certainly one of the best we have had in recent semesters, by acquiring 18 neophytes for our pledge program.

This past summer's activities included a slow pitch baseball team, in which we remarkably finished above .500 in our league. We also held a midsummer party at nearly Lake Perry.

On August 19-22, four Brothers of Delta Chi Chapter took part in the Grand Chapter Congress at Tan-Tar-A, Missouri. They have returned with much enthusiasm which they are quickly spreading throughout the chapter.

The Brothers of Delta Chi Chapter are looking forward to a successful new semester, and we hope that all of our Brothers have a really good year.

—MICHAEL W. DIXON

NOT REPORTING

Kansas
Tulsa

TEXAS-AUSTIN

BETA KAPPA CHAPTER at the University of Texas has again enjoyed a very successful Fall semester. Under the direction of David Liles, senior vice president, we were able to begin the fall semester with a superb associate member class. Rick Ealey, vice president, then took over to mold these men into high-caliber Deltasigs.

Vice President for Professional Activities Mike Conner provided us with many worthwhile professional events which not only included a speech given by controversial U.T. President Lorene Rogers, and the semesterly field trip to Houston, but also a "brown bag" lunch where Brothers of Deltasig and members of Phi Beta Chi, the women's business sorority, met with many faculty members over sandwiches, chips, and drink.

Our social calendar, organized by Mike Lewis, was again highlighted by the Founders' Day Casino Party which attracted many alumni from cities in and around Texas. Other activities included matches with AZD and Phi Beta Chi sororities, along with our formal held this semester at the Hilton.

A well organized intramural program headed by Danny "Bear" Moore brought us first place trophies in our division in both football and volleyball. We hope for the same results in basketball and softball during the Spring semester.

Beta Kappa Chapter would like to extend hearty congratulations to our new Regional Director Frank E. Presfield and much deserved thanks to outgoing William C. Ward, who has become our District Director. Both of these men are well respected by our chapter.

After learning of the experiences at the Grand Chapter Congress shared with us by our official delegate, Mike O'Kelley, Beta Kappa Chapter is looking forward to our next regional meeting to be held in the near future here in Austin.

The Brothers of Beta Kappa Chapter hope that your Fall '75 was as good to you as it was to us, and wish you the best of luck in '76.

—MICHAEL K. O'KELLEY

TEXAS TECH

BETA UPSILON CHAPTER at Texas Tech University is planning another 100,000 point year. With the help of our 26 undergraduate members and renewed alumni support this goal will be reached.

Our officers for the Fall semester included Mike Chenowith, president; David Gregg,

senior vice president; and David King, junior vice president. Brother King, a transfer student from Delta Upsilon Chapter, has very ably taken charge of the membership development of our eight associate members.

Professional activities for the Fall semester included speaking appearances from Dean Stem, newly appointed Dean of the Texas Tech University, School of Business Administration, and T. J. Patterson, professor in the School of Business Administration. Also, Joe Hefner, one of our active alumni, spoke to our chapter at one of our recruiting functions.

Social activities were highlighted by our Homecoming Dance at the new Holiday Inn. Also, the chapter celebrated the Christmas season by participating in the annual Carol of Lights celebration here at Texas Tech University.

Our Brothers of Beta Upsilon Chapter sincerely pledge our continuing support of The Central Office, the undergraduate chapters, and alumni clubs. May we stand united in Brotherhood forever.

—PATRICK N. SCOTT

TEXAS CHRISTIAN

DELTA UPSILON CHAPTER at Texas Christian University has just completed a successful Fall recruiting program with the result of an associate member class of 11. The good work of the membership recruiting committee enhances a program which promises to be strong both professionally and socially.

The chapter recently heard Mr. Allen Moon, from the Securities and Exchange Commission, speak on the duties and responsibilities of that agency. Bill Robinson has scheduled other professional speakers in his role of vice president for professional activities. Representatives from the Internal Revenue, Small Business Association, and the vice president of the Bank of Commerce are planned speakers.

There will be several professional tours which include visits to Ben Hogan Manufacturing, Mrs. Baird's Bakers, and the Miller Brewery.

The Delta Sigma Pi annual volleyball tournament for charity will be among the many social activities this Fall. Proceeds from the tournament go to charity, as determined by the first and second place teams.

The chapter recently met with the Beta Phi Chapter at the Pub in Dallas after the T.C.U. —S.M.U. game there. The associate member retreat and a progressive dinner are among the other social activities planned for this semester.

We are looking forward to a very busy and profitable year and wish all of the other chapters a successful year.

—STEPHEN KEY

EAST TEXAS STATE

DELTA PHI CHAPTER at East Texas State University has profited greatly the past year in both the professional and social aspects of fraternity life.

Professionally, our chapter was fortunate to obtain a thorough tour of the Security State Bank of Commerce, Texas, as presented by the bank president, Clyde Robenett. We were allowed the privilege of touring the E.T.S.U. computer science center, as conducted by the head of the center, Dr. Ballew. The foremost

tour of the past year was the Southwestern Life Insurance Corporation in Dallas where all the members were treated to lunch, an executive tour, an introductory film about the company, and several outstanding speakers.

Socially, the Delta Phi Chapter has entertained with its annual array of various "theme" rush parties. These included the "tropical luau", the famous "casino party", and the large Bar-B-Que at the end of membership recruiting. "Mixers" were held with several various sororities on campus throughout the year, including Alpha Phi Kappa Delta, and Alpha Delta Phi. The 1975 Homecoming party was held at Northpart Inn in Dallas on October 25.

Perhaps the greatest change in Delta Phi Chapter at Commerce is the beautiful new house we moved into at the start of the Fall semester. Members added to its beauty by applying a fresh coat of paint, new lighting fixtures, and the addition of a new sign.

The recruiting program for the past year has been very profitable. Among those initiated were Gaines "Happy" Arnold, Gary Jackson, Ike Jewett, Kyle King, Greg Moffat, and Scott Rabe. The Fall recruitment program has continued this excellence. We are extremely proud of our new associate members, new interests, and the cooperation shown by all members involved.

All the Brothers of Delta Phi Chapter extend their best wishes and good fortune to all fellow Brothers in the following year.

ANGELO STATE

ETA THETA CHAPTER at Angelo State University inducted seven associate members for the Fall semester. All seven associate members showed a lot of enthusiasm and school spirit by making posters to go around the stadium for the Angelo State vs. Howard Payne football game. The main poster was a sheet hung directly under the scoreboard with Delta Sigma Pi in large, highly visible letters.

The Brothers of Eta Theta Chapter are hosting a Founders' Day pre-game warmer to be continued after the Homecoming game. All chapter alumni are invited. It is to be held in a local party room in San Angelo.

To "promote closer affiliation between the commercial world and students of commerce" Eta Theta Chapter is co-sponsoring an Accounting Association Week. It will consist of three night symposium with local accountants and professors from Angelo State speaking on the various aspects of the Accounting field.

With Homecoming festivities upon us, the newly elected Rose of Eta Theta Chapter, Cindy Caveness, is in contention for the honor of being chosen the Homecoming Queen of Angelo State University.

In November, the chapter hosted a Town Hall Meeting to expose the students of Angelo State to the executives of local business firms.

DENVER

ALPHA NU CHAPTER at Denver University sends greetings to all chapters. We have just finished our Booksale in which Spiro Vergatos, the Booksale Chairman, reported a near record profit for our chapter. Clinton Cochran, professional vice president, has done a superb job in lining up speakers and tours. In our Fall quarter we had five speakers and two tours. We were also joined this quarter by five new associate members, Adrian Bryner, Mark Margasun, Thom McCord, Herbert Skinner, and Victor DiLeo. We look forward to seeing these members initiated into full Brotherhood. Peter Katz, who was in charge of the membership recruitment program, did a good job and should be commended.

The Deltasig Bowling team, consisting of Jerry Vergatos, Spiro Vergatos, Bill Quinn, and Victor DiLeo, is currently in third place hoping to capture the league championship.

The undergraduate Brothers of Alpha Nu Chapter, along with the Denver Alumni Club, celebrated the 50th Anniversary with a dinner at the Pinehurst Country Club. Special guests included Grand President Bill Tatum; Executive Director Ben H. Wolfenberger; and Regional Director Bill Wilson.

It was a busy week as three days later, John Watton, the Chapter Consultant, paid us a very welcomed visit. John witnessed our induction ceremony and joined with the Brothers afterwards for a social time.

The Brothers of Alpha Nu Chapter wish all chapters of Delta Sigma Pi much prosperity and good fortune for the coming years.

—JERRY VERGATOS

NEW MEXICO

THE PAST MONTHS have been very busy ones for Gamma Iota Chapter. At the end of the Spring Semester we were forced to withdraw our affiliation with the University of New Mexico over the issue of sex discrimination. We refused the applications of several women who maintained that they wanted to join the Fraternity, and so we were asked to remove ourselves from the campus until such time as we could sign a declaration of compliance with Title IX and all HEW regulations pursuant thereto. We have been doing very nicely meeting off campus. Recently, we have been meeting at the Officers Club of a local Air Force base, as some of our active Brothers are retired officers.

The only serious problem with meeting off campus we have found is recruitment of prospective members. We are not allowed to put up a table at the University or to make presentations in classes about the fraternity, so we have taken a strictly personal approach. Each active Brother has undertaken to bring in at least one associate member. As we have 21 members, this should be more than sufficient, and we have met with good response so far.

As a fund-raising project, we have decided to maintain a stall in the local "flea market" to sell donated items. We solicit unwanted but salable items from alumni, chapter members, businesses, and citizens in general here in Albuquerque and sell them at the flea market. It's amazing what people will buy!

In the area of professional activities, we were fortunate enough to be invited to attend a regular breakfast meeting of the Executive Association of Greater Albuquerque, an or-

Officers of Gamma Rho Chapter, Detroit at the chapter's recent 25th Anniversary Celebration.

Texas Stadium scoreboard welcomes Zeta Mu Chapter, Texas-Arlington, to a Texas Rangers baseball game where the chapter hosted children from a local elementary school.

ganization of professional businessmen and civic leaders of the highest caliber. This group of 100 executives, one representing every branch of business in the community, gathers each Tuesday morning to trade business information over breakfast. It was an enlightening experience, and we highly recommend that Delta Sigma Pi chapters in other cities seek out such groups (they usually shun publicity) and get to know them. They are usually the prime movers of business in the area.

Socially, we have had an associate member party which was a great success, and our Initiation Dinner and Dance is in the planning stages. Otherwise, we have an active calendar planned.

Special congratulations are in order for Brothers James "Mike" Harmon and Bob Boyden who just passed their CPA exams—in one sitting! Where did you find the study time, Brothers? In addition to full course loads it seems both of you were heavily loaded with fraternity activities. You've done us proud in all three respects. There is a sad side to your achievements, though—you are sure to be plucked from our midst by one of the big ten.

All in all, it promises to be a great year for Gamma Iota Chapter, notwithstanding our difficulty with the University. We have found that being exposed to what we would characterize as unwarranted persecution has brought us closer together in Brotherhood, rather than challenging our existence.

—CHARLES R. BARNHART AND MICHAEL PATA

TEXAS-EL PASO

THE GAMMA PHI CHAPTER at the University of Texas at El Paso extends hearty greetings to its Brothers. We have recently completed our Fall recruiting program and now have 15 earnest and dedicated associate members. This is one of the largest classes the chapter has experienced in many semesters, and we are very happy with its composition. We were honored to have as our speaker at the smoker the Mayor of El Paso, our own Brother Don Henderson. Brother Henderson gave a morale-boosting talk on the many businessmen who contributed so greatly to the efforts of the American Revolution. This talk instilled in all of us the feeling of responsibility which we owe to our community and country.

This semester the Gamma Phi Chapter is to

be especially busy as we are to have many speakers and tours. We had especially been looking forward to a trip to the University of Chihuahua in Mexico to be their guests for a weekend. Unfortunately, plans did not materialize in time to make such a trip feasible this Fall semester. The trip has been postponed until next semester for further investigation. Our first speaker after the smoker was Mr. Richard Stuart on September 23, who explained the use of Scientology in today's business world. On September 30, Mr. Jerry Morris, head of the El Paso Better Business Bureau, spoke to us on the Bureau's responsibility to the community. Our first tour was to be to the Bermudez Center in Juarez, Mexico. This tour consisted of a visit to components factories in Juarez, with explanations of the twin plant concept. On October 28 we were honored to have as our speakers Mr. Mike Dipp and Mr. Nester Valencia, who are in charge of the Downtown El Paso Development Research Project. This lecture was accompanied with plans to illustrate the feasibility of remodeling Downtown El Paso. Our final speaker was Mr. Mike Bernstein, on November 25, giving a brief lecture on estates and trusts. Mr. Bernstein, a practicing CPA, deals especially with the money problems involved in trusts and estates. All in all, we have had a highly informative and productive semester in professional activities.

For many years the Gamma Phi Chapter of Delta Sigma Pi has been one of the most active fraternities on campus. We have helped with student body elections, blood drives, and a host of other important activities. Currently, we have become active in a new idea which was presented by the Dean of the Business Department, Dr. Lee, who also happens to be an alumnus of Delta Sigma Pi. Dr. Lee's new idea is called the Business Students' Federation and is composed of the various Business societies on campus. It is an attempt to let the students of business become more aware of the happenings on campus.

This semester's fund raising projects look especially hopeful. Our main project this semester will be the raffling off of a steak pack, 100 gallons of gasoline, and a turkey. Our chapter is made up of determined Brothers and I am certain the project will be a success.

Among our many social activities several are worth mention. This Fall the Gamma Phi Chapter was invited to a special gathering at the Chamber of Commerce in which delegates from Mexico presented the various investment opportunities available in their country. The presentation was preceded by a cocktail and dinner hour. This semester we are looking forward to the associate member fund raising project which is called "Casino Night." This is one night in which the members and associate members really get to know each other. The associate members provide refreshments and card tables to the members for a price. On November 7, the Gamma Phi Chapter traveled to Las Cruces, New Mexico, to be Epsilon Upsilon Chapter's guests for the Founders' Day Celebration Banquet, and we all certainly look forward to this. We would like to take this opportunity to announce our upcoming 25th Anniversary on May 19, and we hope that our next 25 years will be as good as the preceding years.

We are really looking forward to the up-

coming semester with great enthusiasm. The Gamma Phi Chapter wishes all of its Brothers the best of luck in this and upcoming semesters.

—DOUG WILBOURN

ARIZONA

GAMMA PSI CHAPTER at the University of Arizona, in maintaining its number one standing in the country, planned a visit to Home Federal Savings Data Processing Center October 23, 1975. This encounter demonstrated the professional and industrial applications of management information systems. The Brothers of the chapter toured the Magma Copper Company in San Manuel, Arizona, later in the Fall. Copper is a particularly significant industry in Arizona, and our education in business will be affected by this visit to learn of copper mining opportunities and problems.

To date, professional speakers at regular business meetings have included Pima Community College Dean of Students' Services, Diego Navarette, Mayor of the City of South Tucson, Mr. Dan Echstrom, and Pima County Supervisor, Mr. Joe Castillo. These outstanding men in the community were able to speak informally to the chapter, due in large part to Frank Camacho's efforts as vice president for professional activities.

Service projects included a Halloween Party for retarded children in conjunction with the women of Phi Chi Theta. The current pledge class for the Fall, which numbers 24, painted and fixed up a retirees' center in South Tucson. Fund-raising via a car wash on October 3 was quite successful. Woodcutting on Mt. Lemmon by the pledge class was scheduled. October 11 saw chapter members traveling to Phoenix, to attend the Thunderbird Alumni Club picnic and barbecue.

The chapter football team expected to remain unbeaten in last Fall's campaign. This in large measure is due to the 220 lb. average line. Games already scheduled total four, including contests with the Engineering Fraternity and a rival business fraternity here at the University of Arizona.

—MICHAEL J. LINN

ARIZONA STATE

GAMMA OMEGA CHAPTER at Arizona State University began planning last semester's activities long before school began. As a result, we have had the most extensive professional program in our history, including 16 tours and five speakers. Mr. Randall, president of the Phoenix Chamber of Commerce, was the featured speaker at our first professional banquet. Our recruitment program produced 20 men who displayed their interest and enthusiasm almost immediately.

October 26 marked the date of our trip to the Salt River, a favorite spot where thousands go "tubing" every summer, and by late August, the debris left by these inner-tube expeditions begins to pile up. The Brothers and associate members alike converged on the area to restore the countryside, and we had a great time, too.

Selling firewood is not a new fund-raising idea, but has turned into an unlimited opportunity for Gamma Omega Chapter since Bill Mitchell located a supplier who delivers to us. This has created much higher profits and less work for the Brothers, since we used to have to haul it ourselves.

Despite the busy schedule, we have had our lighter side. The costume Halloween party and both associate member parties were attended not only by Brothers and associate members, but by members of the newly formed Thunderbird Alumni Club, which provides needed support to the surrounding chapters.

—VAN O. BEDELL

NEW MEXICO STATE

EPSILON UPSILON CHAPTER at New Mexico State University has been hard at work keeping pace with a packed activities schedule. Recruitment activities during the Fall semester have resulted in an impressive group of new Brothers being admitted to the world of Delta Sigma Pi. In addition to a heavy academic and professional schedule, the Brothers made a strong showing in campus intramural activities. Fall semester activities were capped with an impressive and enjoyable initiation banquet.

Epsilon Upsilon Chapter is continuing to work overtime on various aspects of the format presented at the National Leadership Methods Conference last October in Dallas, TX. An interesting variety of projects and programs emphasizing the theme of "Free Enterprise" are being initiated with the efforts and enthusiasm of every Brother in the Epsilon Upsilon Chapter.

A group of Brothers will be visiting San Diego, California, shortly after New Year's festivities. The objective of this annual project is to familiarize the Brothers with businesses and opportunities in various metropolitan centers. Fund raising activities are in process in order to provide again two tuition scholarships during the Fall semester for freshmen entering the College of Business Administration and Economics.

A new group of officers is hard at work this semester. We have no doubts they will continue the excellent initiative and dedication exemplified by last year's officers. Best wishes to all chapters in their efforts.

—TONY ROMO

WESTERN STATE

ZETA KAPPA CHAPTER has had a busy Fall quarter thus far working to increase our membership. Our rush program was a success after initiating six new pledges. We are learning new ideas from Brother Steve Thompson who attended the Grand Chapter Congress this summer and brought back many suggestions. This quarter we should see some good professional activities from Brother Jim Weber and his Committee who are working hard to get films, tours, and so on.

We ended last year with our annual Alumni-Undergraduate softball game and the Rose Banquet. Brother Steve Thompson escorted Robin Dierdoff, who was crowned Rose Queen. Our Rose Queen was also crowned Homecoming Queen for 1975.

Zeta Kappa Chapter was fortunate enough to have Brother John Watton from The Central Office visit us in October. Brother John gave us some good ideas on recruiting programs and helped us out with a few questions which the Executive Council had.

Zeta Kappa Chapter wishes all the Brothers a Happy New Year!

—C. DE LA CHAPELLE

NORTHERN ARIZONA

A NEW CRAZE has struck the Zeta Omega Chapter at Northern Arizona University.

sky-diving. President Greg McKellar and CEI Chairman Russ Kauzlaric have been jumping regularly; and so far, haven't broken a bone. Continued luck to our prospective birds!

The professional program has been very successful this semester, highlighted by several tours and Mr. Dennis Mitchum, Partner of Arthur Andersen C.P.A.'s, who spoke on careers in public accounting. Our thanks to Scott Coor, professional vice president, for a job well done.

Fund-raising projects have taken a new form for the Zeta Omega Chapter. Realizing the vast business resources available within the Brothers of the chapter, we are putting these skills to work in raising funds. The Zeta Omega Chapter hires itself out to do book-keeping and other activities for small local businesses. We have met with limited success in this endeavor so far, but we plan to expand the program further.

We are once again sponsoring the Psycho-Cybernetics Seminar at Northern Arizona University. This has been one of the most successful years for this seminar, and we hope the course has helped many individuals in understanding themselves better.

A special "hello" to all the alumni of Zeta Omega Chapter of Delta Sigma Pi. Please send us a short note on how and what you're doing; we would really like to hear from you.

SAN FRANCISCO

GAMMA OMICRON CHAPTER'S 25th Anniversary on September 25, 1975, proved to be a heart-warming gathering for many fraternity Brothers, alumni and undergraduates of Delta Sigma Pi. In San Francisco lies the oldest Western Region chapter, the Gamma Omicron Chapter. Those who attended included: Grand President Bill Tatum; Senator Milton Marks; Dean of U.S.F.'s College of Business and ex-Provost, Harold Walt; and Father Dunn, ex-Dean of COBA. These men were among the many who helped create a memorable evening of richness and splendor. We, the Brothers of Gamma Omicron Chapter, extend a warm "thank you" to those who were able to attend and make the festive celebration possible.

Gamma Omicron Chapter at the University of San Francisco is conducting the annual "Business Week" affair, November 17-20. Various speakers will include the distinguished Ralph Nader as a special added attraction. Also, we are fortunate to have the President and General Manager of the KQED T.V. station, and the Accountants for Public Interest will present: "A seminar on how to manage your own cash." Business Week has been organized and promoted exceptionally well this year, due to the qualified hands of Business Week Chairman Raymond William Jones.

Our fraternity this season is honored to pledge 11 men as promising future Brothers. Eager to learn the thrills of fraternal living, our young men will realize soon enough the sound qualities necessary for Brotherhood.

Beginning October 21, Gamma Omicron Chapter became involved with the conducting

of a litter clean-up drive on campus. The U.S.F. janitors and engineers commenced striking procedures on October 17. Clean-up, food service, and other mandatory union jobs have been left up to the students. The Brothers on campus will strive to keep our school looking clean and litter free.

From six finalists our beautiful Rose Queen was chosen Friday, October 24. Over 25 charming, gracious, lovely ladies were competing for "Rose Queen '75." Traditionally the winner is crowned during the celebrated Rose Dance, the major dance event of the year. Chairman for the event is Ken Falvey. Our new queen will uphold the high standards and quality of Delta Sigma Pi, and will symbolize the beauty of fraternal living.

—CLARENCE MICHAEL PRUITT

LOYOLA-LOS ANGELES

DELTA SIGMA CHAPTER ended 1975 with a tidal wave!! The party for the new Brothers was held on board the Queen Mary in Long Beach, California. From bow to stern the ship was rocking like the titanic with music from the party until 3:00 A.M.

To help celebrate the graduation of many illustrious Brothers, some graduating Brothers were "permitted" to take a quick bath at the Cross Creek Village swimming pool. Pictures were taken to enhance this issue of The DELTASIG, but one alumni-to-be decided to give the photographer and his camera a bath!

This semester Delta Sigma Chapter sponsored its second annual "College of Business Luncheon", headed by Brother Randy Johnson. It was attended by over 250 College of Business Administration faculty and students. Its major purpose was to enhance the communication of Business faculty and students in an informal atmosphere.

Delta Sigma Chapter is expecting to initiate seven men this semester. The Brothers of Delta Sigma Chapter will do all they can to make the membership development period a truly memorable and educational time for all the associate members. Our vice president for membership development, Steve Alvarez, is doing a fine job of guiding the associate members in their projects toward their final initiation.

In the financial area, we have several projects up and coming, such as a car rally, bike raffle, and turkey raffle. In our professional area, we have a number of speakers lined up by Jim Riley, vice president for professional activities.

It looks like another great Delta Sigma Chapter year for 1975-76.

—CARL J. PENTIS

C.S.U.-CHICO

EPSILON THETA CHAPTER experienced a great start this semester, and under the leadership of our current president, Brother Ross Cooley, things continue to go well. Other chapter officers include Paul Hesse, senior vice president; Rich Rowsey, vice president for membership development; Al Redmond, vice president for professional activities; Jim Morgan, chancellor; Dennis Nichols, secretary; Dale Dolin, treasurer; Steve Lindemann, historian, and Brad Fias, CEI Chairman.

A new program initiated this semester under the direction of Brother Ross Cooley is a faculty-buddy program. Through this pairing of an active member with a faculty

Brother, there is greater communication with this strong segment of the chapter. Roger Douglas has also done an outstanding job in maintaining alumni communication.

A rose goes to Brother Paul Hesse in organizing such an outstanding rush program. Prospectives were invited to attend the Faculty Smoker, and a fine professional tour of the Oroville Dam and Power Station, as well as an excellent spaghetti dinner. We were pleased to have Brother Bill Tatum, Grand President; Tom Harnett, Western Regional Director; and Bill Morris, District Director, as our honored guests. These efforts, combined with the entire chapter's personal approach to selling the fraternity, allowed Epsilon Theta Chapter to pin 20 outstanding prospective members. Brother Rich Rossey has displayed a high degree of competency as VPPE in preparing these men for possible future membership.

Brother Al Redmond has conducted an exciting professional program, including an extensive tour of the San Francisco Airport, Kimberly-Clark Lumber Company in Redding, and a number of professional speakers to complement the recruiting week tour of the Oroville Dam facilities.

Brother Roy Parsons is keeping the books in black as he prepares the chapter financial projects. Plans include the sale of light bulbs, and sponsoring a car rally, which has been extremely successful in the past.

A special rose and sincere thanks to our lovely Rose for the past year, Crystal Cole. Brother Gregg Hall has organized a great Rose Tea in which the chapter has become acquainted with 15 beautiful candidates for this year's Rose.

The CEI chairmanship is in able hands with Brother Brad Fias, who has high hopes of making Epsilon Theta a 100,000 point chapter once again. With such dedicated Brothers as these, we will certainly give it a try!

The Brothers of Epsilon Theta Chapter wish all Deltasigs a very happy and successful year.

—STEVE LINDEMANN

C.S.U.-SACRAMENTO

EPSILON PHI CHAPTER at California State University-Sacramento celebrated Founders' Day by holding a dinner party at the Candlerock Inn with the local Alumni Club.

Brother Tom Bailey was married last August and all the Brothers looked forward to attending Brother Jay Smyre's wedding in October.

The social program this year includes a wine-tasting tour, a cocktail party at Brother Bill Tatum's home, associate member-chapter football game, and a breakfast meeting with the Capital Optimist Club.

Our professional activities include speakers from Bank of America, and Pacific Telephone, and a tour of the San Francisco Financial District, and ABC affiliate KOVR Channel 13 Sacramento.

personal mention

Donald W. Davis, *Tampa*, has been named a career representative of the Glassford/Miami-Southeastern Florida general agency of the National Life Insurance Company of Vermont.

J. Wesley Bergey, C.L.U., *Pennsylvania State*, with the New York Life Insurance Company, has just been elected president of the Penn State Club of Lehigh County, Pennsylvania.

Fred H. Williams, *Madison College*, and his wife, Carol, have been accepted as members of the Wycliffe Bible Translators, Inc., of Huntington Beach, California. Brother Williams will serve as a Linguistic Task Force administrator.

Robert J. Boutillier, *Rutgers-Beta Omicron*, C.P.A. and Partner in Charge of United States Operations, Peat, Marwick, Mitchell & Co., was selected to receive the Distinguished Alumnus Award for 1975 from Rutgers University, and was the guest of honor at the Annual Dinner Dance held in Scotch Plains, New Jersey.

Tom J. Vandergriff, *Texas-Arlington*, is now serving his 13th term as mayor of Arlington, Texas.

Paul E. Weeditz, *Lewis*, has recently joined the staff of Texaco, Inc., as a sales trainee at Lockport, Illinois.

William J. Miller, Jr., *Indiana*, has been employed as a traveling auditor on the Internal Audit Staff of Texaco, Inc.

Dennis D. Martin, *New Mexico*, is now a Claims Adjuster with General Adjustment Bureau, El Paso, Texas.

Robert C. Demler, Jr., *Texas-Austin*, is on assignment in London in the European, Middle East and Africa Headquarters of the Bank of America.

Dennis W. Manno, *St. Joseph's*, has been named a career representative of the Philadelphia/Covella general agency of National Life Insurance Company of Vermont.

James L. Prescott, *Loyola-Chicago*, is now a Junior Accountant with Creative Displays, Inc., in Chicago, Illinois.

Albert P. Clark, *Georgia State*, has retired from his position as Instructor and Coordinator of the Administration of Justice Department, College of Marin, Kentfield, California, a job he accepted in 1970 following his retirement from the FBI after 30 years as a Special Agent.

Wayne B. Bromley, *Oklahoma*, has been awarded Silver Wings at Vance AFB, Oklahoma, and has been assigned to McConnell AFB, Kansas, for flying duty on the KC-135 Stratotanker.

Kenneth R. Krucks, *Drake*, has accepted a training position with the Continental Insurance Corporation in Chicago, Illinois.

David Kazan, Jr., *Mississippi*, is employed by the First National Bank of Mobile, in Mobile, Alabama.

Thomas M. Woodhams, *Nevada*, has a new position as Accounting and Finance Officer in the United States Air Force, at Blytheville AFB, Arkansas.

E. James Kerschen, *Western Michigan*, has joined the Louis Padnos Iron and Metal Company as director of personnel and public relations.

Earl D. Eikenberry, *Washburn*, has accepted an appointment as Comptroller of the Governor's Committee on Manpower Planning and Services for the State of Kansas.

B. Lee Black, *Eastern New Mexico*, is now a District Manager for Husky Oil Company, in Colorado Springs, Colorado.

Robert A. Danowski, *Detroit*, has been appointed to Assistant Investment Officer in the Investment Advisory section of the National Bank of Detroit, Michigan.

Eduardo Aguirre, Jr., *Louisiana State*, has been promoted to vice president of the First Union National Bank in Charlotte, NC.

William C. Holper, *Indiana Northwest*, passed his CPA exam in May, 1975, and has a new position with Peat, Marwick, Mitchell & Co., in Chicago, IL.

George R. Pleat, *Duquesne*, has accepted a position with the Postal Rate Commission in Washington, DC.

Timothy A. Babik, *Duquesne*, is now an auditor for Allegheny County, PA.

Kenneth M. Tomlinson, *New Mexico*, launched a new enterprise in July, the "Merchant's Introduction Services", which specializes in target marketing and in welcoming services.

Michael F. Higgs, *New Mexico*, has been appointed a Research Assistant with the Public Service Company of New Mexico.

Jordlinger D. Stern, *Duquesne*, has recently become a Board Member of the West Virginia Bar Association.

Paul C. Monell, CPA, *Loyola-Chicago*, has been promoted to Internal Audit Manager of TSC Industries, Inc., an agricultural retail business in Chicago, IL.

Brian M. Martin, *St. Ambrose*, has a new position as personnel representative with George A. Hormel & Company, in Austin, MN.

Raul B. Alegria, *Texas A & I*, has been promoted to assistant general secretary of the General Board of Pensions of the United Methodist Church, in Evanston, IL.

Anthony R. Raynor, *Loyola-Chicago*, is now the Midwest vice president of the Continental American Life Insurance Company of Wilmington, DE.

Dennis J. DiMara, *Loyola-Chicago*, has a new position as Sales Representative of Pakula and Co., manufacturer of costume jewelry, in Chicago, IL.

James B. Curran, *Loyola-Chicago*, has a new position as registered representative of Bache & Co., in Madison, WI.

John P. Tyler, *Troy State*, has a new position as junior accountant with Dill, Bond and Plumstead, Certified Public Accountants in Mobile, AL.

Robert J. Elder, *Detroit*, received the Outstanding Alumnus Award, presented at the University of Detroit Alumni Awards Dinner in June, 1975. Recipients of the coveted award are chosen on the basis of outstanding accomplishment in their respective field of endeavor after graduation. The purpose of the award is to recognize the high level of professional achievement demonstrated by graduates of the University's various colleges.

merger

James A. Jeffries, *Menlo*, to Frances Ellen Mann, on June 14, 1975, at Carpinteria, California.

Michael J. Armiak, *Wayne State-Michigan*, to Elizabeth Kerwin, on March 8, 1975, at Detroit, Michigan.

Leonard J. Cisek, *Loyola-Chicago*, to Nancy J. Frydrych, on April 20, 1975 at LaGrange Park, Illinois.

Terry R. Garrett, *Duquesne*, to Patty Schmidt, on August 2, 1975, at Oxford, Ohio.

Raul B. Alegria, *Texas A & I*, on June 22, 1975, to Bilha Ramirez, at Edinburg, TX.

Dennis J. DeMaria, *Loyola-Chicago*, on September 20, 1975, to Wendy Joan Pearson, at Chicago, IL.

C. Clinton Becker, *Johns Hopkins*, on August 2, 1975, to Nancy Adams, at Baltimore, MD.

Charles A. Barker, *Rider*, on June 7, 1975, to Donna Gerrick, at Hackettstown, NJ.

Robert L. Borkowski, *Rider*, on July 19, 1975, to Kim Regan, at Princeton, NJ.

John J. Belly, *Rider*, on August 9, 1975, to Susan Cheress, at Fords, NJ.

Stephen E. Heise, *Rider*, on August 16, 1975, to Barbara Nolan, at West Babylon, NY.

Richard J. Zak, *Rider*, on October 4, 1975, to Andrea Stepen, at Garfield, NJ.

Michael F. Higgs, *New Mexico*, on May 24, 1975, to Linda Gauna, at Albuquerque, NM.

Robert J. Lambers, *Xavier-Cincinnati*, on May 30, 1975, to Barbara Hicks, at Cincinnati, OH.

Mark L. Grzesiak, *Wisconsin-Madison*, on July 29, 1975, to Joannie Krejci, at Hales Corners, WI.

David M. Mosher, *Wisconsin-Madison*, on June 14, 1975, to Jo Ellen Gordee, at Monroe, WI.

Robert F. Kutaj, *Indiana Northwest*, on June 21, 1975, to Joan Kominiak, at Calumet City, IL.

Thomas M. Diffendal, *Duquesne*, on June 20, 1975, to Maureen Bierne, at McKeesport, PA.

John Haraburda, Jr., *Duquesne*, on June 21, 1975, to Mary Ann Fillar, at McKeesport, PA.

Jerry Vergatos, *Denver*, on September 6, 1975, to Victoria Louise Krakes, at Ticonderoga, NY.

Robert A. May, *Illinois*, on August 16, 1975, to Dee Leahy, at Chicago, IL.

Michael L. Findley, *Troy State*, on May 31, 1975, to Patricia Ann Bowman, at Greenville, AL.

John D. Plash, *Troy State*, on June 21, 1975, to Jaye Alynne Barton, at Summerdale, AL.

John P. Tyler, *Troy State*, on June 28, 1975, to Karen Anita Lawrence, at Marianna, FL.

Cecil Tyson Bragg, Jr., *Florida State*, on May 17, 1975, to Linda Logue, at Tallahassee, FL.

dividends

To Brother and Mrs. Charles Staffa, *Rutgers-Beta Rho*, on March 9, 1975, a son, Mark Allan.

To Brother and Mrs. Milton W. Price, Jr., *California-Sacramento*, on May 18, 1975, a son, Stephen Jeffers.

To Brother and Mrs. Earl D. Eikenberry, *Washburn*, on June 21, 1975, a daughter, Shawna Ruschelle.

To Brother and Mrs. Gordon R. Mardis, *Washburn*, on July 7, 1975, a daughter, Tara Michelle.

To Brother and Mrs. Frederick H. Gravelle, *Minnesota-Minneapolis*, on May 14, 1975, a daughter, Ann Elizabeth.

To Brother and Mrs. B. Lee Black, *Eastern New Mexico*, on April 22, 1975, a son, Eric Todd.

To Brother and Mrs. William J. Reynolds, *Tampa*, on August 27, 1975, a daughter, Tara Ann.

To Brother and Mrs. Geoffrey M. Knoerzer, *Indiana Northwest*, on June 17, 1975, a daughter, Jennifer Marie.

To Brother and Mrs. Lary J. George, *Akron*, on May 13, 1975, a son, Nickolas Vincent.

To Brother and Mrs. James P. Langdon, *St. Peter's*, on September 11, 1975, a son, James Paul, Jr.

To Brother and Mrs. Patrick G. Cruz, *New Mexico*, on April 11, 1975, a daughter, Maria Elena.

To Brother and Mrs. Bain Proctor, *Georgia State*, on August 12, 1975, a daughter, Heather Lynn.

To Brother and Mrs. Glenn R. Perry, *Duquesne*, on April 29, 1975, a daughter, Tara Lynne.

To Brother and Mrs. Daniel P. Duffy, *Duquesne*, on September 11, 1975, a son, Kenneth Edward.

To Brother and Mrs. Robert R. Clark, *Pittsburgh*, on October 14, 1975, a daughter, Tamara Dawne.

To Brother and Mrs. Bernard S. Kurimsky, *Pittsburgh*, on September 3, 1975, a son, Kevin.

To Brother and Mrs. J. Malcolm Dicharry, Jr., *Louisiana State*, on May 25, 1975, a son, Jay Malcolm.

To Brother and Mrs. John A. Pass, *Georgia State*, on August 21, 1975, a son, Benjamin Hyde.

*DEADLINES

Copy deadline for the March, 1976 issue of The DELTASIG Magazine was December 26, 1975. Deadline for the May, 1976 issue is March 1, 1976.

*ADDRESSES

No Directory of Chapters and Alumni Clubs is published in The DELTASIG Magazine. Chapters or Clubs needing names and addresses of other chapters or clubs should contact The Central Office.

*ANNIVERSARIES

50th

Alpha Rho, Colorado, February 21, 1926-1976

Alpha Sigma, Alabama, March 6, 1926-1976

25th

Gamma Upsilon, Babson, April 21, 1951-1976

Gamma Phi, Texas-El Paso, May 19, 1951-1976

Gamma Psi, Arizona, November 3, 1951-1976

Gamma Omega, Arizona State, November 4, 1951-1976

*BICENTENNIAL

This year is the Bicentennial of our Nation. It is a double Bicentennial for fraternity and sorority members since Phi Beta Kappa was founded on December 5, 1776 at William and Mary College.

THE FINANCIAL DEPARTMENT STORE

Some of our national brokerage firms are slowly evolving into a "department store" offering the investing public many different products and services. The theory is that by giving their clients, both large and small, financial packages coupled with investment planning, they become more of a firm for all seasons.

If we were to take a tour of a large, well-staffed, investment firm's home office we might find it occupying seven or eight floors of a building, each floor providing a special function to clients.

For instance, as we enter this "multi-product" brokerage firm we are introduced to our account executive tour guide by a receptionist. Our educational expedition starts on the first floor where over 15 different products for income are available, with yields ranging from 4 to 12 per cent. To the left we see short-term obligations such as bonds, C.D. packages, commercial paper, money market instruments, municipal notes, and T-bills. Nearly all of these mature in less than one year.

To our right we can find long-term income investments. This department is divided into two areas: the fixed income section which handles annuities, and corporate and government bonds; and the non-fixed income section with income funds, mortgage trusts and preferred and utility stocks.

Taking the escalator to the second floor we notice a sign that says "Investments for Special Tax Advantages." Here is the municipal bond department, where we can find just about any kind of quality tax-free income bond. Some of the longer maturity bonds carry coupons paying over 8%, while the shorter bonds and notes may pay less than 4%. This department takes up about 70% of the floor and is very popular with people in a 26% and higher tax bracket.

The remainder of this floor is used by the tax shelter department. Here you can purchase an investment annuity which shelters its income (usually 8 to 10%) from taxes. We are told that we can put C.D.'s, high yielding bonds and other investments into this annuity shelter. This area appears to be growing and could use more space. Also, in this section we can get an investment trust

or oil or real estate program under a tax shelter.

As we move up to the third floor we see a sign that reads "Investments for Possible Growth." To our left is the corporate stock department where in a matter of seconds we could become part owners in almost any type of business. For example, some investors were buying shares in one of the largest banks in the world, while another was investing in a small new growth company.

Next door we can acquire convertible bonds which pay good interest and can, if it's to our advantage, be converted into capital stock.

Across the aisle is the mutual fund department which handles orders for over 200 different fund shares. Here we can select a managed portfolio ranging from aggressive leverages to blue-chip funds that have paid dividends right through the great depression.

Around the corner is the asset management department which monitors approximately 30 investment counselors. If we have over \$200,000 in cash or securities this section can guide us in selecting the right management team.

Now to our left we come to the national option department where aggressive investors buy "calls" if they think the stock will go up and "puts" if they think the stock will go down. Income oriented investors generally sell call options in an attempt to generate extra income. Several trust and insurance companies may use this department to try to increase their income. We are also told that sandwich and perpendicular spreads are increasing in popularity. To better understand this security, an option clearing prospectus was handed to those interested.

The large room at the end of the hall is where commodities are traded. Here producers, manufacturers, and speculators trade sugar, cattle, juice, plywood, gold, foreign currency, and about a dozen other commodities. You might even find a few investors here buying gold or silver or Swiss francs. The average commission for 32 to 100 troy ounces of gold runs about \$50.

Located on the fourth floor are the investment planning people. This floor is divided into several sections where

clients can get analytical investment advice, portfolio reviews, and statistical printouts. Since nearly every investment decision affects your IRS 1040 and eventually your 706 form, these executives have been trained to work with your CPA and attorney. This department must use outside counsel when working under trust agreements or with installment sales and private annuities.

Behind this section is the deferred compensation department where Keogh, individual retirement, pension and profit sharing plans are set up and monitored. These two sections appear to be very busy.

Next we come to the tax straddle section where investors try to reduce their capital gain tax by moving the gain to another year or spreading it out over several years. Moving on to the next department we find men specializing in making tax swaps. Here investors roll over tax-free income bonds keeping essentially the same quality, yield and maturity, but accumulating a tax credit.

Across the hall we visit the insurance department where we can buy protection and increase our estate. It was mentioned that New York Stock Exchange member firms now represent approximately 70 different insurance carriers.

On the fifth floor we tour the research department where full time analysts try to come up with the best investment ideas for our particular situation. The special situation department is also here working on arbitrages and hedges.

On the sixth floor we visit the municipal fiscal agent and investment banking department where cities and corporations hire advice and get assistance when raising money.

As we ride the elevator down our guide invites us to make an appointment with a local account executive in our hometown, indicating that these brokers are trained to work with any of the departments that we had just visited.

James P. Ambrose is a senior account executive in the Fort Lauderdale office of Reynolds Securities, Inc. He teaches classes in Securities and Investments for the Adult Education Department of Broward County, and is an alumnus of Delta Iota Chapter at Florida Southern College.

CHICAGO

ONCE AGAIN WINTER is upon us, but no matter what the weather is like the doors of the Chicago Alumni Club are forever open. Well, almost forever open. After a full calendar of activities during the latter half of 1975 we decided to give everyone a breather this month. Thus, our very next function is scheduled for February 10, 1976, and strikes a familiar note: Past Presidents' Night. Our upcoming flier will contain all the particulars, but how about marking this function on your personal activity calendar now? We fraternally request all Past Presidents of the club to make a special effort to attend this function specifically held in your honor. We've formed a special posse to hunt down all Past Presidents not in attendance, so make sure you are there. All you other Brothers are invited, too!

And what about March, you say? Bring your wife or a date to our annual Wine Tasting and Dinner Party (restaurant to be announced). We guarantee good food, good wine and a very good time. What better opportunity is there to learn all about wines and have good food and friendship on top of all that? The function after that will have all the club officers and directors up to their badges in work as we gear up for Undergraduate Night on April 20, 1976. That night we expect to entertain droves of undergrads from our many nearby chapters. But please, we need you alumni there, also! No one should miss this function, scheduled for the Swedish Club, so plan now to attend.

A few other functions remain before it's vacation time once again. In May we're going to try something different, but for the time being I'll keep you guessing. On June 3 it's back to the Midwest Country Club for our annual golf outing and dinner. Again, there will be mounds of prizes, but if you're not there you can't win any. And in July we will have a Bicentennial Picnic to which the entire family is invited (Grandma and Grandpa, too!). More information about each of these activities will be published in the coming months.

A Final Note: Let us remember that a great institution was founded in the New World in 1776. Yes, the Greek system of fraternities and sororities, an American institution, is also 200 years old this year. Let us rededicate ourselves to our great principle of Brotherhood and work to make our fraternity better. The formula for lifetime Brotherhood is simple: Keep active in your nearby alumni club, support your undergraduate chapter, and keep the flame of fraternalism burning in your heart. We're here to help you do just that, so may we hear from you soon? Our address is 42 E. Cedar, Chicago, IL 60611 and our phone number is (312) 337-9652.

—JAMES L. PRESCOTT

CRESCENT CITY

INTERESTED IN RAISING money for your undergraduate chapter or alumni club? Then consider a garage sale (also known as a rummage sale); on September 13, our second

garage sale was held at the home of Brother Jerry Nagel, who also served as chairman, and it proved to be a very profitable and enjoyable venture. Net profit earned by the one-day event was \$459.00.

Not to be overshadowed by the success of the garage sale were several other notable Fall activities. On November 9, the Brothers were treated to food dishes of several nationalities at a Pot Luck Supper which commemorated Founders' Day, while on December 13 the event was the annual Christmas Party. One of the most rewarding activities we have ever been involved in has to be our participation in the reactivation of the Delta Nu Chapter at Loyola University in New Orleans. After meeting on several occasions with undergraduates and faculty members, interest was stirred up; hence, a membership drive was begun and there were prospects for a healthy-sized group of associate members, formerly called pledges. Main credit for this re-kindling of fraternal spirit must go to Brother Cliff Giffin, vice president, who recently was appointed District Director for the New Orleans area.

Upcoming events are the Wine Tasting Party on February 13 to which undergraduates will be given a special invitation to attend, and the Fourth Annual Basketball Tournament on March 27. Last year's field was comprised of teams from eight chapters with the tourney crown garnered by Nicholls State; it is hoped that this year we will attract an even greater number of entrants. Also, word is circulating that the Crescent City Alumni Club might field a team for the first time; if so, watch out, undergraduates, here comes the "Over the Hill Gang".

—ANTHONY J. STOLTZ

OKLAHOMA CITY

THE OKLAHOMA CITY ALUMNI CLUB mourns the loss of its vice president, Charlie Rolader, and family. Captain Rolader met with an untimely transfer to the Newark AFB in Newark, Ohio. We miss you, Chuck, but mostly we miss your Peg.

John Prather was elected vice president to fulfill Charlie's term. John was also appointed as District Director for Oklahoma and Oklahoma State Universities by Regional Director Walter Nelson.

Thirty-two members and wives of the Oklahoma City Alumni Club started off the new fiscal year at the home of Mike Mallonee, newly elected National Director of Alumni Activities, on August 29. This was Charlie's going away party and John's birthday party.

On September 20, the Oklahoma City Alumni Club and several members of the Beta Epsilon Chapter at Norman celebrated O.U.'s victory over Pittsburgh at a barbecue at the home of Joe Sher. A croquet match was held with Mike Mallonee coming in first and John Prather second. How about a re-match?

Dr. William Talley, an economist and an advisor to the Governor, was the guest speaker at the Cattleman's Cafe on October 15. His speech on Oklahoma's role in the oil

and gas situation was very interesting. Several members and wives went to the Windjammer Club to dance to the music of "Country Wine", one of Oklahoma City's favorite groups.

A wine and cheese tasting party was held at John Prather's on November 8 and the Oklahoma City Alumni Club attended the Beta Epsilon Chapter birthday in Norman on December 4 to round out 1975's activities.

—JOHN PRATHER

PHOENIX-THUNDERBIRD

GREETINGS, BROTHERS FROM SUNNY ARIZONA. By now, you should have all received copies of the last two Arizona Deltasigs (alumni only). See the president of your club if you would like to read it. If you have any suggestions, comments or criticisms, or would like extra copies, please write. It looks like this will be a great year with high hopes of enlarging our membership and trying some innovative ideas.

Our river trip down the Verde River in August was a smashing success, with some 35 Brothers in attendance. We floated down the river in a record two hours time, enjoying Rocky Mountain brew all the way. Gamma Omega Chapter actively participated in bringing along some luscious young ladies and helping us devour 120 hot dogs, one keg of beer, and a healthy supply of potato chips and Kool Aid.

The annual barbecue in early October was also highly successful, with 31 Brothers and their families at Eldorado Park in Scottsdale, Arizona. We were especially glad to see that Paul Riedl and his wife, Ruth, senior alumni from Chicago, were able to attend. Similar to last year, this was a BYO meat affair with the club supplying refreshments and side dishes.

At the ASU Gamma Omega Chapter initial recruiting smoker there were 10 Brothers in attendance. Following this, Regional Director Bill Wilson spoke at a recruiting breakfast and Alumni Club President Bob Hamer spoke at the next recruiting smoker. The undergraduates are really excited about the alumni involvement and we hope to continue this worthwhile commitment.

Other plans for this school year include our annual Las Vegas Party on January 17, 1976, which was such a success last year (despite Brother Shield's stolen car), and an Arizona Deltasig weekend involving all three undergraduate chapters. During the first week of December we sponsored a bowling evening with approximately 32 Brothers, wives and girlfriends enjoying our evening at the lanes. We hope to make this an annual event similar to most of our other activities. We have also started bi-monthly luncheons for those Brothers who find evening meetings difficult to attend.

Mid-term plans now involve a serious look at incorporation in the State of Arizona. Two lawyers who are Brothers have consented to research this topic and help with all the necessary legal work. Once incorporated, plans are to build or buy a multipurpose

building from funds received on the sale of shares to Brothers only. An instructor at ASU, also a Brother, is beginning a preliminary search into sites and buildings which might possibly suit our needs. In conjunction with these building plans, we may obtain a bingo license this year in an effort to raise additional capital and provide for weekly usage of our structure. Alternatively, we may build a less expensive retreat home in some resort area of Arizona for the exclusive use of the undergraduate and alumni members of the fraternity.

Our membership goal this year is for 100 members. We believe this is quite realistic in view of the tremendous support of the Brothers who have already responded. I even found an inactive alumnus that wasn't on our list from Central Office, simply by wearing my pin to an evening class at Arizona State University. The active club members are continually offering suggestions and urging the officers about new activities and better ways to operate the club. Once our membership is up we hope to sponsor activities which require R.S.V.P., such as golf tournaments, theatre dinner shows, and trips. We're even considering purchasing group tickets for sports events.

In closing, those of you who attended the Grand Chapter Congress are aware that the Phoenix-Thunderbird Alumni Club won the trophy for most man-miles traveled. We have already vowed to do this again in 1977, so get your thinking caps on if you hope to give us some competition. Concerning the issue of the admittance of women into the Fraternity, that issue should be decided by now and whatever the outcome, let's pull together and make this Fraternity even stronger and more professional. I know for one that we'll do our part.

Next general membership meeting is February 20. Inquiries concerning the Alumni Club should be directed to Phoenix-Thunderbird Alumni Club, P.O. Box 27985, Tempe, Arizona 85282.

—BOB HAMER

PITTSBURGH

THE PITTSBURGH ALUMNI CLUB with its more than 150 membership has been enjoying the usual program of meetings and social events under the presidency of Brother Lou Cosentino, with assistance from his Executive Board and the various committees and ex-President Sonny Owsny.

Since the start of the 1975-76 season some exciting happenings have come about among the members of the Pittsburgh Club. Ex-Alumni President Otto Szabo has been promoted to the rank of Colonel in the Army Signal Corp Reserves. Brother Jim Hall is a Captain in the Navy Air Force Reserves and has also established a new business called Hall-Schuman Associates. Former Lambda President Roy Bowers is now living in Guam where he is Director of Operations with the Guam Telephone Company; Brother Jim Elderkin, through his company won a reward trip to London, England.

The Pittsburgh Alumni Club is proud of its many members from our local school chapters, Lambda and Theta Rho, and also of the valued members from many out-of-town chapters. We are glad to have these Brothers now residing in our area and welcome all of them to participate in Deltasig activities.

As the season continues we look forward in trying to contact all Deltasigs in the community so that the Pittsburgh Alumni Club will be a growing organization and so that all members of the fraternity may continue the fellowship of Delta Sigma Pi.

—JOHN CONLEY

SAN FRANCISCO

THIS YEAR HAS been one of rebuilding and growth for the San Francisco Alumni Club. Many young graduates have become involved and have brought new blood into the meetings. With the increase in membership, the attendance at our monthly meetings and luncheons has greatly improved. Under President Don Cotton and Brother Bob Warren we have been thankful to have had a number of interesting guest speakers to address our Brothers. Among them already have been San Francisco mayoral candidate Diane Feinstein, and a speaker from the Federal Bureau of Investigation. September 19 marked the 25th Anniversary of Gamma Omicron Chapter which was celebrated at San Francisco's Irish Cultural Center. This occasion brought together many old fraternal memories and alumni Brothers and their wives and dates. The fantastic effort of Gary Thomas in sponsoring this event is not to be forgotten. We also planned a Christmas get-together.

In closing, may I invite any Deltasigs who may be in the San Francisco area to come by for one of our monthly luncheons. They are held on the first Thursday of each month at the Iron Horse Restaurant at Maiden Lane and Kearney Streets in the financial district.

—JIM RUFFONI

WASHINGTON

THIS TIME IT'S FOR GOOD. That's the attitude of the Brothers who have joined the Washington Alumni Club. We are here to stay.

One of the main reasons why we stay active is because of our strong leadership and direction given to us by John Johnston, president; Ralph Johnson, vice president; Jay Lord, secretary; Harry Pressman, treasurer; and Frank Millman, chancellor.

Committee responsibilities have also been delegated—Mike Day, membership; Joe Pacifico and John Finch, social; Frank Millman, professional; and Jay Lord, undergraduate interface.

Another reason for our permanent status is the realization through The Central Office that there are about 350 alumni in the Washington, DC, Metropolitan Area. Since becoming active again in May, the Washington Alumni Club has grown to 75 members. A unique idea offered by John Johnston has greatly helped our membership. We have divided the alumni from Gamma Sigma Chapter (University of Maryland) up into groups that were initiated in five-year segments, from the founding of the chapter to the present. One member is in charge of contacting the alumni in each segment and planning a membership drive dinner meeting, which is parallel to the undergraduate smoker idea. These "class reunions" have been very successful not only in recruiting members, but also in making the alumni aware of our presence.

The members meet once a month (usually the third Thursday of the month) for a combined business and social dinner meeting. There is usually a social event held once a

month, also. So far, there has been a variety of social events: a picnic and softball game, a night at Rosecroft Race Track (we awarded a Washington Alumni Club blanket to the winning horse in a race named "Delta Sigma Pi"), a golf tournament at the Washingtonian Country Club, a crab feast, a football game with the Undergraduate Brothers, a wine and cheese party, and Gamma Sigma Chapter's elaborate 25th Anniversary dinner-dance.

If you are in the Washington, DC, area and have been wondering what happened to the Washington Alumni Club, you do not have to wonder any more—just contact John Johnston, our president: 10193 Campus Way S., Upper Marlboro, Maryland 20870, Phone: 336-5454 (Monday-Friday 9:00 A.M. to 5:00 P.M.).

Past Grand President Tom Mocella joins undergraduates and alumni from Gamma Pi Chapter, Loyola, at an undergraduate night sponsored by the Chicago Alumni Club.

Ray Smalling, President of the Oklahoma City Alumni Club, his wife, right, and former Beta Epsilon Chapter Rose, Jan Rogers enjoy the cookout held by the alumni club.

Talking Fraternity at a Pittsburgh Alumni Club meeting are from the left, Frank Gustine, Bill Halboth and Ted Auld. Gustine is retired from the Pittsburgh Pirates, Halboth is retired from Pittsburgh National Bank, and Auld is retired from the Mellon Bank.

DELTA SIGMA PI INVITES YOU TO BECOME A LIFE MEMBER

AS A LIFE MEMBER OF DELTA SIGMA PI YOU ARE SPECIAL
AND YOU HAVE SPECIAL ADVANTAGES:

- Your National Alumni Dues are paid for life.
- You receive The DELTASIG Magazine for life.
- You receive your gold embossed Life Membership Certificate and Life Membership Identification Card.
- Your name is added to the Life Membership Roll of Loyalty.
- You have helped to endow permanently your Fraternity.

TO JOIN THIS SPECIAL GROUP—

Send your check for \$75.00 to The Central Office, Delta Sigma Pi, 330 South Campus Avenue, Oxford, Ohio 45056. If you qualify for one of the special discounts, make your check for the appropriate amount:

Alumni - \$75.00

All Undergraduates - (20% Discount - \$60.00 Total Cost)

Undergraduates who are members of Honor Roll or Honorable Mention Chapters receive an additional 10% Discount (30% Total Discount - \$52.50 Total Cost) if the purchase is begun prior to December 31, following the CEI achievement.

Payment—May be made in full single payment, or in consecutive monthly payments until the full amount is paid. The Central Office will send you an invoice for the remaining balance each time a payment is received. We will appreciate your keeping us apprised of your current address.

INVEST IN DELTA SIGMA PI
AND ASSURE YOUR LIFE PARTICIPATION

CUT AND MAIL TO: Delta Sigma Pi, 330 South Campus Avenue, Oxford, Ohio 45056

DELTA SIGMA PI APPLICATION FOR LIFE MEMBERSHIP
