Statement of Platform: My goals would be to continue to help the Region become more cohesive as a whole, to assist each chapter in achieving and maintaining chapter excellence, to encourage attendance and participation in Fraternal events such as LEAD and Grand Chapter, and to actively participate in fraternity-wide programs such as Chapter Management, the Leadership Foundation, and in the local communities. Also, another goal would be to continue to help educate collegiate and alumni brothers as best as I could on how they can best serve the fraternity individually, collectively as a chapter, and even nationally- especially after graduation. I want to see each chapter set attainable goals, and strive to make a difference on the campuses and in their communities! Lastly, I want to continue making a difference in the Capital region by creating lasting relationships with brothers and being present to their chapter for any needs that might arise- being present is the key to forming and maintaining any partnership, and I want each brother to know that they can depend on their RVP to help in every way that I'm able!

National Activities or Responsibilities Held (include dates): Central Regional Vice President 2015-Present (excluding a few months in 2017 while interim election was taking place)

Statement of Platform: Looking over my past responses to this question, I see that my goals have not changed very much over the years.

I still believe that working towards a better feeling of inclusion is very important for the Central Region. I held a regional conference in 2018, and I believe that was a big step in the right direction. I plan to increase my goal for national event attendance this biennium as well.

Chapter operations is still an area of concern for the region, so I plan to work with the chapters and their District Directors to ensure that every chapter meets or exceeds Accredited Chapter both years of the biennium.

My final goal for this biennium is to attend more valuable events at each chapter. While I feel attending initiation is a sufficient visit, I would much rather be able to attend or host an event where I can truly interact with and help the chapter rather than just "make an appearance".

I have truly enjoyed giving back to the Central Region over these past four years, and I look forward to continue that service during the 2019-2021 biennium.

District Director, Pi Tau Chapter, October 2016 - February 2018

Statement of Platform: I am grateful to have been elected as the interim Huron Regional Vice President a year and a half ago. In that time, I have learned so much and I feel that I have been able to support the Huron Region during that time. With that said, I am nowhere near done yet! Here are my goals:

2. Encourage collaboration across collegiate chapters to increase participation in co-sponsored events.
3. Utilize my own experiences and National Fraternity resources to educate Brothers on best-practices, solutions to common problems, and opportunities to stay involved as an alumni.
4. Use the first three strategies to develop alumni chapters, colonize new chapters, and increase Huron region participation overall.

Name of Employer or Business: Tropical Smoothie Cafe

Job Title: Guest Experience Manager

Chapter Name and School: Nu Pi/Kennesaw State University

Date Of Initiation: 5/2/1998

Email Address: SoutheasternRVP@dsp.org

Graduation Year: 1999

Collegiate Chapter Offices or Responsibilities Held: Pledge Class President; Senior Vice President; Ritual Team

Brief Description of Employment Responsibilities: I am responsible for defining, implementing, and measuring the Tropical Smoothie Cafe guest experience. This includes leveraging strategic insights and detailed analytics using guest surveys, contact center, and social channels. As strengths and gaps are identified, I work with the training team to create procedures and training elements to enhance and improve brand hospitality standards and crew hospitality training. I also work with field business leaders to ensure guest complaints are addressed and appropriate adjustments in cafe level procedures are implemented.

Additionally, I manage outside vendors including a guest contact center, to ensure they are meeting defined service level agreements (SLAs). Other responsibilities include the design and monitoring of guest complaint escalation requirements, as well as facilitating the connectivity between contact center, website, mobile app, and other appropriate business partners to ensure guests experience seamless, uniform communication with the brand.

Finally, I encourage greater cafe participation in guest surveys so that we can collect as much guest experience data as possible (so we can do all the stuff I mentioned above). Unfortunately, I do not make smoothies (but I do love sipping them).

Alumni Chapter Offices or Responsibilities Held (include dates): Vice President Membership (2002-2004); Relay for Life Chair (2010-2013)

Alumni Chapter Affiliation: Atlanta

National Activities or Responsibilities Held (include dates): Regional Vice President (2017-Present); District Director (2011-2017); Frequent LEAD School presenter specializing in "Ritual the Right Way" and "Risk Management" (because those are the fun ones)

Statement of Platform: I still believe the biggest challenges facing the chapters of the Southeastern Region can be successfully overcome with an increased focus on training, transition, and teamwork.

Training: Our fraternity is doing a great job of creating training opportunities and materials, but they continue to be underutilized because chapters do not know what is available. I will continue to work with District Directors to identify which resources chapters and DDs need and equip

them with the knowledge and skills to be successful.

Transition: Brothers are often unprepared for transitioning into their new roles as officers, committee members, or even the transition from college life to alumni life. I will continue to coach chapters to adopt a committee structure in order to fortify "the bench" of leaders and encourage alumni chapters to include and welcome collegiate members to their events and activities.

Teamwork: My third goal is to continue the work I've already done to provide opportunities for chapters and officers to collaborate with a focus on partnerships between collegiate and alumni brothers and chapters. During my first term, I created tools for officers to collaborate (like officer slack channels), and I look forward to assisting officers in adopting these tools.

Statement of Platform: My first term as Southwestern RVP primarily focused on increasing communication and collaboration between all chapters within the region, and I believe that goal is well on its way to being achieved. However, while speaking with chapters and making observations the last two years, three things stood out as areas we can all improve upon.

My focus areas for the next biennium revolve around membership education and operational efficiency, similar to the strategic priorities we set nationally in 2016.

Firstly, I plan to work with my District Directors on plans to better engage and educate pledges on best practices, setting them up to be excellent future leaders of their chapters.

Secondly, I plan to create a way to standardize the officer transitions between exec teams, minimizing information loss and increasing the level of efficiency for incoming exec teams.

Finally, and most importantly, I plan to have a renewed focus on the importance and meaning of our ritual. Areas of opportunity exist to instill the importance of our ritual to our new members, again setting up the path to success for the future leaders of our organization.

I look forward to speaking more about these goals at future events.
