Risk: Manage It, Avoid It! with Jodi Schoh (FO)*Milwaukee 1-2*

There is definitely a lot of "risk" to talk about in today's world. The area of risk management we have direct control over is our personal decision-making. We are influenced by our environment and the people we surround ourselves with, but we ultimately make the final decision in all that we do.

In addition there are areas of risk where we have influence and indirect control. For example: how we confront others, standing up for what we know is right, and understanding policies and procedures. The personal direct and indirect control we have regarding risk is something we need to explore and understand. Risk management is a responsibility of each of us even beyond the chapter setting.
