**To The Board Of Directors Of The International Fraternity Of  
Delta Sigma Pi**

Dear Board of Directors,

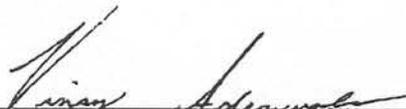

We, the members of the Beta Beta Beta Colony of The University of Texas at Austin, do hereby petition for a Chapter Charter of the International Fraternity of Delta Sigma Pi.

The Beta Beta Beta Colony was organized in the Spring of 1999 for the sole purpose of reestablishing Delta Sigma Pi to The University of Texas at Austin. We strive to establish the ideas, maintain the values, and uphold the integrity of the International Fraternity of Delta Sigma Pi. Moreover, we dedicate ourselves to honor the name of Delta Sigma Pi at The University of Texas at Austin as a Fraternity of permanence, respect, and prestige. This is evident by our high standards of professionalism, display of enthusiasm and commitment, involvement in the community, and our strong spirit of fellowship.

We promise to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in its Bylaws and Constitution in the pursuance of a Chapter Charter and further association with the Fraternity.

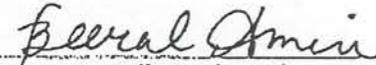

Thankfully,

The members of the Beta Beta Beta Colony:

To Whom It May Concern:

The Beta Beta Beta colony of Delta Sigma Pi has functioned effectively for a full year here at the University. In the course of this year, they have successfully played an active role at the Texas School of Business. I have maintained contact with the officers of the colony and have met with a representative from the Central Office. I am familiar with the former Beta Kappa chapter at the University and am positive that this group will restore the good name of Delta Sigma Pi to the University.

Therefore, it is with great confidence that I recommend the Beta Beta Beta colony of Delta Sigma Pi at the University of Texas at Austin become a full-fledged chapter.

Cordially,

Subject: Recommendation for Delta Sigma Pi Chapter Status

Dear Board of Directors:

As the faculty advisor to the petitioning colony, it is my privilege to offer my unqualified recommendation in support of full Delta Sigma Pi Chapter Status to the Beta Beta Beta Colony at our College of Business.

The members of Beta Beta Beta Colony have, indeed, worked very hard during this past year to re-establish the presence of the Delta Sigma Pi organization on campus. Their perseverance and commitment to Delta Sigma Pi has helped them overcome initial challenges and allowed them to focus on their goals.

In connection with their pursuit of full chapter status, the Colony members have developed good relations with the alumni in Austin as well as with the chapter at St. Edward's University. The colony's presence is quite evident through their purple flyers posted around campus and the colony T-shirts they wear with such pride. Their energy and their enthusiastic participation in numerous social, professional, and extracurricular volunteer activities has been truly exceptional.

I am confident that all the hard work the members have put forth as a colony will definitely ensure the longevity and success of Delta Sigma Pi at the University of Texas at Austin for many years to come. The addition of the fraternity will, without doubt, be a very valuable asset to our College of Business Administration.

In view of the foregoing, I offer my full support for the grant of full Delta Sigma Pi chapter status to the Beta Beta Beta Colony.

Sincerely,

  
Jorge A. Maldonado  
Faculty Advisor  
Beta Beta Beta Colony

Delta Sigma Pi  
Board of Directors  
330 South Campus Ave.  
P.O. Box 230  
Oxford, Ohio 45056-0230

Dear Board of Directors:

I am pleased to provide this recommendation for the Beta Beta Beta members of The University of Texas at Austin who are petitioning for a Charter with Delta Sigma Pi.

As a former Assistant Dean to the College of Business at The University of Texas at Austin, I had the chance to work with a number of organizations and to understand the hard work, effort, and dedication that students put forth to form and maintain a worthwhile organization. The Beta Beta Beta colony of Delta Sigma Pi is certainly an organization that has established itself as an active organization at the university and is worthwhile of national affiliation with The International Fraternity of Delta Sigma Pi. They have more than proved their ability to provide a wide range of services to its members, the university, as well as the community around them.

I am impressed with what Beta Beta Beta has done in the past year. I believe it would be a great asset to the fraternity if Beta Beta Beta Colony were to become a chapter in Delta Sigma Pi.

Thank you for your consideration.

Respectfully,

A handwritten signature in black ink that reads "Herbert A. Miller, Jr." with a stylized flourish at the end.

Herbert A. Miller, Jr.,  
Former Assistant Dean to the College of Business  
Former Director of Student Affairs and External Corporate Relations

The Board of Directors  
International Fraternity of Delta Sigma Pi  
330 South Campus Avenue  
P.O. Box 230  
Oxford, OH 45056-0230

Dear Brothers:

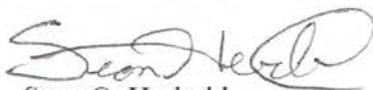

It is with great enthusiasm that I write in favor of the petition submitted by the Beta Beta Beta Colony at The University of Texas in Austin, Texas. My involvement with the chapter over the past year has given me first hand knowledge and interaction with them and it would be an honor to call them brothers.

During the past year, I have had the opportunity to interact with the colony on several occasions. I was a professional speaker and have attended their meetings. They sent a representative to Grand Chapter Congress, sent a delegation to the LEAD School in Austin and, have had a presence at almost every Capital of Texas Alumni Chapter event or meeting since their start-up date. Additionally, they have taken much initiative to be involved with both the local collegiate and alumni chapters. Beyond the inter-chapter involvement, this colony is very active in many other areas.

The colony has done a fantastic job of meeting the CEI criteria in many aspects. Their professional programs have been strong. They have taken tours, sponsored speakers and, attended many professional development events. They have also excelled in their intra-colony communication. This group is very adept at planning and following through with all the detail of professional and social events and business meetings. Another reflection of their success is their financial status. The colony has done a fantastic job of raising money. They have done many successful fundraisers and sought internal and external sponsorship. Yet another area of success this chapter has is its strong academic commitment. Not only are they strong as a organization but also, they are also strong as individual students. The business program at The University of Texas is one of the best in the nation and thus very rigorous. The members spend a great deal of their time studying and several members of the colony are part of the very distinguished Business Honors Program.

Again, I offer my full support to the petition presented to you, ask that you duly consider their many accomplishments and, vote in favor of their petition so the International Fraternity of Delta Sigma Pi will again have a strong presence at The University of Texas.

Fraternally,

Sean O. Herbold  
Director, Gulf Western Region  
International Fraternity of Delta Sigma Pi

Dear Brothers:

The chartering of a new chapter or reactivation of a chapter is a very special event for every Deltasig. I am excited and proud to recommend the Beta Beta Beta colony at the University of Texas at Austin be reactivated as the Beta Kappa chapter of Delta Sigma Pi.

In my five years of service as a national officer of Delta Sigma Pi, I have worked with many different types of chapters. The Beta Beta Beta colony by far has been the most dedicated group I have ever worked with. The colony has a strong membership that over the past year has proven again and again how they would be nothing but an asset if asked to become Brothers of Delta Sigma Pi. Their "can-do" attitude and their focus to obtain the goal of becoming a chapter has been astounding! Every action I advised them to take was not only accomplished quickly and accurately, but above and beyond what was expected. The colony even has a good working relationship with the Alpha Kappa Psi chapter on campus. They view each other not as adversaries, but two business groups that complement each other!

It has been an honor to work with such a find group of students. They have needed very little direction from me in achieving their charter requirements. The Beta Beta Beta colony would be nothing but an asset to Delta Sigma Pi if allowed to reactivate the Beta Kappa chapter.

Sincerely,

Allison M. Visconti

Delta Sigma Pi  
Board of Directors  
330 South Campus Ave.  
P.O. Box 230  
Oxford, Ohio 45056-0230

Dear Board of Directors:

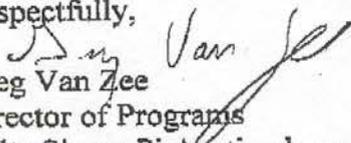

I would like to extend my support for the University of Texas School of Business TriBeta colony that is petitioning for a Charter with Delta Sigma Pi.

These members have worked very diligently to get the colony up to a level that would make them Delta Sigma Pi chapter material. The colony has been very active with the other Delta Sigma Pi chapters such as the Austin Delta Sigma Pi alumni chapter and the St. Edwards chapter. The colony is a close group and very outgoing and would be an asset to the Delta Sigma Pi family. The enthusiasm and commitment of this group of people is something that is a pre-requisite for Delta Sigma Pi and will prove to be very helpful to them as they enter the business world.

The colony has had a wonderful response from the campus. The University of Texas has not had a Delta Sigma Pi chapter in a while and this prospective colony would a good way to rewrite the books for UT and Delta Sigma Pi.

Thank you for your consideration.

Respectfully,

  
Greg Van Zee

Director of Programs

Delta Sigma Pi Austin alumni chapter

Delta Sigma Pi  
Board of Directors  
330 South Campus Ave.  
P.O. Box 230  
Oxford, Ohio 45056-0230

Dear Board of Directors:

The Beta Beta Beta Colony at The University of Texas at Austin has asked me to provide a recommendation for their Charter to become a Chapter with Delta Sigma Pi. It is with my pleasure to have the opportunity to illustrate my support for this colony.

Over the past year, the Beta Beta Beta colony has perpetually requested me to visit their university as a professional speaker on behalf of Ernst & Young and as an alum Brother from the Kappa Lambda Chapter of Delta Sigma Pi. Although I have not ceased the opportunity to visit the colony, they have consistently updated me with their events and kept their invitation for my visit. I have been made aware of the numerous activities the colony has hosted and believe the members are highly motivated and enthusiastic.

Based on my experiences as a Brother of Delta Sigma Pi, I believe the Beta Beta Beta Charter class details all the necessary characteristics needed to form a strong brotherhood within our great fraternity. The Beta Beta Beta Colony is well deserving and would be an asset to Delta Sigma Pi.

Respectfully,

Emily Yee  
Kappa Lambda 506

## History of The University of Texas at Austin

The goal of The University of Texas is to enrich the public through technology, innovation, research, scholarship, teaching and service. With the numerous programs, degrees and services offered at the University, we are able to touch the lives of thousands every year.

Founded in 1883 on 40 acres of land near the state capital The University of Texas at Austin, the main UT campus, now encompasses more than 375 acres across the greater Austin area. Under The University of Texas System, the University eventually grew to its present 15 component institutions across the state. With its 15 component institutions across the state of Texas, the influence of The University of Texas System reaches well beyond the main campus at Austin. The 307 foot tall UT-Austin Tower, designed by Paul Cret of Philadelphia and completed in 1937, stands in the heart of campus as a symbol of the scholarship and spirit of UT-Austin.

UT-Austin has an annual enrollment of approximately 49,000 students in the various colleges and programs. Approximately 25 percent of which are enrolled in graduate and professional programs throughout the various colleges, giving UT-Austin the distinction of awarding the greatest number of doctorate degrees of any university in the nation. Home to students from every county in Texas, all 50 states and about 120 foreign countries, UT-Austin also offers a culturally diverse and inviting environment to any student. Then University of Texas at Austin is the largest university in the nation.

The University of Texas at Austin has 15 colleges and schools that offer over 200 programs through more than 6,000 courses each semester. Of the first-time freshmen students applied in 1999, 59.5% were admitted, of which 37.2% enrolled in the fall semester. Amongst those enrolled in 1999, 50% were in the top 10% of their high school graduating class, and 87% were in the top 25% of their graduating class. More of the enrollment statistics are as follows:

Summer & Fall 1999 entering freshmen	
SAT Quartile	SAT Total Score Range
top quarter	1310 to 1600
2nd quarter	1210 to 1300
3rd quarter	1110 to 1200
bottom quarter	400 to 1110

*View of Tower from East Mall*

*Map of The University of Texas at Austin campus*

**SCHOOL OF BUSINESS ADMINISTRATION  
UNIVERSITY OF TEXAS**

*History*

The University of Texas' School of Business Administration was founded in 1922 and has been awarding both Bachelor of Business Administration (BBA) and Master of Business Administration (MBA) degrees. In 1930, the School was authorized to grant the Doctor of Philosophy Degree (Ph.D.) in business, and in 1948, the Master of Professional Accounting (MPA) degree was established. In 1955, the school instituted its first executive development programs, and now offers a full array of custom-designed, company-specific, and public programs. The Professional Program in Accounting (PPA) degree, where students earn both the BBA and the MPA in five years of study was added to the School's repertoire in 1985.

*Enrollment*

The Business College has enrolled 4,077 Undergraduate students, 1,250 Graduate students, and 126 Doctoral students. Of the Undergraduate students, there are 601 Freshmen, 823 Sophomores, 1051 Juniors, 1,602 Seniors.

Majors and degree plans include Accounting, Professional Program in Accounting, Business Honors Program, Engineering Route to Business, Finance, International Business, Management, Management Information Systems, and Marketing. Undergraduate student categorization by major is shown below:

<b>Major</b>	<b>Undergraduates Enrolled</b>
Accounting	698
Professional Program in Accounting	296
Business Honors Program	349
Engineering Route to Business	40
Finance	715
Management	124
Management Information Systems	655
Marketing ( <i>includes International Business</i> )	409
Unspecified	2832

## *Degree Offerings*

### **Accounting**

A BBA in Accounting prepares students for a wide variety of professional opportunities, including positions in public and corporate accounting for businesses and not-for-profit organizations. Coursework deals with:

- Collection, recording, summarizing and interpretation of financial data
- Uses of accounting data by management
- Uses of accounting procedures in all phases of financial matters
- Uses of computers and other electronic means of handling accounting data.

### **Professional Program in Accounting**

The Professional Program in Accounting is a five-year program leading to both the BBA degree and the Master in Professional Accounting (MPA) degree. In this special honors-type program, students may choose a generalist "track" or one of the following areas of specialization:

- Auditing and Financial Reporting
- Taxation
- Information Management
- Management Accounting and Control

### **Business Honors Program**

The Business Honors Program is both a major and a program. It provides an intellectual challenge for serious and accomplished students and preparation for immediate entry into a challenging business career or graduate studies. Honors students may design a general program of study or concentrate on one of the major programs in business. Students take ten core business courses in special sections designed to cover material comparable to first-year graduate courses.

Most Honors students choose another business field as a second major. This allows them to pursue any career path that a graduate from that major field could pursue. A wide range of job opportunities are available for the Business Honors Program graduate, with many in investment banking and strategic consulting.

### **Engineering Route to Business**

The Engineering Route to the Bachelor of Business Administration provides a sound foundation in mathematics, science, and business, qualifying the student for more advanced study in the management of technological, engineering, and scientific enterprises. In addition to specific required business and engineering courses, the program contains two block options, designed to help students develop greater competence in particular aspects of engineering and business:

- A four-course engineering block option and
- A three-course business block option.

The combination of engineering and business prepares a graduate for sales and management positions in high-tech and engineering companies, with manufacturers, in banking, and as consultants.

## **Finance**

In the market economy, a variety of financial institutions are instrumental in the orderly processes of production, distribution, and consumption. The Finance program offers students an opportunity to study the finance function in the business firm, the financial system, and the financial markets as well as the roles of commercial banks, investment and security firms, and other financial institutions.

Finance is a basic necessity for any business operation. Job duties generally fall in two categories:

- Evaluation of financial assets and
- Financial planning and analysis

Positions are located in the commercial banking industry, the securities industry, and in large corporations and small businesses.

## **International Business**

The global economy has become a reality, and the International Business major has been developed for students who are actively seeking to focus their education on the global dimension of business. The International Business major has the objective of providing students with a solid basic business education, a knowledge of the international dimensions of business, specialization in one major world region and an associated language, and direct overseas experience. The educational experience is designed to prepare students for positions in business, government, and international agencies in the fields of industrial development, international trade, and global business operations and planning.

International Business graduates will often start their careers in the domestic operations of an organization. Overseas assignments usually come after a few years with a company, although they may come faster if the student possesses specialized skills (e.g., language) needed by the company in its foreign operations. Alternatively, many opportunities exist domestically to advance to positions of coordinating global activities.

## **Management**

The major objective of the Management program is to train broadly competent administrators for service in a wide variety of organizations – public or private, product- or service-oriented, profit or not-for-profit. Students acquire knowledge about the management of human and physical resources and skills useful in the management of any organization. In addition, the degree program in Management introduces the student to the application of the acquired knowledge and skills to such areas as personnel/human resource management, industrial relations, production management, and small business.

## **Management Information Systems**

The Management Information Systems major prepares a professional who can fully appreciate the complexity of information system design. The graduate has both the technical and the managerial knowledge to solve fundamental business problems in such areas as inventory control, production, forecasting, finance, or cost accounting.

Courses provide a foundation in the integration of hardware, software, and business functional analysis for business systems. The program in MIS trains students to develop information systems for organizational needs in all types of business.

**Marketing**

The field of Marketing includes a variety of related business activities. While individual occupations within these diverse areas may be specialized, decisions in any one of them require a broad understanding of the marketing process and an ability to analyze the factors that influence it. The marketing process begins with the identification and design of products or services which will satisfy customer needs profitably. It continues with the packaging, pricing, advertising, distribution, sales promotion, and servicing of the firms' offerings.

The major in Marketing is designed as a comprehensive study of all these activities, providing both the common background required for any marketing career and an opportunity for specialization based on the student's interests.

## History of the Petitioning Group

The Beta Kappa chapter of Delta Sigma Pi was chartered at The University of Texas at Austin in 1930. For 60 years the Beta Kappa chapter operated successfully at The University of Texas at Austin. However, in the early 1990s the chapter closed its doors. In the spring of 1999, a group of highly motivated students created Beta Beta Beta in hopes of re-establishing Delta Sigma Pi to The University of Texas at Austin.

In a period of less than a year, the Beta Beta Beta Colony had established itself as a highly involved, motivated, enthusiastic colony with the ability to foster the study of business, to encourage scholarship, to increase community and university involvement, and to establish a sense of fellowship. Each member has dedicated their time to the success of the Beta Beta Beta Colony. Over the year, Beta Beta Beta has hosted, participated, and administered numerous events ranging from professional events, community service, social activities, and many more. This involvement has helped the colony develop into one of the most active organizations on campus. The Delta Sigma Pi name has returned to The University of Texas at Austin as a Fraternity of honor, prestige, and permanence and the Beta Beta Beta Colony hopes to continue this existence for many years to come.

Highlighted Activities of the Colony Include:

### I: Professional Activities

- 1) Guest Speakers: (Tivoli, Dell, Shops.com, Northwestern Mutual Life, Travis County Judge, Ford, JC Penny, American Express)
- 2) Sponsorship: (CSO Etiquette Dinner, Resume Workshop, Lunch with Dean Allert, Internship Workshop, Magic Bean Stalk Panel)
- 3) Office Visits: (EDS, JC Penny, Trilogy)
- 4) Resume Book

### II: Social Activities

- 1) IM Games: (Football, Volleyball, Basketball, Softball)
- 2) Outings: (Camping, Oklahoma vs. UT weekend)
- 3) Gatherings and Others: (Christmas Dinner, Dinner Socials, Superbowl Party, Scavenger Hunt, Pot Luck Dinner, Party at Paradox with Page Parks Modeling, Bowling)

### III: Community Service Activities

- 1) Canned Food Drive
- 2) Salvation Army Angel Tree Project
- 3) Tsu Chi Elderly Home Bingo
- 4) Project 2000 (Clean up the city)
- 5) Angel Tree Donation

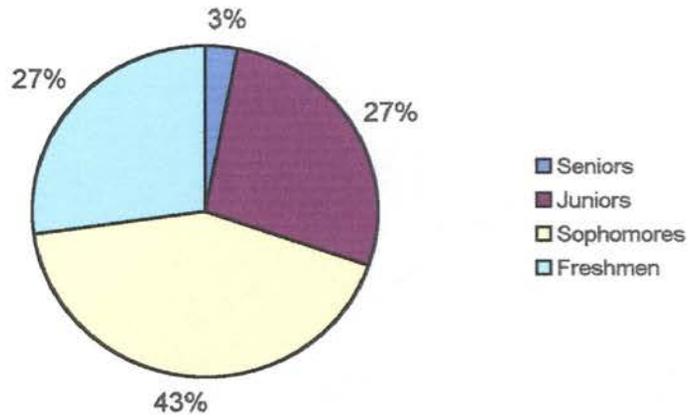

### IV: National/Regional Activities

- 1) Grand Chapter Congress (August 1999)
- 2) LEAD Workshop

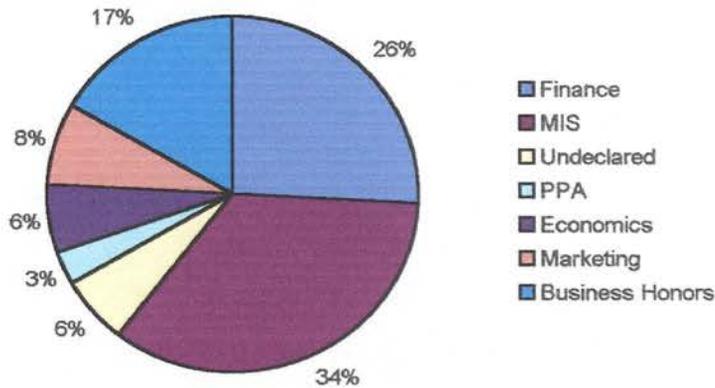

*NOTE\*\*\* This list is only a highlight of the activities and does not contain all the events of the Beta Beta Beta Colony*
