TO THE BOARD OF DIRECTORS OF THE INTERNATIONAL FRATERNITY DELTA SIGMA PI

Dear Board of Directors,

We, the members of the Gamma Mu Colony of Tulane University, do hereby petition for a Chapter Charter of the International Fraternity of Delta Sigma Pi. The Gamma Mu Colony was established exclusively for the purpose of association of Delta Sigma Pi. We continue to maintain the ideas for the International Fraternity of Delta Sigma Pi after which the colony has styled itself. Proof includes our utmost level of professionalism, display of enthusiasm of commitment, community involvement, and strong brotherhood.

We vow to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in the Bylaws in the pursuance of a Chapter Charter and continuing association with the Fraternity.

Thankfully,

The members of the Gamma Mu Colony

Our signatures follow:

Brothers,

As the District Director for the Delta Sigma Pi Colony at Tulane, I would like to recommend the colony for installation. Since their first informational meeting last year, I have seen this group of students grow from a small unorganized group of interested people to the large very organized group they are today. Through their civic, professional, and fundraising events, they have shown that they can function as a chapter of Delta Sigma Pi. They have been able to grow the colony and Tulane's awareness of their presence on campus. They have also learned great lessons in teamwork. As a small group, it is sometimes hard to accomplish tasks that are easier for larger groups; they have been able to reach out to other more established organizations to assist them with reaching goals such as fundraising. It is amazing to watch this very self-motivated group of students find a way to make anything happen.

I truly believe that this group will promote our purpose on Tulane's campus and they will be a great asset to our brotherhood.

Fraternally,

A handwritten signature in black ink that reads "Alexis Carville". The signature is written in a cursive, slightly slanted style.

Brother Alexis Carville

Susan S. Lackey
Gulf South Regional Vice President
The International Fraternity of Delta Sigma Pi
GulfSouthRVP@dspnet.org

February 25, 2015

Delta Sigma Pi Central Office
330 South Campus Avenue
Oxford, OH 45056

To: Onuka Ibe, Grand President
Board of Directors

In slightly over one year, Tulane Colony has shown the desire and initiative to be an integral part of the International Fraternity of Delta Sigma Pi. After their first informational meeting, they recruited and doubled in size for the second meeting and eagerly signed a letter of intent. Purely through self-motivation and without additional coaxing, they elected officers, established meeting days/times and began to tackle the checklist towards petitioning for a charter.

Tulane Colony follows and embraces the ideals and values of Delta Sigma Pi. With the knowledge that there was formerly Gamma Mu Chapter on Tulane's campus, determination and a healthy dose of pride propelled them toward success. The Colony has formed a strong bond, and each member is excited and anxious to be considered for potential brotherhood in the Delta Sigma Pi nationwide network.

Tulane Colony is well deserving of a charter, as they have worked tirelessly to carve their niche and be a driving and powerful force in the business community on campus. They focus on all of the values of being a true brother and are very conscious of diversity, as they look to ensure acceptance and representation.

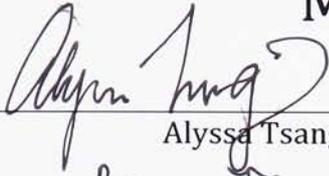

For all these reasons, and many more, it is with great pride and admiration that I wholeheartedly recommend Tulane Colony be granted a charter and be accepted for reinstatement as the Gamma Mu Chapter of Delta Sigma Pi at Tulane University, New Orleans, LA.

Fraternally,

Susan Lackey
Gulf South Regional Vice President

History of Tulane University

Tulane University was founded in 1834 as the Medical College of Louisiana. Then in 1837, the Medical College became part of the University of Louisiana, a public institution.

In 1884, The University of Louisiana became private institution Tulane University after Paul Tulane donated over one million dollars to the university. Then in 1886, the H. Sophie Newcomb Memorial College was established as a college for women in the university system. Today, Newcomb-Tulane College enrolls all undergraduate students.

In 2005, Hurricane Katrina hit New Orleans, which greatly impacted Tulane University. After the storm, the Tulane community worked hard to bring the university back and to make it stronger than it was before Katrina. Tulane's experience with Hurricane Katrina shaped many of Tulane's programs, such as the focus on community service in the undergraduate education.

Tulane University offers degrees in the schools of liberal arts, science and engineering, business, architecture, law, public health and tropical medicine, social work, and medicine.

Memberships and Accreditation

Tulane University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees at the associate, baccalaureate, masters, doctorate, and professional level. The Southern Association of Colleges and Schools Commission on Colleges is the recognized regional accrediting body in the eleven U.S. southern states. The State Department of Education of Louisiana approves Tulane's teacher preparation programs and graduate and professional schools throughout the country accept its degrees and credits. Tulane's accreditation was last reaffirmed by SACSCOC in 2011.

Tulane University holds membership in the Association of American Universities, and was elected in 1958. Additionally, the Carnegie Foundation designated Tulane as a research university with very high research activity. Tulane's A.B. Freeman School of Business was a founding member of the Association of Advance Collegiate Schools of Business, the premier accrediting body for collegiate schools of business.

Tulane University Facts and Statistics

OVERVIEW

Tulane University, founded in 1834, is located in New Orleans, Louisiana. As one of the nation's most prestigious educational and research institutions, Tulane offers a wide variety of degrees, emphasizes the importance of community-building initiatives, and embraces New Orleans' rich culture and traditions.

OFFERINGS

Tulane University offers 11 academic divisions, over 70 subject areas offered by five undergraduate schools, research-oriented graduate programs, and professional degrees at both the master's and doctoral level.

ENROLLMENT 2014-2015

- Undergraduate: 8,353 students
- Graduate and Professional: 5,178 students
- Total: 13,531 students with 7,632 females and 5,899 males

UPTOWN CAMPUS

- 110 acres in New Orleans
- 92 buildings

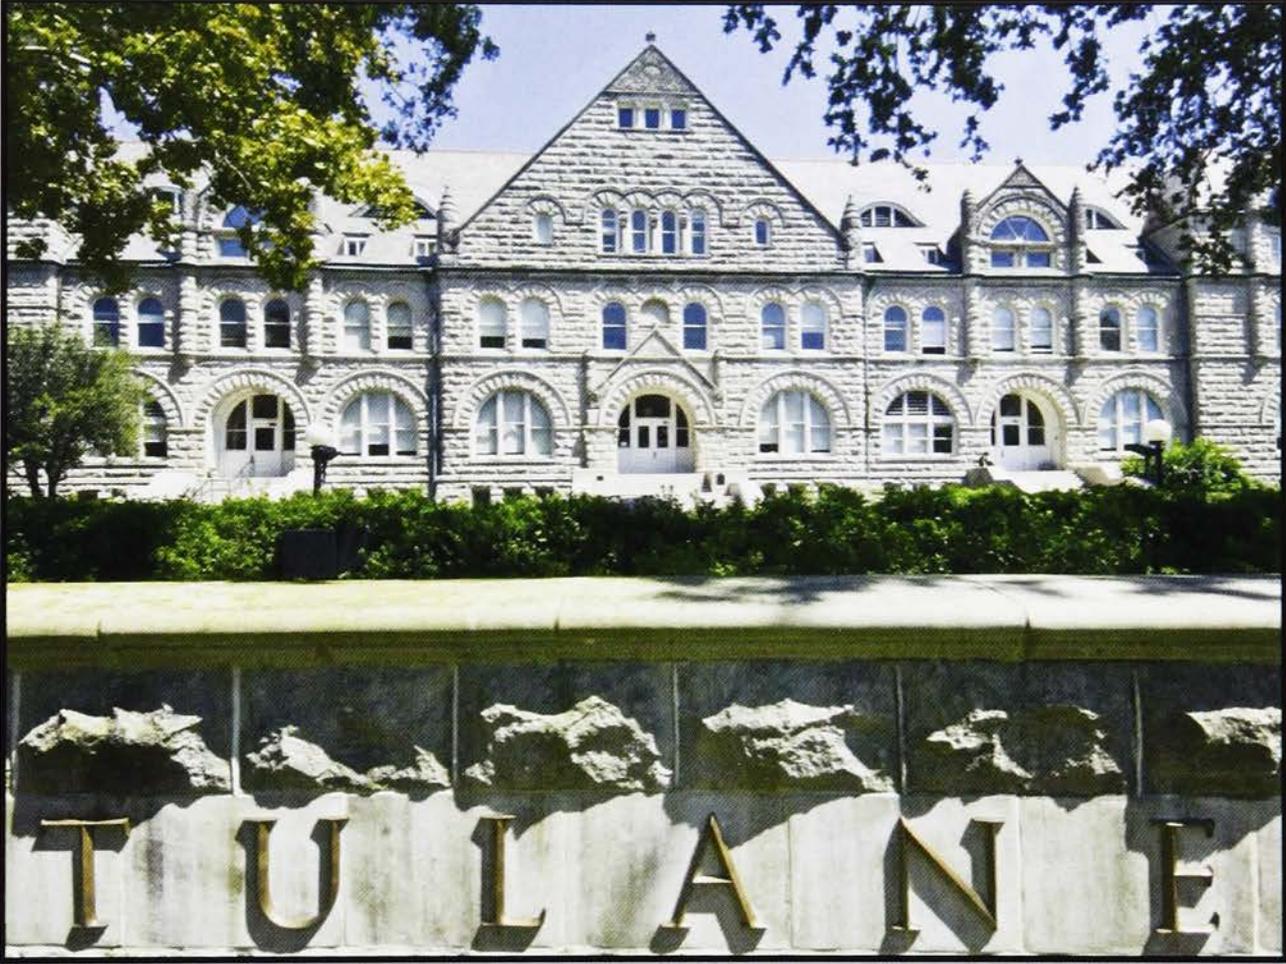

LIBRARIES

- The main Howard-Tilton Memorial Library houses the Latin American Library and the Maxwell Music Library. The Rudolph Matas Library is located in the School of Medicine.
- The Special Collections Division in Jones Hall includes the Hogan Jazz Archive, Southeastern Architectural Archive, University Archives, Rare Books and Manuscripts and the Louisiana Collection.
- Other libraries include architecture, botany, business, law, mathematics, natural history, primate research, race relations and ethnic history and women's studies.

ATHLETICS

- NCAA Division I-Bowl
- Member of American Athletic Conference
- Nickname: Green Wave
- Mascot: Riptide, the pelican
- Colors: Green and blue

History of A.B. Freeman School of Business

In 1914, Tulane University established its business school, originally called the College of Commerce and Business Administration. The school was established at the urging of the New Orleans Association of Commerce, an organization consisting of local business leaders who were dedicated to improving New Orleans civic, industrial and commercial welfare. Convinced that the future growth and success of the city depended on the establishment of a premier business institution, 200 members of the association contracted with Tulane to back the cost of establishing a new business school at the university. Following this, Morton A. Aldrich, a professor of economics and major contributor of this effort was chosen as the college's first dean.

Two years later in 1916, Tulane University became one of sixteen founding members of the Association to Advance Collegiate Schools of Business (AACSB), an association that serves as the nation's accrediting body of business schools. In 1940, the school began offering the Masters of Business Administration degree program, and two years later moved from Gibson Hall to its own dedicated building, Norman Mayer Memorial Hall. Reflecting a nationwide shift towards graduate education programs, the College of Commerce was temporarily discontinued in 1963, only to be reinstated in 1978. Reflecting this change, the college established a doctoral program in business beginning in 1966, eventually introducing an Executive MBA Program in 1983.

In 1984, the business school was named in honor of A.B. Freeman, a New Orleans businessman, philanthropist, and former chairman of the Louisiana Coca-Cola Bottling Co, in recognition of a gift from the Freeman family. Two years later, the Freeman Business School relocated from Norman Mayer Memorial Hall to Goldring/Woldenberg Hall, a newly built 83,000 square foot building located in the center of Tulane's campus.

In the early 1990's, the Freeman School began its global expansion, by introducing Executive MBA program in Chile, China, and Mexico as well as PhD programs in Colombia, Mexico and Venezuela. The Freeman School continued to expand its programs by introducing a Master of Accounting program in 1993, a Master of Finance program in 2003, and a Master of Management Energy program in 2011. Additionally, The Freeman School opened a satellite campus in Houston Texas, where they began offering additional MBA programs.

In November 2003, The Freeman School opened its second building, Goldring/Woldenberg II, featuring state-of-the-art classrooms and an electronic trading room. This building now serves as the home of Freeman School graduate and professional programs. Today the Freeman School is a leading, internationally recognized business school with more than 2,500 students in programs across the world.

A.B. Freeman School of Business: Fact and Statistics

ENROLLMENT

- Total Enrollment: 2,685 students
- Undergraduate: 1,865 students
- Graduate: 820 students

DEGREE PROGRAMS

- Bachelor of Science in Management (BSM)
- Master of Business Administration (MBA)
- Master of Accounting (MACCT)
- Master of Finance (MFIN)
- Master of Management (MM)
- Master of Management in Energy (MME)
- Master of Global Management (MGM)
- Doctor of Philosophy (PhD)

FACULTY

- Full-Time Faculty: 84
- Tenured and Tenure Track: 48
- Professors of Practice and Other Non-Tenured/Tenure Track: 23
- Visiting Professors and Lecturers: 13

FACILITIES

- Undergraduate Programs and Administration: Goldring/Woldenberg Hall I (1986) - 75,000 square feet
- Graduate and Executive Programs: Goldring/Woldenberg Hall II (2003) - 56,000 square feet

History of the Gamma Mu Colony of Delta Sigma Pi

The Gamma Mu colony of Delta Sigma Pi began with initial contact by Dale Clark, Director of Chapter Expansion, and Susan Lackey, Gulf South Regional Vice President. They sent out an email to Tulane University Business and Economics majors looking for people to start a new chapter of Delta Sigma Pi. Danielle Levy and Gabby Rigol attended a meeting on this topic in the spring of 2014 and stayed in contact with both Dale and Susan. They begin laying the framework for what will one day become a chapter of Delta Sigma Pi.

Danielle and Gabby held several meetings to recruit people to this new colony, and once there was enough interest, they held interviews to fill the first executive board later that spring. Since then there has been a couple changes, but the executive board now consists of Benjamin Froman, Morgan Lopez, Elizabeth Byrom, Ryan Zukoff, Emma Dedman, Brandon Purcell, Jordan Bloom, Cam Perron, and Brian Hackel.

When school started again in the fall, the executive board started working together to meet the requirements for colonization. Over the next two semesters, they would hold weekly executive board meetings and general meetings. Also, the new forming colony would have community service, fundraising, and professional events. This was all in preparation of Installation, which will take place April 25, 2015.

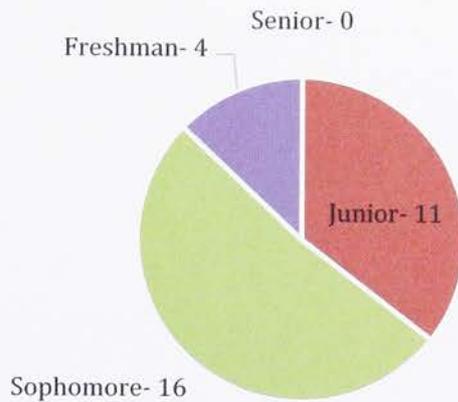

Delta Sigma Pi's Gamma Mu Colony

Calendar of Events for Spring Semester 2015

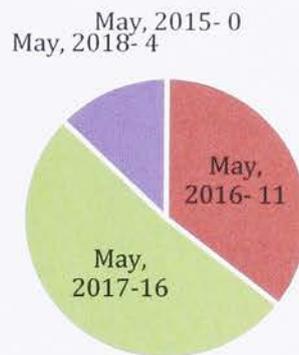

January 18	3-5pm	Executive Meeting, Goldring/Woldenberg Hall
January 25	3-4 pm	Executive Meeting, Goldring/Woldenberg Hall
January 25,	4-5pm	Colony General Meeting, Goldring/Woldenberg Hall
February 5	7-9pm	Colony Meeting with Dale Clark, Goldring/Woldenberg Hall
February 8	3-4pm	Executive Meeting, Goldring/Woldenberg Hall
February 8,	4-5pm	Professional Event: TedTalk and group discussion, Goldring/Woldenberg Hall
February 22	3-4pm	Executive Meeting, Goldring/Woldenberg Hall
February 22	4-5pm	Professional Event: Dave Carielle, Owner of Campus Connection, Goldring/Woldenberg Hall
March 1	4-5pm	Professional Event: Kirk Coco, CEO of Nola Brewing, Goldring/Woldenberg Hall
March 5	5-6pm	Professional Event: Skip Murray, Owner of Dat Dog, Goldring/Woldenberg Hall
March 18	5-6pm	Professional Event: Charles Rice, CEO of Entergy New Orleans
March 19	6-9pm	Community Service Event: Jazzin' on Jackson Fundraiser
April 13	8-9pm	Professional Event, Alexis Carville, Risk Management Workshop

Colony Activities

Professional Events

A.B. Freeman professor Julie Hauber gave us helpful advice on resume writing and the job search. Professor Hauber specifically touched on the usefulness of LinkedIn and other networking websites such as Tulane's FreemanLink. Colony members were engaged and asking questions about networking, interviewing, and professionalism. In the increasingly competitive business world, this professional event gave all colony members valuable insight about the best ways to set yourself apart from your competitors.

Dave Cariello of Campus Connection came in today to talk about his experiences as a small business owner and an employee who had to work his way to the top, some tips on marketing and management, and New Orleans as an entrepreneurial hub. Cariello is a Tulane alum and showed his passion for the university as well as his passion for owning a small business. All of our colony members got insight into all of the responsibilities and tasks that a small business owners has to take on. Colony members asked questions to Cariello about licensing and carving out a market in a college environment. Colony members also got an inside look into what makes Campus Connection successful.

Our colony held a viewing and discussion of a TED talk giving by Amy Cuddy entitled “Your Body Language Shapes Who You Are”. Colony members were drawn in by Cuddy’s passion and relevance to all areas of life, not just business. Cuddy spoke on the importance of body language during interviews and the correct body posture that makes one come off as confident and attentive. Colony members held a group discussion after the video discussing how each of them could improve their body language in professional settings. Colony members also shared tips and past stories of positive experiences surrounding body language during interviews. First impressions in the business world are extremely important and this professional event helped members take tips into their lives to better themselves personally and professionally.

We have a number of fantastic professional events scheduled to take place in the coming weeks. Please see the spring calendar for our colony for more details. For all professional events, our colony strives to not only bring in successful speakers, but to also engage all of our members in discussion so our members can get their specific questions answered. We have been fortunate enough to already have a few fantastic events and are looking forward to hosting more events in the coming week. Future events will include our first open event for the

university, which will help our colony become more visible to all business students at Tulane University.

Community Service Events

Our colony participated in and took 2nd place at Sigma Delta Tau's Kicks for Kids kickball tournament. Kicks for Kids provides local children who are mentally or physically challenged the opportunity to pursue their dreams. Colony members had fun competing against other fraternities and sororities as well as bonding with each other. Not only was this event for a great cause, but members were also able to have a fun experience while engaging in community service.

Our colony participated in Pi Phi's annual ArrowSpike volleyball tournament to benefit Firstbook. Firstbook provides new book for children in need across the nation. Our colony formed a team of 10 members and competed against other fraternities and sororities. This community service event brought in several new members and all owed them to get involved with current colony members.

Our colony proudly participated in Relay for Life, which was one of our community service events. Relay for Life is a worldwide fundraising event of the American Cancer Society whose mission is to raise funds to increase cancer survival and improve cancer patients'

quality of life. We began with creating a Delta Sigma Pi team and encouraging colony members to join our team. Prior to the Relay for Life event, the Delta Sigma Pi team raised approximately \$75 on donations. On the day of the event, many colony members set up a table and sold cookies, which Sodexo generously donated to us. Overall, we raised around \$100 and had fun doing it.

Our colony also co-sponsored a kickball tournament with Tulane's Community Service Scholars. The money raised by the tournament benefited Nola Loves the Philippines, a charity that helps purchase boats for Filipino fishermen. Delta Sigma Pi colony members participated in and helped staff the event. All involved had a lot of fun!

Fundraising Events

Delta Sigma Pi had a Krispy Kreme Fundraiser and sold 20 dozen donuts to students and faculty. Colony members coordinated orders ahead of time in order to reserve their orders. This fundraising event provided a solid base of money to be used for food at meetings as well as money for fraternity travel expenses. Colony members were able to use their organization and communication skills in order to run a successful fundraiser.

Our next fundraising event involves partnering with a local Raising Cane's store to sell food to students and faculty outside of our student center. Colony members will be signing up in shifts to raise money for the colony and increase awareness of Delta Sigma Pi on campus.

LEAD School

Four of our colony members: Danielle Levy, Cam Perron, Robert Marchini, and Benjamin Froman attended the Spring LEAD event in Birmingham, Alabama. We all thoroughly enjoyed the workshops on Saturday, as well as meeting other chapters and colonies from around the country.

Membership Biographies

NAME:	Alyssa Tsang
HOMETOWN:	Lexington, Massachusetts
MAJOR/MINOR:	Finance/International Relations
EXPECTED GRADUATION DATE:	May 2018
