A PETITION
TO
THE INTERNATIONAL FRATERNITY OF
DELTA SIGMA PI
BY
DELTA PI OMEGA
ARIZONA STATE COLLEGE,
TEMPE, ARIZONA

TO THE GRAND COUNCIL OF THE INTERNATIONAL
FRATERNITY OF DELTA SIGMA PI

Greetings:

We, the undersigned, members of Delta Pi Omega, do hereby petition for a charter to establish a chapter of The International Fraternity of Delta Sigma Pi on the campus of Arizona State College at Tempe, Tempe, Arizona.

Organized in accordance with the high ideals of Delta Sigma Pi and being fully cognizant of the requirements, aims and purposes of this fraternity, the membership in group action in regular assembly unanimously agreed to present this petition for consideration.

In seeking this affiliation, we pledge ourselves to uphold the Constitution and By-Laws of The International Fraternity of Delta Sigma Pi and to faithfully observe the rules and regulations which the fraternity has adopted or may in the future enact.

PURPOSES OF THE COLLEGE

The College aims to serve the people of Arizona by providing an educational program that appropriately reflects the community interests of the people of the State as a whole as well as the needs and desires of the individual students who enroll. Institutional objectives that define and give direction to the educational program of the College are the result of the growth and evolution of the institution over a period of more than sixty years.

The Act of the Territorial Legislature, passed March 12, 1885, creating the Territorial Normal School, set forth its objectives as follows:

"the instruction of persons, both male and female, in the art of teaching and in all the various branches that pertain to a good common school education; also, to give instruction in the mechanical arts and in husbandry and agricultural chemistry, in the fundamental law of the United States, and in what regards the right and duties of citizens . . ."

The Act also set forth in the requirements for admission and elsewhere other important objectives as follows:

"Every applicant for admission shall undergo an examination in such manner as shall be prescribed by the Board, and if it shall appear that the applicant is not a person of good moral character, and will not make an apt and good teacher, such applicant shall be rejected. The Board of Education may, in their discretion, require any applicant for admission, to sign . . . a declaration of intention to follow the business of teaching . . . and provided further, that the pupil may be admitted without signing such declaration of intention on such terms as the Normal School Board may require or prescribe . . . shall exercise a watchful guardianship over the morals of the pupils . . ., but no religious or sectarian tests shall be applied . . ."

The law creating a Board of Regents of the University and State Colleges of Arizona passed March 9, 1945, states:

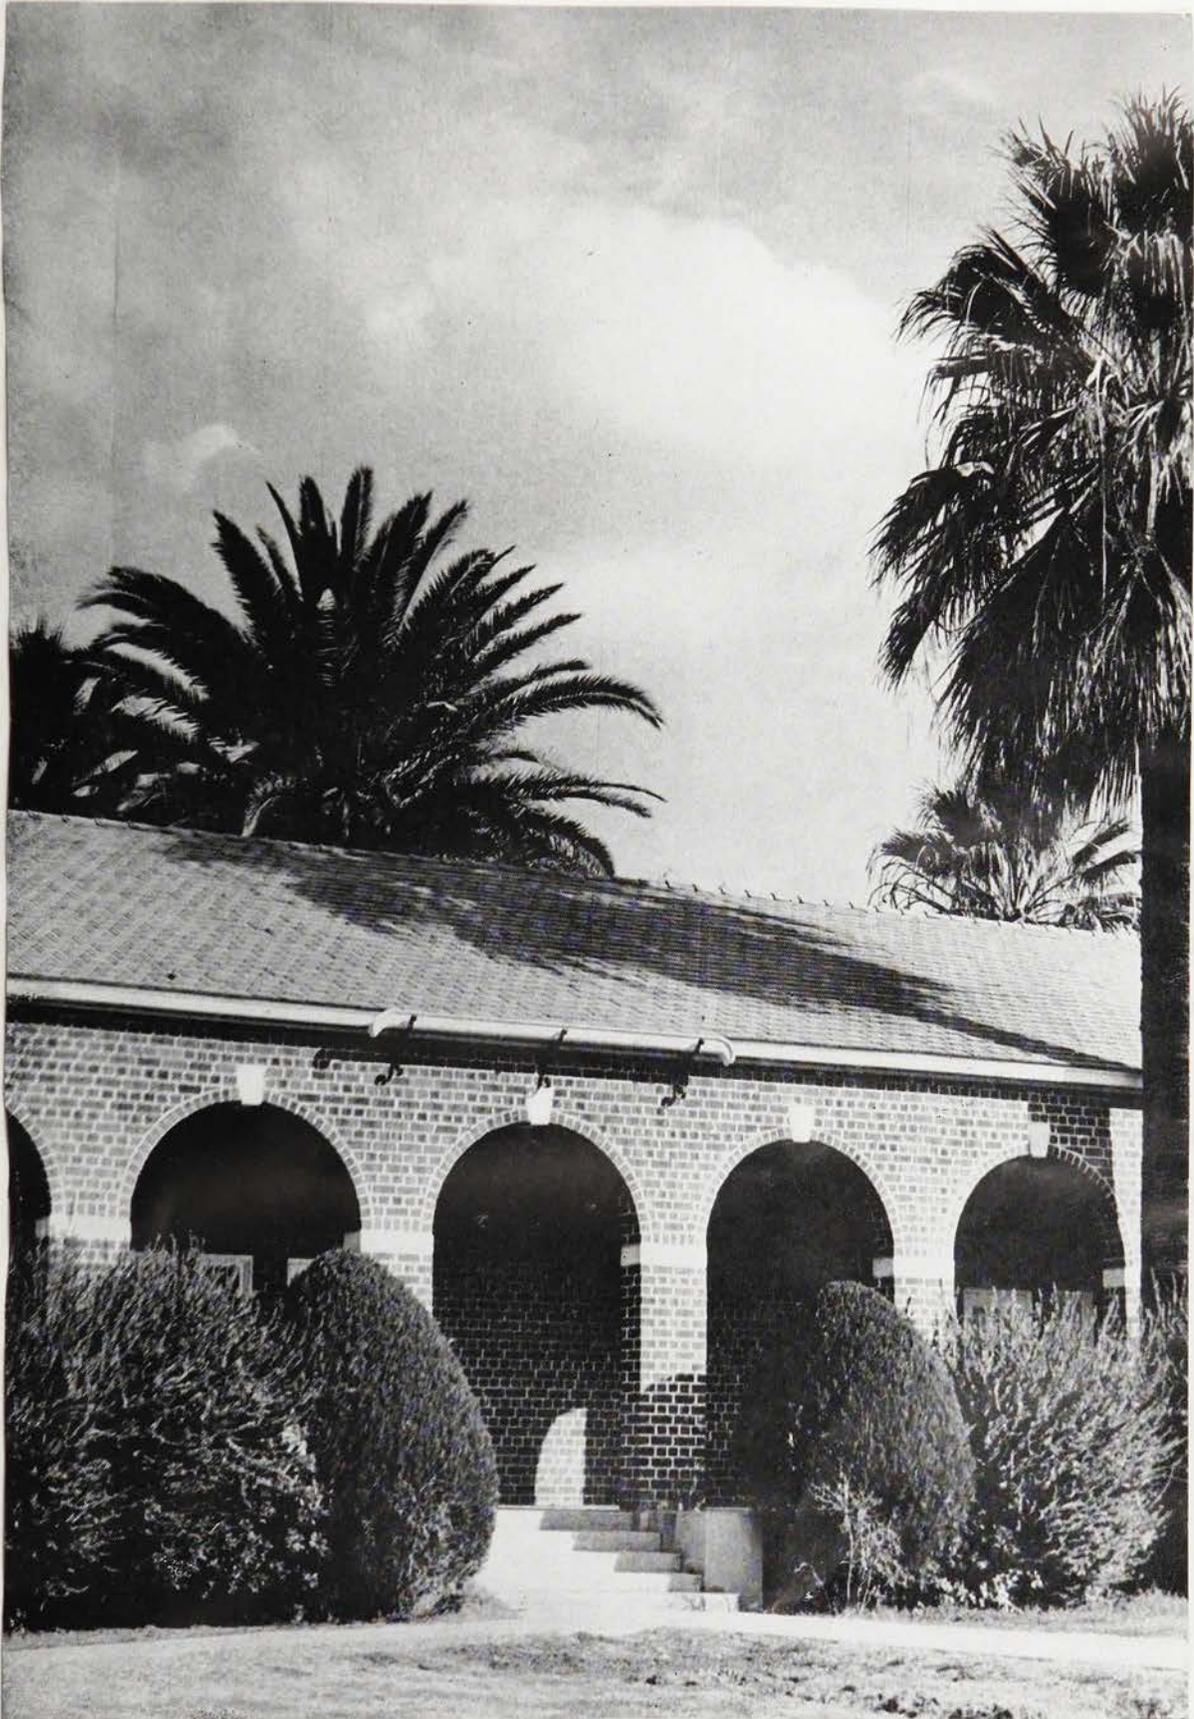

"The board shall . . . establish curriculums and designate such courses at the several institutions as in its judgment will best serve the interests of the state, and award such degrees and diplomas upon the completion of such courses and curriculum requirements as it deems appropriate."

Thus, the purposes of this College are of two types--general and specific. The general aims are to prepare each citizen to attain the following goals to the highest degree possible for him: (1) A vocation giving daily the thrill of success and of service to his fellows. (2) Good health habits and a healthy body. (3) A satisfying and constructive home life. (4) A type of citizenship over-reaching community, state, and nation into a one-world interest. (5) Moral and ethical standards leading to a higher culture. (6) Habits of harmless enjoyment--the intelligent use of leisure time.

Among the most important of the specific objectives of the college program are the following:

(1) An important function of the college is the selection and preparation of teachers for the elementary and secondary schools of Arizona. The people of the State have a right to expect that their children will be taught by teachers possessing high mentality, broad social-cultural background of general education, high ideals of citizenship, thorough knowledge of subject matter, objective and scientific point of view, professional training and spirit, proven skill in the art of teaching, culture and efficiency in social relations, wholesome personality, vigorous health, and sound character. The College aims to serve in the selection, development, and preparation of teachers of this type.

(2) Another purpose of the College is to provide a basic program of general education. Provision for a broad social-cultural base is an essential in programs of education for all vocations. Objectives related to good citizenship, personal efficiency, aesthetic appreciation, general knowledge, and vigorous health are, after all, fundamental and basic in all programs of higher education.

Tropical verdure lends charm to the Ira D. Payne Training School.

(3) The College serves efficiently and well students desiring basic pre-professional courses such as pre-dental, pre-engineering, pre-agriculture, pre-forestry, pre-law, pre-medical, pre-nursing, pre-optometry, and pre-veterinary.

(4) The College offers curriculums in the Arts and Sciences leading to the Bachelor of Arts or the Bachelor of Science degree with areas of concentration in the various departments of the College.

(5) There is a growing demand for short practical curriculums not leading to graduation, but designed to give the student the background of skills and knowledges needed for a chosen trade. The College accepts this as one of its obligations.

(6) The College accepts its responsibility for providing in-services help, guidance, and instruction for teachers. It also accepts its responsibility for cultural and educational leadership and service in the community. These professional and community services are provided through special evening courses, correspondence courses, summer sessions, educational conferences, dramatic performances, musical concerts, speech clinic services, published bulletins, radio services, placement services, alumni organizations, school visitation, and speaker and consultant service.

MATHEWS LIBRARY

A HISTORY OF
ARIZONA STATE COLLEGE AT TEMPE

An act of the Thirteenth Legislative Assembly of the Territory of Arizona, approved March 12, 1885, made provision for the establishment at Tempe of a Normal School. The Normal began on February 8, 1886, with thirty-one in attendance. The first class of five members graduated in June, 1887. At that time the entire institution was housed in the northwest room of a single four-room one-story building. During the years which followed, the attendance gradually increased, and with the growing public interest, the course of instruction was expanded year by year, new buildings replaced the historical structure, and from time to time additions were made to the faculty personnel.

For many years it was found necessary to provide facilities for high school training preparatory to the two-year normal school course, but, by the year 1919, the growth of the high schools throughout the state had made it possible to eliminate the high school curriculum from the program of studies offered by the Normal School, and the entire attention of the faculty was devoted to the two-year normal school curriculum offered to high school graduates and leading to a diploma entitling the holder to teach in the elementary schools and the junior high schools of the state.

In 1922, the Tempe Normal School Alumni Association sponsored a movement to raise the grade of their Alma Mater to that of a standard Teachers College. After three years of public discussion, in January, 1925, a bill was presented to the Seventh State Legislature which was passed unanimously by that body and signed by Governor Geo. W. P. Hunt on March 7, 1925. By the provisions of

WEST HALL

One of the many girls' dormitories

this bill, the Tempe Normal School became Tempe State Teachers College, with the power to establish a four-year college curriculum, and the authority to confer upon its graduates the degree of Bachelor of Education.

An act of the Ninth Legislature changed the name of the college to read, Arizona State Teachers College at Tempe, and at the same time authorized the College to grant the degree of Bachelor of Arts in Education.

In March, 1937, an Act of the Thirteenth Legislature authorized the College to grant the advanced degree of Master of Arts in Education. This degree was conferred for the first time on May 31, 1938.

On March 9, 1945, a bill was passed by the State Legislature changing the name of the College to ARIZONA STATE COLIEGE AT TEMPE, and placing the management of all three state educational institutions under the control of one board called the Board of Regents of the University and State Colleges of Arizona. Each institution retains its identity. The Board of Regents has broad powers. It has authorized new curriculums and courses, and the awarding of the Bachelor of Arts and the Bachelor of Science degree, in addition to the two degrees formerly granted--the degree of Bachelor of Arts in Education, and Master of Arts in Education.

The College has had a gradual evolution from the narrow, limited curriculum of a Normal School to a college composed of fourteen strong departments each offering a major and minor. From the granting of a Normal School diploma, the college has progressed to where it now grants four degrees. From a single building there has evolved a campus containing forty fine buildings, and the original attendance of thirty-one has grown to a maximum of 4495 students for the semester of 1950-1951.

Yippee! cowboy! The old west reigns supreme during collegiate rodeo time.

A HISTORY OF THE BUSINESS DEPARTMENT
OF ARIZONA STATE COLLEGE AT TEMPE

The Business Administration Department, as it is known today, consisted only of a commerce section in the beginning and offered commerce and secretarial science. The main purpose of the section was to train commercial teachers. In 1933 this department of the college had only three professors.

In 1935, the departments' leadership was assumed by Mr. E. J. Hilkert. The introduction of merchandising and economics and the addition of several accounting courses greatly improved the department. The emphasis, however, was still upon secretarial science. Mr. Hilkert continued to expand the accounting section, and in 1946, marketing, advertising and many more economic courses were added. The emphasis was changed from commercial, teaching to a professional department of business administration.

In 1948, the commerce department was succeeded by a department of Business Administration. The old system of majors and minors common to colleges was abandoned in the Business Administration Department. In its place a system of areas of concentration was adopted: accounting, economics and management, marketing and advertising, and secretarial science. A short time later special fields of emphasis were established. These are as follows:

Accounting

1. Managerial accounting
2. Public accounting

Economics and Management

1. Economics
2. Finance
3. Insurance
4. Personnel

Gracious living is exemplified in college dormitory life.

Marketing and Advertising

1. Advertising
2. Marketing Management
3. Retailing
4. Selling

Secretarial Science

The department has grown from three professors to fifteen. The increase in students has been even more rapid. From a number of 25, excluding the teacher trainees, to the present day figure of about 800. The number of class card enrollments has grown from approximately 200 in 1933 to 3,500. This growth is shown clearly by the expansion program now going on. A new Agriculture-Business Administration building was completed in July 1951. This is the largest building on campus brings out the fact that the business department is now the second largest department of the college.

The Business Administration Department is proud of the fact that they have had more successful candidates for the C.P.A. examination than any other institution in Arizona. This stands as a testimony to the quality of the instruction and the school. The college employs only C.P.A.'s as instructors in accounting.

Plans are now being made which will change the status of the Business Administration Department from a department to a separate school of Business Administration. This change is expected to be effected within a year or two.

The department offers courses to meet the needs of four groups of students: (1) Those preparing for some phase of business as a career and who wish to obtain the degree of Bachelor of Science with an area of concentration in accounting, economics and management, marketing and advertising, or secretarial science. (2) Those not planning to graduate but who desire one or more years of

Newest on the Campus . . . the recently constructed Science Building.

college work in preparation for a business career. (3) Those preparing to teach commerce or business subjects in public secondary schools. (4) Those pursuing any of the other curriculums of the college but desiring certain electives in business administration.

Each student seeking the Bachelor of Science degree with an area of concentration in business administration must complete the 40 semester hours of work in generalized courses. In addition to the generalized courses each student must complete 31 to 33 semester hours of prerequisite work in business administration. After these requirements are met, the student must complete the required number of hours in the special field he chooses. The students have a total of 90 courses to choose from in the Business Administration Department.

scholarship and the acquisition of insights
for their actual advancement in research and practice;
to promote closer affiliation between the commercial
world and students of commerce, and to further a high
standard of commercial ethics and values, and the ethical
and commercial values of the community.

THE DELTA PI OMEGA CHAPTER

THE DELTA PI OMEGA CHAPTER

A PROFESSIONAL FRATERNITY

FOR

BUSINESS ADMINISTRATION MEN

Organized to foster the study of business in universities;
to encourage scholarship and the association of students
for their mutual advancement by research and practice;
to promote closer affiliation between the commercial
world and students of commerce, and to further a high
standard of commercial ethics and culture, and the civic
and commercial welfare of the community.

In February, 1931, another meeting of the interested men was held, and literature from the national office was distributed. At that meeting, a committee was chosen to draw up the constitution and by-laws of the local chapter. Other committees were formed to solicit new members and write up the history of the school and Business Administration Department. Several other meetings were held in which the constitution and by-laws were adopted and new members introduced.

On May 21, 1931, the local chapter was privileged to have Mr. Walter C. Selzer, Grand President, visit at Tampa. He presented

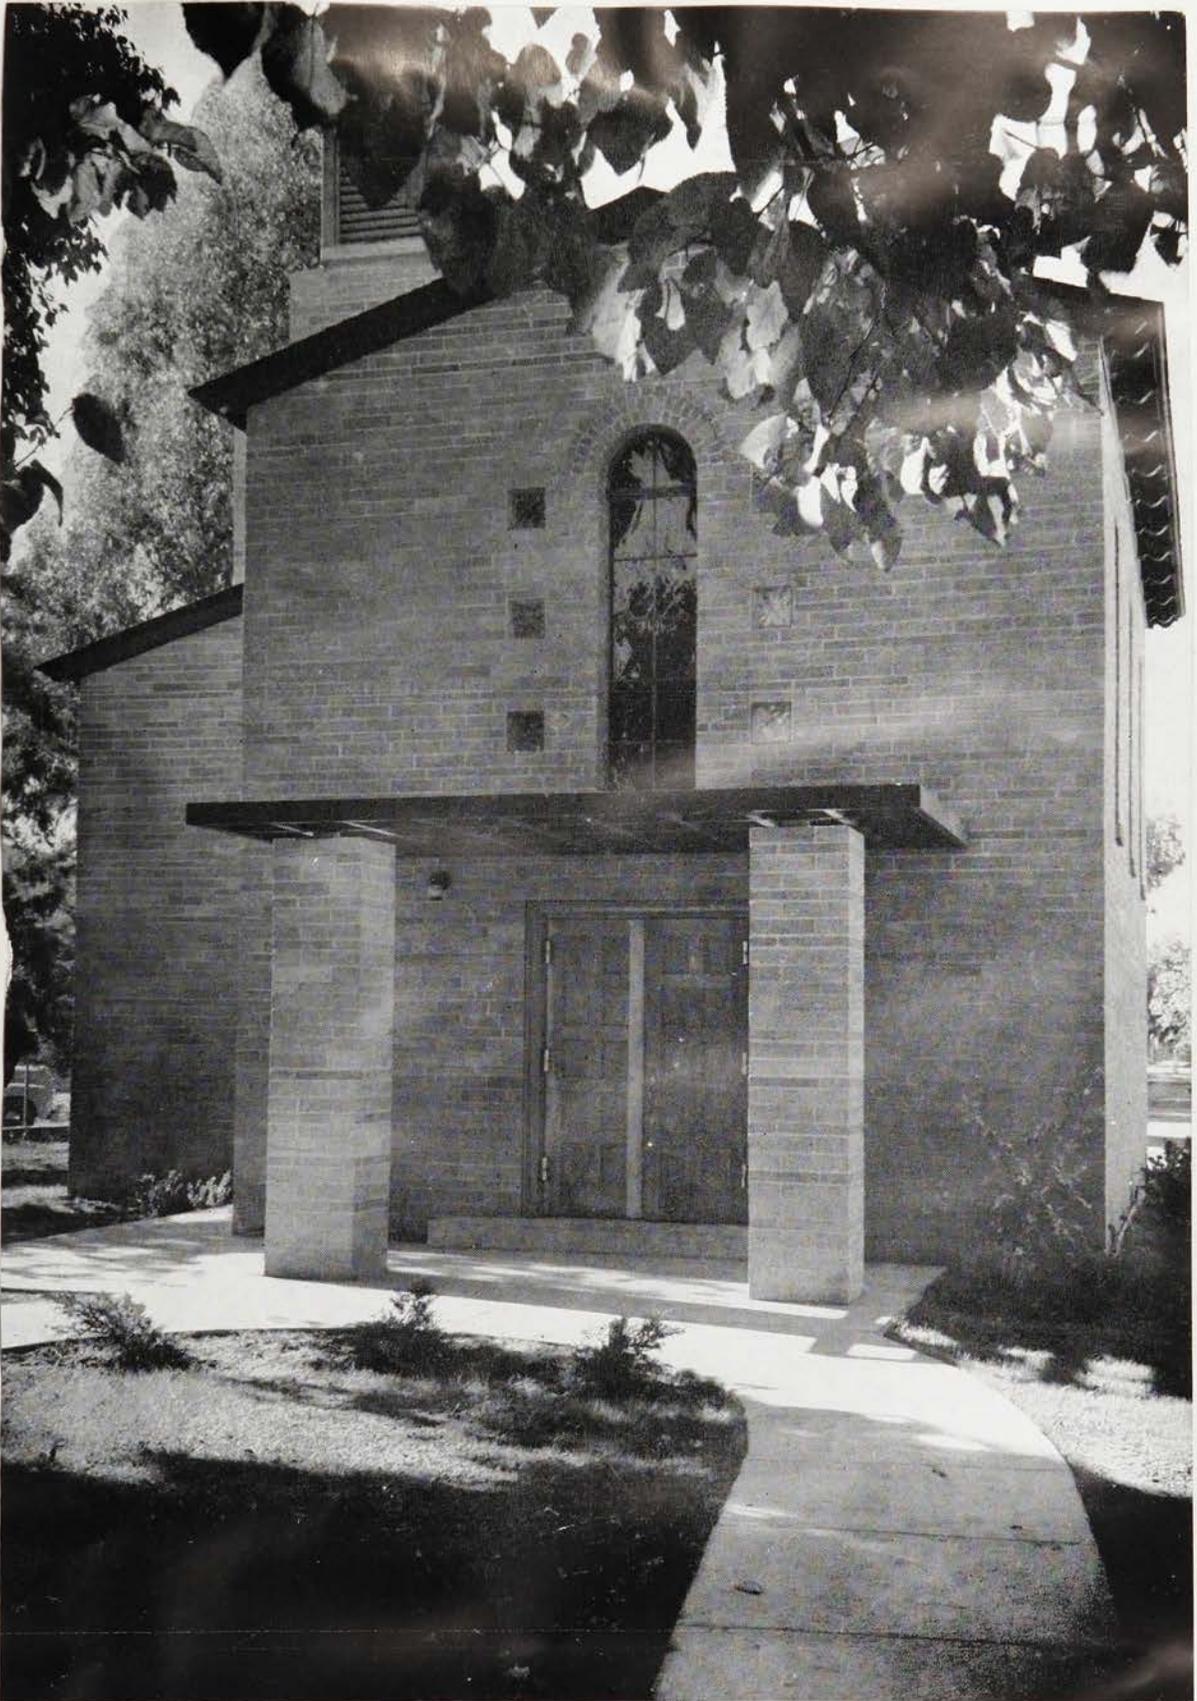

HISTORY OF DELTA PI OMEGA

Arizona State College at Tempe grew very rapidly following World War II. In the fall of 1950, the college reached its peak in enrollment. At that time, several men in the Business Administration Department decided to look into the possibility of organizing some type of a professional business fraternity on the campus. It was felt that the rapid growth of the department had definitely created a need for such an organization. Messrs. Harry Pappas, Dick Koperek, and Richard Baker discussed the idea with Mr. E. J. Hilkert, head of the Business Administration Department. Mr. Hilkert encouraged the group, and the selection of interested and qualified men was begun.

A meeting was held November 15, 1950, by these students. It was decided to write to the national headquarters of the Delta Sigma Pi Fraternity to obtain information on the fraternity. Thus, the local chapter of Delta Pi Omega was launched. A drive to obtain more members was started. The names of approximately forty students who were likely to be interested and who were qualified were obtained.

In February, 1951, another meeting of the interested men was held, and literature from the national office was distributed. At that meeting, a committee was chosen to draw up the constitution and by-laws of the local chapter. Other committees were formed to solicit new members and write up the history of the school and Business Administration Department. Several other meetings were held in which the constitution and by-laws were adopted and new members introduced.

On May 21, 1951, the local chapter was privileged to have Mr. Walter C. Sehm, Grand President, visit at Tempe. He presented

Quiet meditation . . . Campus religious center is Danforth Memorial Chapel.

a very enlightening talk, and the students were very much impressed with the possibilities offered to a member of Delta Sigma Pi. A great deal of information and inspiration was obtained from this visit. It was decided to proceed as rapidly as possible with the petition for admission to the national fraternity.

With the aid of Dr. Burton,[✓] professor of accounting, the petition was started. This was in July, 1951, and students were widely scattered for the summer vacation, making it difficult to obtain all the required information. The petition was completed, however, on August 9, 1951.

Because the temporary president, Dick Koperek, and the vice-president, Richard Baker, graduated in May, new officers are to be chosen in September, 1951. A very active program is being looked forward to with the beginning of the fall semester. An increase in the number of members seems to be certain because of the many desirable students available for membership. The selection of these new pledges will be an important part of the chapter's work this fall.

FRANK RICHARD BEIGBEDER

"Frank"

Box 421 Florence, Arizona

Born March 22, 1930, Oakland, California

5' 10" tall, weighing 150 lbs., brown hair

Parents: Mr. & Mrs. Frank M. Beigbeder,
Florence, Arizona

Graduated from Florence Union School, Florence,
Arizona

A member of the Senior Class of Arizona State
College at Tempe majoring in Business Administration
with an area of concentration in Accounting

SIDNEY JOSEPH CRABTREE

"Sid"

3512 East Taylor Street, Phoenix, Arizona

Born August 18, 1932, Phoenix, Arizona

5' 10" tall, 165 lbs., brown hair

Parents: Mr. & Mrs. Charles L. Crabtree, Phoenix, Arizona

Graduated from Casa Grande Union High School, Casa Grande, Arizona 1950

A member of the Sophomore Class at Arizona State College at Tempe majoring in Business Administration with an area of concentration in accounting

DAVID LEONARD DUNNE

"Dave"

4404 North 1st Avenue, Phoenix, Arizona

Born December 14, 1910, New York City, New York

6' 2" tall, 175 lbs., light brown hair

Parents: Mr. & Mrs. Finley Peter Dunne, Concord,
Massachusetts

Graduated from Middlesex School, Concord, Massachusetts
1929

A member of the Senior Class at Arizona State College
at Tempe majoring in Business Administration with an
area of concentration in Economics and Management.

SANFORD J. EDELMAN

"Stan"

522 East Osborn Road, Phoenix, Arizona

Born March 16, 1928, Phoenix, Arizona

5' 9" tall, weighing 160 lbs., brown hair

Parents: Mr. Morton Edelman of Phoenix, Arizona

Graduated from North High School, Phoenix, Arizona

A member of the Senior Class of Arizona State
College at Tempe majoring in Business Administration
with an area of concentration in Secretarial Science

Interested in sports and is a member of the Delta
Sigma Phi social fraternity

ROBERT EMMETT ENNIS

"Bob"

2034 North Laurel Avenue, Phoenix, Arizona

Born September 5, 1924, Grand Canyon, Arizona

5' $6\frac{1}{2}$ " tall, 140 lbs., brown hair

Parents: Mrs. E. M. Ennis, Phoenix, Arizona

Graduated from Phoenix Union High School,
Phoenix, Arizona 1943

A member of the Freshmen Class at Arizona State
College at Tempe majoring in Business Administration
with an area of concentration in Accounting

Interested in hunting, fishing, and aviation

WOODROW W. MITT

"Woody"

2346 East 7th Street, Tucson, Arizona

Born March 4, 1913, Prescott, Arkansas

6' tall, 180 lbs., brown hair

Parents:

Graduated from Tucson High School, Tucson, Arizona 1931

A member of the Junior Class at Arizona State College at Tempe majoring in Business Administration with an area of concentration in Education

Interested in fishing, hunting, and photography

LEO JULIUS KILIAN JR.

"Leo"

1123 Apache Boulevard, Tempe, Arizona

Born February 11, 1928, Sioux City, Iowa

5' 10" tall, 190 lbs., blond hair

Parents: Dr. & Mrs. Leo J. Kilian, Sioux City, Iowa

Graduated from Wayne City High School, Wayne,
Nebraska 1946

A member of the Senior Class at Arizona State College
at Tempe majoring in Business Administration with an
area of concentration in Economics and Management

Interested in Political Science

ROBERT NORMAN MEDLYN

"Bob"

San Carlos, Arizona

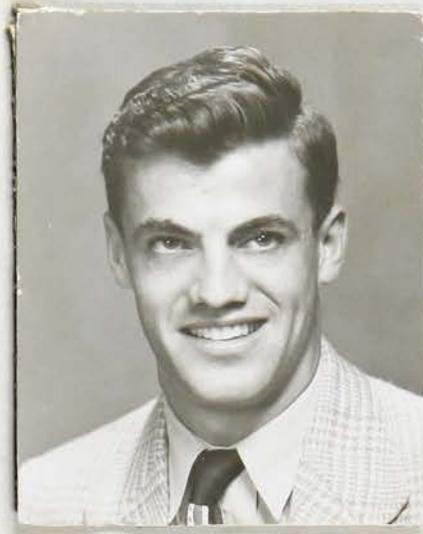

Born August 21, 1930, Miami, Arizona

5' 10" tall, weighing 160 lbs., blond hair

Parents: Mr. & Mrs. N. R. Medlyn, Miami, Arizona

Graduated from Globe High School, Globe, Arizona
in 1948

A member of the Senior Class of Arizona State
College at Tempe majoring in Business Admin-
istration with an area of concentration in
Marketing and Advertising

HARRY PAPPAS

"Harry"

528 North Country Club Drive, Mesa, Arizona

Born February 10, 1929, Albany, New York

5' 9" tall, 140 lbs., brown hair

Parents: Mr. & Mrs. Gus Pappas

Graduated from Christian Brothers' Academy,
Albany, New York in 1946

A member of the Senior Class at Arizona State
College at Tempe majoring in Business Administration
with an area of concentration in Accounting

Interested in tennis, chess, and bowling

DONALD E. PATTERSON

"Don"

1019 B. North 16th Place, Phoenix, Arizona

Born February 24, 1929, Cambridge, Massachusetts

5' 11" tall, 165 lbs., brown hair

Parents: Mr. & Mrs. John R. Patterson, Cambridge,
Massachusetts

Graduated from Boston Latin School, Boston, Massachusetts
1945

A member of the Senior Class at Arizona State College
at Tempe majoring in Business Administration with
with an area of concentration in Accounting

Interested in sports and languages

RODMAN H. PEIL

"Rod"

235 East 15th Street, Tempe, Arizona

Born May 14, 1923, Glendale, Oregon

WESTERN ADVENTURE

AT ARIZONA STATE COLLEGE • TEMPE

Official Publication
ARIZONA STATE COLLEGE AT TEMPE

General Series No. 83 - June 1950 - Information Issue

Published monthly and entered as second class matter Nov. 30, 1931 at the post office at Tempe, Arizona
under the act of August 24, 1912.

A Search for Gold!

The great adventure of this country has always been the act of heading West. That holds good today. Only in the West can the classic American combination of frontier informality and a civilization in the making still be found.

In Arizona — above all in the district around Phoenix, its capital — there is the additional blessing of the nation's most perfect climate. Here prosperity can be found in a land suited to its enjoyment.

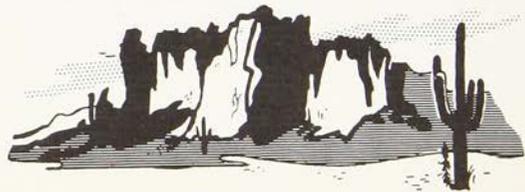

But a developing civilization calls for high standards of education. The young people pouring into the region, as well as those native to the state, must be given the best of preparation for the work ahead of them.

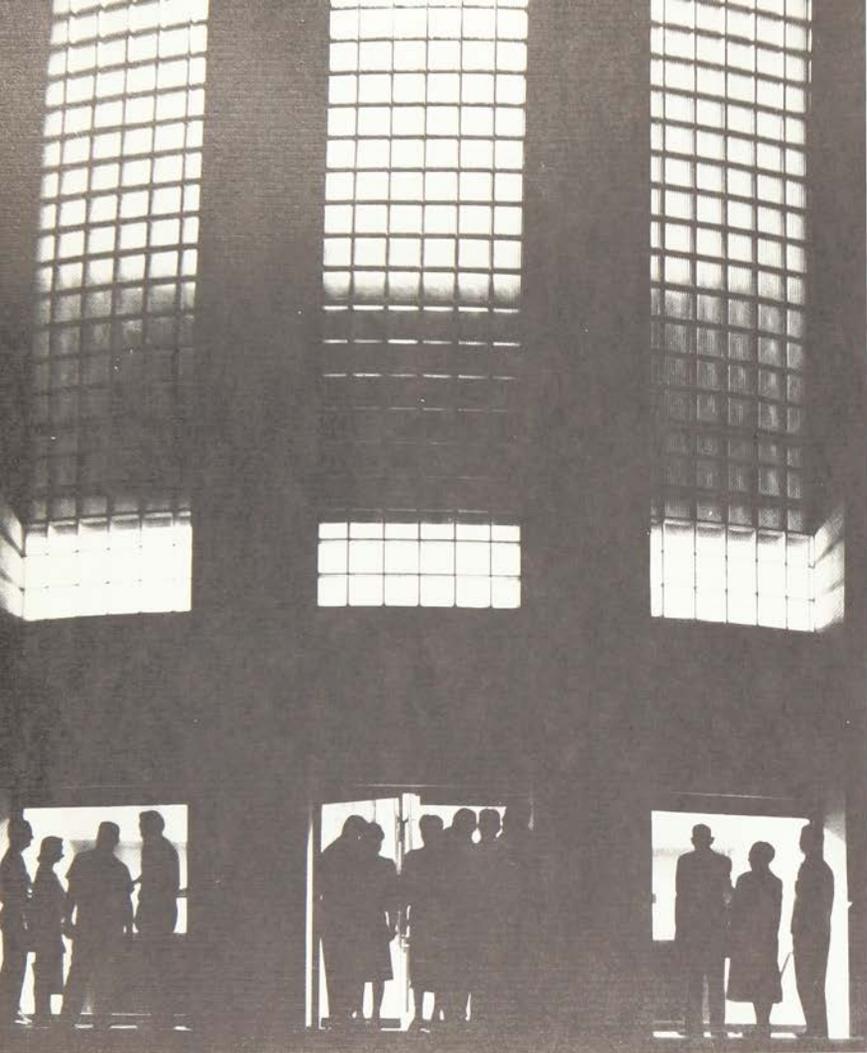

Arizona State College at Tempe is a progressive area's answer to this need. Like the entire culture of the Valley of the Sun it has grown up in the desert within little more than half a century.

And because it has always been the chief seat of learning of a young and aggressive people it has kept its eye on the problems of the future rather than upon those of the past.

The prospective student needs to see the orange, palm and pecan trees growing over the campus for himself, to marvel at the desert's rare coloration and light, visit the warm, comfortable climate, the fabulous Superstition Mountains nearby, to know the campus.

It's a friendly, democratic campus, where students from every state in the Union seek a source of power and happiness much stronger than any ore . . . the gold of knowledge for a richer, fuller life.

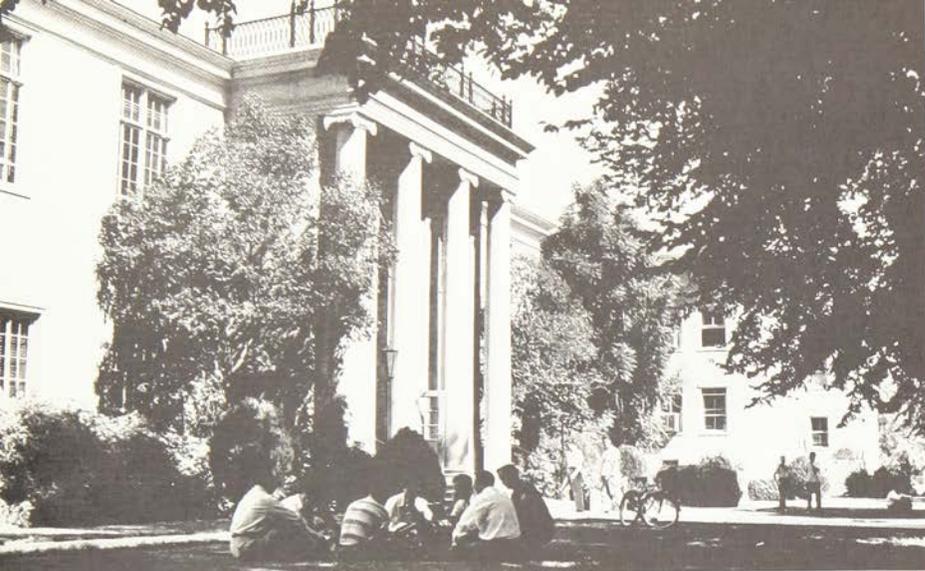

Dynamic Growth at A.S.C.

*I*T IS NO ACCIDENT that ASC is growing dynamically . . . it is led by progressive-minded educators who hold that knowledge results from free inquiry, that education for modern times is more than merely book learning administered by others. Students find independence, a chance to reason for themselves, but with wise professors and adequate libraries close at hand. There is nothing stagnant about an ASC education for it provides background for a broad, dynamic education for day-to-day life. Conceived by the same pioneers who forged the West, ASC is alive with the spirit of progress today as educators who think in terms of today and tomorrow, not former times, still guide her fortunes.

Scholar's haven

Modern buildings in
historic setting

A Beautiful Campus

SOME 65 ACRES of beautifully landscaped campus are located in the town of Tempe (pronounced Tem-PE) within eight miles of America's cleanest city, Phoenix, capital of Arizona. The campus is lined by rows of impressive palm trees. Although present buildings provide facilities for academic and extracurricular activities, a \$4,000,000 expansion program is adding to the prominence of ASC's physical plant.

in Enchanting "Valley of the Sun!"

M

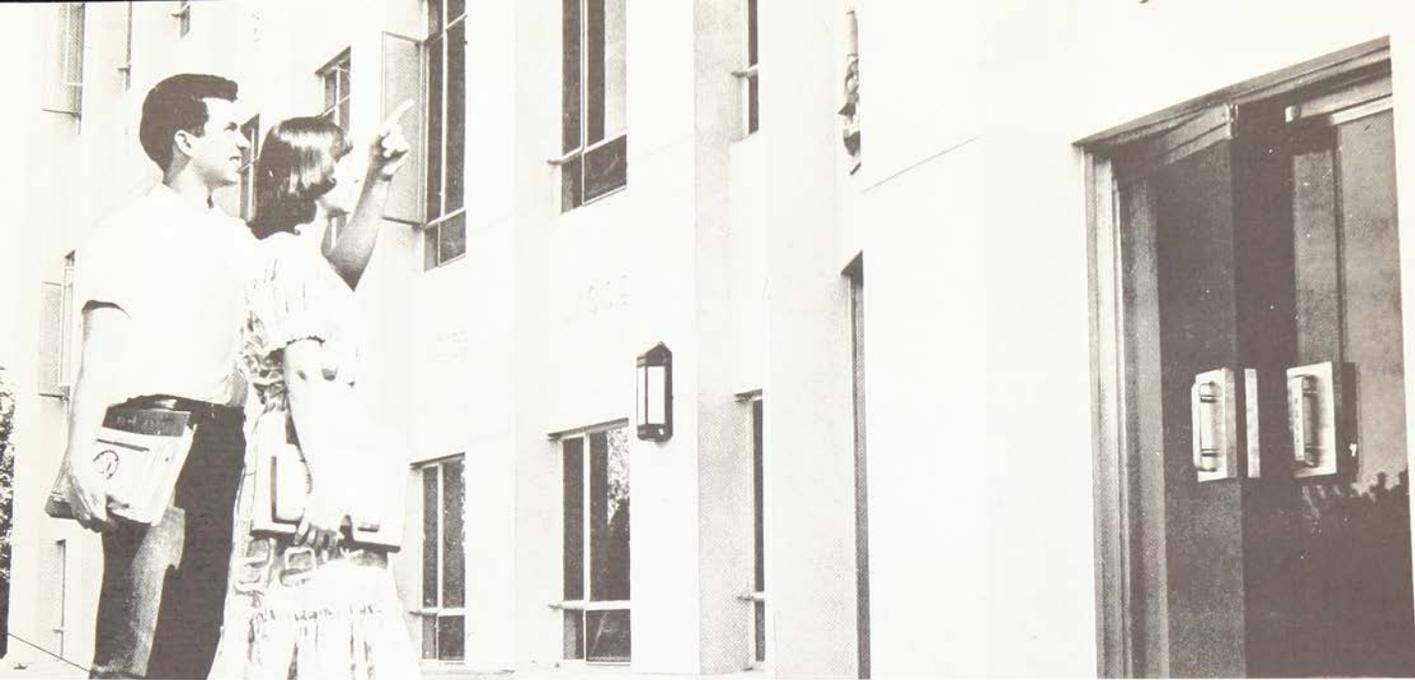

ORE THAN 40 MODERN buildings constitute the main Tempe campus of ASC. While the principal architecture is brick, western simplicity is exhibited in the soft-tone concrete of several of the newest buildings.

*T*HOUSANDS OF tourists annually visit the world-famous points of interest near the ASC campus. The campus has a central location in one of the world's finest irrigated districts, a garden spot in the desert. Nearby are historic and scenic points so numerous no series of field trips or student hours can include them all. In the ASC area are Paradise Valley, home of the wealthy and world famous; the Mormon Temple; Grand Canyon, Pueblo Grande, Apache Trail, Casa Grande Prehistoric Ruins, Boyce Thompson Arboretum, Roosevelt and Coolidge Dams, Hieroglyphic Canyon, the Petrified Forest and the metropolis of Phoenix.

In a Setting of Natural Wonders!

An Educational Leader... A.S.C. gives 5 degrees

AS THE PIONEER Arizona school of higher education ASC provides well-balanced curricula in each of 14 strong departments in its Arts and Sciences program. In addition to a major and a minor available in each department, new areas of concentration have been opened up in speech, agriculture, journalism and dramatics.

The student can earn degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Agriculture, Bachelor of Arts in Education, and Master of Arts in Education. Extensive pre-professional programs also are offered in

medicine, law, dentistry, optometry, engineering and veterinary medicine. Perhaps the best-known single program at ASC has been the education offering, long the subject of national attention. A model nursery school and training school are maintained on the Tempe campus, and a rural school nearby also gives practical pre-graduation experience.

Already college officials are executing an extensive addition in the new four-year program in practical agriculture and highly trained instructors are being added constantly to keep pace with the demand.

Academic Program

BACHELOR OF ARTS

The general purpose of the Bachelor of Arts curriculum is to give the essentials of a liberal education. Considerable emphasis in this curriculum is given to studies in the humanities, social sciences, general science, mathematics and foreign language study. Areas of concentration are available in the following subject matter:

Fine Arts
English
Spanish
Mathematics

Music
Physical Science
Biological Science
Social Studies

BACHELOR OF SCIENCE

Under this curriculum special emphasis must be given to the theoretical and applied sciences although studies leading to this degree are similarly aimed to give the essentials of a broad cultural education. Areas of concentration include the following:

Business Administration
Marketing
Accounting
Secretarial Science
Industrial Arts
Physical Education

Physical Sciences
Social Welfare
Psychology
Home Economics
Mathematics
Biological Science

Studies in this degree area also include a five-year professional program in Nursing and a four-year professional program in Medical Technology.

BACHELOR OF SCIENCE IN AGRICULTURE

The Department of Agriculture offers courses to meet the needs of students:

- Who are interested primarily in the production and management phases of agriculture and who wish to obtain a degree of Bachelor of Science with a major interest field in crop or livestock production.
- Those preparing for some phase of agriculture as a career and who wish to obtain a degree of Bachelor of Science with an area of concentration in agronomy or animal husbandry.
- Those desiring to attend the Agricultural Department for several years and transfer elsewhere to obtain a degree in the technical and scientific phases of agriculture.
- Those who desire to do Pre-Forestry or Pre-Veterinary training at this institution.
- Those not planning to graduate but desiring to take one or more years of college training for agricultural pursuits.

The four-year curriculum in Agriculture Production and Management which has just been added to the general college program is designed, first to provide training essential to the careers of successful and satisfying interested farmer citizens. Second, to provide training for the land-resource owner as a managing agriculturist of productive enterprises utilizing our natural resources and third, provide training for competency in specialized agricultural production basic to the industry.

BACHELOR OF ARTS IN EDUCATION

The general purpose of the Bachelor of Arts in Education curriculums is to give the necessary basic general and professional training for those who are interested in preparing to teach. Three different curriculums are offered: Kindergarten-Primary, Elementary, and Secondary.

Work in each of these curriculums fulfills the requirements for certification to teach in the public schools of Arizona. The curriculum for Secondary students calls for an additional year of graduate work in order to meet certification requirements.

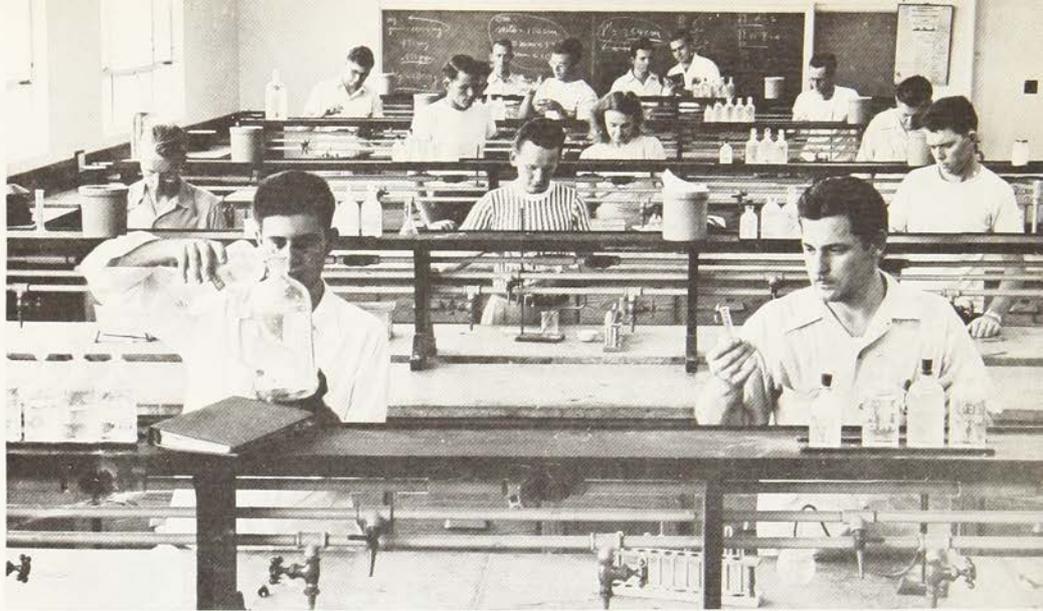

A reorganized and expanded graduate program has recently been announced by the Graduate Department which is in keeping with the graduate programs developed by the leading teacher training institutions of the nation. Complete information may be obtained by writing the Graduate Division.

Highly Qualified Instruction Available

*Profs-
Friendly,
Helpful!*

INSTRUCTORS at ASC are friends of the student. They have gained widespread reputation as capable, wise interpreters and counselors. In academic fields where practical knowledge counts most, the "profs" are men and women highly trained in these fields. Their factual knowledge is balanced by the philosophy and wise judgment of professors in the fields of theory. The faculty is always a point of pride at ASC, where the president, Dr. Grady Gammage, is himself an educator esteemed the world over.

AT ARIZONA STATE COLLEGE students appreciate the emphasis on academic freedom, in keeping with the Western tradition. At hand is the knowledge of centuries and students with the desire to learn are unimpeded in their search for facts. In this atmosphere of freedom the good sense and cooperative spirit of both faculty and students give a sense of progress and growth, of healthful and happy living.

*Students have
Fun, In, Out of
A.S.C. classrooms*

Accent on Fine Arts!

Accent on the fine arts is stressed at Arizona State College at Tempe. The departments which emphasize instruction in fine arts seek to coordinate the fine arts, to send into society men and women who understand and appreciate the cultural values of art, to offer training adapted to meet the varying needs of those with unusual creative talent, those interested in the history of the arts, those who expect to teach, those who are interested in art in industry, and those who are capable of becoming professional artists, and to stimulate interest in the fine arts throughout the state and region through conferences and festivals.

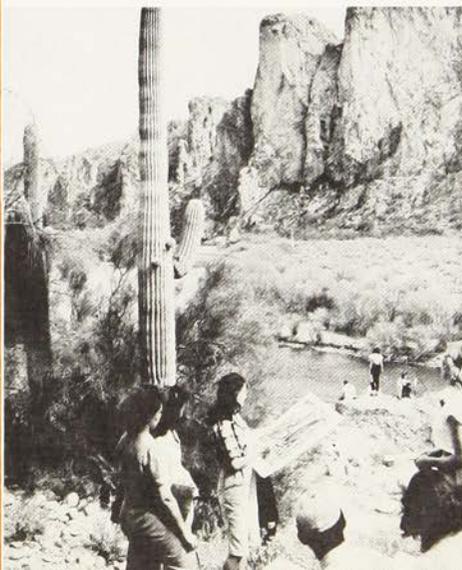

Courses offered in art, music and dramatic art are described under the departmental headings of these departments.

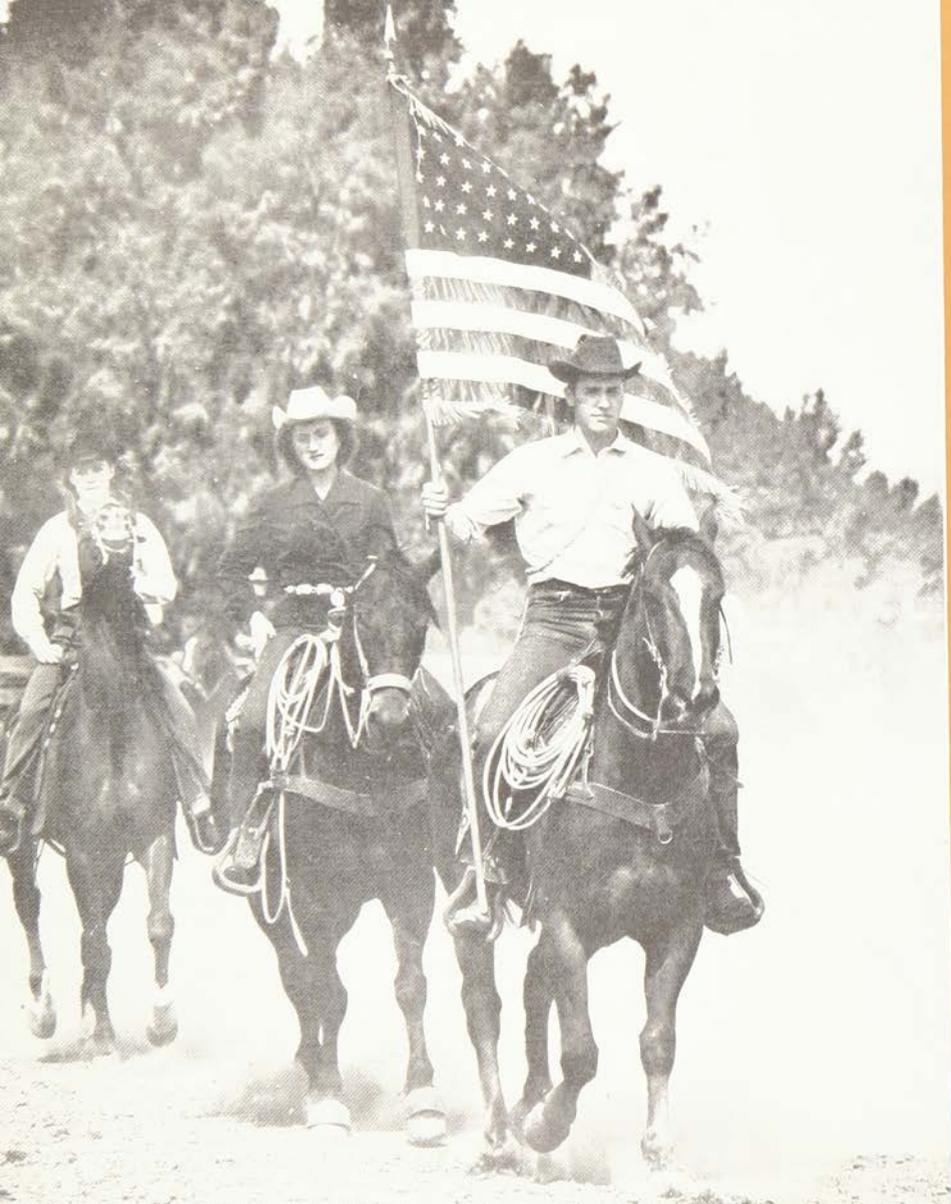

"Wherefore, when I say that art is universal I merely mean that art is not bound to any particular country or to any particular period of time." Thus wrote Hendrik Willem VanLoon in his volume "The Arts".

"For art is as old as the human race and it is just as much a part of man as are his eyes or his ears or his hunger or his thirst."

Self Expression

Opportunities abound in this great, colorful state of Arizona for self-expression of their talents by students at ASC. Frequent public appearances and field trips involving fine arts endeavors such as music, dancing, dramatic art, painting and other fields, make up a substantial portion of the student's collegiate program.

Presenting the colors

The Real West!

Pull on a pair of Levi britches and hand-tooled boots. Cock a ten-gallon hat to one side and feel more real comfort than you ever imagined. It's a great, free feeling, this Going Western. And, while entirely optional, it's considered the greatest thing in the world out West. Truly, there's no such thing as a "fashion vogue". People just like to take it easy and be comfortable. Even the most formal campus dances find many in Levis and boots. Unlike older areas of America nobody at Tempe is "expected" to wear starchy clothes, to speak in cliches, or join a social order.

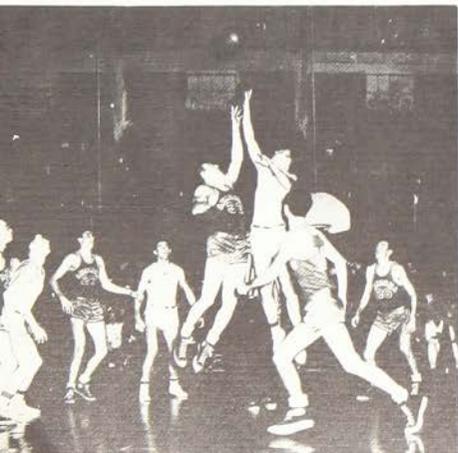

The Sun Devils

CONFERENCE CHAMPS IN MAJOR SPORTS

In the Border Conference (New Mexico, Arizona and western Texas) everyone knows and respects the colorful Sun Devil athletic teams. The fame of such individual ASC stars as All-American Whizzer White is spread over the U.S., and such non-conference team battles as the annual track meet with the Trojans of USC have brought wide recognition and following to Arizona. It was no accident that the Sun Devil football squad has been one of the nation's top offensive ball clubs, playing Xavier in the 1950 Salad Bowl. Or that the 1950 cagers bested Washington University of St. Louis. Young, well-trained coaches have guided ASC athletic fortunes to a place where fans always are assured of top-notch performances and ASC students get first choice when it comes to seats.

Recreation a Top Activity at A.S.C.!

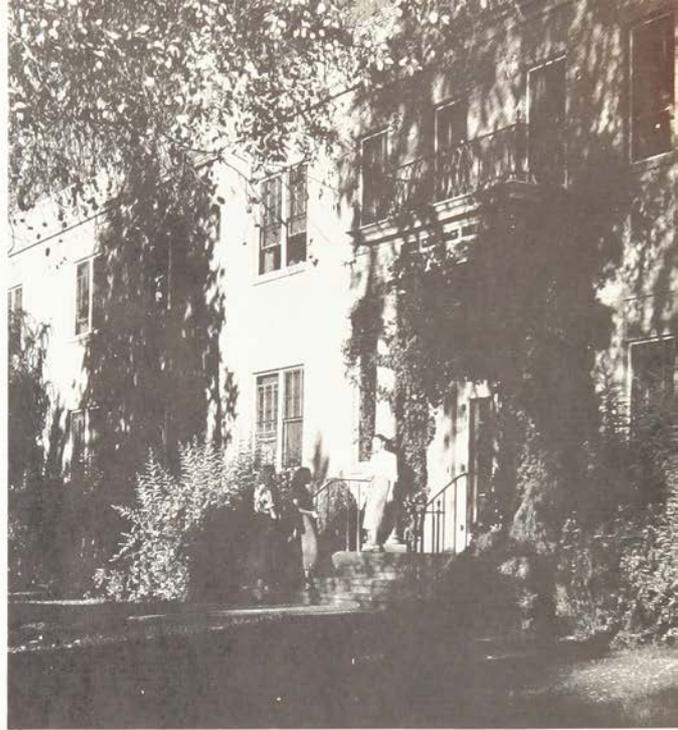

The field of participation may be narrowed to the best performers in the varsity sports of golf, swimming, football, basketball, tennis, baseball and track. But every ASC student can take advantage of the direct rays of a warm, healthful sun that shines almost daily. Western living is outdoor living, and there are opportunities galore for everyone to enjoy the mild climate and at the same time condition himself physically. On the campus and throughout the Valley of the Sun students can find ample recreational facilities for enjoying themselves any time of the year.

Campus-at-Home away from Home

The College is proud of the place its residence halls hold in the students' life on the Campus. No single influence may contribute more to the development of the personality and character of a young person than that of dormitory living.

Our residence halls (two new ones are under construction) are so equipped and managed to secure maximum living value at minimum cost.

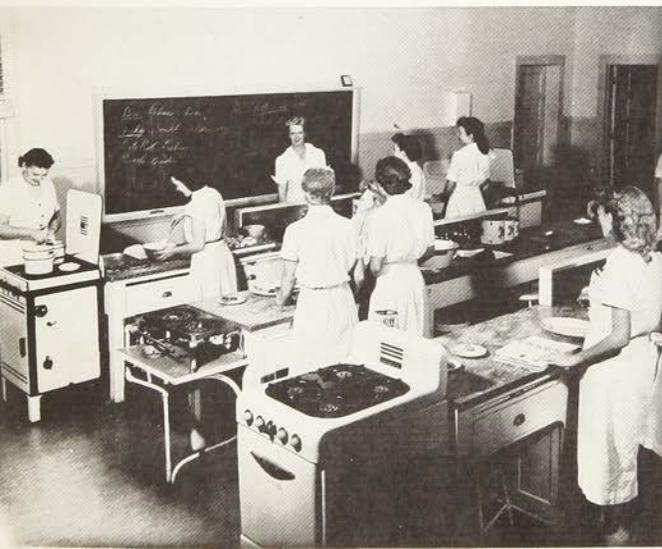

A.S.C. Students Learn by Doing!

Electronics students learn the practical way.

Completely equipped laboratories aid successful experimentation.

"If I'd known — I'd have baked a cake!"

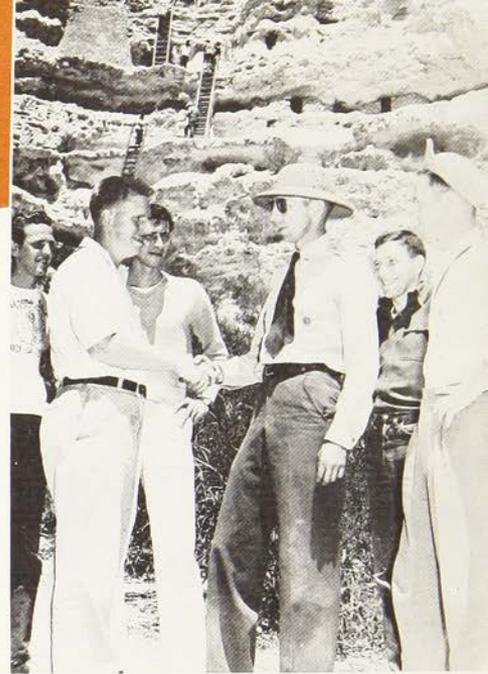

Future Winchell's ready for the Big Scoop!

The Democratic Way of Life
Takes on Real Meaning at ASC.

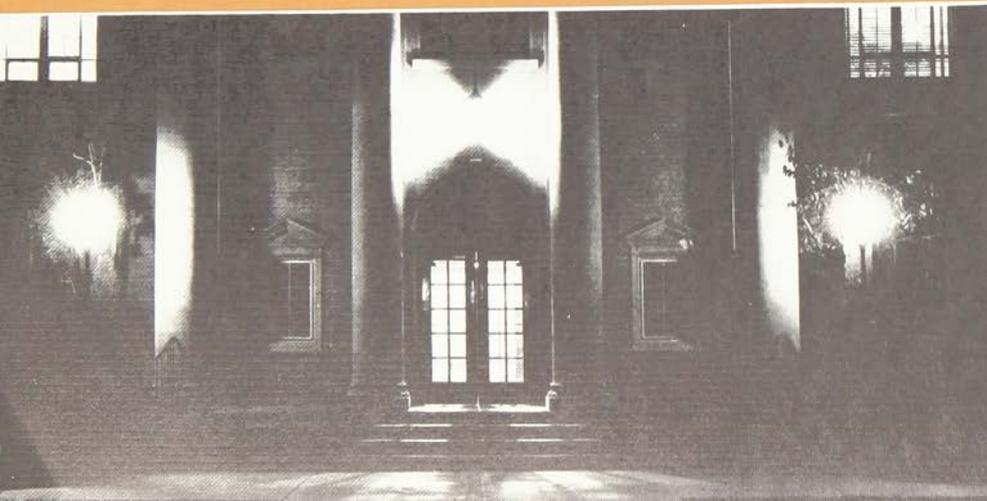

Student Life is Full!

There is something doing every minute! The social, fraternal, and special interests of every student will find an outlet with very special friends who join freely in cooperative efforts. From mountain climbing, life-saving, to just plain friendly "shooting the breeze", as well as some plain and fancy studying, ASC's students find their time fully occupied.

First impressions, they say, are important. Some impressions never leave you. The shady lanes—the cool, inviting vistas of Arizona State's campus will etch pleasant, never-to-be-forgotten scenes on your mind. The night-shadows, the softness of the desert breeze, the stillness of the western night will stay with you always.

The rainbow, we learned long ago, does have a pot of gold at its tip, could we but reach it. It is that eternal search for that wealth, whatever its final shape, that spurs each of us onward to do our best.

So few of us, though, reach that reward. And that, I think is perhaps because we lose sight of the hidden clues along the way that point to the secret paths. The unfortunate thing is that these same clues are probably quite obvious, once we open our eyes.

If you, as future leaders, teachers, citizens, Americans, will just look around you, as most of you are doing now for perhaps the first time, you'll find, I'm sure, that the vision toward the better things of life, a finer tomorrow, a peaceful world, is yours, if you will only recognize the little clues that point the way along the rainbow of today. Selflessness, sharing, tolerance, anxiety to know the truth — these are the doors to that hidden cache of golden nuggets — the gold of love, of knowledge, of world citizenship.

Think well, then, as you make your choice, on the course you will follow, now that you have finished your high school program. Start your search for the pot of gold in the only way it can ever be found — your quest for knowledge.

GRADY GAMAGE,
President

Welcome

Congratulations to the Associated Students and all the faculty and staff of the College for making this 1950 Homecoming something to remember! You've really made us feel at home, and that's saying a lot when the family has grown as big as ours.

My best wishes to '10, '20, '30 and '40, and especially to the Class of '25 — our Silver Jubilee bunch. Hope you are having a whale of a time.

I can't think of anything that's more pleasant than being an Alumnus of a great College. First of all, we "remember when" — those days when we were active in campus life. And, Homecoming gives us a chance to see our old buddies and relive some of the past that gets better with each rehashing. Finally there's the pride. Seeing your Alma Mater grow and add new fame makes us glad to keep in touch and help speed the progress.

Yours for making the most of HOMECOMING, 1950.

TOM LILLICO, '35
Alumni President
Arizona Representative for the
National Foundation for
Infantile Paralysis

Homecoming? We've never really been away!

The aim of any Alumni Association is to keep its members so closely linked to the College and to each other that they never feel separated.

The pride of one of America's greatest Alumni groups is expressed in the slogan: "The Dartmouth man is never out of college."

The Alumni Association of ASC is doing its darndest to approach that goal.

And I think the 6,500 alumni on our lists will agree that it's a wonderful thing to get a quarterly magazine telling what the college is doing, who's married, who has a new baby, and what alumni can be found in Pago Pago or the Sahara.

It's wonderful to have reunions in cities throughout the world, and at Homecoming time. Convenient to write the Alumni Office at any time and get Joe's address — or Sally's.

Our job in the Alumni office is to do all these things better every year, and that we pledge to try! With your help.

JIMMY CREASMAN, '35
Executive Secretary, Alumni Association

Alumni Service Awards

JOHN R. SANDIGE, '14
Winner of the 1950 Alumni Service Award

Winner of the third annual ALUMNI SERVICE AWARD is John R. Sandige, '14.

Known as "Bugs" because of his interest in entomology while in school, John Sandige qualifies for the Alumni Committee's unanimous choice by more than thirty-six years of loyalty and service to the College and to the Alumni Association.

Five times president of the Alumni Association, Mr. Sandige helped found the Alumni Loan Fund and has served as Fund Trust Officer for the past fourteen years, during which time the fund has grown to nearly \$25,000.

He was a member of the College Board of Education in 1930-32 and 1936-38. He furthered the passage of the legislative measure providing for a

unified Board of Regents for the University and State Colleges of Arizona, and helped in the establishment of the Alumni Housing Project for veterans on our campus.

John R. Sandige is a member of the Agricultural Advisory Committee for the new four-year agricultural program at the College.

A Phoenix realtor, he is past president of the Phoenix Real Estate Board. He has been a member of the Phoenix Creighton School Board for the past twenty-two years.

Two of his three children are graduates of the College. They are John D. Sandige, '42, and Helen (Sandige) Hinkle, '46.

POSTHUMOUS ALUMNI SERVICE AWARD

A posthumous Alumni Service Award is made in memory of Clarence M. Paddock, '03, "Father of the Alumni Loan Fund."

Elected first chairman of the Alumni Loan Fund board of trustees in 1920, Clarence Paddock was officially designated as the "father" of that fund by the Alumni Association in 1929. Through the years from 1920 until his passing in 1942, Mr. Paddock was the principal architect of the loan fund, serving continuously as its chairman. He was President of the

Alumni Association from 1920-23 and many times member of the Board of Directors.

His wife, the late Serretta Anne (Sirriner) Paddock, was a member of the Class of '01, and three children were graduates of the College: the late Warren LeRoy Paddock, '33, deceased in combat in World War II; Francis C. Paddock, '32, of Newport, Washington, and Serretta Mary (Paddock) Gibson, '41, of Phoenix.

"Ole '25 Reunion"

Clarence C. "Cap" Nolan, president of the Class of '25, receives an ASC Sun Devil pennant and a gracious welcome-home from Miriam Soper of the College Bookstore

Hail to the Silver Jubilee Reunion of the Class of 1925. Two hundred twenty-five members were graduated a quarter century ago, and many are back for the "Silver Scramble."

Winner of the prize for coming the greatest distance to the reunion is Arthur E. "Turk" Way of Washington, D. C., whose daughter, Wanda, is now enrolled at the College.

Clarence C. "Cap" Nolan was Class President. He now lives in Florence. "Cap" presided over a class that was unique: it was the last class to be graduated from Tempe Normal. Memorable indeed was the celebration marking the step forward to a Teachers College that year.

Aaron McCreary, '15, was football coach in 1925 and the season saw victories over all opponents except the Phoenix Junior College Alumni. The late Delbert Goddard, '25, was captain, and "Pony" Pomeroy was quarterback. '25 commemorated its graduation by presenting eighty fine volumes of literature to the College library.

The Class of 1925 is back home today under the slogan, "Ole Twenny Five — Let's Keep 'Er Alive!" All hail!

They Come Home

Charles Haigler, '02, "All-Time Football Great" of the College, shows Wilford White how to do the hidden-ball trick.

Charley played on the first Normal football team in 1896 and sparked the Normal's first victory over the University in '99 by "plunging through the line like a thousand brick" as one of the spectators remarked.

Haigler is perhaps the only man in history to hold lifetime passes at two different schools. After winning immortality at Tempe he played four years at the University of Southern California where he now serves as steam engineer.

He has a standing invitation to sit on the Sun Devils' bench any time he attends a game.

Kate (Cummings) Baldwin, '88, eldest returning graduate, puts her name on the 1888 Class List at Homecoming registration. She lives in Jerome.

Mrs. Baldwin was on campus for the first day of classes at the Territorial Normal School in February of 1886. She enjoys pointing out the spot where she used to tether her horse during school hours and stoutly maintains that she would still like to ride a horse in the Homecoming Parade.

Addressing Alumni at the 1948 Homecoming, Kate said, "I am amazed at the growth of my school, but I know — as the old proverb goes — mighty oaks from little acorns grow."

Homecoming King and Queen

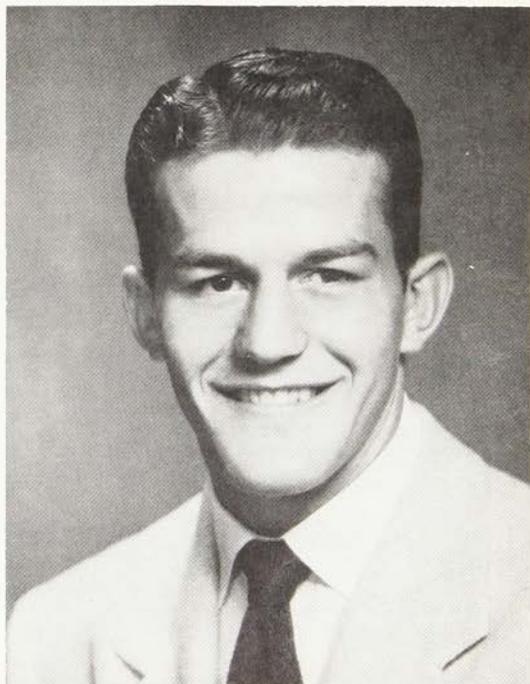

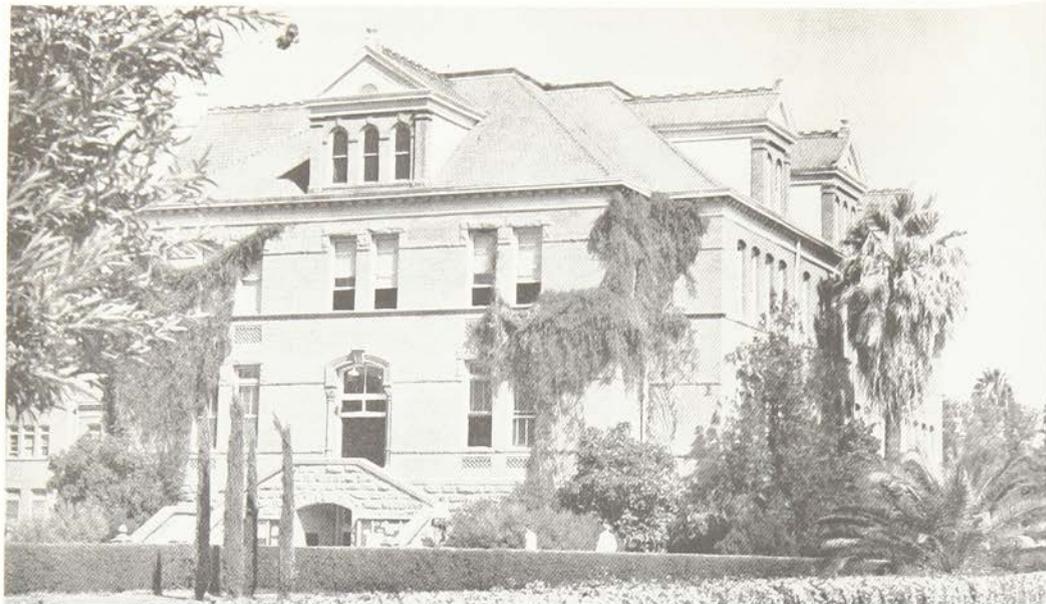

Jean Smith, a Junior from Phoenix, reigns as Homecoming Queen. Attractive Jean is one of the most popular and energetic girls at ASC. She is president of the Off-Campus Women; is a member of the A. W. S. Council, and belongs to Alpha Delta Pi sorority.

The Homecoming King is Mark Markichevich, hard-hitting halfback for the ASC football squad. Mark is a Senior from Globe, majoring in P. E.

This is his fourth year as a stand-out in the powerful Sun Devil back-field.

OLD MAIN

The **OLD**
and
The **NEW**

Old grads will want to inspect the Arizona State campus, which has gone through radical changes in recent years. Stately buildings like Old Main still grace the campus, but there are a host of new buildings.

Biggest items of a current \$2,500,000 building program are the new administration building at the corner of Orange and College Avenues, the Matthews Library expansion, the new men's dormitory, new women's dormitory and a home economics building.

Arizona Republic

Tonight's Game

It has been the custom in long-range pre-season planning by Arizona State followers — and even since the season started — to consider San Diego State as one of the softer touches in the Sun Devil schedule.

Many have gone so far as to consider the scheduling of the Aztecs as a brilliant stroke, since they were placed in the spot a week ahead of the "big" Arizona game and therefore would furnish just enough opposition to keep the Sun Devils sharp without endangering the won-lost record too much.

But the Southern California club suddenly has appeared on the horizon as a full-fledged threat after a slow start and some horrifying breaks that have prevented an imposing record on the field.

San Diego State has banged into some of the top powers in small school circles in the Golden State with considerable success and no loss of prestige. The Aztecs see no reason tonight for conceding the victory to Arizona State forthwith.

And the Sun Devils, who might go into the game with their eyes fixed on the future, could well stumble

over a large and impressive block in the persons of the Aztecs.

The Devils, in the past, have played some games in which they worried more over how much yardage was to be added to their nationally noted total and over how well Wilford (Whizzer) White would do in his personal bid for All-America notice than they did over the problem of winning the game. The victory in those cases was considered a foregone conclusion.

This time they might face a fight for the actual victory in a game which might prove embarrassing should they put forth less than their best effort.

And in this game the Sun Devils are expected to produce more fine passing by Manuel Aja to add punch to the running of White, Marko Markichevich and himself, and the passing of Bobby Hendricks. The Devils should unveil their most versatile attack against a team that also has all the weapons at its command.

In short, a fine game is in prospect.

Baker-Thomas STANDS Behind You

The bleachers for tonight's game were provided by Baker-Thomas Co. Telephone 4-5503 for information on bleacher rentals for all occasions.

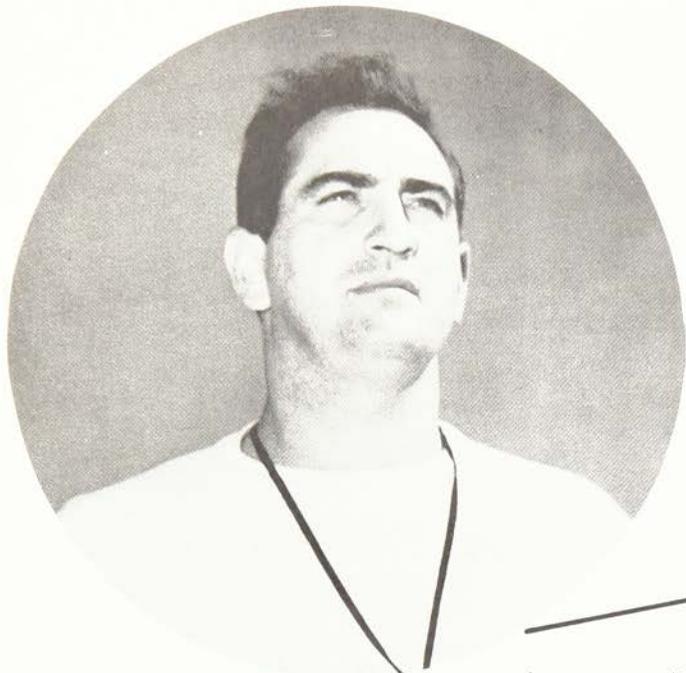

Baker-Thomas carries a complete line of nationally known building supplies. For expert assistance in solving your building problem, see Baker-Thomas, 300 South 12th Street, Phoenix.

COACHES

ED DOHERTY, Head Coach

Devastating offensive machines materialize wherever Ed Doherty, former ace quarterback of the Boston College Eagles, takes over. His BC team of 1942 piled up yardage and touchdowns as if by magic. Notre Dame, where he had his first college coaching experience in 1946, is always a powerhouse and the Boston College team he helped coach in the fall of 1946 was just as offense-minded.

Each of his three Sun Devil football teams has been a higher-scoring club than its predecessor, and the 1950 aggregation may top them all. He's a brilliant T-formation strategist and last season was selected by his fellow coaches as Border Conference "Coach of the Year".

BILL QUINN, Assistant Coach

Doherty's No. 1 assistant, another Boston College alumnus, directs offensive line play at Arizona State. He's the guy who supervises the team's conditioning drills and is largely responsible for the Sun Devils' excellent physical condition.

WALT RUTH
Line Coach

Another former Arizona State grid-iron great, Ruth directs the defensive line play. Coached at Glendale and North Phoenix high schools before joining the ASC staff last year. He's a hard-working guy himself and expects plenty of effort from his linemen.

BILL KAJIKAWA
End Coach

One of the Sun Devils' busiest coaches, Kajikawa assists in football and is head coach of the basketball and baseball teams. He's another all-time Arizona State athletic star and a systematic, conscientious coach.

AL ONOFRIO
Backfield Coach

This former Arizona State backfield star puts the backs through their paces and serves as the team's chief scout. He also finds time to direct the college intramural program. Was one of the nation's top punters in the days just before World War II.

DRUM BISSETT
Trainer

Team's head trainer. Bissett was active in YMCA physical education work in Massachusetts before coming with Doherty to Arizona State. His efforts keep injuries to a minimum.

HOME OF THE AZTECS

The library tower, beautiful traditional symbol of San Diego State College campus. Housed in the tower are the Fletcher Chimes which toll out each 15 minutes and are used for concert purposes.

San Diego State College, which renews football relations with Arizona State College tonight after an 11-year gap, is one of the leaders among California's fast-growing group of state colleges.

With its enrollment nearing the 5,000 mark (4,819 last year following a steady climb since the war), it stands second among California's state colleges (only San Jose State is larger) and sixth largest institution of higher learning in the Golden State.

Founded in 1897 as a two-year normal school, the college's first faculty numbered seven members and the student enrollment was 99. Its growth and development through the years has been constant. In 1923 it became a four-year institution — the San Diego State Teachers College. And in 1935 it became a regional liberal arts college with an expanded curricula, and the word "Teachers" was dropped from the title.

In 1946 it was authorized to inaugurate a fifth year of graduate study leading to the general secondary teaching credential. In 1949 it was empowered to grant the Masters Degree in Education, and to date 12 MA's have been granted.

Located on a spacious campus (227 acres) just 10 miles from the heart of San Diego, the college (still in the process of development under the master plan) has become known as one of the most beautiful in the West. The buildings are of Spanish-Moorish architecture, well suited to the surrounding land.

President of the college is Dr. Walter R. Hepner, who succeeded Dr. Edward L. Hardy in 1935.

Main entrance to San Diego State College. Left to right: Music Building (barely showing on extreme left), Little Theatre (with high bare wall), Administration Building (with bell tower over main entrance to quad), and the Library Tower in background.

San Diego State College COACHES

BILL SCHUTTE

Bill, launching his fourth campaign as head man at San Diego State, has a good 3-year record behind him. His three Aztec varsity squads have a combined won-lost record of 17-12-1.

A local product, Bill did his prep footballing at San Diego High School. From there he went to Idaho U., where he won three varsity letters at center, and was also a varsity baseball letterman. Following graduation from Idaho in 1933, Bill returned to his home town to join the San Diego High coaching staff. Next stop was Kansas State (1940) and an assistant coaching job. He remained there until the war, and served four years in the Navy before returning to KSC.

Next post for the 40-year-old bachelor Bill Schutte was San Diego State. He took over the head coaching reins in 1947 when Bill Terry was upped to P. E. department chairmanship. In his first season at the Aztec helm, Bill produced a squad which had a 7-2-1 slate. After an unimpressive 4-7 mark the following year, the Aztecs came back up last year, winning 6 against 3 losses. That '49 aggregation was the highest scoring Aztec team since '24.

CHARLIE SMITH

A former all-around athletic star at San Diego State, Charlie Smith has the multiple duties of Athletic Director, Head Baseball Coach and Assistant Football Coach. He keeps busy but manages to do a good job in all capacities. In his playing days at SDSC, Charlie won 12 varsity letters.

CARL BENTON

That man from Mobile, with pleasant drawl attached, will be working with the backs again in '50. He came to Montezuma Mesa after graduation from UCLA in 1948. As a Bruin he got plenty of experience as a T-quarterback and has done a good job with the Aztec T-men. Carl recently joined the ranks of married men.

GOODWIN STADIUM

Information

The department of Intercollegiate Athletics is anxious to render the maximum service to the patrons of the State College at Tempe. This includes those in the Ticket Office, ushers, campus police, vendors and other attendants on game days. We are happy to receive your many letters of appreciation in recognition of the courtesies our staff attempts to render. We hope our patrons will find some of their questions answered below.

PASS OUT GATES

Patrons desiring to leave the stadium and return while the game is still in progress are asked to use the Pass Out Gates. These gates are located at the south end of the East Stadium and at the north end of the West Stadium.

EMERGENCY CALLS

Individuals attending the games at Goodwin Stadium should record their Section, Row, and Seat number of tickets at home or in their office. The public address system will not be used for calling spectators from the stands.

In case of emergency, telephone the press box, 4262. Individuals will not, however, be paged over the loud speaking system.

PUBLIC TELEPHONES

Public telephones are located on the concourse at the entrance to the East Stadium. Telegrams may be telephoned to Western Union from this coin box telephone.

REST ROOMS

These are located as follows: For men— at the north end of the West Stadium; portals 1 and 4 of the East Stadium, first landing. For women— at the south end of West Stadium; Portals 1 and 4 of the East Stadium, second landing.

"WILL CALL" TICKET SERVICE

Individual game tickets may be reserved by phone. A call to the Associated Student ticket office (No. 311, Tempe) will provide you with information on tickets available. The tickets of your choice will be held for you at the "Will Call" booth — south end of East Stadium concourse. This booth will be open from 2 P. M. until 7:45 P. M. the day of the game. Tickets reserved by phone must be purchased by 7:45.

LOST AND FOUND ARTICLES

Should you lose an article while attending a game, call at the Associated Student office located on Orange Avenue by the Men's Gymnasium. After each game, employees of the field gather articles left by the spectators and turn them over to the Associated Student Ticket Office. We also request that spectators finding articles deliver them to the Associated Student Ticket Office promptly.

THE OFFICIAL PRICE LIST

Your attention is called to the following official price list for the various commodities sold at Goodwin Stadium.

Sun Devil **BAND**

700-Piece Band

Yes, here they are — 700 Arizona high school musicians combined into one giant band for half-time festivities at last year's Homecoming football game in Goodwin Stadium. The state's high bandsmen will mass again tonight for another Homecoming spectacle.

At Halftime - tribute to Sousa

For the past three years the Sun Devil Band has been host to visiting high school bands from all over the state. The bands here this evening represent Tempe, Mesa, Chandler, Globe, Safford, Snowflake, Scottsdale, Glendale, Buckeye, Peoria, Wickenburg and Prescott. These bands participated in the Homecoming Parade and will perform en masse at this evening's half-time.

John Phillip Sousa, the "March King" of all time, is perhaps the world's best known writer of march music. The bands are dedicating the show to this great man of music. "Tribute to Sousa" will be the theme of the presentation, which will feature some of his best known marches, including "U. S. Field Artillery March", "El Capitan", "The Liberty Bell", and "Stars and Stripes Forever".

After the game members of all visiting bands are invited to a uniform ball at the Tempe High School gym. The Sun Devil swing band will provide music for dancing.

Reviews and Previews

By **DEAN SMITH**
ASC Sports Publicity Director

Big Game time again!

By automobile, train, plane and bicycle, the state's football faithful will head for Tucson next Saturday night to see Arizona State's Sun Devils take on the University of Arizona Wildcats.

The University's underrated sophomores have done amazingly well this season. They won their spurs by upsetting rugged Hardin-Simmons and two weeks later upped their national rating again by playing Colorado a better game than Nebraska had displayed against the same club.

Comparison via Hardin-Simmons gives the Wildcats a 31-point edge in next week's battle, but the Sun Devil fans are sure their team will do much better than that. The Devils want desperately to be the first ASC team in history to beat Arizona on their home field.

Coach Ed Doherty's crew will be up against ace

passer Bruce McCauley, veteran ball carrier Ed Wolgast and a flock of other fine backs. In addition, the Arizona line is big and fast. It looks like a rugged evening ahead for the Devils and a great game in prospect for the fans.

Next Home Game — Colorado A & M, Nov. 18 . . .

Following the University of Arizona battle, the Sun Devils return to Goodwin Stadium Nov. 18 to face Colorado A & M, conqueror last Saturday of Utah State by a 33-13 score. Arizona State took a 28-0 win from Utah State, so the Nov. 18 battle should be the closest of the entire home series.

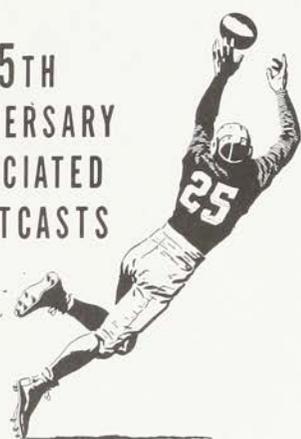

ASC 49, N. M. Aggies 0

Although off to a slow start, the Sun Devils came back like a whirlwind in the second half to win their third Border Conference game of the season last Saturday night, beating the New Mexico Aggies 49-0.

The Devils unveiled a revitalized passing attack, with Manuel Aja the principal tosser. Wilford "Whizzer" White scored three TD's, two on pass receptions and another on a 60-yard run. Don Fancher played a fine defensive game and Bob Fuller ran his extra point record to 30 conversions in 31 tries.

Pass incomplete, no score; no play; declines penalty.

Crawling by ball carrier (penalty 5 yards); Pushing or pulling ball carrier (penalty 15 yards).

Off Side (penalty 5 yards).

Clipping, slopping, piling up, roughing kicker, unnecessary roughness (penalty 15 yards).

Player making illegal motion (penalty 5 yards; shift (penalty 15 yards)).

Delaying the game; extra time out (penalty 5 yards).

Illegal use of hands and arms by defensive player (penalty 5 yards); by offensive player (penalty 15 yards).

Intentional grounding of pass (penalty 5 yards); to avoid being thrown for loss (penalty 15 yards).

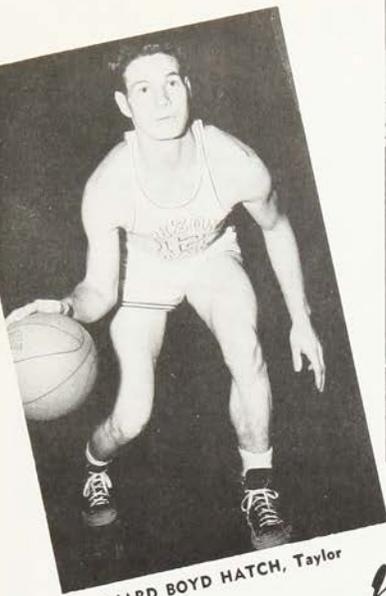

Passing from less than 5 yards back of line of scrimmage (loss of down).

Score. Criss-crossing hands rapidly — Time Out. Palms brought together — Safety.

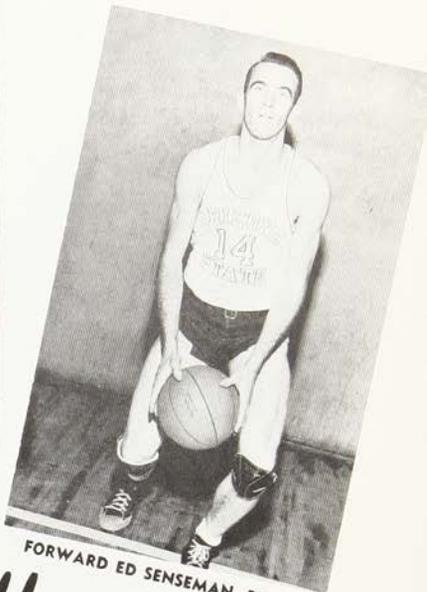

Vigorous and determined motion toward offensive goal — First Down. Arm swung in clock-like motion — No more Time Outs, Start Clock.

GUARD BOYD HATCH, Taylor

CENTER WADE OLIVER, Phoenix

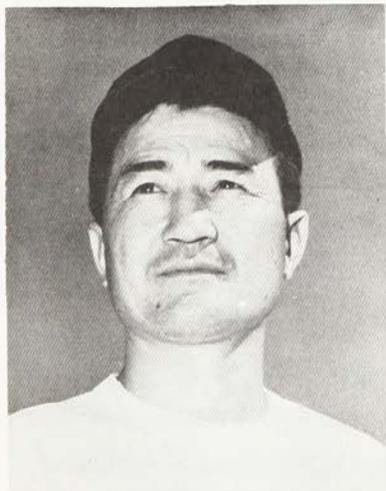

FORWARD ED SENSEMAN, Peoria

Basketball

Paced by center Wade Oliver, who last year led the Border Conference in scoring, Arizona State's Sun Devils face the toughest basketball slate in their history. Practice is already under way in preparation for the December 1 opener against the University of Southern California.

The only two other returning lettermen on the squad are Capt. Boyd Hatch, guard, and Ed Senseman, forward. A good sophomore crop and several junior college transfers will strengthen the squad considerably, however.

Assisting Kajikawa will be Glenn Barlow, assistant coach; Senon "Baldy" Castillo, freshman coach; and Scotty Fry, manager.

HEAD COACH BILL KAJIKAWA

1950-51 ARIZONA STATE BASKETBALL SCHEDULE

- | | |

| | 27. Texas Tech at Tempe |
| MARCH | 5. U. of Arizona at Tempe |

FROM THE *Devil's* CAULDRON

DONN KINZLE

It is a great pleasure to welcome the Alumni back to the home campus and the battleground of Sun Devil athletic teams. Quite frankly, we look forward each year to the Homecoming Day in order to renew old acquaintances and to get the inside information from all of you, who are in most instances, living away from Tempe.

Speaking as an Alumnus, Class of 1942, I am happy to report that the progress of your college athletic program has been outstanding in the past three years. One of the most prominent examples of this Arizona State athletic progress is the candidacy of Wilford "Whizzer" White for All-American. It might be noted here that the college athletic teams are no longer classed in the minor league and the Whizzer is being considered very seriously throughout the entire nation for the big All-American team. The Whizzer's candidacy is one of the many facets of an innervated program which is carrying our Sun Devil teams into a position of national sports prominence.

The Department of Athletics bids you welcome and is ever anxious to render to you the highest possible service. We sincerely appreciate your ever helpful suggestions and continued support.

Yours for a finer Arizona State College

MESA'S PROUD

Yes, folks in Mesa are proud of their three representatives on the Sun Devil Squad, Bob Fuller, Wilford White and Jess Pease. They're all key men — fellows who would make the grade on any football team in the country.

Mesa is understandably proud, too, of its progressive merchants and its modern shopping district.

Here you'll find selections of merchandise unsurpassed even by the great metropolitan areas. Prices are right, the service is excellent and there's seldom a parking problem.

Plan now to come to Arizona's third largest city on your next shopping trip. You'll be glad you did.

GOOD LUCK, SUN DEVILS
