To the Grand Council of the International Fraternity of
Delta Sigma Pi

Dear Members of the Grand Council:

We, the undersign members of the Nu Delta Chi colony, hereby
petition for a charter to establish a chapter of the International
Fraternity of Delta Sigma Pi on the campus of Washburn University,
Topeka, Kansas.

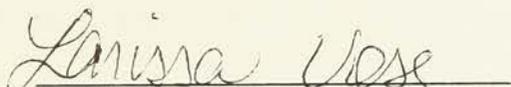

Nu Delta Chi colony was formed exclusively for the purpose of
affiliation with Delta Sigma Pi Professional Fraternity. The
present goals, purposes, and requirements reflected in our
constitution and bylaws were patterned after and are commensurate
with the same high ideals of Delta Sigma Pi.

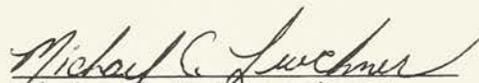

In pursuit of this affiliation, the members of Nu Delta Chi colony
pledge to uphold the rules and regulations as set forth in the
constitution and bylaws of the International Fraternity of Delta
Sigma Pi and further to carry out its tradition and programs.

Witness our signatures:

Dear Council:

I am writing at the request of Max Gilkey to manifest my support for the petition to establish a chapter of Delta Sigma Pi at Washburn University. I strongly support said petition and believe that approval of such would result in a mutually beneficial relationship between Washburn University's business student community and your organization. I hope that you act favorably upon the Washburn petition.

Sincerely,

Hugh L. Thompson

To Whom It May Concern:

It has come to my attention that the Washburn University Delta Sigma Pi organization has petitioned to advance their colony to a chapter affiliated with your International fraternity. As Alumni Director and graduate of the Washburn School of Business, I have interacted with our Delta Sigma Pi organization and feel that an active chapter here would benefit your International fraternity and Washburn University.

The Delta Sigma Pi colony here has been visible and active on the Washburn campus. It has attracted energetic and professional business students who I expect will do very well in their pursuits as alumni! I hope you will act favorably upon their request.

Yours sincerely,

Jeanne Hoferer
Director
Washburn Alumni Association

RE: Reactivation of Nu Delta Chi

Dear Members of the Board:

The attached petition is from the Nu Delta Chi Colony of Delta Sigma Pi at Washburn University. Since the beginning informational meeting at the University to the current time, it has been the goal of this group to reactivate the Delta Chi Chapter of the International Fraternity of Delta Sigma Pi.

Since my first meeting with the colony, I have continually been impressed with their professionalism, persistence and dedication. They are a very innovative group in that they are always looking for ways to better the community, the University and their own organization. Guidance from their District Director, Delta Sigma Pi alumni and University faculty have greatly added to the polish of this successful colony.

I strongly support the Nu Delta Chi colony in their petition to re-establish the Delta Chi Chapter of the International Fraternity of Delta Sigma Pi at Washburn University. The Colony has exhibited the initiative, enthusiasm, professionalism and dedication that would again make it an outstanding chapter of Delta Sigma Pi.

Fraternally,

A handwritten signature in cursive script that reads 'Shanda R. Gray'.

Shanda R. Gray
Midwestern Regional Director

July 27, 1994

To the Board of Delta Sigma Pi:

I, Ed Zeller, am strongly recommending that we add the Nu Delta Chi colony as a new chapter to our international organization. I have a variety of reasons for making such a recommendation, as I have been involved with the colony since September of 1993.

This colony has been dedicated to becoming a chapter of this professional fraternity, which has been demonstrated through their pursuit after being denied in May of 1994. They are continuing to work on fulfilling their requirements to be accepted.

The colony has been a positive, active influence on the campus of Washburn University. They are receiving both faculty and administrative support, since the activities the colony sponsors have been both educational and fun for the students and faculty.

The colony has been active in interacting with the business community, through tours, visits and meetings at various establishments within the community.

I strongly feel that this colony has the potential to be the type of chapter we want on a campus. A chapter that will promote the welfare of students, campus and community through professional and social activities.

Fraternally yours,

Edward K. Zeller

330 S Campus Ave
Oxford, OH 45056-0230

Dear Brothers,

I am writing on behalf of Delta Sigma Pi colony Delta Chi #595, Washburn University, Topeka, KS to express my support for reinstatement of chapter status.

It has been my distinct pleasure to be a member of this fraternity. The Delta Chi colony has been making great efforts to become one of the finest fraternities on the Washburn campus. I have witnessed the increased enthusiasm and activities personally. I returned to Washburn University two years ago to pursue my Bachelor of Science in Nursing and consequently on campus to witness their progress.

The colony has arranged activities, both professional and social. It has distributed food collection boxes throughout campus for donations to be given to the needy. The students are goal oriented and are experiencing true leadership and management skills. And I'm sure there are many other activities of which I am not aware.

My time spent as a business student was one I will always cherish and the Delta Sigma Pi fraternity was an important part of that education. It would be disappointing to see all of the efforts of these fine young students wasted by not granting reinstatement.

Fraternally,

James D. Bloomar

Dear Brother Coleman:

Delta Sigma Pi should be re-established at Washburn University. While the fraternity was active at Washburn, it provided a catalyst for developing future leaders. It was a respected organization with solid reputation for advancing Washburn's goals.

I will be glad to offer any support I can in re-establishing a chapter of Delta Sigma Pi at Washburn University

Good luck in your efforts.

Sincerely,

Reik Enewold

TO WHOM IT MAY CONCERN:

During the past five years, I have been teaching in the School of Business at Washburn University, Topeka, Kansas. Prior to coming to Washburn, I taught for twenty-nine years at Emporia State University, Emporia, Kansas, from where I retired.

Two years ago several business students contacted me to consider being an advisor of Delta Sigma Pi Business Fraternity which was inactive. We agreed that we would take a semester or two to study the needs and to determine if a sincere interest existed and, too, to learn if there was faculty interest. We found that both existed.

In February 1993 we decided to begin the necessary procedures to begin a Colony. The interested students began meeting weekly and continuing such meetings throughout the summer months. Too, during this time money-raising projects were initiated.

When the students returned in August 1993, the officers and those student who had been meeting began recruiting. Over the years I have sponsored many collegiate organizations. This group by far exceeded all expectations.

I urge you to consider favorably in re-establishing an active chapter of Delta Sigma Pi on the Washburn University campus. These students will represent the Fraternity at the highest level, and I will work with them to make the chapter at Washburn one of the leading chapters in the nation.

To Whom It May Concern:

As a graduate of Washburn University with a BBA degree in '63 I'm proud to write this letter in support of the group attempting to re-establish Delta Sigma Pi fraternity.

When I attended Washburn I belonged to a national social fraternity which was just that, however, it was affiliation in and association with Delta Sigma Pi members that helped me in the direction that proved fruitful in my business career. Believe that reestablishing it at Washburn will also help other business oriented college students.

Sincerely,

JR:eb

Retirement: A New Beginning for Richard F. Reicherter

Richard F. Reicherter is serving as an Adjunct Professor in the School of Business at Washburn University. Reicherter is Professor Emeritus from Emporia State University where he taught for 29 years. He is completing his 51st year of teaching at all levels in both teaching and administration in Kansas.

Professor Reicherter is a native of Marshall County and attended country school in the Lillis community. After graduation from Marysville High School, he attended Pittsburg State for one year. He began his teaching career in a country school near Lillis. After two years of teaching in rural schools, he was an elementary principal-teacher at Emmett.

Following 3½ years in the Army Air Corps, he completed his undergraduate work in economics and business at Washburn University. His advanced degrees are from Columbia University.

He began secondary teaching at St. Marys where he later became principal. As a business teacher at St. Marys High School, Reicherter organized the first chapter of the Future Business Leaders of America in Kansas. He was the Kansas state chairman and was chairman of the board of directors of the national organization in Washington, D.C. At the close of his term on the national board he was given an honorary life membership in the organization.

For 18 summers Reicherter was director of the graduate program in Business and Office Education at The Catholic University of America, Washington, D.C. During the summer of 1984, he was visiting professor at the University of Bethlehem in Israel.

He conducted many workshops and seminars throughout the country including the University of Oregon, Eugene, and Oregon State college, Ashland. At various times he taught in the Evening College at Washburn University. While on sabbatical leave one semester, he taught at Columbia.

Reicherter was very active in the Emporia community and is past president of the board of directors of the Emporia Senior Center and a past director of the center. He was the silver-haired legislator from Lyon County and was director of development for the Kansas Silver-Haired Legislature.

Several years ago at homecoming, the ESU Blue Key Chapter which Reicherter started in May 1961, honored him with a permanently endowed Richard F. Reicherter Blue Key National Honor Fraternity Scholarship. Two scholarships are awarded yearly. Several years ago the national headquarters

of Blue Key was moved from New Orleans to Emporia, where Reicherter is chief executive officer of the fraternity. He plans to maintain this position, which includes considerable travel.

His colleagues in the school of business honored him at a luncheon and gave him a retirement gift. A speaker said that Reicherter's professional life had followed John Wesley's famous rule for living: "Do all the good you can, To all the people you can, At all the time you can, As long as ever you can."

He is a member of the Marysville High School class of 1938 and served as president of the Marysville Alumni Association for seven years. In addition to serving as National President and Chief Executive Officer of Blue Key National Honor Fraternity, he is advisor to the Blue Key chapter and Delta Sigma Pi Business Fraternity at Washburn University.

HISTORY OF WASHBURN

Washburn is one of the numerous American colleges of Congregational origin. In the spring of 1857, only three years after the settlement of Topeka, the General Association of Congregational Ministers and Churches of Kansas voted to investigate the possibility of establishing a college in Kansas. Topeka was the final choice.

On February 6, 1865, the state issued a charter to Lincoln College. Classes began in January of 1866. Early announcements emphasize the fact that the quality of instruction was to be equal to that obtainable in the best colleges "at the East."

Lincoln College became Washburn College in November of 1868 in recognition of a gift of \$25,000 by Deacon Ichabod Washburn of Worcester, Massachusetts. Much of the financial support of the institution for many years came from New England philanthropists who were concerned for the advancement of education in this part of the country.

The first building on the present campus, later named Rice Hall in recognition of the untiring labors for Washburn of Harvey D. Rice, was occupied for the first time in the fall of 1874.

Peter MacVicar, one of Washburn's great men, became president in February, 1871, and until June, 1895, guided the institution through critical years of hard times, grasshopper plagues, drouth, and every kind of difficulty, years marked by growth in the face of what must often have seemed unsurmountable obstacles. Improvement of the campus, development of a devoted faculty and a sound student body, expansion of course offerings, and financial strengthening of the institution went on in spite of all the difficulties.

The early years of the twentieth century mark a period of expansion. The School of Law was organized in 1903, along with the School of Fine Arts, later called the School of Music and then the departments of music and art. Also in 1903 the Kansas Medical College became the Medical School of Washburn College; it continued until July 1, 1913.

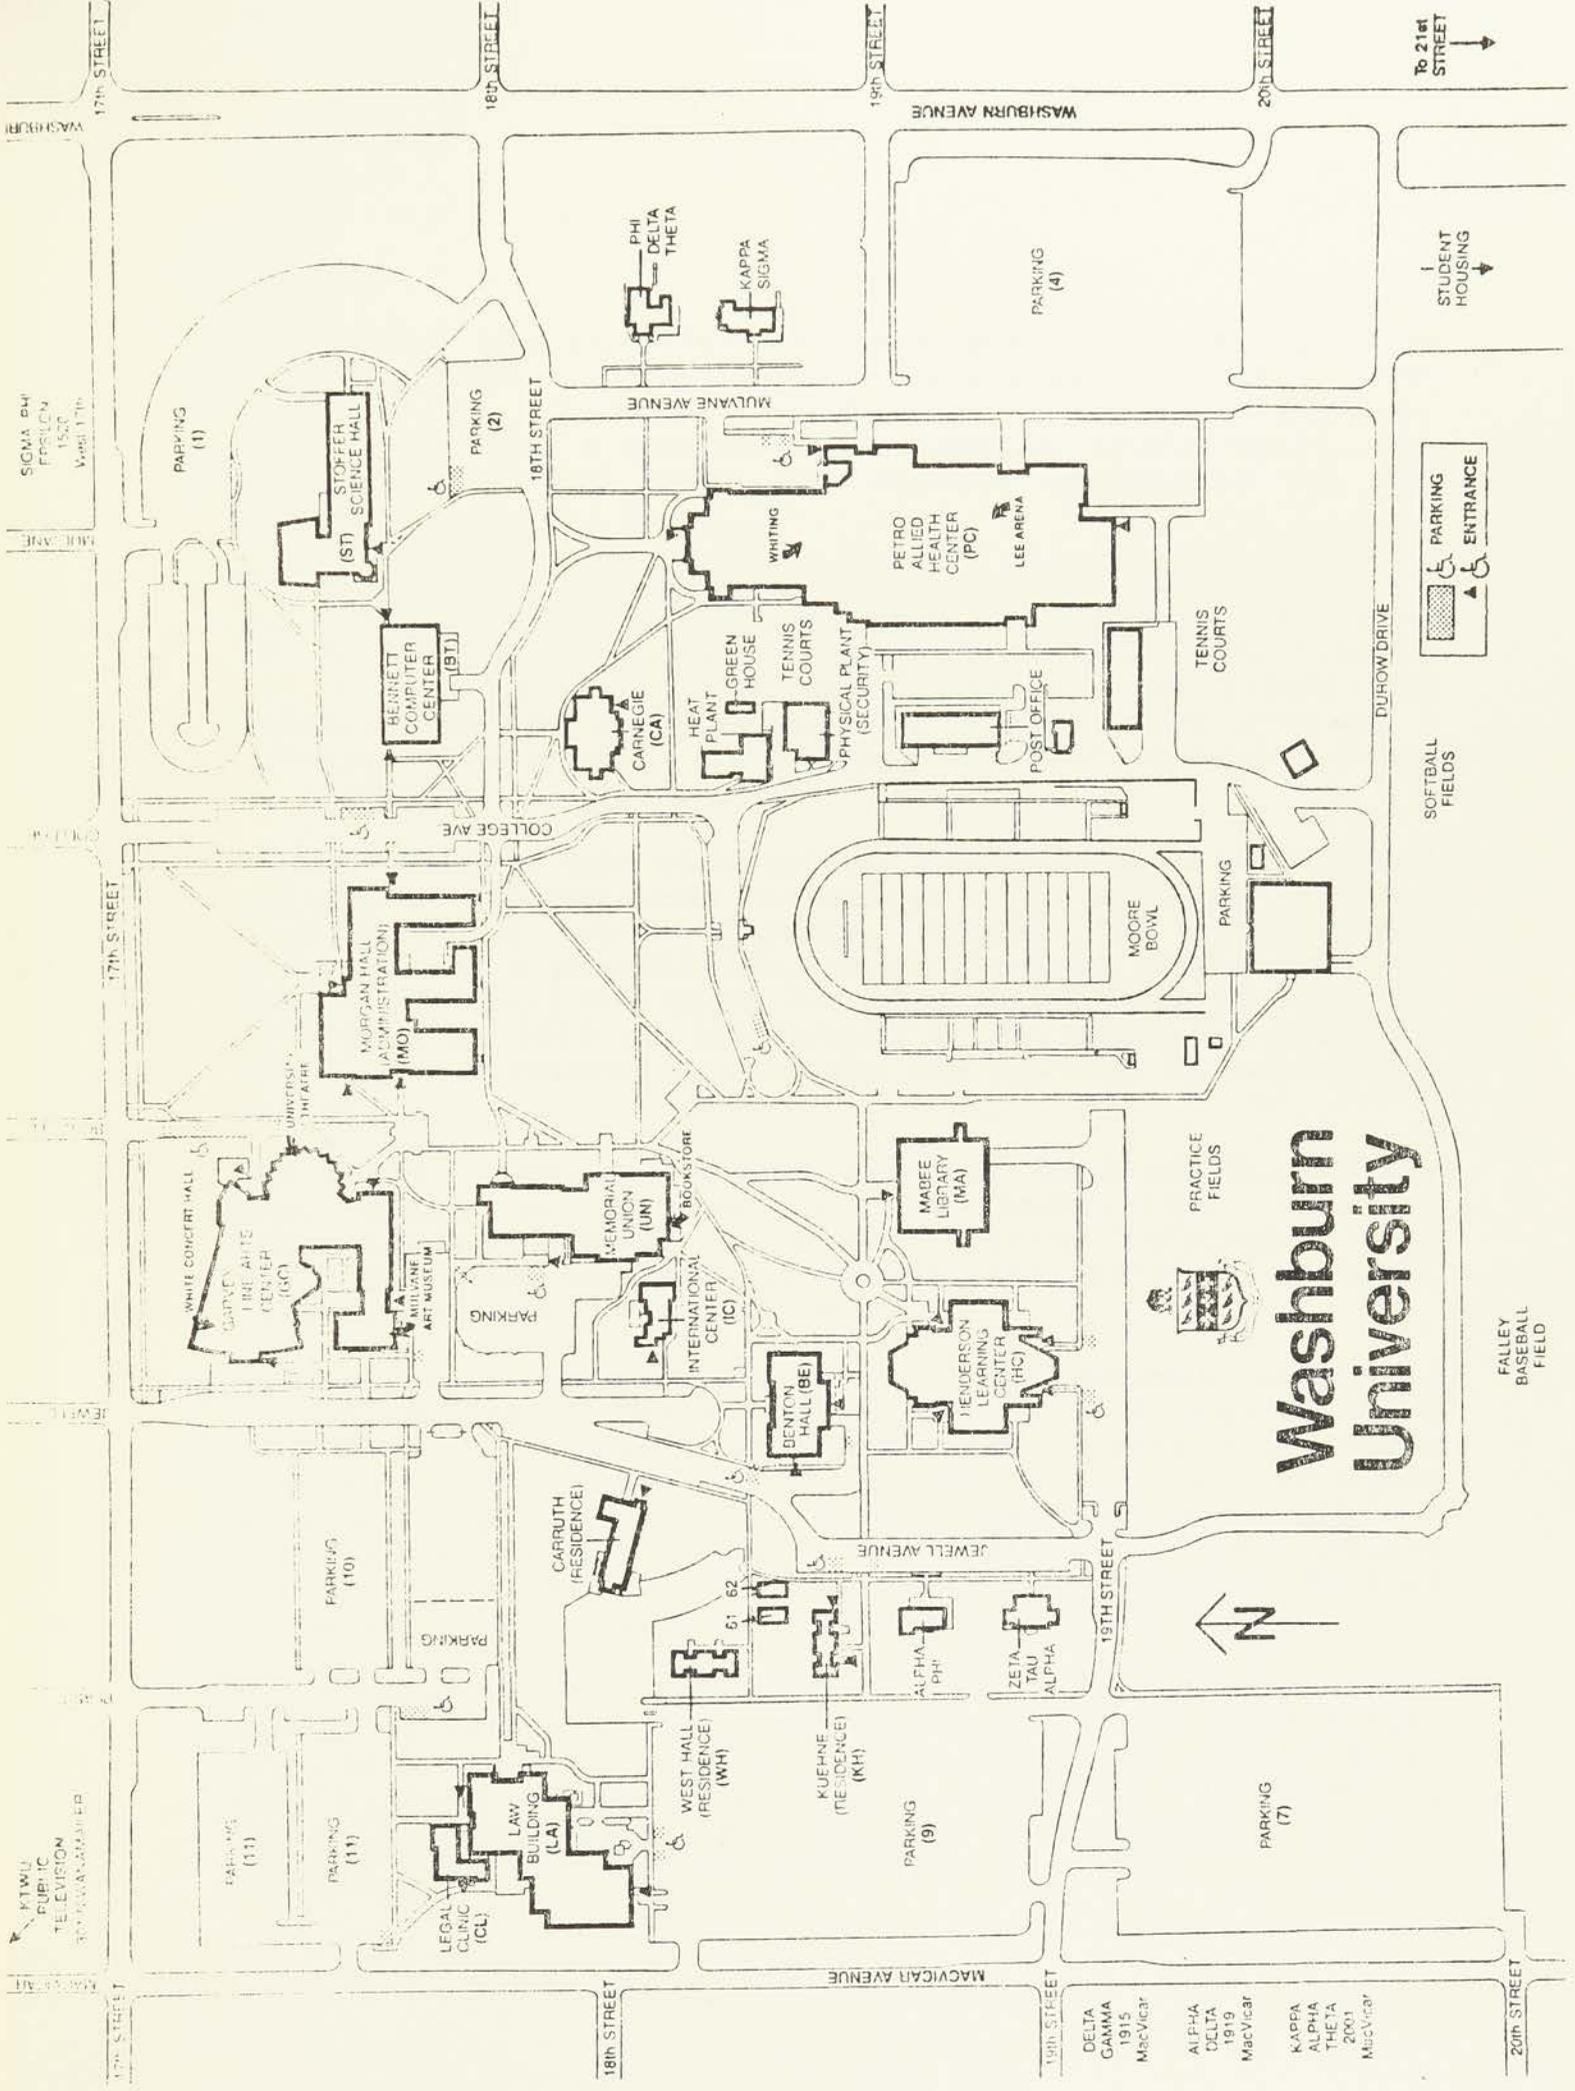

World War I and the postwar period brought many problems and another period of expansion, added to the physical plant, and the endowment funds were, with much difficulty, increased. Then came the depression and drouth years of the '30s; sound management brought the College through this period in better financial condition than many of the other colleges in Kansas, but there was considerable depletion of resources.

Members of the Board of Trustees, unwilling to reduce the assets of the College, offered in the fall of 1940 to turn these assets over to a municipal university if such an institution were approved by the voters of Topeka. In a special election on April 1, 1941, establishment of a municipal university carried by a vote of four to one. Official transfer of the property to Washburn Municipal University was made by court order dated June 13, 1941. The endowment funds of Washburn College are admin-

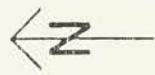

istered by its Board of Trustees and the net income is transferred each year to the University, which agrees to maintain a liberal arts college with the spirit and tradition of Washburn College. This is being done.

Shortly after 7 p.m. on Wednesday, June 8, 1966, a tornado roared over Burnett's Mound and cut a path of destruction northeastward across Topeka to the municipal airport. Six campus buildings: Rice Hall, MacVicar Chapel, Thomas Women's Gymnasium, Boswell Hall, Crane Observatory, and the Air Force building were damaged beyond repair, as were two sorority houses, Kappa Alpha Theta and Delta Gamma. Nearly every other building on campus except for student housing in the southeast section of the campus was severely damaged. More than six hundred trees were destroyed.

Despite this crushing blow, the work of recovery began at once. The summer session moved to Topeka West High School, where enrollment went on as scheduled on Friday following the Wednesday night disaster. Recovery work during an exceedingly busy summer included restoration of the buildings which could be repaired, removal of the wreckage of those which could not be restored, installation of temporary relocatable classroom and office units in clusters to substitute for the lost buildings, provision of temporary accommodations for women's physical education and the physical plant force, cleaning up of an awesome amount of debris, and the beginning of replanting and landscaping. The new and beautiful section of the Memorial Union was ready early in the fall. Work on the new wing of Morgan progressed rapidly. Carnegie, restored, was ready for the Department of Education at the beginning of the second semester of 1966-67. Construction of the Garvey Fine Arts Center was completed in early fall of 1968. A new Law School building was completed in early summer of 1969. Construction on the Learning Resources Center was completed in 1970. Construction of the Mabee Library began during the 1976-77 academic year. An Allied Health Center will complete Washburn's final restoration.

Buildings

- ◆ The School Law Building provides modern and outstanding accommodations for the students in the school of law. The building was completed in 1969 and includes a library, faculty offices, a courtroom, Law Journal office space, the Legal Clinic, and areas for various activities for law students.
- ◆ The Garvey Fine Arts Center is a wonderful facility for the Departments of Art and Theatre Arts, Philosophy, and Music. The Center was finished and occupied in 1968. The Mulvane Art Museum includes three galleries, a Rare Prints and Drawing Room, painting storage facilities, work room and a Children's Workshop. The museum was a gift by Joab Mulvane in 1925.
- ◆ Stoffer Science Hall contains the departments of Physics and Astronomy, Biology, and Chemistry. The building provides lecture halls and classrooms, offices, an astronomical observatory, a planetarium, display areas, and a spacious lobby. The hall was first occupied in the fall of 1960 and dedicated in 1961 to the memory of Dr. Bryan S. Stoffer, Washburn's president during the two decades of most rapid growth.
- ◆ The Margaret Mulvane Morgan Memorial Building houses the Departments of Mathematics and Statistics, English, Communication Studies and Modern Foreign Languages. The building contains administration and faculty offices, classrooms, and the health center.
- ◆ The Memorial Student Union contains several essential student services. The University Bookstore, Dormitory Board Dining Rooms, Ichabod Inn Restaurant, Facts and Snacks information and snack center, banquet facilities, Breakers food and game parlor, and several meeting rooms all are located within the Union. The Offices of the Washburn University Alumni Association and the Washburn Student Association are also housed in the Memorial Union.
- ◆ The Henderson Learning Resources Center is the home of the School of Business, the Departments of History, Mass Media, Political Science, Psychology, Sociology and Social Work. The building is named for John W. Henderson, President of the University from 1965 to 1982 and includes several lecture rooms with video equipment.

- ◆ Petro Allied Health Center is the largest building on campus. The School of Nursing, the Department of Health, Physical Education and Dance, the Department of Intercollegiate Athletics, and Physical Therapist degree programs are located inside the Petro Center. The Petro Center has four gymnasiums, a dance facility, a melatorium, and several all purpose rooms. The building also contains a 4,300 seat arena for varsity women's and men's basketball.
- ◆ The Charles Bennett Computer Center was completed in 1988. The building houses the offices for the Computer Information Sciences faculty and the Academic Computer Center.
- ◆ The University Library, Mabee Library, is located in the center of campus. Mabee Library was during the 1977-1978 school year. It has three floors to provide a variety of study environments, from quiet carrels to group study rooms, and stack areas sufficient to hold 300,000 volumes.

SCHOOL OF BUSINESS WASHBURN UNIVERSITY

The School of Business was established on July 1, 1973, by action of the Board of Regents. The Bachelor of Arts (BA) degree with a major in Economics has been available to Washburn University students since 1904. In 1946, the Bachelor of Business Administration (BBA) degree was created. A Master of Business Administration (MBA) degree program was implemented in 1982. The School of Business administers the Economics major within the BA degree, the BBA, and the MBA degrees.

The role of the School of Business is to provide quality professional instruction in business and economics. This includes study leading to undergraduate and graduate degrees or complementary study for other degree programs.

With a commitment to quality professional instruction in business, the School offers a Bachelor of Business Administration degree in the following major areas of study: Accounting, Economics, Finance, General Business, Management, and Marketing.

The overriding objective of the BBA and the MBA programs is to prepare students to perform successfully in the complex world of business. The academic programs reflect the philosophy that business administration is an integral part of a dynamic economic, social and political environment. Courses offered by the School of Business are designed to develop qualities in students which will help them realize their potential. Emphasis is placed on analytical skills and sound reasoning techniques that are crucial to the decision making process. In addition to developing a perspective of the environment in which business operates, students are encouraged to develop basic knowledge, skills and attributes that are widely transferable and applicable throughout a lifetime of learning on and off the job.

To achieve this objective, the programs in the School of Business offer students a broad educational background by requiring not only business courses but also courses from other disciplines such as English, mathematics, humanities, and the physical and social sciences.

The History of Nu Delta Chi

The introduction of Delta Sigma Pi was first introduced to us by Connie Heiland, a student at Washburn University, in February of 1993. Dr. Richard F. Reicherter was also involved with restarting Delta Sigma Pi.

Our first business meeting was held on May 4. All areas of interested business majors attended. During the meeting, officers were formerly elected. The name Nu Delta Chi became our colony name for Delta Sigma Pi at Washburn University.

Business meetings were held in the weeks that followed. Many new students who were interested joined our business fraternity. Throughout the semester, Nu Delta Chi held meetings just for recruitment.

In the summer of 1993, we held several officers meetings. We planned bake sales and other fundraisers that we could have to generate funds for the upcoming semester. Also, we planned all the events for the semester in the Fall.

We had our first guest speaker, Mary Lennart, on October 21. She was very informative and prepared us for what the interviewer looks at when selecting a new employee. Several other guest speakers were scheduled for future dates.

To wrap up the Fall of 93 semester, the Nu Delta Chi colony took a field trip to Kansas City. In K.C., we went to see the Christmas lights at the Plaza. This outing was a good way to unwind from the pressures of finals.

Throughout the Fall semester and the upcoming Spring semester, we held doughnut day on every Friday. This involved having coffee, juice, and doughnuts for every member, all the faculty, and any interested students in the business field.

Our first social hour was held on September 25. All Delta Sigma Pi members could attend this 3 hour event. This involved meeting at an establishment of choice, eating and drinking while associating with friends. We held social activities throughout the semester and through the new semester.

Topeka, Kansas 66621

MEMBERSHIP DRIVE

To open the Fall 1994 Membership Drive, Mr. James Metzger, President of FINCOM, Topeka, spoke to over two-hundred interested business students in Delta Sigma Pi Business Fraternity. The meeting was held on Thursday, September 1, 1995, 7:00 a.m.

The officers are now making a follow-up on all the students who signed an application form. It is the belief of the present officers that there will be approximately seventy-five students who will be ready to begin pledgeship as soon as the Colony receives the signal to proceed.

The spirit is high!
