Dear Brothers of Delta Sigma Pi:

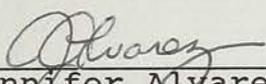

We, the pledges of the Zeta Phi Colony at Florida Atlantic University, hereby request your consideration of our petition in becoming an active chapter of Delta Sigma Pi.

Since November of 1990 we have worked extremely hard to meet all the requirements of the fraternity, including the planning and implementation of professional, community service, and social activities.

We look forward to your vote of confidence for reactivation with pride in becoming an active chapter of Delta Sigma Pi.

Thank you for your consideration.

**SELECT LETTERS OF RECOMMENDATION
FOR THE ZETA PHI COLONY AND
REACTIVATION OF THE ZETA PHI CHAPTER**

Submitted on behalf of Outstanding Brothers and Individuals to the Central Office, Grand President and Board of Directors of Delta Sigma Pi.

Delta Sigma Pi provides an opportunity for students to develop professionally as they grow academically. Concern with business, progress for its constituents and the professional social atmosphere allows these young people to develop leadership skills that will greatly aid them in a lifetime.

It is important to the College of Business that Delta Sigma Pi be reactivated on this campus. In fact, I consider it important enough that I have agreed to serve as interim faculty advisor until the chapter is fully operational and we select an enthusiastic faculty member to advise the group.

The students are excited and willing to put the extra effort into the chapter reactivation. Please give our application your positive support. Thank you.

Sincerely,

Delta Sigma Pi
Central Office
Oxford, Ohio

Dear Sirs:

It is my pleasure to recommend that the chapter at Florida Atlantic University be reinstated. As a Delta Sig since Jim Thompson moved the central office to Oxford, Ohio, I am well aware of the requirements of a viable chapter.

Central office had severe reservations about initially installing a chapter at FAU since there were no lower-division students but the ensuing years proved it was feasible. The chapter eventually folded due to several factors including the officers taking classes only at off-campus centers.

Now that a lower-division has been added, FAU's 10 year strategy is to develop a "traditional" university in Boca Raton with fraternity houses, athletics, exam weeks, etc. The new administration (especially Dean Hille) is now actively supporting these goals including the establishment of a Delta Sigma Pi chapter.

Under these new circumstances I believe a successful chapter can be developed and I strongly recommend your approval of the petition.

Fraternally yours,

Dear Brothers:

It is with great pleasure that I recommend to you the reactivation of Zeta Phi Chapter of Delta Sigma Pi at Florida Atlantic University. Since November 1990 I have been fully active in developing, planning and implementing all Colony programs and activities necessary for successfully reestablishing our chapter on the campus of Florida Atlantic University.

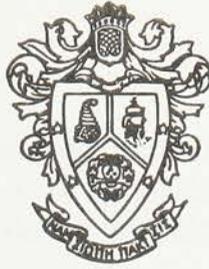

As the appointed District Director in charge of reactivation, I have had the opportunity to teach, train and evaluate prospective individuals for membership in our brotherhood. During this time I have had the tremendous pleasure of watching individuals mature and develop into what I consider to be outstanding members of Delta Sigma Pi. The business students of Florida Atlantic University, the community of Boca Raton, the State of Florida and our fraternity, would greatly benefit from the reactivation of Zeta Phi Chapter. The colony's added synergy, commitment, and work ethic towards the fundamental principles and ideals of our fraternity will further strengthen Delta Sigma Pi and the South Atlantic Region.

I am confident through our commitment to them Delta Sigma Pi and our brotherhood will continue to grow and prosper.

Warmest fraternal regards,

To the Brothers of Delta Sigma Pi:

As an alumnus of Zeta Phi Chapter at Florida Atlantic University, I would like to congratulate the Zeta Phi colony on their hard work and dedication to Delta Sigma Pi. The colony members are very ambitious. Three members attended OTIS and Grand Chapter Congress in Washington, D.C.

This is an exciting moment in the history of Zeta Phi. The colony is bubbling with enthusiasm. The Zeta Phi colony is prepared to reattain Brotherhood in Delta Sigma Pi. I heartily recommend reinstallation of the Chapter.

I look forward to greeting new Zeta Phi Brothers this semester.

Dear Brothers of Delta Sigma Pi:

It is with great pleasure that I recommend the reactivation of Zeta Phi Chapter at Florida Atlantic University.

Having worked with the colony members over the past year, I have had the opportunity to watch them develop from eager neophytes into a unified group worthy of brotherhood. They have planned, organized, and accomplished. They have persevered and succeeded through the trials and tribulations of colony formation and are ready to assume the obligations of membership in our fraternity.

I look forward to their initiation and welcoming them as brothers of Delta Sigma Pi!

Dear Brothers of Delta Sigma Pi:

As an alumnus of the Zeta Phi Chapter of Delta Sigma Pi, I am proud to recommend that the colony chapter of Zeta Phi be reactivated into the fraternity. The chapter has currently been active on campus for approximately a year and has sponsored several professional and community service activities. The chapter has built a good image of themselves on campus and has been very involved in Florida Atlantic University's student government. By holding several fundraising activities, the chapter has shown that they can be self-sufficient. Currently, the chapter has approximately 30 hard working pledges whose dedication and devotion shows of their willingness to be a part of our fraternity.

Pledging as a freshman in the fall of 1984, I will always treasure the memories of my undergraduate years in the fraternity as well as the life long friendships which it has given me. The Zeta Phi chapter was founded back in 1966 and was the first professional organization at Florida Atlantic University. I have seen much change in the university over the past five years, and believe that with the current student body, the chapter has the opportunity once again to grow and prosper into a highly respectable professional organization on this campus.

Thank you for your consideration. I look forward to welcoming our new borthers in the fraternity.

Dear Brother Kinsella:

I would like to take this opportunity to strongly endorse the petition for reactivation of the Zeta Phi Chapter at Florida Atlantic University.

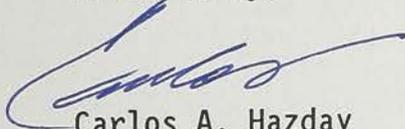

During the past year, I have observed as the colony has slowly but surely increased its size and momentum until at present, I feel they are ready to rejoin our fraternal family.

Zeta Phi has a strong history of successes which will serve as an inspiration for the members of the chapter and for other Deltasigs throughout the nation. Although the road ahead may be bumpy at times, I believe that the personnel is in place to help smooth out the trip.

On a more personal basis, the reactivation of the Zeta Phi chapter is essential to the achievement of a critical mass of chapters in South Florida which will consequently lead to the creation of the Conch Region.

Please convey my greetings to the Board of Directors and assure them that a vote in favor of this reactivation will be a vote for a stronger Delta Sigma Pi!

Attn: All Brothers

On behalf of the brothers of the Gamma Lambda Chapter of Delta Sigma Pi, it is with great pleasure that I would like to recommend that the Zeta Phi Colony be reinstated at Florida Atlantic University.

The members of Zeta Phi Colony have exhibited all the qualities which would allow them to become strong and dedicated brothers of this fraternity. Through their determination and hard work they have expressed a desire to make Delta Sigma Pi the strongest business organization on the campus of Florida Atlantic University. After having met several of their members at the recent Grand Chapter Congress, we can personally vouch for their character. It is our observation that these members hold a very high opinion of Delta Sigma Pi; and that they are fully aware of their obligation to maintain the high standards of this fraternity. It is our belief that the Zeta Phi Colony will become a very valuable asset of the South Atlantic Region.

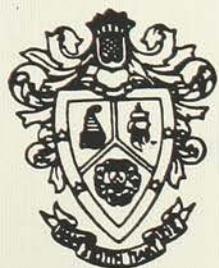

The brothers of the Gamma Lambda Chapter would like to commend the members of the Zeta Phi Colony for all their efforts to this point. Furthermore, we would like to offer our support in any way possible in the future. We look forward to the day when we may call them our brothers.

Dear Brothers of Delta Sigma Pi:

During Grand Chapter Congress in Washington, DC in August, I had the opportunity to meet several members of the Zeta Phi colony. They were Philippe Boulos, Cherie Henderson, Jeff DePalma, Mark Borden, David Zukowski.

Even though they were not sure that they would become brothers, they worked very hard to learn all that they could. They demonstrated a true desire to become a brother of Delta Sigma Pi. Based on this, I would like to recommend that the Zeta Phi colony be installed and initiated as soon as they have met all of their requirements.

Dear Brothers:

As past Chapter Advisor and District Director of Gamma Lambda Chapter at Florida State University and past District Director of Beta Eta Chapter at the University of Florida, I have had the opportunity to work with several outstanding collegiate chapters. It is in this capacity that I would like to extend my recommendation for reactivation of Zeta Phi Colony at Florida Atlantic University.

Since November of last year, I have had many discussions with Zeta Phi Colony District Director Brother Daryl Logullo regarding the reactivation efforts. He has consulted with me on the topics of chapter operations and overall fraternity synergism needed by a colony to make the transition to, and prosper as, an active chapter.

Although not directly involved with the colony, I have been able to monitor its progress through those individuals involved with the reactivation. A firm understanding of day to day operations, fraternity history and purpose have been achieved only through the enthusiasm and hard work of the colony members, along with dedicated guidance by Brother Logullo and others. Their collective efforts and resulting achievements allow me the pleasure of recommending their reactivation.

To Whom It May Concern:

As an alumnus of the Gamma Lambda Chapter, as well as a current member of the South Florida Alumni Chapter, I would like to express my recommendation for reactivation of the Zeta Phi Chapter at Florida Atlantic University. For the past several weeks, I have attended the meetings of the colony members and have seen the efforts that they have put forth towards reactivation. I believe that with continued hard work and dedication over the next several weeks, they could become outstanding members of our great organization.

Delta Sigma Pi has given me experiences that will last for a lifetime. Reactivation of the Zeta Phi Chapter will allow the colony members to experience Delta Sigma Pi for themselves, and benefit from the organization, just as I did. Being a native of Boca Raton, Florida, it would be an honor and privilege for me to see the reactivation of a collegiate chapter of Delta Sigma Pi in this great city. Thank you for your time, and I will be looking forward to the reactivation of the Zeta Phi Chapter at Florida Atlantic University.

Re: Zeta Phi Chapter Reactivation

Dear Brothers of Delta Sigma Pi,

I am writing this letter in reference to the reactivation of the Florida Atlantic University Chapter of Delta Sigma Pi (Zeta Phi Chapter). After observing some of the colony's functions over the past several months, it is my sincere belief that the colony members show a strong desire to become a part of our brotherhood. I see a fresh group of students who have the ability and willingness to help others of commerce and industry, and I feel the colony should be given the opportunity to do so through Delta Sigma Pi. As for community involvement, the colony members have expressed fresh innovative ideas to help promote themselves to the surrounding community.

In closing, I would like to recommend that the colony members at Florida Atlantic University receive their new charter and become a new chapter in Delta Sigma Pi.

It has recently come to my attention that the Zeta Phi colony of Delta Sigma Pi is interested in regaining their chapterhood at Florida Atlantic University. I have personally met several members and have worked with them on various fundraising projects. I have found the group to be very aggressive, dedicated, and professional in their conduct. I feel that this group is an asset to the community as well as your organization. Thank you for your consideration.

THE HISTORY OF THE FLORIDA ATLANTIC UNIVERSITY

A Descriptive Analysis of the State University

THE HISTORY OF THE FLORIDA ATLANTIC UNIVERSITY

Florida Atlantic University is one of the nine (9) member institutions of the State University System of the Florida Board of Regents. The institution was chartered in 1961 and admitted its first class of students in September, 1964. In December 1967, the University was elected to regular membership in the Southern Association of Colleges and Schools. At which time the Commission in Higher Education of that Association granted full accreditation to all of the University's programs. This accreditation was reaffirmed in 1973 and again in 1983 in accordance with Association regulations.

Florida Atlantic University is a multipurpose institution, with a threefold mission -- teaching, research and public service -- in the rapidly expanding urban environment of Boca Raton, Florida. The University originated in part because of a sense of obligation on the part of the citizens and the leaders of the state to provide higher education opportunities to this steadily increasing population. As a guideline for fulfilling its mission, the University has adopted the following statement of objectives.

Florida Atlantic University is committed to extending the educational experience of its constituency. It places particular emphasis on the development of knowledge and the acquisition of skills that will provide useful and informed citizens with the ability to adapt, intellectually and technologically, to a changing environment. As a public university in a democratic society, the University must provide the student with an understanding of humankind's place in the universe, a sense of history, a set of values and ethics, a commitment to law and morality, a respect for dignity, an appreciation of human creativity, and an analytical and inquiring mind.

The University is organized into nine Colleges: Art and Humanities, Business, Education, Engineering, Liberal Arts, Nursing, Science, Social Science, and Urban and Public Affairs.

In all instances, the organizational structure is designed to encourage students to cross departmental and college lines in planning programs to serve their special talents and interests.

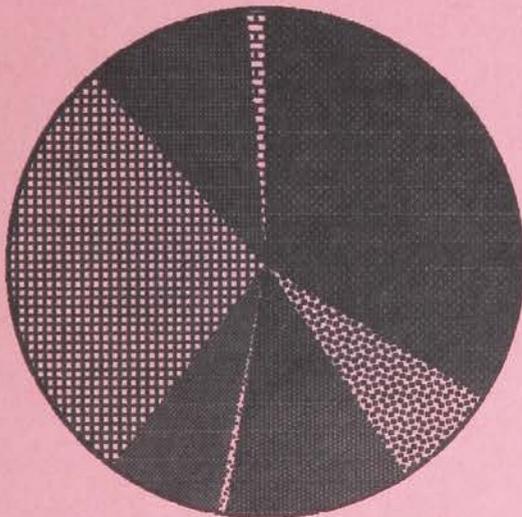

Each College operates under University-wide policies. However, a distinctive feature of Florida Atlantic University is that within this general framework, each College is granted the widest latitude and encouraged to develop unique programs designed to best serve its students.

THE HISTORY OF THE ZETA PHI COLONY PETITIONING GROUP

*The Founding, Development and Calendar of Activities of the Zeta Phi Colony from
November 1990 - November 1991.*

THE ZETA PHI COLONY HISTORY
OF THE
INTERNATIONAL FRATERNITY OF DELTA SIGMA PI
AT
FLORIDA ATLANTIC UNIVERSITY

The Zeta Phi Colony of the International Fraternity of Delta Sigma Pi was founded in November of 1990. Most students who attended the first meeting ranged from either a little curious to obsessive with joining. Our membership encompasses all facets of the commercial world, allowing members to share knowledge and ideas. Although not everyone who attended that meeting is still with the fraternity, the best have remained to become brethren.

The Spring semester on 1991 was the first working semester for would-be pledges. We began to come together by holding elections, organizing weekly meetings, and planning future activities. Despite a reshuffling of some officer positions in the first weeks, the day-to-day operations began to smooth out. Officers began to find that being an officer is a lot of work and a lot of fun. The members came to find that they received as much back from the fraternity as they gave to it. All in all, the Colony came together as a whole.

The Senior Vice-President along with the Chairman of Finance helped to organize fundraising activities for the fraternity. Our fundraisers may not have been the best planned, the best run, or the most profitable, but they were a lot of fun for everyone who came out. The first major fundraiser was a car wash held in

Boca Raton, Florida and netted the Colony in excess of \$500.

Our Vice-President of Professional Activities has consistently arranged for the Colony to have speakers come before it. The Colony has had the privilege of hearing various experts on marketing, international business, finance, management, and accounting come before it. Dr. Newman gave an informative lecture on the complexities of international business, and how the world is changing economically.

The Summer of 1991 was a static time for the Colony as it suffered from small membership attendance. Many of those pledged in the Spring were away for the summer. Even this fact did not daunt those left behind. The remaining members were able to raise the necessary funds to send a two-member delegation to the Grand Chapter Congress in Washington, D.C. in August 1991. Several other members of the Colony were also able to attend the event. The Grand Chapter Congress was beyond the scope of anything ever expected by those who were able to attend. Our delegation was able to meet members from all over the country, including the Grand Chapter President, Mr. William Kinsella. It helped to further motivate them, and the Colony as a whole, to succeed.

This semester, thanks to Delta Sigma Pi Alumni, the Colony has had the privilege to tour the Boca Raton Resort and Club. The Founders' Day Picnic with the South Florida Alumni Chapter was a time of festivity and memborance for pledges and brothers alike. It also gave an opportunity for little to get to know their big brothers. The Colony will be putting on a resume

cworkshops for the membership. Other activities will include another car wash, possibly more tours, and speakers, as well as more social events.

The transformation from a group of slightly interested students to dedicated pledge brothers has been difficult. The Colony is closing its first year with a devotion toward reactivation. It will have taken a full year to create the necessary core to make the Colony a viable chapter, but it will be one that every member can stand before and look upon with pride.

DELTA SIGMA PI
