of the Beta Sigma Beta

Colony

To the Board of Directors
of the International Fraternity
of Delta Sigma Pi

Dear Members of the Board of Directors:

We, the undersigned members of the Beta Sigma Beta colony, do hereby petition for a charter to establish a chapter of the International Fraternity of Delta Sigma Pi on the campus of the Henry W. Bloch School of Business and Public Administration at the University of Missouri Kansas City.

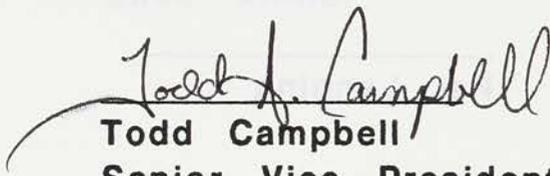

Beta Sigma Beta was established exclusively for the purpose of affiliation with Delta Sigma Pi. The present goals, purposes and requirements reflected in our constitution and by-laws were patterned after and are commensurate with the same high ideals of Delta Sigma Pi.

The members of Beta Sigma Beta pledge to uphold the rules and regulations established in the constitution and by-laws of the international Fraternity of Delta Sigma Pi. Our chapter will further strive to carry out Delta Sigma Pi's legacy of professionalism, excellence, and leadership.

Witness our signatures:

Recommendation

January 3, 1994

The Board of Directors
Delta Sigma Pi
330 South Campus Avenue
P.O. Box 230
Oxford, Ohio 45056-0230

Dear Board Members:

I am very pleased to provide this note of strong support for chapter status for your Beta Sigma Beta Colony at the Bloch School. The efforts of the founding members and faculty sponsors have already made significant contributions to the School, and their efforts are certain to grow in impact.

The Bloch School is in the midst of an ambitious development program that will lead us to regional eminence in management education. Students must be a major part of the effort. The leadership of the Beta Sigma Beta Colony have demonstrated their commitment to the School and their willingness to assist in whatever ways they can. We need an active organization that will pull together the energies and ideas of our business students.

I pledge the support of the Dean's office to the continued development of the Delta Sigma Pi chapter. Please let me know if there is anything more than I can do.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. B. Eddy', written in a cursive style.

Dear Board Members:

The purpose of this letter is to express my personal support and the support of the Business Administration Division at the Bloch School for the request of the Beta Sigma Beta colony of Delta Sigma Pi of the University of Missouri - Kansas City to be fully accepted for chapter status in the fraternity.

The colony has taken an active leadership role among student organizations at the Bloch School over the past year. Their activities, both professional and social, bring honor to the fraternity and the Bloch School. The colony has demonstrated by their enthusiasm, organizational activities and successful programs the qualities deserving chapter status.

As a brother in Delta Sigma Pi (Kappa Chapter 1037 - Georgia State University - 1968), I take great pride in recommending the Beta Sigma Beta colony for full chapter status.

Sincerely,

A handwritten signature in cursive script that reads "Leon H. Robertson".

Dear Board Members:

I take great pleasure in supporting the request of the Beta Sigma Beta colony of Delta Sigma Pi at the University of Missouri - Kansas City to be accepted as a full-fledged chapter of your fraternity.

I have been the faculty advisor to the Bloch School Student Association for the past five years. During that time I have worked closely with many student organizations. I have not seen a more active and energetic group than the members of the Beta Sigma Beta colony. They have brought their energy and enthusiasm to the Executive Board of the Student Association and, thereby, enhanced its performance. The presence of the colony in the school has been a spur that has caused other student groups to pick up their activities and performance.

I strongly support the Beta Sigma Beta colony in their petition to establish a chapter of Delta Sigma Pi at UMKC. The colony has exhibited all of those traits desired in a chapter - initiative, enthusiasm, professionalism, and dedication. It has the potential to be an outstanding chapter a Delta Sigma Pi and a credit to both the Grand Chapter and this institution.

If I may be of further assistance, please contact me at (816) 235-2324.

Sincerely,

A handwritten signature in cursive script that reads 'F. Dean Booth'.

Dear Sirs;

This letter is written to express my VERY STRONG SUPPORT for a chapter of Delta Sigma Pi here in the Bloch School at UMKC. I believe this chapter can have a profound influence on our students and I feel that I have already seen enormous positive changes in the student body as a result of the colonization period. This colonization period has been GREAT! and I expect the full chapter to be of even more benefit to our students, alumni and the community.

Let me tell you exactly what I have seen that makes me so positive about this experience. You must understand that we are an urban campus. Every student not only is a commuter student but also an employee in the community. Many have families and most have a lot of obligations and commitments other than school. Student apathy has always been a problem. I know because I was an undergraduate here more than 20 years ago and things haven't changed...until now. Delta Sigma Pi has offered our students an opportunity to interact with fellow students, faculty, alumni, and members of the community in a new and significant way. What is equally important about these interactions is that they have been STUDENT INITIATED! They have done it themselves for themselves and it has been exciting to watch.

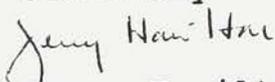

For the first time students have taken responsibility for an outcome in the school. They have organized themselves and done a hell of a lot of work that has paid off in terms of student events. These events have resulted in a higher level of classroom learning, increased student

morale, and a new awareness of the community at large. Again I am most impressed. This also clearly is not just a short run gain. As time goes by the work of Delta Sigma Pi will build on a tradition of excellence here at the Bloch School for I now know that the student body is alive and well. I have also seen excellent faculty support that will grow over time.

It has been my privilege to watch this current group struggle with chapter formation and while there has been some re-inventing of the wheel going on, this all seems to have been an excellent learning experience for them. They are a FINE BUNCH and I am very proud to have known them as students and as participants in colony activities. This group of leaders (They are ALL Leaders) has done an excellent job and it is my pleasure to recommend and support them in their activities. They will represent the Bloch School in a highly professional manner and I know they will do the same for your outstanding organization. This is an important step in the evolution of the school and the student body. It will have long lasting positive effects and again from my own personal experience as a student, I wish I could have had the benefits derived from participation in an organization such as this when I was an undergraduate here at UMKC.

I would like to add that I intend to be as helpful to these students as possible. I believe that their initial success has been a result of their own actions and intend to support them as leaders rather than lead myself. They will always be able to count on me for guidance and assistance for I firmly believe that participation in this organization is extremely important for their growth and development.

Sincerely

Jerry Hamilton
Former Assistant Dean
Faculty, Organizational Behavior

University of Missouri 1838 to 1892

The History

of the

University of Missouri

Kansas City

University of Missouri 1839 to 1994

The University of Missouri was established at Columbia in 1839, only 18 years after Missouri became a state. Recognized as the first state university west of the Mississippi River, it was designated a land-grant university in 1870. Since then, the University has extended its educational benefits to all sections of Missouri, in addition to its traditionally assigned tasks of teaching and research within the campus settings.

The University remained a single-campus institution until 1870, when the University of Missouri School of Mines and Metallurgy was established at Rolla. Campuses at St. Louis and Kansas City were added to the University in 1963.

University of Missouri-Kansas City

The University of Missouri-Kansas City was spawned by a city built at the origin of the Oregon and Santa Fe trails. These roadways to the West began at Old Westport, just a few miles from the present UMKC campus. The mood of that westward expansion continues to be a dominating influence on both Kansas City and the University.

In the 1890's talk of founding a university in Kansas City became an increasingly evident part of the city's sense of growth, but it was not until the 1920's that talk turned to action. In the postwar decade, the chamber of commerce appointed a committee to consider the possibility of a university in Kansas City.

Finally, in 1929, the charter for the University of Kansas City was granted. The dream became a reality when William Volker, a local philanthropist for whom the 93-acre Volker campus is named, presented the board with the 40-acre nucleus of the present campus site in Kansas City's Rockhill district. Volker also provided funds to purchase the private home of Walter S. Dickey, a wealthy Kansas City Manufacturer. The ivy-covered stone mansion, built in 1912, provides a traditional campus atmosphere among the businesslike formality of new buildings.

In 1933 the University of Kansas City announced that classes would begin in October. The board had decided that if 125 students who were qualified to enter either the University of Missouri or the University of Kansas applied to the University of Kansas City, it would mean there were a sufficient number of students in Kansas City who wanted an education at home; and the University would go into operation. A faculty of 17 was hired, and on October 2, 1933, 264 students enrolled. The University of Kansas City, a private, independent university, had begun.

The Dickey mansion, called the Administration Building and eventually named Scofield Hall, had been prepared for classes. For several years it housed all the university classrooms, the library, a cafeteria, and the business and administrative

offices. Only two years of course work were offered during the first year, but soon the third and fourth years of classes were added. On June 9, 1936, Duncan Spaeth, president-elect, gave the first commencement address to an audience that included 80 graduates.

By this time the University had started to grow. The geology-physics building was completed in 1935, and the university library was scheduled for completion in 1936.

In the eventful decades since the opening, the University has developed rapidly and gained strength. Impetus for growth was provided by the affiliation of several professional schools with the University, which added to the prestige already established by a strong College of Arts and Sciences.

The first was the Kansas City School of Law, which merged with the University in 1938. That was followed by the Kansas City-Western Dental College in 1941 and the Kansas City College of Pharmacy in 1943. The Conservatory of Music joined the University in 1959. Also during this period, the School of Administration (1953), the School of Education (1954), the Division for Continuing Education (1958), the School of Graduate Studies (1964), the School of Medicine (1970), and the School of Nursing (1980) were established. The School of Basic Life Sciences was created in 1985.

On July 25, 1963, the University of Kansas City became a part of the University of Missouri System, joining three other campuses located in Columbia, Rolla and St. Louis. At that time, the Board of Trustees of the University of Kansas City transferred assets estimated at \$20 million to the Board of Curators of the University of Missouri.

The University's name was changed to University of Missouri-Kansas City, and since 1963, this campus has experienced unparalleled growth. Enrollment has more than doubled, reaching almost 12,000 students, and the 11 schools have more than 1,000 full-time and part-time faculty members.

The History

of the

Henry W. Bloch

School of Business

and

Public Administration

HENRY W. BLOCH SCHOOL OF BUSINESS AND PUBLIC ADMINISTRATION

The University of Missouri has offered business courses since 1933. In 1953, with the support and encouragement of the Kansas City community, the School of Business Administration was established. Since that time, the Bloch School has grown to a student body of 1,200 and a faculty of some 40 professional educators and scientists. In January, 1988 the school was renamed for Henry W. Bloch, co-founder of H & R Block, and was moved into its new facility. Under the guidance of several advisory groups of international, national and community leaders the Bloch school has embarked on a program aimed at achieving excellence and recognition for eminence in all its programs.

Students completing programs in the Bloch School are expected to demonstrate competencies in each of the five LEAPS fields—leadership, experiential learning, application skills, practical experiences and societal issues. The curriculum, student activities and job experiences form the foundation for the development of these competencies.

Applicants for the Bachelor of Business Administration and Bachelor of Science in Accounting degree programs are admitted to the Bloch School at the beginning of their junior year, and participate in a two-year program of study taking classes full-time during the day. After graduation, students who qualify may continue for an additional year to earn the Master of Business Administration or Master of Science in Accounting degree with concentration possible in a variety of business management and accounting fields.

Admission to the undergraduate program is available either fall or winter semester, and is limited by available space. A 2.75 GPA and the completion of 60 semester hours of specified general education courses from UMKC or another accredited four-year or two-year college are required to be considered for admission. Freshmen and sophomores may be admitted to UMKC as pre-business or pre-accounting students in the College of Arts and Sciences while completing the general education requirements.

Accreditation

The University of Missouri-Kansas City is affiliated with, through accreditation, approval or membership in the following organizations:

Commission on Accreditation of Dental and Dental Auxiliary Educational Programs of the American Dental Association (1927).
National Association of Schools of Music (1938).
North Central Association of Colleges and Secondary Schools (1938).
American Bar Association (1938).
Association of American Law Schools (1938).
Association of American Colleges (1940).

THE BETA SIGMA BETA COLONY HISTORY

The students of the Henry W. Bloch School of Business and Public Administration have long had the lack of an organization to foster camaraderie and fellowship among the members of the school. We see the need to end the isolation that can affect the students both on campus as a commuter school such as UMKC. Therefore, the students began meeting before and after classes to begin the process of forming a colony.

The Beta Sigma Beta Colony was founded solely for the purpose of affiliation with Delta Sigma Pi. We wanted to promote a close affiliation with the business world and provide an environment where students could make important contacts and gain valuable experience beyond the confines of the classroom. Beta Sigma Beta is open to all Bloch School students as well as all pre-business students of UMKC.

The Beta Sigma Beta Colony was founded on March 17, 1993 when an operational meeting was held to elect officers and select a name for the colony. Attending this meeting were the following persons:

John Callahan - Director DSP
Shanda R. Gray - District Director DSP
Bradley J. Wirth - Delta Sigma Pi
Lynn Robertson - Delta Sigma Pi and BSB Colony Advisor
Jery Hamilton - BSB Colony Advisor

The following students were elected officers of the Beta

BETA SIGMA BETA

President - Eric C. ...

COLONY

The members of the Beta Sigma Beta Colony would like to take this opportunity to offer our thanks to all the people who have helped and supported us in our endeavor to become a chapter.

Among the many events that we have held in the past year are the following:

THE BETA SIGMA BETA COLONY HISTORY

The students of the Henry W. Bloch School of Business and Public Administration have long felt the lack of an organization to foster camaraderie and fellowship among the members of the school. We felt the need to end the isolation that can afflict the student body and faculty of a commuter school such as UMKC. Therefore, the students began meeting before and after classes to begin the process of forming a colony.

The Beta Sigma Beta Colony was founded solely for the purpose of affiliation with Delta Sigma Pi. We wanted to promote a close affiliation with the business world and create an atmosphere where students could make important contacts and explore the business environment beyond the confines of the classroom. Beta Sigma Beta is open to all Bloch School students as well as all pre-business students of UMKC.

The Beta Sigma Beta Colony was founded on March 17, 1993 when an operational meeting was held to elect officers and select a name for the colony. Attending this meeting were the following persons:

John Callahan - Midwestern Regional Director DSP
Shanda R. Gray - District Director DSP
Bradley J. Wirths - Delta Sigma Pi
Leon Robertson - Delta Sigma Pi and BSB Colony Advisor
Jerry Hamilton - BSB Colony Advisor

The following students were elected officers of the Beta Sigma Beta Colony at this meeting:

President - Eric Chelline
Senior Vice President - Troy Groat
V.P. for Professional Activities - Todd Campbell
V.P. for Chapter Operations - Jeff Oldham
Chancellor - Scott Lent
Treasurer - Tara Thy Nguyen
Secretary - Jennifer Hulbert
Historian - Sally Thomas

The members of the Beta Sigma Beta Colony would like to take this opportunity to offer our sincere THANK YOU to all the people who have helped and supported us in our endeavor to become a chapter.

Among the many events that we have held in the past year are the following:

Partial Calendar of Events

March 17, 1993 - Election of officers

April 1, 1993 - Professional Meeting. Speaker Richard Beyer, Senior V.P. of Human Relations for Boatmen's Bank.

April 22, 1993 - First Annual Dean's Reception. Faculty and Dean of Bloch School meet with Beta Sigma Beta members.

September 8 and 9, 1993 - Informational meeting

September 21, 1993 Business and organizational meeting. Speaker James E. Leingang - Chapter Consultant.

October 18, 1993 - "Building Your Resume" - Workshop with Doug Buchanan - Director of Career Placement, UMKC.

December 11, 1993 - "Festival of Trees" at Longview Farms to benefit the Merrillac Foundation.

December 15, 1993 - Donation of \$50 to the Don Bosco Center to support the 1993 Christmas Basket Project.

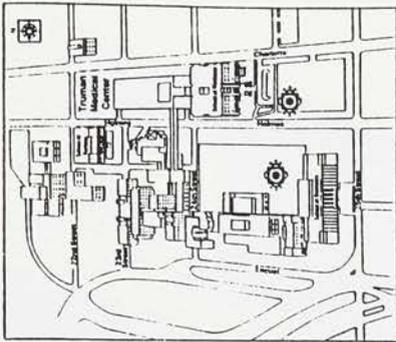

February 3, 1993 - Professional meeting. Speaker- Mark Widner Operations Manager for Health and Benefits.

February 17, 1993 - Business Meeting.

THANK YOU ALL

The members of the Beta Sigma Beta Colony of Delta Sigma Pi would like to take this opportunity to thank all the people who made our effort to become a chapter successful.

Dr. Leon Robertson was instrumental in our decision to affiliate with Delta Sigma Pi. He has supported us and paved the way for us throughout our effort. It is with sincere appreciation that we say THANK YOU, DR. ROBERTSON!

Professor Jerry Hamilton has been a great help as we endeavored to become organized. He has shown his support in many ways and we wish to say THANK YOU, JERRY! We hope our affiliation will continue throughout the years to come.

We save the best for last. Dean William Eddy has supported us from the start. We could not have continued without his help and support. He has always been available for consultation and to address the Dean's reception each semester. THANK YOU, DEAN EDDY!

To those Delta Sigma Pi alumni and officers who have supported and helped us throughout our effort we express our deep appreciation.

Shanda Gray has been there for us since day one. She has helped us keep up our enthusiasm when we weakened and thought the road to chapter status was out of reach. THANK YOU, SHANDA!

Bradley Wirth has been right there beside Shanda, helping us in every way. We appreciate your efforts, Brad, THANK YOU! We couldn't have done it without your help.

To all the others, at the Central Office and locally, we wish to express our deepest thanks for all of your support and help!

We would also like to express our appreciation to Sally Thomas, our first Historian, whose tireless efforts and hard work made this petition possible. We extend our deepest thanks and gratitude for her service and dedication in the compilation of this petition.
