Dear Board of Directors,

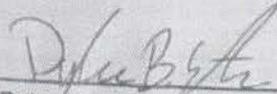

We, the members of the Coastal Carolina Colony, do hereby petition for a Chapter Charter of the International Fraternity of Delta Sigma Pi. The Coastal Carolina Colony was established exclusively for the purpose of association with Delta Sigma Pi. We continue to maintain the ideals for the International Fraternity of Delta Sigma Pi after which the colony has styled itself. Proof includes our utmost level of professionalism, display of enthusiasm of commitment, community involvement, and strong brotherhood.

We vow to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in the Bylaws in the pursuance of a Chapter Charter and continuing association with the Fraternity. We would like to request our date of installation to be April 2nd, 2016.

Thankfully,

The members of the Coastal Carolina Colony.

Brother Onuka Ibe
Grand President
International Fraternity of Delta Sigma Pi
330 South Campus Avenue
Oxford, OH 45056

Dear Brother Grand President,

The Coastal Carolina University colony has worked tirelessly over the past year to establish itself on the campus and with the National Fraternity. They went through a pretty big change with their founding member and yet still showed great perseverance and showed at National and Regional events, which I applaud them for.

While I personally have not spent as much time with the colony as I should, they have done so much with outreach, whether social, professional or service, in a rather short time and despite having a diligent District Director, have been able to organize a solid colony. The colony members and officers have a great rapport and despite challenges with the school, have managed to progress.

This chapter would be a great addition to the Delta Sigma Pi roster and ensure the continued exposure in South Carolina. I look forward to great things from this chapter.

Fraternally,

Carrie Sagel Burns
Southeastern Regional Vice President

RE: National Charter for Coastal Carolina University

Dear Board of Directors:

As you are aware, Coastal Carolina University established a Delta Sigma Pi colony several semesters ago and its members have been working diligently toward meeting the requirements to obtain its national charter. As faculty advisor for the group, I am writing this letter in support of their application.

Since its beginning, Delta Sigma Pi has been an active organization on campus and in the Wall College of Business. Their leadership and dedication to serving has provided valuable services to the community and to the business college.

The members of Delta Sigma Pi have participated in numerous community service activities and have hosted valuable professional development activities that have provided benefits to the community, members of the organization and students in the business college. The group has routinely secured the involvement of various faculty members in their professional events, which has increased Delta Sigma Pi's visibility on campus as well as gained faculty support for its mission.

The variety of activities offered by the group has provided leadership opportunities for its members by allowing members to excel in their areas of interest. Their presence on campus has been welcomed and they have become a valuable part of our campus community.

The colony at Coastal Carolina University is comprised of a dedicated group of students who represent the ideals of Delta Sigma Pi, and the national organization would be proud to have each of them as members. I support their efforts and would be honored to continue working with them in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Karen A. Sauls".

Nicholas A. DeStefano
Coordinator of Leadership and Civic Engagement
Coastal Carolina University
100 Spadoni Park Circle Suite 215
Conway, SC 29526

Dear Board of Directors

I am writing this letter in full support of the Delta Sigma Pi here on Coastal Carolina's campus. I cannot think of a more deserving organization among our 180 plus groups to be installed as a full chapter of their national organization.

Their service and leadership training should be commended. They consistently support member development as leaders and strive to further their educations outside of the classroom. This can be seen in the way that they send members to various service opportunities and leadership development conferences.

As a newer organization on our campus, there is certainly room for growth. However, they have a strong executive team and advisor in place. They take full advantage of the resources our office offers student organizations. They never hesitate to ask questions and they have never caused a single policy issue for us.

I appreciate what they offer our campus and fully support them as a registered student organization at Coastal Carolina University.

Sincerely,

Nicholas A. DeStefano

History

1954 | On the evening of July 23, 1954, a group of citizens meets in the Horry County Memorial Library to discuss a daring proposal – the creation of a local college. The group soon becomes a nonprofit organization, the Coastal Educational Foundation, Inc. On Sept. 20, 1954, Coastal Carolina Junior College opens as a branch of the College of Charleston. Fifty-three students are enrolled, taught by a handful of part-time faculty, with classes meeting after hours in Conway High School.

1958 | Coastal Carolina Junior College becomes independent when the College of Charleston discontinues its extension program. Horry County voters approve a referendum that raises taxes by three mills to provide funding for the college.

1959 | The South Carolina General Assembly creates the Horry County Higher Education Commission, a government regulatory agency to oversee use of Coastal Carolina's county tax money.

1 9 6 0 | The Horry County Higher Education Commission is responsible for a contract that establishes Coastal Carolina Regional Campus of the University of South Carolina, effective fall 1960.

1 9 6 1 | Members of the Horry County Higher Education Commission and Coastal Educational Foundation, Inc., agree it is time to move to a campus suitable for institutional growth. They select the present site of the University, most of which was donated by Burroughs Timber Company and International Paper Company. A major fundraising drive raises \$317,000 for construction.

1 9 6 2 | Ground is broken for the campus and less than a year later Coastal Carolina's 110 students move into the first campus building, the Edward M. Singleton Building, named in honor of the first chancellor of USC Coastal Carolina College.

1 9 6 6 | With an idea and a gift from William A. Kimbel and L. Maud Kimbel, the Atheneum, the campus symbol, is completed.

1 9 7 3 | USC Coastal Carolina College adds a junior year; in 1974, a fourth year is added.

1 9 7 5 | USC Coastal Carolina College awards its first four-year degree.

1 9 8 1 | Wheelwright Auditorium, the first center for the performing arts in northeast South Carolina, is dedicated. The \$3.1 million facility is funded almost entirely by private donations, including a \$1.2 million gift from the Kimbel family. The facility is named for L. Maud Kimbel's maternal grandfather, John Wheelwright, who was involved with the cotton trade in South Carolina in the early 1900s.

1 9 8 6 | USC Coastal Carolina College becomes a full member of the National Collegiate Athletic Association (NCAA).

1 9 8 7 | The first Founders Day is celebrated on the steps of the Singleton Building to coincide with the 25th anniversary of the institution. The first on-campus residence halls open.

1989 | Enrollment reaches more than 4,000 students. The number of full-time faculty grows to 175.

1990 | The Campaign for Progress surpasses its goal of \$5.5 million in fewer than five years, spurring growth in capital projects, the arts and academic enrichment programs.

1991 | On July 23, 1991, the Coastal Educational Foundation and the Horry County Higher Education Commission vote to seek legislative approval to establish an independent Coastal Carolina University. USC System President John Palms recommends to the USC Board of Trustees that Coastal Carolina pursue independence from the University in name and administration. The trustees adopt President Palms' recommendation in June 1992.

1993 | The South Carolina Legislature passes legislation establishing Coastal Carolina University as an independent, public institution, effective July 1, 1993. Gov. Carroll Campbell signs the bill during a ceremony at Coastal Carolina on May 14, 1993. The University's first Board of Trustees meets for the first time July 1, 1993. Ronald R. Ingle is named the University's first president. Coastal Carolina University begins offering its first graduate programs in education in Fall 1993. The E. Craig Wall Sr. School of Business Administration Building is completed and dedicated in honor of Mr. Wall, who was one of the University's original founders.

1994 | The Eldred E. Prince Building, funded by the Horry County Higher Education Commission, is completed and dedicated. New projects include plans for a humanities building, residence hall/dining facility, athletic administration complex, printing services facility and renovations to existing buildings. The University's first formal inauguration is held to install President Ronald R. Ingle.

1996 | A \$68 million campus masterplan is unveiled that will guide development of the University to the 50th anniversary of the institution, to be celebrated in 2004.

1997 | The Board of Trustees adopts A Journey of Excellence, a plan to guide the University into the next century. The South Carolina General Assembly approves \$11.7 million for the new

Humanities and Fine Arts Building. The University mace makes its debut at the May commencement ceremony.

1998 | The R. Cathcart Smith Science Center is dedicated, and a \$2 million campaign to upgrade the facility is announced. Coastal Carolina University offers baccalaureate degree programs in 36 major fields of study through its four academic schools, graduate programs in education, and seven cooperative programs with other South Carolina universities. The E. Craig Wall Sr. School of Business Administration gains accreditation by the American Assembly of Collegiate Schools of Business.

1999 | The South Carolina General Assembly approves the final funding for the new Humanities and Fine Arts Building. Nobel Laureate Archbishop Desmond Tutu visits the campus as part of the Kimbel Distinguished Lecturer Series. The School of Education gains accreditation by the National Council for Accreditation of Teacher Education. The Board of Trustees approves the sale of revenue bonds to begin construction of a 350-bed residence hall, expansion of the dining facility and construction of University Hall. Football will be added to the intercollegiate mix in 2003; with football, the University will offer 17 NCAA Division I intercollegiate programs.

2000 | To reflect the growth of academic programs and the maturity of the institution, the four academic schools of the University are renamed colleges. The College of Humanities and Fine Arts is named for Thomas W. and Robin W. Edwards. A statewide awareness campaign bolsters the University's visibility. The University endowment tops \$12 million, reflecting a more than 300 percent increase since 1993; the total number of donors increases by 17 percent in the past year. A new residence hall opens, expanding on-campus residence capacity by 35 percent to more than 1,000 students.

2001 | University enrollment increases to almost 5,000 students from 47 states and 50 countries. The average SAT for entering freshmen tops the national average. New degree programs are approved for middle grades education, music, philosophy, Spanish and special education. A major construction boom is highlighted by the opening and formal dedication of the

Thomas W. and Robin W. Edwards College of Humanities and Fine Arts, the largest building on campus. A \$1.8 million gift from the estate of Rebecca Randall Bryan marks the largest single cash gift in the University's history. In collaboration with the Georgetown community, the University brings the Freedom Schooner Amistad to Georgetown. The Amistad attracts more than 16,000 visitors, including more than 8,000 schoolchildren from Horry and Georgetown counties.

2 0 0 2 | The University's enrollment rises to a record of nearly 6,000 students. A baccalaureate degree program is offered in management-international tourism. The first class of recruits for the new football team begins practice in preparation for intercollegiate play in Fall 2003. State appropriations fall to approximately 23 percent of the total current funds, and tuition and fees represent nearly half of the University's \$63 million operating budget.

2 0 0 3 | The University now offers master's degree programs in education, instructional technology, and coastal marine and wetland studies. A growing array of international programs take students to places such as Australia, Costa Rica, Cuba, England, Ecuador, Galapagos Islands, Germany, India, Japan, Russia and Spain. The University anticipates its anniversary in 2004 with plans for the 50th Anniversary Initiatives, an ambitious campaign to raise private funds to support the academic, physical and athletic needs of the University. A \$1.5 million gift from Burroughs & Chapin Company is announced to support the construction of an education and research facility at the University's Waties Island/Tilghman Point property. A \$2 million gift from Loris native Bob Brooks marks the largest single gift in the history of the University and places the Brooks name on the new football stadium. More than 8,000 fans pack Brooks Stadium on Sept. 6 for the inaugural game of the Chanticleer NCAA I-AA football squad. On-campus resident students total 1,862.

2 0 0 4 | Coastal Carolina University offers baccalaureate degree programs in 38 major fields of study and 36 undergraduate minors, including a new bachelor's degree in economics. The University serves students and the community with a new location, the Waccamaw Higher Education Center in Litchfield, and sites in Georgetown and Myrtle Beach. The 50th anniversary celebration officially begins on Founders Day, Sept. 20, with a formal convocation to honor the

three educational institutions that had pivotal roles in the shaping of Coastal Carolina University: Horry County Schools, the University of South Carolina and the College of Charleston. The Spadoni College of Education is named for William L. “Spud” Spadoni and members of his family through a \$1 million gift to the 50th Anniversary Initiatives. The public phase of the 50th Anniversary Initiatives is announced in September with more than \$10 million already committed.

2 0 0 5 | Coastal Carolina University has a record enrollment of 7,613 students; to accommodate the growth, the University continues to extend its physical presence to the East Campus, located in the Atlantic Center on U.S. 501. The campus now comprises 52 main buildings on 302 acres. The long-awaited MBA degree gains approval, and the Wall College of Business begins accepting MBA students for Fall 2006. New baccalaureate degree programs are approved in communication and in recreation and sport management, bringing the total number of undergraduate degree programs to 40 fields of study. The 50th Anniversary Initiatives campaign raises \$3 million more than the \$10 million goal, reflecting the growing community support for the University. For a conference-record seventh time, Coastal Carolina University captures the Sasser Cup for athletic program success. President Ronald R. Ingle announces his retirement for June 2007, and the Board of Trustees begins planning the search for the University’s second president.

2 0 0 6 | The University continues record growth with 8,049 students from 44 states and 32 foreign countries enrolled in Fall 2006. The freshman class has an entering SAT score of 1,047 and an average high school GPA of 3.32, topping national averages in both categories. The University’s operating budget tops \$110 million, 12 percent of which comes from state appropriations. Ground is broken for Adkins Fieldhouse following a \$1.8 million gift from Charlotte businessmen and twin brothers Mark and Will Adkins, representing the largest pledge ever received from alumni.

2 0 0 7 | David A. DeCenzo takes office as the second president of Coastal Carolina University on May 7, 2007. His formal inauguration – built around the theme “Dawning of a New Tomorrow” – is held Sept. 14. The new president appoints a Strategic Planning Steering

Committee comprising all University stakeholders to examine and refine the University's mission, establish priorities, and link strategic direction to budgeting and assessment. The total number of alumni since 1993 reaches 10,129. The annual economic impact of the University tops \$225 million.

2008 | Coastal Carolina University receives its largest grant, \$2.3 million, from the National Science Foundation (NSF) to establish a program that partners graduate students and Horry County K-12 teachers in coastal science research. For the first time, a Coastal Carolina University faculty member is named the Governor's 2008 Professor of the Year. A building campaign is underway to expand Kimbel Library, build an annex to the R. Cathcart Smith Science Center, as well as to construct a student recreation and convocation center, among other projects. Horry County voters approve a penny sales tax to provide funding to be divided among the Horry County public schools, Horry-Georgetown Technical College and Coastal Carolina University; the tax is expected to provide approximately \$120 million during the next 15 years for facility improvements for the University. Chanticleer alumni earn accolades in the U.S. Olympics, the NFL and Major League Soccer, and on the PGA Tour.

2009 | Coastal Carolina University is named one of America's 100 Best College Buys by Institutional Research & Evaluation Inc. The University is ranked in the top 15 percent of the nation's four-year undergraduate institutions in "America's Best Colleges," compiled by Forbes and the Center for College Affordability and Productivity. Fall 2009 enrollment is approximately 8,300 students from 45 states and 38 foreign countries. One of the largest gifts in University history will support health science education and the new science addition - Kenneth E. Swain Hall - will be named in honor of the donor. The E. Craig Wall Sr. College of Business Administration is named one of the 300 best in the world by AACSB-International. The Burroughs & Chapin Center for Marine and Wetland Studies joins the State Energy Office, Santee Cooper, Clemson and North Carolina State University to conduct research on wind power for commercial use.

2010 | The Coastal Carolina University Student Housing Foundation purchases a residential facility near campus and combines it with University Place, increasing the on-campus resident

capacity to 3,379. Adkins Fieldhouse is completed; the state-of-the-art facility houses coaches offices, football locker and meeting rooms, the Sasser Athletics Hall of Fame, and a strength and conditioning center. Groundbreaking is held for two major campus additions: the Student Recreation and Convocation Center and the Bryan Information Commons at Kimbel Library. A total of 891 graduates participate in May commencement. The University is named a Military Friendly School by two national organizations. The Chanticleer baseball team is recognized by the NCAA for having the highest winning percentage of any Division I baseball program and is selected to host the NCAA Super Regionals for the first time. The Women's Resource Center opens in the Wall Building. Fall 2010 enrollment is 8,706 students. With the purchase of Quail Creek Golf Club, the campus now comprises 69 main buildings on 632 acres.

2 0 1 1 | U.S. News & World Report ranks the University 26th of Top Public Schools in the South in the Regional Universities category. CCU is also ranked among the top 15 regional public universities in the South in the Great Schools, Great Prices category in the U.S News & World Report rankings. Also, for the third consecutive year, CCU is named one of America's Best Colleges by Forbes and one of America's 100 Best College Buys by Institutional Research & Evaluation Inc. The new state-of-the-art baseball/softball hitting facility opens in May. In November, Quail Creek Golf Club is renamed the General James Hackler Golf Course at Coastal Carolina University in honor of the Grand Strand golfing pioneer and CCU benefactor. Fall 2011 enrollment stands at 9,084, the highest in CCU history. Campus residence halls are dedicated to honor University leaders Ronald G. Eaglin, chancellor from 1985 to 1992, and Ronald R. Ingle, president from 1993 to 2007. The Commons is renamed Fred W. Hicks III Dining Hall; Hicks served as chancellor from 1983 to 1985.

2 0 1 2 | Coastal Carolina University initiates the largest building program in its history. In accordance with the Campus Master Plan, there are 30 active building projects in some stage of planning or construction on campus. Altogether, CCU's building program adds up to more than \$244 million in capital funded projects.

2 0 1 3 | The University gains final approval to begin offering its first doctoral program – the Ph.D. in coastal and marine systems science – in Fall 2014. For the fourth consecutive year,

CCU is named one of America's 100 Best College Buys and for the second consecutive year is ranked in the top tier in Regional Universities (South) category in U.S. News & World Report's annual Best Colleges and 29th in Top Public Schools-Regional Universities (South). CCU scientists unveil a new hurricane outlook model system – the Hurricane Genesis and Outlook (HUGO) Project – to offer outlooks for both the U.S. East Coast and Gulf Coast. Women's lacrosse competes in its inaugural season to become the Chanticleers' 18th NCAA Division I sport.

Facts and Statistics

Coastal Carolina University is a dynamic, public comprehensive liberal arts institution located in Conway, just minutes from the resort area of Myrtle Beach, S.C. The University offers 70 areas of study toward the baccalaureate degree, and 17 master's degree programs, plus two educational specialist degrees. The University began offering its first doctoral program – the Ph.D. in marine science: coastal and marine systems science – in Fall 2014. View the full list of Academic Programs.

More than 10,000 students from across the country and the world interact with a world-class faculty, and enjoy a nationally competitive NCAA I athletic program, an inspiring cultural calendar, and a tradition of community interaction that is fueled by more than 180 student clubs and organizations.

The University comprises 102 main buildings on 633 acres, including the Coastal Science Center and the Burroughs & Chapin Center for Marine and Wetland Studies, located on the East Campus in the Atlantic Center on U.S. 501, and the General James Hackler Golf Course at Coastal Carolina University, a public 18-hole golf facility located adjacent to the campus. The University also offers courses at the Myrtle Beach Education Center, and in Litchfield and Georgetown. A 1,105-acre tract, including a portion of Waties Island, provides a natural laboratory for extensive study in marine science and wetlands biology on an Atlantic coast barrier island.

Coastal Carolina University was founded in 1954 as Coastal Carolina Junior College and became an independent university in 1993.

Coastal Carolina University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award the baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033 or call 404-679-4500 for questions about the accreditation of Coastal Carolina University. All other inquiries about the University should be directed to Coastal Carolina University, PO Box 261954, Conway, South Carolina, 29528-6054, or 843-347-3161, not the Commission.

Wall College of Business

Overview

Located in Conway, SC, Coastal Carolina University and The E. Craig Wall Sr. College of Business Administration is a superb training ground for anyone interested in a successful business career. Our PGA Program is one of only 18 programs in the nation accredited by the PGA of America.

Offerings

We offer six undergraduate majors: accounting, economics, finance, management, marketing and hospitality, resort and tourism management. Business students can also minor in economics and international business studies, while non-business students can minor in actuarial science and risk management, business administration, marketing and resort tourism management, and online degree completion programs in marketing and hospitality, resort and tourism management.

We also offer two graduate programs: the Master of Business Administration (MBA) program and the Master of Accountancy (MAcc) program.

History of the Coastal Carolina Colony of Delta Sigma Pi

The Coastal Carolina Colony of Delta Sigma Pi began with initial contact from Matt Kretschmer, a brother from Indiana University-Purdue University Fort Wayne who transferred to Coastal. In August of 2014, Matt started talking to the University about becoming an organization on campus. On September 29, 2014 the letter of intent for a new colony was submitted. At this time, Dale Clark, Director of Chapter and Expansion Services for Delta Sigma Pi, was contacted for information about establishing a chapter of the Fraternity at Coastal Carolina University. It should be noted that Matt transferred away from Coastal Carolina two semesters after starting the colony and his actions negatively impacted the current process; the effort of the colony after his departure has reversed the results of his actions and the colony now has good standing with the University. Though struggling with a constantly changing District Director, the colony remained focused and driven towards installing. Because of this inconsistency, Dale Clark came to campus to check our status and helped develop a plan of action to fast track the petition process.

Community Service Events

Adopt-a-Highway, 3/28/2015

We met to clean up both sides of Highway 544 in Conway, South Carolina. Before we started, we all put on orange vests provided to us and grabbed enough bags to last the whole event. We were read the rules and picked our strategy and groups. We split into two groups and went in different directions. We picked up trash within five feet of the sidewalk and other big items that were farther away. It took two hours and the groups met back up at the middle of the two-mile stretch. We disposed of the bags at the

Horry County Recycling Center.

Smart Snacks, 4/9/2015

We went to the local elementary school on Thursday, 4/9/2015. We unpacked boxes of food that we would be packing the next day and helped set the classroom up for the next morning. The Friday morning, 4/10/2015 we went back to the school. We formed a line and passed plastic bags down the line filling it with different snacks. The kids receiving these lunches helped us pack the lunches and showed us where the teachers rooms were so we could drop off the lunches.

Brightwater Nursing Home, 4/25/2015

We went to Brightwater Nursing home to their Memory Care Unit. We played multiple games with the residents including Jenga and Noodle Ball. We also brought sweets for the residents and ate with them while doing puzzles. We spent time talking to them about their pasts, since many can't remember short-term things. We were able to have one-on-one contact with the residents, which isn't something they get often, especially from people our age.

Adopt-a-Highway Clean Up, 9/5/2015

Ten of the colony members met at 9am and cleaned our portion for Adapt-a-highway. We collected two bags worth of garbage. It took about two hours to clean up the portion of the highway. We disposed of the bags at the Horry County Recycling Center.

Horry County Clean-up Day, 11/7/2015

Some of our members that weren't attending LEAD, participated in Adopt-a-Highway. It was Horry County's Community Trash Clean-up Day. They went up and down our portion of Highway 544 cleaning up trash making our section of the highway looking much better. This

event had good attendance and provided an opportunity for the members to bond outside of our weekly meeting.

Smart Snacks, 11/19/2015

We helped open and set up the snacks for their assembly line and we had some of the members help crush up the boxes before they went out to be recycled. The event was a nice change of pace, because we had it later in the day plus we had a new group of members. With good group attendance we were able to complete the tasks quickly and provided time for more group bonding.

Professional Events

Craig Elder Alumni of DSP presentation, 1/27/2015

Craig Elder attended our colony meeting and helped us with the operations. Afterwards, Mr. Elder provided a 45-minute presentation with 15-minute question and answer following the presentation. Mr. Elder explained the details of his sales and account management career with PET Foods, a dairy company who covers a large portion of this market. Mr. Elder focused on: Professionalism, connecting with the customer, letting the customer talk, persistence, becoming an expert in your field and being prepared. Mr. Elder made a great presentation and the colony thanked him for his contribution to each and every one of our professional careers.

Dr. Donald Brook Resume Builder, 2/18/2015

Dr. Donald Brook spoke with our Colony regarding creating resumes. He also highlighted some interview and emailing employer criteria. The presentation's main bullet points are below:

- The other side of the desk

- Marketing your product
- Components of a successful resume
- Skills
- Applicant tracking systems
- Resume tips
- Resume workshop

Professor Tim Bowie presentation, 3/24/2015

Professor Tim Bowie presented to our colony about “Going Pro in College” and presenting yourself with a good image. Topics he covered were: Professional attire, Demeanor, Lifelong Learning, Accountability and Leadership. Mr. Bowie did a great job talking to our colony and we truly believe each member benefited from this speaker.

Panel discussion, 4/13/2015

This event was a panel-led discussion. The men and women talked about their backgrounds, and experiences in the business world. The discussion was open to questions, which many people took advantage of. Some topics covered were the importance of taking risks when you are young to build experience, and interviewing skills.

Myrtle Beach Pelicans, 4/14/2015

Guy Schuman spoke on a wide range of aspects related to the Myrtle Beach Pelicans, in addition to factors that affect the baseball industry as a whole. He focused on the marketing aspect of the industry because that was the area he worked in and was most familiar with. He discussed their four major sources of revenue, which are ticketing, merchandise, concessions, and sponsorship. He then discussed what type of expenses the ballpark incurs on a regular basis. He was able to combine all these important aspects

during his presentation and finished by relating it all to marketing. At that point we all learned of the target market and how the ballpark creates the highest revenue possible.

Joseph A. Bank professional dress workshop, 10/18/2015

This event was put on to demonstrate how to dress professionally for different business occasions. Billie, the store's manager, picked out five outfits each for three models. Each outfit was for a specific occasion, whether it was an interview or other professional event. She explained how there was a reason behind each article of clothing. She emphasized how wearing the right attire can make you shine and how wearing the wrong attire will make you stick out like a sore thumb.

Professor Tim Bowie Resume Building and Cover Letter Writing, 11/10/2015

One of our favorite business professors, Timothy Bowie, hosted for us a resume building presentation with insight on other general business issues. We covered how to build a strong resume, how to make a successful LinkedIn account, and how to professionally manage your social media accounts.

Brandon Cox Interviewing skills 2/16/2016

A representative from Elliot Beach Rentals came in to talk to us about interview skills. Part of his job description is to interview potential new employees for his business, so Brandon was very knowledgeable of the do's and don'ts of interviews. He gave a presentation and was able to answer each.

Fundraising

On September 29, 2014 and December 2, 2014 the Coastal Carolina Colony partnered with Sweet Frog to hold a fundraising event. The events were percent nights where a portion of the sales went to the Coastal Carolina Colony. The events not only helped raise money for the colony but also created a relationship with a local business.

Beginning on August 18, 2014 and ending on September 1, 2014 the Coastal Carolina Colony had a two-week long fundraising event- a Mixed Bag Fundraiser. The event consisted of the Coastal Carolina Colony selling Mixed Bags products from a catalog and online. The colony received forty percent of the total amount brought in by the sellers.

On February 11, 2015 the Coastal Carolina Colony had a fundraising event that was held in the Lobby of the Wall College of Business. The event was a Valentine Candy Sale fundraiser. The event was not only an opportunity for the colony but also an opportunity to promote the fraternity.
