Dear Board of Directors,

We, the members of the Rhode Island Colony of the University of Rhode Island, do hereby petition for a Chapter Charter of the International Fraternity of Delta Sigma Pi. The Rhode Island Colony was established exclusively for the purpose of association of Delta Sigma Pi. We continue to maintain the ideas for the International Fraternity of Delta Sigma Pi after which the colony has styled itself. Proof includes our utmost level of professionalism, display of enthusiasm of commitment, community involvement, and strong brotherhood.

We vow to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in the Bylaws in the pursuance of a Chapter Charter and continuing association with the Fraternity.

Thankfully the following signed members of the Rhode Island Colony.

To Whom It May Concern:

As the Dean of the College, as a brother of the Delta Sigma Pi (DSP) I strongly support and recommend the establishment of the brotherhood chapter of DSP at the University of Rhode Island (URI). Our colony has been strong and fulfilled requirements of moving from colony to charter member at DSP Business Fraternity. The Rhode Island colony exhibits the high standards of DSP and their focus on enriching the college experience for business majors. After the successful start Sigma Pi Beta Chapter at the University of South Florida Saint Petersburg (USFSP), I moved to the University of Rhode Island and with enthusiasm started a new colony. I am a strong supporter of DSP.

You have my unequivocal endorsement and recommendation that this colony be granted charter member status with DSP.

Fraternally,

Maling Ebrahimpour, PhD  
Dean and the Alfred J. Verrecchia-Hasbro

To Whom It May Concern:

As the Assistant Dean of Student Success at the University of Rhode Island's College of Business Administration, I strongly support and recommend the establishment of the brotherhood chapter of Delta Sigma Pi at the University of Rhode Island (URI). For the past 18 months I have observed and guided the current colony lead by Haley Spellman. She has done an outstanding job, engaging CBA students and fulfilling the various requirements to apply for charter membership at Delta Sigma Pi Business Fraternity. These students have exhibited high standards of services, ethics and commitment to leadership in our business community. They have been working with the Dean of URI CBA who is a current brother and they meet with the regional coordinator from Delta Sigma Pi. This past fall, they attended a leadership conference in New York to ensure they were meeting all the necessary goals to be recognized as a chapter.

It is with great enthusiasm that I recommend them for chapter status. Please let me know if you have any questions.

Regards,

To Whom It May Concern:

It gives me great pleasure to write this letter on behalf of the URI Colony of Delta Sigma Pi; I endorse this group to pursue pledging and becoming a recognized chapter of Delta Sigma Pi. When I first met the group in the Spring of 2016, it was clear that they are a positive influence on their peers and make a genial contribution to the College of Business at the University of Rhode Island. The group's maturity, professionalism, intellect, and work ethic were evident within the first few hours of our acquaintance and I have seen the colony grow both professionally and individually over the past several months of working with them as their District Director.

The entire leadership team are very strong individual contributors on the front lines of the URI colony; they have quickly established themselves as mentors, coaches, and sources of knowledge for others within the colony and new recruits. They are passionate about helping others improve and watching them band together to perform their daily duties is mutually inspiring to their peers as well as myself. The leadership team has guided the colony to put on eight successful professional events and five service events. The colony has raised over \$900 to be put toward their charter.

In the year that I have had the pleasure of knowing and working with the URI colony, they have helped me grow as a leader. It has been inspiring to observe the group develop their passion for and knowledge of Delta Sigma Pi; being a colony requires the entire group to really push themselves to constantly improve not only for the individual good but for that of the fraternity. Under strong leadership, the group has developed a true brotherhood.

For any questions or further explanations of the value that inviting the URI Colony to brotherhood, please feel free to reach out to me at the contact information provided above. I would be honored to speak on behalf of the colony.

Fraternally Yours,

*Samantha Burmeister*

Delta Sigma Pi – Board of Directors  
C/O Delta Sigma Pi Central Office  
330 South Campus Avenue  
Oxford, OH 45056

Dear Board of Directors,

With pleasure, I would like to record my support for the petition submitted by the students of the Rhode Island Colony at the University of Rhode Island, Kingston, to charter a chapter of Delta Sigma Pi. During the past year, I have been excited to see the Colony's growth from an initial idea to a functioning organization. While they may have experienced a few operational difficulties along the way as they began learning our policies and best practices, the Colony demonstrated a remarkable ability to continue to succeed and grow. A number of the officers in particular have been impressive in fulfilling their responsibilities and leading by example. They have demonstrated a profound commitment to the fraternity and this dedication has helped spread excitement and engagement to the general membership. Additionally, it is important to point out the phenomenal support the Colony has received from the administration of the College of Business Administration, in particular, Dean Mailing Ebrahimpour. Dean Ebrahimpour not only helped to secure university funding to send the Colony to the Syracuse LEAD School, but also happens to be a brother of Delta Sigma Pi who has been involved with several other chapters in his academic career, including the installation of Rho Psi chapter at the University of South Florida-Saint Petersburg.

From an operational standpoint, a variety of successful professional and service events of benefit to the members and surrounding community have been held. Professional events included hosting speakers from Siemens, the Department of Defense, Schneider Electric, and Enterprise among others. From a service standpoint, the Colony has participated in a series of events focusing on the environment including multiple Campus Clean Up's and Save the Beach Clean Up events. They have also participated with their local Habitat for Humanity and recently volunteered with the North Kingston Animal Shelter.

I have also been impressed with the Colony's efforts at recruiting, specifically in identifying and capitalizing on a desired niche within the student community in the College of Business Administration. Following the initial formation, the colony held an immediate series of informational events and via these efforts a core membership was formed. As the group slowly bonded on campus throughout the year and their membership shifted, they continued recruiting and tried to connect to the overall fraternity. In addition to the connections made through their District Director, they were in frequent communication with Jen Huynh 2016 National Collegian of the Year, attended a regional networking event hosted by the Gamma Upsilon Chapter in the spring 2016 semester, and attended the Syracuse LEAD School in Fall 2016 where they met many of our alumni volunteers.

In summary, the hard work and dedication of this group of students to pursue a Delta Sigma Pi chapter is evident and as a result I fully believe they will continue to exemplify our ideals going forward. If you should have any further questions, I would be happy to answer.

Fraternally,

Daniel J. Collins  
International Fraternity of Delta Sigma Pi  
New England Regional Vice President

# About the University of Rhode Island

## The History of the University of Rhode Island

### **Introduction:**

The University of Rhode Island is a public university helping students pursue a higher education in their seven academic colleges. The University of Rhode Island's main campus is located in Kingston, Rhode Island spanning across 1,250 acres, which is only thirty miles away from their Providence campus. In 1888 John H. Washburn, who was the president of the State Agricultural School began to organize the school which had then opened on 1890. Two years later in 1892, The University of Rhode Island was founded and moved from Oliver Watson Farm to their current location in Kingston.

The University of Rhode Island currently enrolls 13,831 undergraduate students and 2,972 graduate students (2015). Although about 57% of the students enrolled at URI are from Rhode Island, the other 47% are from 66 nations and 38 US states and territories.

The University of Rhode Island has been authorized by the state to grant bachelors, masters, and doctoral degrees in 80 undergraduate and 49 graduate areas of study throughout our seven academic colleges.

### **Accreditation and membership:**

The University of Rhode Island is accredited by the New England Association of Schools and Colleges. "The national accrediting agencies that have approved the quality of certain course offerings and programs of study include the Accreditation Board for Engineering and Technology (ABET), Accreditation Council for Pharmacy Education (ACPE), Association to Advance Collegiate Schools of Business (AACSB), Commission on Accreditation for Marriage

and Family Therapy Education, American Chemical Society Committee on Professional Training, Accreditation Commission on Education for Nutrition and Dietetics (ACEND), American Library Association, American Psychological Association, American Society of Landscape Architects, American Speech-Language-Hearing Association, Commission on Accreditation in Physical Therapy Education, Commission on Collegiate Nursing Education, National Association of School Psychologists, National Association of Schools of Music, and Council for the Accreditation of Educator Preparation (CAEP)

The University is also an approved member institution of the American Association of Adult and Continuing Education, the American Council on Education, the Association for Continuing Higher Education, the Association of American Colleges and Universities, the Association of Public and Land-Grant Universities, the Council for Higher Education Accreditation, the Council of Graduate Schools, the Institute for International Education, the Institute for the Recruitment of Teachers (IRT), the North American Association of Summer Sessions, the Northeast Alliance for Graduate Education and the Professorate, the Society for College and University Planning, and the University Continuing Education Association.”

## Colony events

February 23, 2016- January 25, 2017: Colony meetings  
Every Wednesday night at 7:00, meetings started off with roll call followed by updates from the executive committee. We would then welcome new members, discuss upcoming events, plan future events and participate in activities get to know each other.

### 2016 Events

February 27: Inter-chapter Networking at Babson  
During the event held at Babson College we got to hear from a panel alumni speakers, participate in case competitions, and network with members from other schools from the New England Region.

April 22: Campus Clean up

For this community service event each member got a pair of rubber gloves and a trash bag and went around the entire campus picking up all trash that was found. By the time we had finished we have over 15 full trash bags!

April 23: Save the Bay

The next day we spent our time helping Save the Bay at Narragansett beach. This was a great time to get off campus and enjoy the weather while giving back to the community.

April 25: URI Alumni Speaker- Supply chain in the Department of Defense

A University of Rhode Island alumni came to speak with us about being a supply chain major in college and what he does for a career today. He works for the Department of Defense which was a very interesting career to learn about. We got a positive review from everyone who attended and it was a memorable speaker.

#### April 26: Krispy Kreme fundraiser

For this fundraising event we drove to Foxwoods in Connecticut early that morning to pick up 50 dozen donuts that we would be selling throughout the day for \$1 a donut or \$10 a dozen. We made a pretty good profit from this event because Krispy Kreme sold them to us cheaper than what they are normally sold for.

#### April 26: Speaker- Siemens Human Resources

We had a speaker from Siemens come and talk about her position as senior director of human resources and what she did there. She got interactive which always helps students learn and engage with the speaker.

#### April 27: Brickleys Fundraiser

A local Ice cream shop that is very popular throughout University of Rhode Island students were kind enough to donate 5 containers of ice cream to help us fundraise.

#### September 3: First night

First night is an event that URI puts on at the beginning of every school year where every club and organization is outside the memorial union recruiting all incoming freshman. This was a great time for us to recruit and we got 70+ students names and emails so that we could send them more information about Delta Sigma Pi.

#### October 14: Campus clean up

Our campus clean up was so successful in the spring we figured we would do it again in the fall! This was great timing because we did the clean up right before open houses for URI, making sure that the campus was clean for all prospective students.

November 4: Speaker- Enterprise Social media and the hiring process

We had a recruiter from enterprise come in and talk to us about social media etiquette and the hiring process she also gave a power point presentation and taught us a lot about how Enterprise works.

November 5: LEAD

The Rhode Island Colony sent 9 members to attend the LEAD school in Syracuse New York. This was an eye opening experience where we learned so much throughout the breakout sessions and it made us realize that we are a part of this huge amazing organization and are proud to be.

November 14: Krispy Kreme fundraiser

Because this event worked so well the first time we figured that we would do it again. We again made a good profit and became closer to our goal amount.

November 17: Speaker- Amica available internships and the process

We had a speaker come from Amica to talk to us about the application process and the important of internships. He also gave a power point presentation, we had a great turn out for this event and everyone seemed to really enjoy the speaker.

November 30: Speaker-Sean Wright backpack to brief case

For this event we had our only graduate from the colony come back and speak to us about the transition from college into the “real world” and things that were important to focus on throughout college to become successful after graduation.

December 1: LinkedIn workshop with Alex and Ani

For this event we had a women come in who worked at Alex and Ani and she gave us a tutorial about LinkedIn and how to create a great profile. This was very important because networking is a big part of being a business student.

December 5: Schneider Electric tour and speaker

We went to Schneider Electric and went on a tour and learned what they did there. After the tour we then went into one of their lecture halls and we learned about the importance of public

speaking. He taught us how to be the best public speaker we can be, with helpful tips and ways to strengthen our over appearance while speaking.

December 9: Poinsettias delivery

For this service event with the holidays just around the corner we volunteered with the business school to help deliver poinsettias around campus to faculty members to show how much we appreciate them.

December 10: Habitat for Humanity

Students went to the Habitat for Humanity “Restore” which is where items are sold to raise money to build homes through habitat. Everyone who attended enjoyed it and we hope to work with this organization again in the future.

### **2017 Events**

January 23: Speaker- Interview prep with Schneider Electric

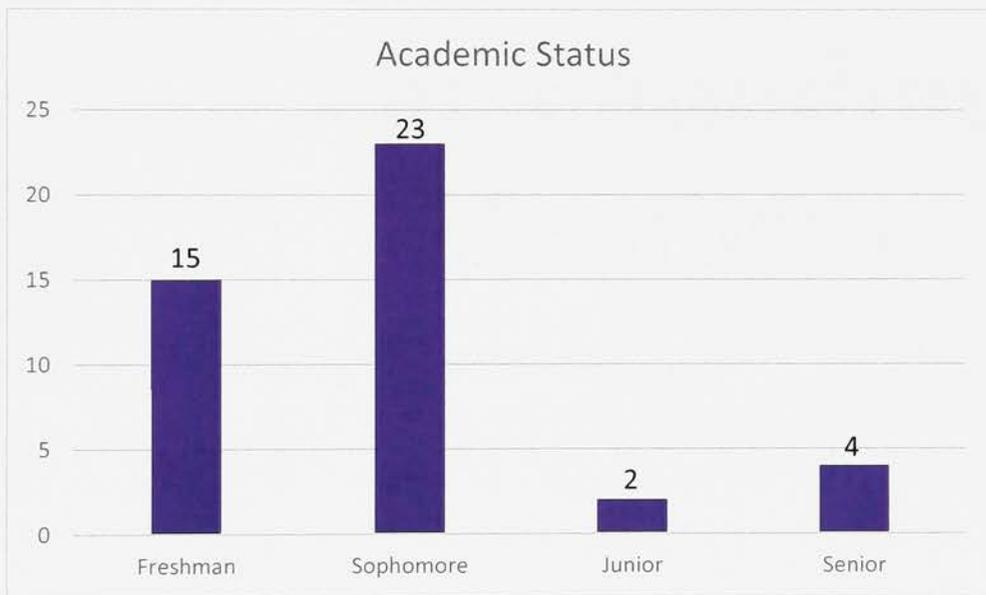

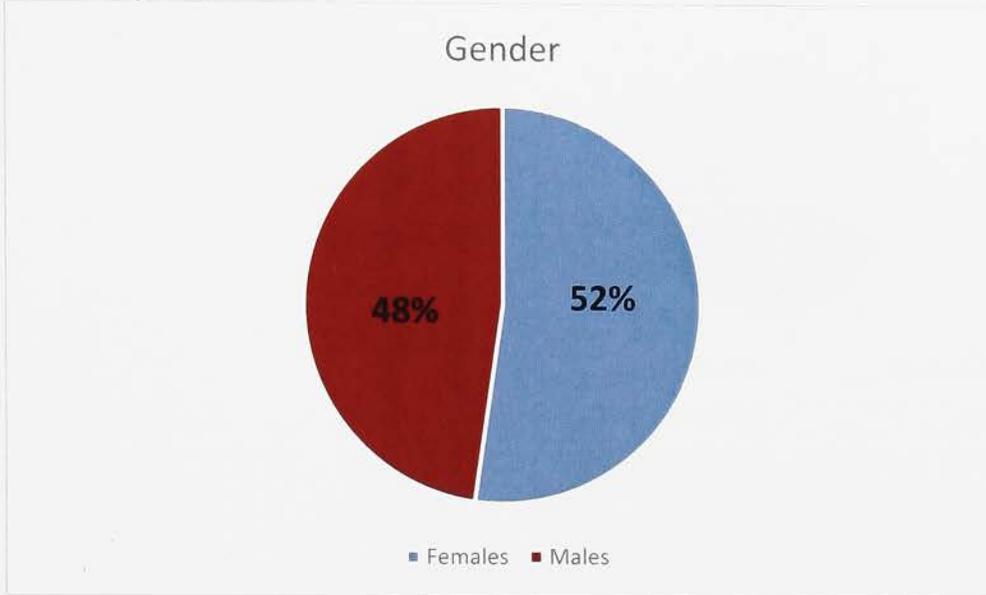

We had a speaker who works at Schneider Electric as the Interim Recruiting Operations Manager come and talk to us about the interview process. She got numerous students involved and helped us learn how to approach interview questions so that you can answer them to your full potential.

January 25: South Kingstown Animal Shelter

Students went to an animal shelter near campus to help them out with cleaning, painting, organizing, crushing cans and anything else the animal shelter needed help with.
