

WESTERN LEADERSHIP TEAM REPORTS

Report of the Western Provincial Vice President

by Crystal Justice
December 11, 2018

SUMMARY

We hosted our Spring Provincial Conference in San Diego, CA – breaking records with our attendance registration at the event! We followed that up with our Fall LEAD School in Albuquerque, NM, where we saw some of the best engagement from brothers at a LEAD event ever! We are excited to currently be planning our upcoming Provincial Conference in Orange County for Valentine's Day weekend!!!

At the end of the academic year we were sad to see our Pacific Northwest Regional Vice President, Morgan Conklin, step down to pursue her academic endeavors in Chicago, IL. We are extremely excited to have Sam Clark join the team as the new Pacific Northwest Regional Vice President! Sam is based in the Seattle, WA area and works for Boeing and took over as RVP at the beginning of the fall term!

We also saw the reactivation of the Eta Chi chapter in May of 2018 and am excited about the current colony at Point Loma Nazarene. We are also excited about the possibility of more colonies from the interest we have been getting in schools within our Province.

2018 has been a challenging year for the Western Province in terms of discipline. We have seen an extraordinary high number of investigations from the fraternity and universities; resulting in the charter revocation of one chapter. The Provincial leadership team continues to educate and address risk management issues on a regular basis to take a proactive approach to this topic.

- Utilize our Provincial social media platforms to post one Risk Management related post per month

EXPANSION (if applicable)

Our current colony at Point Loma Nazarene is working hard and anticipating an installation date in the 2019-2020 academic year. We have received interested at Azusa Pacific University in the Southern California area, Grand Canyon University in Arizona and University in Montana. We are looking forward to getting colonies in at least two of these universities.

Report of the Bay Area Regional Vice President

by Nyonohse Wreh

January 4, 2019

SUMMARY

The Bay Area Region has had many changes this past term and is making the necessary adjustments to stay on the right path.

I have had the honor of being the BAR RVP for a year now and have learned so much. It took a semester to get to know chapters and understand how things are done. After a semester of listening and making myself available to them, I took Fall of 2018 to start implementing various improvements that I notice along the way. I also took Interim Bay Area Regional Vice President Patrick A. Bonfrisco recommendation and reviewed each chapter pledge education process. This is still an ongoing task and I plan to continue working with the pledges this term.

Overall, the chapters all seem to be doing well and are very receptive to the various recommendation provided.

Report of the Desert Mountain Regional Vice President

by David Pratt

January 2019

SUMMARY

The Desert Mountain Region experienced a successful Fall semester and is on track to accomplish many of its goals for the 2018-2019 year. I was able to visit multiple chapters over the course of the semester and meet their current leadership teams.

I was able to appoint District Directors at all six chapters and have had the chance to personally meet with each of them (some multiple times). I am proud to say that 5 out of 6 of my DD's attended LEAD in Albuquerque and participated in our Regional Meeting.

The Region is doing a much better job at communicating through their DD's rather than around them. I feel like we are working smarter as a Region rather than harder. In continuation from last year, each month my "RVP Report" is sent to District Directors and Presidents with important information and deadlines for the month ahead.

The region sent a total of 71 attendees to Albuquerque Fall LEAD school and is aiming to send at least 5 collegians from each chapter to the Western Provincial Conference, with one chapter already having 13 brothers registered!

The leadership team will work hard to promote GCC attendance, with a goal of each chapter sending at least 4 brothers.

All six chapters remain eligible to be Accredited level or higher in CMP. They also remain eligible to achieve my goal of advancing by at least one CMP rank compared to the previous year.

I am proud to report that five out of six chapters nominated COY nominees this fall. All five nominees submitted applications on time, giving the Desert Mountain Region an 83% application rate.

A Regional Initiation will be held by Gamma Omega at Arizona State University in the Spring. I look forward to working with Gamma Omega to plan another great initiation for the brothers across the region.

I believe in the growing potential of this region and look forward to working with the leadership to achieve our goals.

Fraternally,

A handwritten signature in black ink, appearing to read "David Pratt".

REGIONAL GOALS & PROGRESS

Personal

1. Distribute monthly “RVP Report” to District Director team highlighting progress of goals and important information.
 - Status – COMPLETE (with the Exception of December due to a surgery recovery).
2. Enforce proper communication structure by working closely with DD’s.
 - Status – COMPLETE – I have worked hard this year to give my DD’s more autonomy and continue to challenge them to be the best they can be in their roles. I have also reinforced the purpose of the DD role to chapters.
3. Appoint a District Director to every school in the region.
 - Status – COMPLETE
4. Visit each chapter at least once per year.
 - Status – IN PROGRESS (I am finalizing travel plans for the Spring).

Regional Operations

1. All chapters in improve by one tier level in CMP from last year. If said chapter was a Chapter of Excellence, this implies maintaining Excellence.
 - Status – All chapters that are eligible for CMP Recognition this year are on track to reach at least Accredited Status. All current data shows that the above goal is also on track to be reached. This would give the Region multiple chapters of Excellence and Recognition.
2. All chapters hold at least one risk management event each semester.
 - Status – Each chapter reached this goal in the Fall, although some chapters will not be submitting their Risk Management CMP Requirement until Spring.

Delta Sigma Pi

3. All chapters hold at least one retreat/officer day to discuss chapter goals.
 - Status – Four out of six schools met this goal in the Fall, and I am hoping for the other two to do so this Spring. I will be attending a retreat for Zeta Omega on 1/19/19.
4. All chapters pay dues in full, on time, to Central Office.
 - Status – This was improved from last year, with only one small mistake that was quickly made right.
5. All chapters submit at least two award applications
 - Status - I am seeing increased competition in the region this year, which should show in award applications received. This goal is on track to be met.

Regional Events

1. All chapters in region send 5 brothers and/or pledges to Albuquerque Fall LEAD.
 - Status – See the chart below. 5/6 chapters were able to achieve this goal!

<u>Chapter</u>	<u># Attendees</u>
Zeta Omega	32
Gamma Psi	13
Gamma Phi	12
Gamma Iota	6
Epsilon Upsilon	5
Gamma Omega	3

2. All chapters in region send 5 brothers and/or pledges to Western Provincial Irvine LEAD.
 - Status – 3/6 chapters in the region have at least one attendee registered for LEAD. 2 chapters in the region have already exceeded the goal. See the chart below for the current numbers as of 1/5/2019. Although registration is currently low, I believe it will pick up once school begins.

<u>Chapter</u>	<u># Attendees</u>
Zeta Omega	13
Gamma Psi	9
Gamma Phi	1
Gamma Iota	0
Gamma Omega	0
Epsilon Upsilon	0

Delta Sigma Pi

3. All chapters participate in Spring Regional Initiation.

- Status – Regional Initiation will be held at Arizona State University by the Gamma Omega Chapter on April 6th, 2019. All six chapters in the region agreed to the date and plan on sending brothers and pledges to the regional initiation.

4. All chapters in region send 4 brothers to 2019 Atlanta GCC.

- Status – In progress. The leadership team and me will be heavily promoting GCC in the coming months.

EXPANSION (IF APPLICABLE)

A goal of mine is to further communication with Grand Canyon University. A student reached out to Dale Clark last semester inquiring on starting a colony. It is a goal of mine this semester to help further that effort. I will provide more information as it is available.

DISCIPLINE AND ASSISTANCE ACTIONS AND ISSUES (if applicable)

Gamma Phi was issued a letter of warning in the Fall, and Gamma Psi remains on probation through 3/14/19.

Report of the Pacific Coast Regional Vice President

by Jen Lee
December 30, 2018

SUMMARY

The Pacific Coast Region has continued to made progress toward its overarching goals and has made several adjustments this to address concerns brought forward from the previous year.

Unfortunately, a few goals are already out of reach due to missed CMP items and chapter discipline. However, over all the region continues to improve both operationally and in terms of inter-chapter relations. The region is currently leading the Provincial CMP Race and has held steady for several weeks now.

Another area of focus is for the region's is to continue strengthening and building the region's leadership team in order to introduce both new view points and voices but also for succession planning.

REGIONAL GOALS & PROGRESS

All goals set within the Pacific Coast Region continue to work towards one of the following overarching goals set at the beginning of the 2017-2019 biennial Regional Vice President term.

1. Foster relationships between the chapters and build back regional cohesion
2. Provide chapters with the necessary support needed for each of the chapters to succeed in the way that they want to succeed and reach the goals they want to achieve.
3. Invest in the regional leadership team to develop a cohesive team that works together, rather than in silos
4. Plan for potential/future transitions or growth in the leadership team by building a "pipeline" of leaders for the region & promoting new leadership opportunities within the region and beyond.
5. Encourage the region to represent itself proudly at the Provincial and National levels of our Fraternity
6. Promote operational excellence across the region

While the Pacific Coast Region continues to work toward achievement of the year over year operational goals, the region is pursuing several new goals this year.

Delta Sigma Pi

GOAL DESCRIPTION	RESULTS/PROGRESS
ONGOING GOALS	
Continuation of the region's annual Regional Initiation	On Sat, 12/1 the Iota Pi chapter at SDSU hosted the region's joint initiation. The region initiated 110 individuals and over 200 brothers were in attendance. PVP Crystal Justice was also in attendance.
Achievement of Chapter of Excellence for all chapters	<p>To date, all chapters are on track are still on track to achieve Chapter of Excellence, except for Pi Sigma and Lambda Pi who have both missed the Fall Membership Status Report. Omicron Sigma will also miss achieving Chapter of Excellence due to their probation terms.</p> <p>Iota Pi is leading the region in the CMP Race and the top 5 (in order: Iota Pi, Lambda Sigma, Sigma Phi, Omicron Sigma, Xi Pi) are all at least have 50% of the required items to achieve Chapter of Excellence submitted and approved.</p>
Attendance at Regional, Provincial, and National events	As a region, we continue to promote attendance at regional events such as Make a Difference Day at Santa Claus, Inc. and Regional Initiation. In addition to GCC, we also continue to promote attendance at LEAD and hope to have more in attendance at this year's Provincial Conference in Irvine than the previous year's in San Diego.
NEW GOALS	
Have the region's District Directors conduct New Member Orientation to provide a level of consistency baseline knowledge	<p>In the fall, the region's District Directors paired up, on 12/2 – the day after our Regional Initiation, and presented to all newly initiated brothers grouped by "area" of the region.</p> <p>We plan to continue to refine the presentation and present it again in Spring and grouping them by initiation date.</p>
Host a "Spring Training" event for current and aspiring collegiate chapter and future alumni volunteer leaders in the region	<p>In place of the officer training we have done in previous years, we have elected to focus more on those who are <i>interested</i> in perpetuating not only the fraternity but also becoming leaders in any capacity. Instead of focusing the conversations on the "how to", we want to focus on the "why" and discuss broader topics such as our Strategic Priorities and long-term goals/plans for our region.</p> <p>The event is planned for 3/23 at Chapman University.</p>
Collect feedback from chapter members anonymously twice a year.	At the end of the fall term, we have collected anonymous feedback from an online form sent to all chapters. We plan to collect to feedback again towards the end of the spring term.
Rebranding of annual regional competitive athletic event	After some discussion, it was decided to rebrand our region's annual competitive athletic event from the more generic "Brotherhood Games" to the "Pacific Coast Cup", at times shortened to "Pac Coast Cup". The event is currently planned for 2/17 and both the planning of the event itself and rebranding are both current underway.
Host a retreat for the District Directors to conduct a team meeting, annual feedback/goal setting, and leadership training	In June, the current District Director team met and set team goals for the new year. Over the course of the weekend, I also worked with each member to set individual goals, provided additional leadership training, and lead team building activities.

EXPANSION EFFORTS

The Pacific Coast Region currently has a colony at Point Loma Nazarene University which began at the very end of the last academic year. The colony has completed some events and continues with its recruitment efforts. Updated events and membership have not been updated in the Hub.

Delta Sigma Pi

DISCIPLINE AND ASSISTANCE ACTIONS AND ISSUES

To date, there have been two instances of formal chapter discipline – noted below.

<i>CHAPTER</i>	<i>ACTION</i>	<i>ISSUES</i>
Sigma Phi	Warning Letter issued 12/3	The VPPE organized and chapter members participated in a big/little party where underage drinking took place and photos were posted to public social media profiles by individual brothers, including the VPPE.
Omicron Sigma	Probation issued 12/20	It came to our attention that the chapter had been engaging in various hazing activities. Upon further investigation these allegations were found to be true and the chapter was placed on probation through the end of next academic year. One of the terms of probation is elimination of the pledge program for the remainder of the academic year, meaning that the chapter will not be eligible for Accredited Chapter.

DISTRICT DIRECTORS & COMMITTEE CHAIRS

The region is committed to meeting the Provincial goal for all District Directors to achieve Tier 2 CDL status prior to being appointed into their respective roles.

<i>INDIVIDUAL</i>	<i>ROLE – DISTRICT DIRECTOR, CHAIR</i>	<i>CDL STATUS</i>
Patrick Bonfrisco	District Director - Lambda Sigma, Xi Pi, Rho Phi, Point Loma Nazarene Colony	Tier 2
Paul Dawson	Chair – Regional Awards Committee	n/a
Cristina Gao Chen	District Director – Orange County Alumni Chapter	Tier 2
Carley Haro	District Director - Sigma Phi	Tier 2
Jen Lee	Regional Vice President & District Director – Iota Pi	Tier 2
Joe Tacto	District Director - Lambda Pi, Point Loma Nazarene Colony	Tier 2
Jessica Valo	District Director – Lambda Chi, Omicron Sigma	Tier 2

UPCOMING EVENTS

In addition to the Western Provincial LEAD, to be held in this region, and Grand Chapter Congress, two regional events remain for the academic year.

Report of the Pacific Northwest Regional Vice President

by Sam Clark
January 5, 2019

SUMMARY

I was elected as the RVP for the Pacific Northwest Region in the summer of 2018 after serving 2 years with the sigma upsilon chapter at the university of Washington.

During my limited time serving in this role I made it a priority to ensure all chapters were assigned an overseeing District Director before the start of their school years to ensure a smooth transition. Based on my time in office and the interactions I have had throughout the region I believe that a total review of all Bylaws and Policies & Procedures documents would be extremely beneficial for all chapters in addition to a full overview of the CMP program to level set expectations and goals for each individual executive team.

I am excited to work for this region and continue to see it grow and prosper in 2019.

- GOAL #2

Delta Sigma Pi

- *Have all Colligate chapters have at least 1 representative at the 2019 GCC.*
- *Progress – None registered thus far.*

Chapter Management Program (CMP)

- *GOAL: all chapters achieve accredited chapter status for the 2018-2019 school year.*
- *Progress – currently no chapter has missed any deadlines that would jeopardize their accreditation status.*

Bylaws / Policies & Procedures

- *GOAL: all chapters will do a complete overview of their Bylaws and Policies documents to ensure accuracy*
- *Progress- all chapters have submitted documents, none have done an overview with their RVP or DD, and some still have changes required from the national reviews that were completed earlier this year*

EXPANSION (if applicable)

- Boise ID has been a school that has expressed interest several times in the past however we have never been able to produce a strong foothold there. Bill is working on establishing a contact at the school.
- Oregon is a priority area for me as we will be hosting another LEAD conference there in the fall of 2019 it would be great to have a colony established there to help.

Report of the Rocky Mountain Regional Vice President

by Kristyn Koller

January 5, 201

SUMMARY

The Rocky Mountain region is a strong and tight-knit region. Our regional events, awards and growth have been the triumph of the year. We continue to work toward expansion, but have not had many leads this year. We have grown our chapters and involvement in national events, regional events, and chapter participation.

Report of the Sierra Nevada Regional Vice President

by Cody Heimerdinger

January 5, 2019

SUMMARY

The Sierra Nevada region had a great start to the 2018-2019 fiscal year. First, I want to start off by thanking my regional leadership team of District Directors for everything that they do and the support that they provide for their respective chapters. The region has retained 4 District Directors from the prior year, while attaining 3 new District Directors. The 3 new District Directors achieved their Certified Deltasig Leader (CDL) certification in order to maximize the support they are able to provide for their chapters. As Regional Vice President, my travels throughout the region took me to Fresno, Stockton, Davis, Sacramento, and Chico. I attended and observed 4 chapter business meetings, offering my insight on what chapters are doing well and areas of improvements. A couple of chapters were required to go through disciplinary procedures. The Iota Phi Chapter successfully hosted the Sierra Nevada Regional Initiation on the California State University, Fresno campus while also coordinating a very well put together interchapter mixer after the initiation event. The following chapters who attended the regional initiation were Iota Phi, Tau Chi, Lambda Mu, Epsilon Theta, and a guest chapter from the Bay Region, Delta Omicron. The regional initiation welcomed 60 new brothers to the region. The Delta Pi Chapter and the Nu Rho Chapter organized local initiations, welcoming 23 and 6, respectively, new brothers to the region. The national leadership team coordinated a local initiation for the Epsilon Phi Chapter, welcoming 6 new brothers to the region. The Western LEAD School in Albuquerque, New Mexico was attended by 6 out of the 7 collegiate chapters, with the Tau Chi Chapter at UC Merced earning the award for most collective miles traveled of brothers in attendance. All 6 of the chapters in attendance received award recognition at the event.

DISTRICT DIRECTORS

At the start of the Fall 2018 semester, the Sierra Nevada region has welcomed 3 new District Directors to serve and be a resource to the Delta Pi, Iota Phi, and Tau Chi chapters. It is my goal to continue to transition them into their positions while also promoting national leadership training resources to both new and veteran District Directors.

AWARDS COMMITTEE

The Sierra Nevada Regional Awards Committee for the 2018-2019 fiscal year is composed of 8 alumni brothers from all around the region to ensure a fair and balanced committee to decide on quality applications to send to the provincial and possible national level. The committee's first order of business was to decide the Collegian of the Year (COY) for the Sierra Nevada region. 5 out of 7 chapter COY nominations submitted a completed application to the committee. The committee has decided on a regional winner which will be announced at the LEAD Provincial Conference in Irvine, CA on February 16, 2019.

One of my goals for the next semester is to encourage draft applications to be sent to the committee for review and feedback. This will provide chapters with constructive feedback, increasing the quality of the application before the official submission by the June 1, 2019 deadline.

CHAPTER MANAGEMENT PROGRAM (CMP)

6 out of the 7 collegiate chapters are on track to achieve the Accredited level of CMP for the 2018-2019 fiscal year. As a region, we will continue to encourage all chapters with their CMP submissions to achieve the Accredited level, as well as both the Recognition and Excellence levels. 6 out of 7 chapters are on track for achieving the Recognition and Excellence higher levels. The goal for 2018-2019 fiscal year, is to increase the number of chapters achieving those higher CMP tiers by providing consistent and constant communication regarding an upcoming deadlines through monthly CMP progress reports and newsletters.

EXPANSION

Not currently focusing on expansion efforts. However, potential expansion within the Sierra Nevada region are the following universities: (1) California State University, Stanislaus, (2) California State University, Bakersfield, and (3) University of Nevada, Las Vegas.

DISCIPLINE AND ASSISTANCE ACTIONS AND ISSUES

There were 2 cases of disciplinary issues that were dealt with during the Fall 2018 semester.

The first issue was with the Delta Pi Chapter at the University of Nevada, Reno regarding hazing allegations that occurred during the Spring 2017 semester. During the university investigation, the chapter was required to suspend all organizational activities, including the pledge process, which lasted around 2-3 weeks. After full compliance, the university's Office of Student Conduct has decided not to charge the chapter with any violation due to the timing and chapter correction. The investigation has revealed that the chapter has made strides in removing members who were involved in hazing activities and has removed pledge activities that could easily be misused and converted into hazing opportunities. No disciplinary action was taken.

The second issue was with the Epsilon Phi Chapter at the California State University, Sacramento regarding allegations during the Fall 2018 semester. The university's Student Organization & Leadership conducted an investigation, which lasted about 1 month. The chapter was required to suspend all organizational activities, including the pledge

Delta Sigma Pi

process. The university allowed the national leadership to conduct an initiation of the new members. The investigation has revealed unapproved pledge activities outside the scope of the pledge program. Because the chapter recently taken off probation at the conclusion of Fall 2017, the university and the National Fraternity has decided to de-recognize and suspend the chapter effective immediately until December 31, 2019. The chapter can secure recognition for Spring 2020 by submitting an official letter of request for recognition.

Report of the South Pacific Regional Vice President

by Erica Kolsrud

January 2019

SUMMARY

The South Pacific Region continues to improve and work hard, resulting in a strong start for the 2018-2019 year.

Chapters are becoming more communicative about what resources they want from the South Pacific Region Leadership Team. From this, two regional events were scheduled this past fall. In August, Past Western Vice President Patrick Bonfrisco held a Pledge Program Workshop where 31 brothers from ten collegiate chapters and leadership team were in attendance. In December, a regional conference was held at Pepperdine University, where over 60 brothers from eleven collegiate chapters were in attendance. Current District Directors, with Western Provincial Vice President Crystal Justice giving the keynote, gave the presentations.

Morale is still high after Albuquerque LEAD where ten collegiate chapters were recognized for their 2017-2018 CMP achievements and two alumni chapters were recognized for reaching Gold Level. In addition, regional awards were presented and due to a strong 2017-2018 year, the region saw three provincial award winners and one national award winner.

Again this past June, executive committees provided their upcoming academic year goals and SWOT analyses. These reports were given to District Directors to help better prepare them for the upcoming year. Then, the District Director Team met in August for leadership training, to discuss the region as a whole, and brainstorm ways to help and support chapters achieve their goals. The team will also be meeting in January to do additional training and prepare for the remainder of the year.

Areas for improvement in the Region are Bylaw and Policy knowledge, Ritual Memorization, Inter-Chapter events, collegiate and alumni chapter relationships, and finances.

Overall, the chapters are doing great and making sure to keep open lines of communication with each other and National Leaders.

REGIONAL GOALS & PROGRESS

<i>DESCRIPTION OF GOAL</i>	<i>STEPS AND TOOLS</i>	<i>RESULTS/PROGRESS</i>
CMP – All chapters reach at least the Accredited level.	Tools: VPCO's get monthly emails with items the EC needs to complete. A weekly CMP race is posted on various platforms. DD's are given emails and updates on items as deadlines approach. Training is being done at regional conferences for VPCOs.	Ongoing – Each chapter is on track for their CMP goal. 2017-2018 saw the best CMP performance record for the region with ten chapters reaching Accredited, 4 CoR and 6 CoE.

Delta Sigma Pi

<p>Finances: Bank Rec's & Budgets --- Work with chapters to ensure finances are being tracked and better budgets are being generated.</p>	<p>Steps: Hoping to work with chapters on budgets and financial review before May 2019.</p> <p>Tools: Memberplanet may offer a viable alternative to chapters that use VENMO and other electronic payments.</p>	<p>Ongoing – This is a goal from 2016-2017 that I carried over. Chapters continue to struggle with finances and documentation.</p>
<p>National Event Attendance – Have chapters reach their goal for each event</p>	<p>Steps: Encourage chapters to check for school funding. Let chapter presidents change their initial goal, three months prior to event once term budget and funding is set.</p>	<p>Continuing – Overall region goal was missed for 2017-2018 events. However, attendance continues to rise. *Please see table below</p>

Report of the Alumni Development Committee

by Nick Rizzi
January 4, 2019

SUMMARY

Over the last few months, the Western Alumni Development Committee has met with over 40 students and alumni in an effort to seek feedback around how alumni can help serve our chapters and vice versa. These questions were derived from the national committee and facilitated discussions around how chapters interact with their alumni in different ways. Most notably, we learned that chapters were very shy to ask alumni for help citing reasons of independence or worry of over involvement.

The alumni committee will continue holding feedback sessions in conjunction with the National Committee and will be seeking additional committee members to begin focusing on better planning for successful collegiate transitioning to alumni. We want to make sure we continue serving all of our members.

Report of the Western Provincial Community Service Chair

by Patrick A. Bonfrisco

December 31, 2018

SUMMARY

The commitment to service continued in the Western Province, as collegiate chapters have logged 4,650 hours of community service since July 1. Participation in Make A Difference Day held steady compared to last year, and the province held three successful service activities at Albuquerque LEAD, with three more planned for the Provincial Conference in Irvine.

Make a Difference Day

Collegiate chapter participation in Make a Difference Day remained at 84% in 2018.

Coin Drop Contest

LEAD attendees donated their loose change in a battle between chapters. Coins gave the chapters points (a penny = 1 point, a nickel = 5 points, etc.) while dollar bills took points away (\$1 = -100 points, \$5 = -500 points, etc). Chapters decorated a bag with their name on it and threw coins in their own bag and bills in the bags of the other chapters. In total, the Western Province raised **\$300** which was donated to the Leadership Foundation in the name of the winning chapter, **Epsilon Upsilon!** While the table below reflect on collegiate chapter and colony participation, we would like to recognize the Fresno CenCal, Orange County, and San Francisco Alumni Chapters for contributing as well!
